(See V. 110, p. 1555, for maturity.)

* Nominal or contingent debt except "parks," of which $3,174,706.25 is a direct State obligation. Two-thirds ($319,999 99) of the Court-house loans contingent debt. See below.

PUBLIC SALES OF BONDS.—A bill passed the Legislature in 1904 directing the Treasurer to advertise all future sales of State bonds instead of disposing of them at private sale, as had been the previous practice. (V. 78, p. 1565.)

INTEREST is payable at State Treasury in Boston.

TOTAL DEBT, SINKING FUNDS, &C.—

	Dec. 1 1922.	*Dec.* 1 1921.	*Dec.* 1 1920.	*Dec.* 1 1919.
Total funded debt	$133,416,162	$138,049,135	$143,150,661	$138,637,390
Sinking funds, &c	56,420,165	53,782,219	50,914,469	47,078,544
Net debt	$76,995,997	$84,266,916	$92,236,192	$91,558,846

The above debt is of two classes: the Direct Debt, for the payment of which the Commonwealth is directly and entirely responsible; and the Nominal or Contingent Debt, for which the Commonwealth has loaned its credit to sundry cities and towns for various purposes, the payment of which is guaranteed by sinking funds (sufficient to pay the debt at maturity) provided by a direct annual tax on the cities and towns for which the debt has been incurred. On Dec. 1 1922 these classes and the sinking funds applicable thereto were as follows:

	Direct Debt.	*Contingent Debt.*	*Grant Total.*
Bonded debt	$47,478,706 26	$85,937,455 74	$133,416,162 00
Sinking funds	23,766,094 52	32,654,070 24	56,420,164 76
Net debt	$23,712,611 74	$53,283,385 50	$76,995,997 24

ASSESSED VALUATION.—The State's assessed valuation follows:

Years—	*Real Estate.*	*Personal Property.*	*Total*
1922	$4,706,612,305	$1,008,765,039	$5,715,377,344
1921	4,525,853,852	1,020,792,388	5,546,646,240
1920	4,368,363,457	975,790,200	5,344,153,657
1919	3,979,836,078	919,024,221	4,898,860,299
1918	3,885,495,341	853,481,248	4,738,976,589
1917	3,808,405,899	730,592,172	4,538,998,071
1916	3,686,483,258	1,275,754,750	4,962,238,008
1915	3,573,681,970	2,500,599,981	6,074,281,951
1914	3,467,560,721	2,537,852,080	6,005,412,801
1912	3,216,714,460	2,262,565,233	5,479,279,693
1910	2,977,075,471	2,050,079,335	5,027,154,806
1905	2,600,445,146	1,621,835,908	4,222,281,054
1900	2,315,687,381	1,562,983,689	3,878,671,070
1890	1,600,137,807	1,013,077,330	2,613,215,137
1880	1,111,160,072	816,695,358	1,927,855,430

Under the provisions of the Income Tax Law, which became effective in 1917, the intangible personal property is no longer taxable by local board of assessors, which accounts for the decrease in valuation of the assessed personal property in 1917 and thereafter.

The larger portion of the State's revenue is derived from corporations, national bank stocks, savings bank and inheritance taxes. In 1922 the tax assessed aggregated $27,412,716.12, of which $14,886,703.81 accrued to the Commonwealth and the balance is apportioned to cities and towns. Of the total of $27,412,716.12, $444,224.02 was assessed upon street railway companies, $3,254,155.13 upon other public service corporations, $7,625,070 24 upon domestic business corporations. $1,797,180.35 savings banks, $2,78,2044.62 national banks and $6,714,750.49 inheritances.

POPULATION OF STATE.—

1920	3,852,356	1900	2,805,346	1860	1,231,066	1820 523,287
1915	3,693,310	1890	2,238,943	1850	994,514	1810 472,040
1910	3,366,416	1880	1,783,080	1840	737,699	1800 422,845
1905	3,003,635	1870	1,457,351	1830	610,408	1790 378,787

DEBT LIMITATIONS.—The only provision in the constitution of Massachusetts limiting the power of the Legislature to create State indebtedness is contained in a constitutional amendment adopted in Nov. 1918 and now contained in Articles 112, 113, 114 and 115 of the re-arranged Constitution adopted by the voters in Nov. 1919, the text of which follows:

Sec. 1. The credit of the Commonwealth shall not in any manner be given or loaned to or in aid of any individual, or of any private association, or of any corporation which is privately owned and managed.

Sec. 2. The Commonwealth may borrow money to repel invasion, suppress insurrection, defend the Commonwealth or to assist the United States in case of war, and may also borrow money in anticipation of receipts from taxes or other sources, such loan to be paid out of the revenue of the year in which it is created.

Sec. 3. In addition to the loans which may be contracted as before provided, the Commonwealth may borrow money only by a vote, taken by the yeas and nays, of two-thirds of each House of the General Court present and voting thereon. The Governor shall recommend to the General Court the term for which any loan shall be contracted.

Sec. 4. Borrowed money shall not be expended for any other purpose than that for which it was borrowed or for the reduction or discharge of the principal of the loan.

MUNICIPAL INDEBTEDNESS.—There appears to be no constitutional limit upon municipal indebtedness, but legislation governing the creation of debts of cities, towns and districts has been passed from time to time, and it might safely be said that this subject is treated more thoroughly in Massachusetts than in any other State. The legal limitations placed upon the borrowing power of cities, towns and districts may be found in Chapter 44 of the General Laws. In the following paragraphs we endeavor to summarize the provisions of this Chapter as to municipal debts, long and short term, sinking funds and maturities.

Long Term Debts, Limit of.

Under Section 10 debts of cities, except Boston, are limited to 2½%, and towns to 3% of the average assessed valuation for three years, less

abatements of the preceding year. In computing the debt subject to these limitations, debts authorized outside the limit, as provided in Section 8, are to be deducted from the total debt, leaving the debt inside the limit, as described in Section 7. From this is to be deducted the sinking funds applicable to it, giving the net debt subject to the limitation. We give below the text of Sections 2, 3, 7, 8 and 10, which contain these provisions:

Sec. 2. Except in Boston and except as otherwise expressly permitted by law, cities and towns shall incur debts only in the manner of voting and within the limitations as to amount and time of payment prescribed in this chapter; but this section shall not be construed as prohibiting any city, town or district from placing additional restrictions, consistent with this chapter, upon the manner of incurring debt, nor as affecting the right of any city, town or district to incur debt under any special Act; but no debt may be authorized under a special Act except by a two thirds vote, unless the Act so provides.

Sec. 3. The indebtedness of a city or town for a specific purpose shall be its net indebtedness which shall be the total indebtedness for that purpose after deducting the amount of sinking funds applicable to the same. The indebtedness to which the debt limit imposed by Section 10 shall be applied shall be the total net indebtedness of the city or town after excluding debts exempted from the operation of said Section.

Sec. 7. Cities and towns may incur debt, within the limit of indebtedness prescribed in Section 10, for the following purposes, and payable within the periods hereinafter specified, provided that as to each such purpose, except those described in paragraphs (15), (16), and (17), only such sum may in any year be authorized to be borrowed as exceeds 25 cents per $1,000 of the valuation of the city or town for the preceding year.

(1) For the construction of sewers for sanitary and surface drainage purposes and for sewage disposal, thirty years,

(2) For acquiring land for public parks or public domain under chapter 45, thirty years; but no indebtedness incurred for public domain shall exceed ½ of 1% of the last preceding assessed valuation of the city or town.

(3) For acquiring land for any purpose for which a city or town is or may hereafter be authorized to acquire land, not otherwise herein specified, and for the construction of buildings which cities and towns are or may hereafter be authorized to construct, including the cost of original equipment and furnishing, twenty years.

(4) For the construction of additions to school houses or buildings to be used for any municipal purpose, including the cost of original equipment and furnishings, where such additions increase the floor space of said buildings, twenty years.

(5) For the construction of bridges of stone or concrete, or of iron superstructure, twenty years.

(6) For the original construction of public ways or the extension or widening thereof, including land damages and the cost of pavement and sidewalks laid at the time of said construction, ten years.

(7) For the construction of stone, block, brick or other permanent pavement of similar lasting character, ten years.

(8) For macadam pavement or other road material under specifications approved by the Division of Highways, five years.

(9) For the construction of walls or dikes for the protection of highways or property, ten years,

(10) For the purchase of land for cemetery purposes, ten years.

(11) For the cost of additional departmental equipment, five years.

(12) For the construction of sidewalks of brick, stone, concrete or other material of similar lasting character, five years.

(13) For connecting dwellings or other buildings with common sewers, when the cost is to be assessed in whole or in part on the abutting property owners, five years.

(14) For the abatement of nuisances in order to conserve the public health, five years.

(15) For extreme emergency appropriations involving the health or safety of the people or their property, five years.

(16) For the payment of final judgments rendered after the fixing of the tax rate for the current year, one year.

(17) For such other emergency appropriations as shall be approved by a board composed of the Attorney-General, the State Treasurer and the Director, one year.

Sec. 8. Cities and towns may incur debt, outside the limit of indebtedness prescribed in Section 10, for the following purposes and payable within the periods hereinafter specified:

Debts may be authorized under this section only by a two-thirds vote.

(1) For temporary loans under Sections 4, 5, 6 or 17, one year.

(2) For maintaining, distributing and providing food, other common necessaries of life and temporary shelter for their inhabitants upon the occasions and in the manner set forth in Section 19 of Chapter 40, two years.

(3) For establishing or purchasing a system for supplying the inhabitants of a city or town with water, for the purchase of land for the protection of a water system, or for acquiring water rights, thirty years.

(3*a*) For the construction of filter beds, standpipes and reservoirs, twenty years.

(3*b*) For laying and relaying street water mains of six inches or more in diamater, fifteen years.

(4) For the extension of water mains and for water departmental equipment, five years.

(5) For establishing, purchasing, extending, or enlarging a gas or electric lighting plant within the limits of the territory within which such gas or electric lighting plant is authorized to distribute its product, twenty years; but the outstanding indebtedenss so incurred shall not exceed in a town 5% and in a city 2½% of the last preceding assessed valuation of such town or city.

(6) For acquiring land for the purposes of a public playground, as specified in Section 14 of Chapter 45, thirty years; but the indebtedness so incurred shall not exceed ½ of 1% of the last preceding assessed valuation of the city or town.

(7) For acquiring land or constructing buildings or other structures, including the cost of original equipment, as memorials to soldiers, sailors and marines, twenty years; but the indebtedness so incurred shall not exceed ½ of 1% of the last preceding assessed valuation of the city or town.

(8) For payment of an assessment for a proportionate share of the expense of construction of a county tuberculosis hospital under Section 83 of Chapter 111, twenty years.

(9) For acquiring street railway property under Sections 143 to 158 inclusive, Chapter 161, operating the same, or contributing toward the sums expended by a transportation area for capital purposes, ten years; but the indebtedness so incurred shall not exceed 2% of the last preceding assessed valuation of the city or town.

Debts mentioned in clause (1) of this section shall be payable as provided for in Sections 4, 5, 6 and 17. Debts for all other purposes mentioned in this section shall be payable within the periods above specified from the date of the first issue of bonds or notes on account thereof, and may be incurred in accordance with the laws relating to such purposes, so far as they are consistent with this chapter. Debts, except for temporary loans, may be authorized under this section only by a two-thirds vote.

Debts mentions in clauses (3) and (4) of this section shall not be authorized to an amount exceeding 10% of the last preceding assessed valuation of the city or town.

Sec. 10. Except as otherwise authorized by law, a city shall not authorize indebtedness to an amount exceeding 2½%, and a town shall not authorize indebtedness to an amount exceeding 3%, on the average of the assessors' valuations of the taxable property for the three preceding years, the valuations being first reduced by the amount of all abatements allowed thereon previous to Dec. 31 of the preceding year. All debts, except those expressly authorized by law to be incurred outside the debt limit, shall be reckoned in determining its limit of indebtedness under this section.

Section 9 provides that fire, water, light and improvement districts may, by a two-thirds vote of the electors, authorize debt for the purposes prescribed, and payable within the periods specified in Sections 7 and 8.

Temporary Loans.

Sections 4, 5, 5*a*, 6, 6*a*, and 17 authorize the issuance of temporary loans, payable in not more than one year from date, in anticipation of revenue, for current expenses, for the payment of any land damages or expenses of altering grade crossings or any proportion of expenses of constructing a highway in anticipation of reimbursement by the Commonwealth or county, and for highway improvements in anticipation of reimbursement by the county, and in anticipation of the sale of bonds. Section 18 permits the sale of these notes at discount.

Sinking Funds Abolished—Serial Payments.

Section 47, part of an Act adopted in 1913, abolished sinking funds in cities and towns, excepting Boston, but allowed the continuation of funds established prior to May 28 1913. The establishment of sinking funds in districts after March 20 1915 was prohibited by an Act passed in 1915.

Section 19 provides a serial method for paying off obligations. The first payment is to be made not later than one year from date of issue, but the first payment on bonds issued for the purchase or establishing of a water supply system may be delayed to three years from date.

EXEMPTION FROM TAXATION.—Clause 15, Sec. 5, Part I, Chapter 490, of the Acts of 1909, provides that the following securities shall be exempt from taxation: "Bonds or certificates of indebtedness of the Commonwealth issued since the first day of January in the year 1906, and bonds, notes and certificates of indebtedness of any county, fire district, water supply district, city or town in the Commonwealth which may be issued on or after the first day of May in the year 1908, stating on their face that they are exempt from taxation in Massachusetts."

The 1917 Legislature passed an Act (Chapter 257, Laws of 1917) exempting from taxation savings deposits when invested in bonds or certificates of indebtedness of the United States. The Act in full follows: "Deposits in savings banks, including such savings banks as are called institutions for savings, deposits in the savings departments of trust companies, and also deposits in the Massachusetts Hospital Life Insurance Company, shall be exempt from taxation when invested in bonds or certificates of indebtedness of the United States of America."

TAXATION OF MORTGAGES.—Chapter 761, Laws of 1914, given in full in the "Chronicle" of July 18,1914, page 212, provides that a bond secured by mortgage on tangible property located within or without the Commonwealth which is subject to taxation wherever located, and which is there actually taxed, shall be exempt from taxation within the Commonwealth of Massachusetts upon registration of the same with the Tax Commissioner and upon the payment to him of a fee of $3 per $1,000 annually.

INCOME TAX.—The 1916 Legislature passed a bill (Chapter 269, Laws of 1916) providing for a tax on incomes in accordance with a constitutional amendment adopted in Nov. 1915. See "State and City" Department" of "Chronicle" for June 3 1916. The law has been declared constitutional by the State Supreme Court. V. 104, p. 2664. In 1920 the Legislature passed five amendments to the law. V. 111, p. 408.

In Oct. 1922, the U. S. Supreme Court held that revenues from taxes on incomes could be used for educational purposes. V. 115, p. 1964.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS.—Investment by savings banks in Massachusetts is governed by Chap. 590 of the Acts of 1908, referred to in V. 87, p. 257, and in an editorial article on pages 5 and 6 of the "State and City Supplement" for May 29 1909. The law was further amended in 1909 and 1912 (see "Chronicle" of May 25 1912, "State and City Department"), Clause "Fourteenth" was added in 1913, the last two paragraphs of the section relating to street railways was added in 1915, and in 1918 the Legislature authorized savings banks and savings departments of trust companies in Massachusetts to invest in Farm Loan bonds issued by Federal Land banks, and also the investment by savings banks in bankers' acceptances and bills of exchange. In 1919 a law was passed providing that railroad bonds, which were legal investments for savings banks at the time when the U. S. Government took over the operation of the roads issuing such bonds, shall not become illegal investments by reason of the operation of the roads by the Government. In 1920 a law was passed extending this provision for a period of two more years. The law, as contained in Section 54, Chapter 168 of the General Laws reads:

SECTION 68. Deposits and the income derived therefrom shall be invested only as follows:

FIRST—First Mortgages of Real Estate.—In first mortgages of real estate located in this Commonwealth not to exceed 60% of the value of such real estate; but not more than 70% of the whole amount of deposits shall be so invested. If a loan is made on unimproved and unproductive real estate, the amount loaned thereon shall not exceed 40% of the value of such real estate. [For conditions that must be observed in making such loans see law in full in V. 87, p. 257.]

SECOND—Public Funds.—(a) In the public funds of the United States or of any of the New England States.

(b) In the bonds or notes of a county, city or town of this Commonwealth.

(c) In the bonds or notes of an incorporated district in this Commonwealth whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes.

(d) In the bonds or notes of any city of Maine, New Hampshire, Vermont, Rhode Island or Connecticut whose net indebtedness does not exceed 5% of the last preceding valuation of the property therein for the assessment of taxes; or of any county or town of said States whose net indebtedness does not exceed 3% of such valuation; or of any incorporated water district of said States which has within its limits more than five thousand inhabitants, and whose bonds or notes are a direct obligation on all the taxable property of such district and whose net indebtedness does not exceed 3% of such valuation. *Provided*, that there is not included within the limits of such water district, either wholly or in part, any city or town the bonds or notes of which are not a legal investment.

(e) In the legally authorized bonds of the States of New York, Pennsylvania, Ohio, Indiana, Illinois, Michigan, Wisconsin, Minnesota, Missouri and Iowa, and of the District of Columbia, and in the legally authorized bonds for municipal purposes, and in the refunding bonds issued to take up at maturity bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the aforesaid States, which has at the date of such investment more than thirty thousand inhabitants, as established by the last national or State census or city census, certified to by the city clerk or treasurer of said city, and taken in the same manner as a national or State census, preceding such investment, and whose net indebtedness does not exceed 5% of the valuation of the taxable property therein, to be ascertained by the last preceding valuation of property therein for the assessment of taxes.

(f) In the legally authorized bonds of the States of California, Delaware, Nebraska, New Jersey, Oregon and Washington, and in the legally authorized bonds for municipal purposes or in refunding bonds which have been issued for other than municipal purposes, but on which the interest has been fully paid, of any city of the States of California, Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Massachusetts, Maine, Maryland, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, Ohio, Oregon, Pennsylvania, Rhode Island, Vermont, Washington and Wisconsin, which has at the date of such investment more than one hundred thousand inhabitants, established in the same manner as is provided in subdivision (*e*) of this clause, and whose net indebtedness does not exceed seven per cent of the valuation of the taxable property therein, established and ascertained as provided in subdivision (*e*) of this clause.

[The Attorney-General on April 28 1914 held that bonds of the City of Minneapolis, Minn., were legal investments. V. 98, p. 1629.]

(g) In subdivisions (d), (e) and (f) of this clause the words "net indebtedness" mean the indebtedness of a county, city, town or district omitting debts created for supplying the inhabitants with water and debts created in anticipation of taxes to be paid within one year, and deducting the amount of sinking funds available for the payment of the indebtedness included.

RAILROAD BONDS.

Massachusetts Railroads.

THIRD.—(a) In the bonds or notes, issued in accordance with the laws of this Commonwealth, of a railroad corporation incorporated therein the railroad of which is located wholly or in part therein, which has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment, or in the first mortgage bonds of a terminal corporation incorporated in this Commonwealth and whose property is located therein, which is owned and operated, or the bonds of which are guaranteed as to principal and interest, or assumed, by such railroad corporation. Any shares of the capital stock of a railroad corporation leased to such railroad corporation, which are owned by said lessee corporation, shall not be considered as outstanding within the meaning of this subdivision.

New England Railroads.

(b) In the bonds or assumed bonds of a railroad corporation incorporated in any of the New England States at least one-half of the railroad of which is located in said States, whether such corporation is in possession of and is operating its own road or is leased to another railroad corporation; *provided* either that such bonds shall be secured by a first mortgage of the whole or a part of the railroad and railroad property of such corporation or by a refunding mortgage as described in paragraph (3) or (4) of subdivision *g;* or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its road, equipment and franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds previously issued and all its pre-existing debts and liabilities, which provision, so enacted in such State, shall have been accepted by the stockholders of such corporation; and *provided*, that such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding issues of capital stock in each fiscal year for the five years next preceding such investment.

(c) In the first mortgage bonds or assumed first mortgage bonds or in the bonds secured by a refunding mortgage as described in paragraphs (3) or (4) of subdivision *g*, of a railroad corporation incorporated in any of the New England States the railroad of which is located wholly or in part therein, which have been guaranteed as to principal and interest by a railroad corporation described in subdivisions *a* or *b* which is in possession of and is operating its own road.

(d) No bond shall be made a legal investment by subdivision *b* unless the corporation which issued or assumed such bond has, during its fiscal year next preceding the date of such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct and assumed funded indebtedness.

No bond shall be made a legal investment by subdivision *c* unless the corporation which guaranteed such bond has, during its fiscal year next preceding such investment, paid in dividends on its capital stock an amount equal to one-third of the total amount of interest paid on all its direct, assumed and guaranteed funded indebtedness.

Other Railroads.

(e) In the mortgage bonds, as described in any of the following subdivisions of this clause, of any railroad corporation incorporated under the laws of any of the United States:

Provided, that during each of the ten fiscal years of such railroad corporation next preceding the date of such investment—

(1) Such railroad corporation owned in fee not less than five hundred miles of standard-gauge railroad, exclusive of sidings, within the United States, or if such corporation owned in fee less than five hundred miles of such railroad, the gross earnings of such corporation, reckoned as hereinafter provided, shall have been not less than fifteen million dollars;

(2) Such railroad corporation shall have paid the matured principal and interest of all its mortgage indebtedness;

(3) Such railroad corporation shall have paid in dividends in cash to its stockholders an amount equal to at least four per cent upon all its outstanding capital stock.

(4) The gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all the outstanding indebtedness of railroads controlled and operated which is not owned by said corporation after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security to secure the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

And further *provided*, that—

(5) No bonds shall be made a legal investment by subdivision *g* in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior mortgages or of its assumed prior mortgages, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior lien debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment.

(6) No bonds shall be made a legal investment by subdivision *f* or *f* in case the mortgage securing the same shall authorize a total issue of bonds which, added to the total debt of the guaranteeing corporation as defined in paragraph five, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of such guaranteeing corporation outstanding at the date of such investment; nor in case at said date the total debt of the corporation which issued said bonds shall exceed three times its outstanding capital stock.

In the case of a mortgage executed prior to June 8 1908, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered, for the purposes of paragraph five and of this paragraph, as the total authorized issue.

DESCRIPTION OF BONDS.

(1) *Definition of First Mortgage.*—Whenever the term "first mortgage" is used in the following subdivisions, it shall mean, unless otherwise qualified, a first mortgage on not less than seventy-five per cent of the railroad owned in fee at the date of the mortgage by the railroad corporation on the railroad of which said mortgage is a lien, but in no case on less than one hundred continuous miles of standard-gauge railroad, exclusive of sidings; *provided*, that seventy-five per cent of the railroad subject to the lien of said mortgage is connected;

For five years prior to the date of investment therein all the railroad subject to the lien of said mortgage at the date of execution thereof has been operated by, and its operations included in, the operations of the railroad corporation which issues, assumes or guarantees said bonds;

The date of said mortgage is at least five years prior to the date of such investment; except that a first mortgage given in substitution for and not greater in amount than such a first mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement.

(g) *Direct Obligations.*—Bonds issued or assumed by a railroad corporation described in subdivision *e*, which are secured by a mortgage which was at the date thereof or is at the date of such investment—

(1) A first mortgage on railroad owned in fee by the corporation issuing or assuming said bonds, except that, if it is not a first mortgage on seventy-five per cent of all such railroad owned in fee by said corporation, it shall be a first mortgage on at least seventy-five per cent of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least seventy-five per cent of the total mileage which is subject to the lien of said mortgage and which is represented or covered by said stocks or bonds;

(2) A first mortgage, or a mortgage or trust indenture which is in effect a first mortgage, upon all the railroad subject to the lien of said mortgage or trust indenture, by virtue of the irrevocable pledge with the trustee thereof of an entire issue or issues of bonds which are a first lien upon the railroad of a railroad corporation which is owned and operated, controlled and operated or leased and operated by the corporation issuing or assuming said bonds;

(3) A refunding mortgage which covers at least seventy-five per cent of the railroad owned in fee by said corporation at the date of said mortgage and provides for the retirement of all outstanding mortgage debts which are a prior lien upon said railroad owned in fee and covered by said refunding mortgage at the date thereof. But if any of the bonds which said refunding mortgage is given to refund are secured on a railroad not owned in fee by the corporation executing said refunding mortgage, there shall be conveyed and assigned to the trustee of said refunding mortgage either—

At least seventy-five per cent of the railroad on which each issue of bonds to be refunded is secured, free from any mortgage lien except that of the mortgage or mortgages securing the bonds to be refunded; or

At least seventy-five per cent of the outstanding bonds of each issue which is secured by a mortgage lien upon such railroad; and all of said railroad not owned in fee which is so subjected to the lien of said refunding mortgage shall be the railroad of one or more railroad corporations which are owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said refunding mortgage bonds;

But in no case shall the bonds secured by said refunding mortgage become a legal investment unless they mature at a later date than any bonds which said refunding mortgage is given to refund, nor unless the total mileage subjected to the lien of said refunding mortgage in accordance with the requirements of this paragraph is at least twenty-five per cent greater that the mileage covered by any one of the mortgages securing bonds which said refunding mortgage is given to refund.

(4) A mortgage upon not less than ten per cent of the railroad, exclusive of sidings, owned in fee at the date of said mortgage by the corporation issuing or assuming said bonds, but in no case on less than five hundred continuous miles of standard-gauge railroad; *provided*, that

Said mortgage is a first or second lien upon not less than seventy-five per cent of the total railroad covered by said mortgage at the date thereof, and which provides for the retirement of all mortgage debts which are a prior lien upon said railroad owned in fee and covered by said mortgage, at the date of the execution thereof;

The bonds secured by said mortgage mature at a later date than, and cover a mileage at least twenty-five per cent greater than is covered by, any of the bonds secured by a prior lien mortgage so to be retired;

The date of said mortgage shall be at least five years prior to the date of such investment.

(h) *Bonds Underlying Refunding Mortgages.*—Mortgage bonds or bonds secured by mortgage bonds which are a direct obligation of, or which have been assumed, or which have been guaranteed by endorsement as to both principal and interest by, a railroad corporation whose refunding mortgage bonds are made a legal investment under paragraphs three or four of subdivision *g; provided*, that—

Said bonds are prior to and are to be refunded by such refunding mortgage;

Said refunding mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

In the case of bonds so guaranteed or assumed, the corporation issuing said bonds is owned and operated, controlled and operated, or leased and operated, by said railroad corporation.

(i) *Guaranteed Obligations.*—Bonds which have been guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the provisions of subdivision *e; provided*, that—

Said bonds are secured by a first mortgage on the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation guaranteeing said bonds;

In the case of a leased railroad, the entire capital stock of which, except shares qualifying directors, is not owned by the lessee, the rental includes an amount to be paid to the stockholders of said leased railroad equal to at least four per cent per annum upon that portion of the entire capital stock thereof outstanding which is not owned by the lessee.

(j) First mortgage bonds of a railroad corporation which during each of its ten fiscal years next preceding the date of such investment has complied with all the requirements of paragraphs two, three and four of subdivision *e; provided*, that said bonds are guaranteed by endorsement as to both principal and interest by a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, notwithstanding that the railroad of said issuing corporation is not operated by said guaranteeing corporation.

CORPORATION NOT TO LOSE CREDIT BY TEMPORARY DISTURBANCE OF RELATION OF GROSS EARNINGS TO FIXED CHARGES.

(k) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive fiscal years to comply with the requirements of paragraph four of subdivision *e;* but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made during said period. If after the expiration of said period said corporation complies for the following fiscal year with all the requirements of subdivision *e*, it shall be regarded as having complied therewith during said period.

BONDS NOT TO BECOME ILLEGAL ON ACCOUNT OF CONSOLIDATION.

(l) Bonds which have been or shall become legal investments under any of the provisions of this Act shall not be rendered illegal, although the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and although the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for or to acquire the stock of the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase, of said corporation which issued or assumed said bond.

CREDIT OF A CORPORATION NOT TO BE LOST BY CONSOLIDATION.

(m) If a railroad corporation which has complied with all the requirements of subdivision *e* preceding paragraph five, except that the period of compliance is less than ten, but not less than five successive years, shall be, or shall have been, thereupon consolidated or merged into, or its railroad purchased and all of the debts of such corporation assumed by, another railroad corporation incorporated under the laws of any of the United States, such corporation so succeeding shall be considered as having complied with all the provisions of subdivision *e* preceding paragraph five during those successive years next preceding the date of such consolidation, merger or purchase in which all said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would have so complied: *provided*, that said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least ten successive years, but which shall be in no case less than the two fiscal years next following said consolidation, merger or purchase.

STREET RAILWAY CORPORATIONS ARE NOT RAILROAD CORPORATIONS.

(n) In this Act, unless the context otherwise requires, "railroad corporation" means a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this clause.

STATUS OF RAILROADS UNDER FEDERAL CONTROL.

o Railroad bonds, which were legal investments for savings banks at the time when the Government of the United States, under the Act of Congress approved Mar. 21 1918, took over the operation of the railroads issuing such bonds, shall not become illegal investments by reason of the operation of the railroads by the Federal Government. The time during which any such railroad is operated by the Federal Government shall be excluded, including the year in which the Government operation ends, in determining the compliance of any such railroad with the provisions of this section: *provided, however*, that in case a railroad corporation the mortgage bonds of which would become legal for investment under sub-division *e* of this section upon its compliance with the requirements of said sub-division shall have complied with the requirements of said sub-division during the two years or more next preceding Jan. 1 1918, such railroad corporation shall be deemed to have complied with the requirements of said sub-division during the period of the Government operation of its railroad, including the year in which such Government operation ends, in computing the time of compliance with the requirements of said sub-division.

The time during which any railroad is operated by the Government of the United States under the provisions of an Act of Congress approved Aug. 29 1916, of an Act of Congress approved March 21 1918, or of any other Act or Acts of the Congress of the United States, and for two years thereafter, and the earnings made and dividends paid during said time and for said two years thereafter shall not be taken into consideration in determining whether the bonds of the railroad corporation comply with any of the provisions of this section. Any railroad corporation, which, at the time when the operation of its railroad by the Government of the United States under the provisions of the said Act or Acts began, had complied with the provisions of subdivision *e* of this clause, for one or more years next preceding the commencement of such Government operation and control shall be entitled to include, in computing the period of ten years prescribed by the provisions of said subdivision *e* every year during any part of which its railroad shall have been operated by the Government of the United States under the provisions of said Act or Acts, and the two years succeeding the termination of such operation, in determining whether such corporation has complied with the provisions of said subdivision *e* each year for ten years. Except as hereinbefore provided, whenever a reference is made in said subdivision *e* to a period of ten years preceding the date of an investment in the bonds of any railroad corporation, such period shall be deemed exclusive of any time during which the property of such railroad corporation has been operated by the Government of the United States under the provisions of the said Acts and of the two years succeeding the termination of such operation.

Any bonds acquired by savings banks or institutions for savings prior to May 7 1920, or at any time hereafter, which comply with the provisions of this clause, may, so long as they continue to comply therewith, be retained as investments authorized by law.

STREET RAILWAY BONDS.

FOURTH.—In the bonds of any street railway company incorporated in this Commonwealth the railway of which is located wholly or in part therein, and which has earned and paid in dividends in cash an amount equal to at least five per cent upon all its outstanding capital stock in each of the five years last preceding the certification by the Board of Railroad Commissioners hereinafter provided for. No such investment shall be made unless said company appears from returns made by it to the Board of Railroad Commissioners to have properly paid said dividends without impairment of assets or capital stock, and said board shall on or before the

fifteenth day of January in each year certify and transmit to the Bank Commissioner a list of such street railway companies.

Dividends paid by way of rental to stockholders of a leased street railway company shall be deemed to have been earned and paid by said company within the meaning of this clause, provided that said company shall have annually earned, and properly paid in dividends in cash, without impairment of assets or capital stock, an amount equal to at least five per cent upon all its outstanding capital stock in each of the five fiscal years next preceding the date of the lease thereof.

If two or more street railway companies have been consolidated by purchase or otherwise during the five years prior to said certification, the payment severally from the earnings of each year of dividends equivalent in the aggregate to a dividend of five per cent on the aggregate capital stocks of the several companies during the years preceding such consolidation shall be sufficient for the purpose of this clause.

Bonds which have been or shall become legal investments under the provisions of this clause shall not, except as hereinafter provided, be deemed to be an illegal investment by reason of the fact that the corporation issuing such bonds shall hereafter fail or shall have heretofore failed for a period not exceeding two successive fiscal years to earn and pay dividends in accordance with the requirements of this clause, but no further investments in the bonds issued by the corporation shall be made during said period. If after the expiration of said period the corporation earns and pays or has earned and paid dividends during the following fiscal year in accordance with the requirements of this clause, it shall be regarded as having complied therewith during said period; provided, that it shall not have so failed to comply during any other period within the next preceding five years; and provided, that during said period of non-compliance its annual earnings shall have at least been sufficient to provide for the payment of the interest upon its outstanding indebtedness and all other fixed charges in addition to its operating expenses. The said department shall certify and transmit to the Bank Commissioner a list of any street railway companies whose bonds become legal investments by virtue of this paragraph.

TELEPHONE COMPANY BONDS.

FIFTH.—In the bonds of any telephone company subject to the provisions of section fifty-three of chapter sixty-three, and of which a majority of the directors are residents of the Commonwealth:

Provided, that during each of the five fiscal years of such telephone company next preceding the date of such investment—

(1) The gross income of such telephone company shall have been not less than ten million dollars per annum.

(2) Such telephone company shall have paid the matured principal and interest of all its indebtedness.

(3) Such telephone company shall have paid in dividends in cash an amount equal to not less than six per cent per annum on all its outstanding issues of capital stock.

(4) The dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

And further *provided* that such bonds shall be secured either (*a*) by a first mortgage upon at least seventy-five per cent of the property of such telephone company or (*b*) by the deposit with a trust company incorporated under the laws of this Commonwealth of bonds and shares of stock of other telephone corporations, under an indenture of trust which limits the amount of bonds so secured to seventy-five per cent of the value of the securities deposited as stated and determined in said indenture, and provided that during each of the five years preceding such investment the annual interest and dividends paid in cash on the securities deposited have amounted to not less than fifty per cent in excess of the annual interest on the bonds outstanding and secured by said deposit. Not more than two per cent of the deposits of any savings bank shall be invested in the bonds of telephone companies.

GAS, ELECTRIC OR WATER COMPANY BONDS.

SIXTH.—In the bonds of a gas, electric or water company secured by a first mortgage of the franchise and property of the company: provided, that the net earnings of the company, after payment of all operating expenses, taxes and interest, as reported to, and according to the requirements of, the proper authorities of the commonwealth, have been in each of the three fiscal years preceding the making of such investment equal to not less than 4% on all its capital stock outstanding in each of said years; and, provided, that the gross earnings of the company in the fiscal year preceding the making of the investment have been not less than one hundred thousand dollars. A list of the companies whose securities prima facie comply with the requirements of this clause, shall be furnished to the Commissioner annually, at such time after June 16 in any year as he shall designate, by the proper authorities of the Commonwealth having supervision over such companies.

BANK STOCKS AND DEPOSITS IN BANKS

SEVENTH.—In the stock of a banking association located in the New England States and incorporated under the authority of the United States, or in the stock of a trust company incorporated under the laws of and doing business within this Commonwealth, but such corporation shall not hold both by way of investment and as security for loans more than twenty per cent of its deposits in the stock of such associations or companies, nor in any one such association or company more than three per cent of its deposits in, nor more than one hundred thousand dollars nor more than one-quarter of the capital stock of, such association or company. Such corporation may deposit not more than two and one-half per cent of its deposits in any banking association incorporated under the authority of the United States and located in this Commonwealth, and in any trust company incorporated in this Commonwealth, but such deposit shall not in any case exceed five hundred thousand dollars nor twenty-five per cent of the capital stock and surplus fund of such depositary.

EIGHTH—In bankers' acceptances and bills of exchange of the kinds and maturities made eligible by law for rediscount with Federal Reserve banks, provided the same are accepted by a bank, banking association or trust company incorporated under the laws of the United States or of this Commonwealth, and having its principal place of business within the Commonwealth. Not more than 10% of the deposits and of the income derived therefrom shall be invested by any savings bank in bankers' acceptances or bills of exchange, nor shall any savings bank invest in the acceptances and bills of exchange eligible by law for rediscount with Federal Reserve banks of any one accepting bank or trust company to any amount in excess of 5% of its deposits and of the income derived therefrom. The aggregate amount of bankers' acceptances and bills of exchange of any bank, banking association or trust company held by any savings bank shall not exceed 25% of the paid up capital and surplus of such bank, banking association or trust company.

NINTH—Loans on personal security.—In loans of the classes hereinafter described, payable and to be paid or renewed at a time not exceeding one year from the date thereof; but not more than one-third of the deposits and income shall so be invested, nor shall the total liabilities to such corporation of a person, partnership, association or corporation for money borrowed upon personal security, including in the liabilities of a partnership or company not incorporated the liabilities of the several members thereof, exceed 5% of such deposits and income; but said limitations, except as to time in which said loans shall be paid or renewed, shall not apply to loans made under paragraph (2), subdivision (*e*) of this clause.

(*a*) *Note of three citizens.*—A note which is the joint and several obligation of three or more responsible citizens of this Commonwealth: provided, that the total liabilities to such corporation of a person, partnership or association, for money borrowed under this subdivision, including in the liabilities of a partnership or company not incorporated the liabilities of the several members thereof, shall not exceed 1% of the deposits of such corporation.

(*b*) *Corporation note.*—A note, with one or more substantial sureties or endorsers: (1) of a corporation incorporated in this Commonwealth; of (2) of a manufacturing corporation with a commission house as surety or endorser, provided that such commission house is incorporated in this Commonwealth, or has an established place of business and a partner resident therein; or (3) of an association or corporation at least one-half of the real and personal property of which is located within the New England States, if at least one such surety or endorser is a citizen of or corporation incorporated in this Commonwealth: provided, that no such loan shall be made or renewed unless within eighteen months preceding the making or renewing of such loan an examination of the affairs, assets and liabilities of the borrowing corporation or association has been made, at the expense of such borrowing corporation or association, by an accountant approved by the Commissioner. The report of such examination shall be made in such form as the Commissioner may prescribe. A copy of the report certified to by the accountant shall be delivered by the borrowing corporation or association to the savings bank before such loan or a renewal thereof is made, and a copy so certified shall be delivered by the accountant to the Commissioner within thirty days after the completion of said examination.

(*c*) *Notes of certain public service companies.*—A bond or note of a gas, electric light, telephone or street railway corporation incorporated or doing business in this Commonwealth and subject to the control and supervision thereof: provided, that the net earnings of said corporation, after payment of all operating expenses, taxes and interest as reported to, and according to the requirements of, the proper authorities of the Commonwealth, have been in each of the three fiscal years preceding the making or renewing of such loan equal to not less than 4% on all its capital stock outstanding in each of said years; and provided, that the gross earnings of said corporation in the fiscal year preceding the making or renewing of such loan have been not less than $100,000.

A list of the companies whose securities prima facie comply with the requirements of this subdivision shall be furnished to the Commissioner annually, at such time after June 16 in any year as he shall designate, by the proper authorities of the Commonwealth having supervision over such companies.

(*d*) *Notes issued or guaranteed by railroad companies.*—A bond or note issued, assumed or guaranteed by endorsement as to both principal and interest, by a railroad corporation which complies with all the requirements of subdivision (*b*) or of subdivision (*e*) preceding paragraph (5) of clause Third: provided, that the principal of such bond or note described in either this or the preceding subdivision is payable at a time not exceeding one year after the date of investment therein.

(*e*) *Notes secured by collateral.*—A note of a responsible borrower in such form as the Commission may approve, with a pledge as collateral of—

(1) One or more first mortgages of real estate situated in this Commonwealth: provided, that the amount of such note is not in excess of 60%, or in the case of unimproved or unproductive real estate in excess of 40%, of the value of the property or properties mortgaged; that the value of each of said properties has been certified in accordance with the provisions of clause First; and that the assignment of each of said mortgages has been recorded in the proper registry of deeds; or

(2) Bonds or notes authorized for investment by clause Second, Third, Fourth, Fifth or Seventeenth at no more than 90% of the market value thereof, at any time while such note is held by such corporation; or

(3) Deposit books of depositors in savings banks at no more than 90% of the amount of deposits shown therein and unpledged shares of co-operative banks at not more than 90% of their withdrawal value; or

(4) Shares of railroad corporations described in subdivision (*a*), (*b*) or (*e*) of clause Third at no more than 80% of the market value thereof, at any time while such note is held by such corporation; or

(5) Such other bonds, notes or shares of corporations or associations and at such percentages of their market values as the board of investment shall approve: provided, that, if the Commissioner shall disapprove any such bonds, notes or shares, he shall make such written recommendations to the board of investment of such corporation as the case may require, and shall include in his annual report a statement of the facts in each case in which such board of investment has not complied with his recommendations in a manner satisfactory to him; or

(6) Policies issued by life insurance companies approved by the Commissioner and properly assigned to the bank, but not exceeding 90% of the cash surrender value of such policies; but the aggregate of such loans made by any savings bank shall not exceed 1% of its deposits.

(*f*) *"Association" defined.*—Whenever used in this clause, the word "association" means an association the business of which is conducted or transacted by trustees under a written instrument or declaration of trust.

TENTH—Farm loan bonds.—In farm loan bonds lawfully issued by Federal Land Banks incorporated under the Act of Congress approved July 17 1916, entitled "An Act to provide capital for agricultural development, to create standard forms of investment based upon farm mortgage, to equalize rates of interest upon farm loans, to furnish a market for United States bonds, to create Government depositaries and financial agents for the United States, and for other purposes."

ELEVENTH—Bank building.—A sum not exceeding the guaranty fund and undivided earnings of such corporation, nor in any case exceeding 5% of its deposits or $200,000, may, subject to the approval of the Commissioner, be invested in the purchase of a suitable site and the erection or preparation of a suitable building for the convenient transaction of its business. Extraordinary alterations in, or additions to, a bank building owned by a savings bank, involving an expense exceeding $10,000, shall not be made without the approval of the Commissioner, and the cost of such alterations or additions shall not exceed the sum specified in this clause.

TWELFTH—Real estate acquired by foreclosure.—Such corporation may hold real estate acquired by the foreclosure of a mortgage owned by it, or by purchase at sales made under the provisions of such mortgages or upon judgments for debts due to it, or in settlements effected to secure such debts. Such corporation shall sell all such real estate within five years after the title thereof is vested in it, and notwithstanding the provisions of clause First may take a mortgage thereon from a bona fide purchaser to secure the whole or a part of the purchase price; but the Commissioner may, on petition of the board of investment of such corporation, and for cause, grant an additional time for the sale of the same or of the securities mentioned in the following clause.

THIRTEENTH—Securities acquired in settlement of indebtedness.—Such corporation may hold stocks, bonds, notes or other securities acquired in settlements effected to secure loans or indebtedness; but unless the time during which such securities may be held is extended as provided in the preceding clause, they shall be sold within five years after being acquired.

FOURTEENTH—Pledges of securities as collateral to remain valid.—The provisions of this chapter shall not invalidate or impair the title of a corporation to securities which have been or may be held by it in pledge or or as security for a loan or indebtedness; and the same shall be held for the purposes for which they were pledged.

FIFTEENTH—List of bonds to be prepared.—Annually, not later than Feb. 1, the Commissioner shall prepare a list of all the bonds and notes which are then legal investments under the provisions of clause Third, Fourth, Fifth or Seventeenth. Said list shall at all times be open to public inspection and a copy thereof shall be sent to every savings bank.

The Bank Commissioner issued a report in Feb. 1923 containing a list of bonds considered legal under clauses Second, Third, Fourth, Fifth and Sixth of the above Act.—This list appeared in the "State and City Department" of the "Chronicle" of May 12 1923, page 2166.

SIXTEENTH—Bonds not to become illegal by reason of temporary failure to meet legal requirements.—Bonds which at any time have been for ten successive years legal investments under the provisions of subdivision (*a*), (*b*), (*c*) or (*d*) of clause Third or clause Fifth of this section shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding two successive years to comply as to dividends on its capital stock, with the requirements of the clauses specified above; but no further investment in the bonds issued, assumed or guaranteed by such corporation shall be made during said period. If after the expiration of said period, such croporation complies for the following fiscal year with the requirements of the clauses specified above, it shall be regarded as having complied therewith during said period: provided, that it shall not have so failed to comply during any other period within the next preceding ten years.

SEVENTEENTH—Certain investments previously authorized.—This section shall not render illegal the investment in any mortgages of real estate held by such corporation on June 8 1908, nor the investment before or after said date in any issue of bonds or notes dated before said date in which such corporation might then invest, so long as such bonds or notes continue to comply with the laws then in force.

[Opinion of Attorney-General Regarding Legality of N. Y. N. H. & Hartford RR. Bonds as Savings Banks Investments.]—The Attorney-General rendered an opinion in Feb. 1911 with reference to the Act passed by the Legislature in June 1910 to validate bonds and stocks of the New York New Haven & Hartford RR. Co., and for the purpose of determining whether or not the assets were sufficient to show the road a solvent corporation. As noted in V. 92, p. 462, the report of the Commission appointed under the Act referred to was filed with the Legislature on Feb. 17 1911 The Act stated that "nothing herein contained shall authorize the investment by savings banks in the securities aforesaid unless they are otherwise legal investments under the provisions of Chapter 590, Acts of 1909," and the Attorney-General finds that "no matter what the finding of the Commission appointed under the Act with reference to assets and liabilities was, it would not in and of itself make any change in the standing of securities for savings bank investments." See V. 92, p. 541.

Tax rate (per $1,000) 1922 $30.00
INT. payable in Boston on water and school bonds at Old Colony Trust Co.

BOSTON.—James M. Curley, Mayor; John J. Curley, City Treas.; Rupert S. Carven, City Auditor.
City was incorporated Feb. 23 1822. On Nov 2 1909 a charter amendment was adopted under which municipal nominations are to be made only upon petition of 5,000 voters. The Mayor serves for four years, subject to recall after two years. V. 89, p. 1234.

BOSTON (*Continued*)

In 1918 the legislature rescinded the recall and made 3,000 the number for petition for Mayor. On Nov. 7 1911 the voters accepted an Act passed by the Legislature annexing the town of Hyde Park, which became a part of the city Jan. 1 1912. V. 93, p. 1337.

The county of Suffolk, in which Boston is situated, contains also the cities of Chelsea, and Revere, and the town of Winthrop. Boston, however, receives all the county income, pays all the county expenses, owns the county buildings, and is responsible for the county debt, which amounted on May 31 1923 to $1,833,499.99. The details of this county debt are included in the following financial report for this city.

Sinking Fund Debt.

The following is a statement of debt, inside and outside, sinking funds and net indebtedness within the limit, as of May 31 1923:

Total funded debt, city and county		*$125,088,800.09
Funded debts, outside the debt limit (debts exempted from the operation of the law limiting municipal indebtedness):		
City debt	$33,919,800.00	
Water debt	630,350.00	
County debt	1,286,999.99	
Rapid transit debt	39,214,700.00	
		75,051,849.99
Funded debt within the debt limit		$50,036,951.00
Offsets to funded debt:		
Sinking funds	$41,438,922.00	
Less sinking funds for debt outside the debt limit:		
City sinking funds	$20,063,662.64	
Water sinking fund	368,187.83	
County sinking fund	499,480.99	
Rapid transit sinking funds	6,937,810.41	
	27,869,141.88	
	$13,569,780.12	
Premiums on Loans	$8,064.00	
Less on loans outside debt limit	2,016.00	
	6,048.00	
Offsets to funded debt within the debt limit		13,575,828.12
Net indebtedness within the debt limit		$36,461,122.88

* Includes $311,999.99 issued by the Commonwealth under Chapter 534 of the Acts of 1906.

The debt-incurring power of the city on May 31 1923 was estimated at $1,241,828.68.

In the following table the total debt and sinking funds as of May 31 1923 are analyzed according to purposes and according to whether it is inside or outside the debt limit:

	Gross Debt.	*Sink. Funds, &c.*	*Net Debt.*
City debt	$83,410,251.00	$34,814,839.94	$48,595,411.06
County debt	1,833,499.99	499,480.99	1,334,019.00
Water debt	630,350.00	368,187.83	262,162.17
	$85,874,100.00	$35,682,508.76	$50,191,592.23
Rapid transit debt	39,214,700.00	6,937,810.42	32,276,889.58
	$125,088,800.99	$42,620,319.18	$82,468,481.81

TOTAL DEBT, &c.—	*May* 31 1923.	*Jan.* 31 1922.	*Jan.* 31 1921.
City debt proper	$83,410,251.00	$83,949,901.00	$83,913,301.00
Water debt	630,350.00	2,284,999.99	1,060,350.00
County debt	1,833,499.99	907,350.00	2,143,999.99
Rapid transit debt	39,214,700.00	37,558,700.00	36,994,700.00
Total bonded debt	$125,088,800.99	$124,700,950.99	$124,112,350.99
Sinking funds, &c	42,620,319.18	44,787,940.43	43,429,503.13
Net debt	$82,468,481.81	$79,913,010.56	$80,682,847.86

The following table shows the amount of the gross funded debt, sinking funds and the net debt for the following years:

Years—	*Gross Debt.*	*Sinking Funds.*	*Net Debt.*
1923 (May 31)	$125,088,800.99	$42,620,319.18	$82,468,481.81
1923 (Jan. 31)	126,576,800.99	41,898,891.76	84,677,909.23

1870	365,593,100	218,496,300	584,089,400	15.30

DEBT AND TAX LIMITATIONS.—Taxes in Boston, exclusive of the State tax, county tax and sums required by law to be raised on account of the city debt, are limited by Chapter 521 of the Acts of 1910 and amendments thereto, to $20.11 on every $1,000 of the assessor's valuation of the taxable property therein for the preceding year, said valuation being first reduced by the amount of all abatements allowed thereon previous to the thirty-first day of December in the year preceding said assessment.

Sec. 2, Chap. 312, Laws of 1885 (Sec. 3, Chap. 27, of the 1902 edition, Revised Statutes), places the debt limitation of the city of Boston at 2 ½ % of the average assessors' valuations of the taxable property for the preceding three years.

The foregoing limitation is of course exclusive of debts created for water supply, and further exceptions have been made from year to year by different legislatures authorizing bonds outside of the debt limit for various purposes, especially enumerated.

It is proper to state that under Chapter 93, Acts of 1891, the city is authorized to *anticipate* its authority to borrow money within its debt limit for any current municipal year.

POPULATION.—1920, 748,060; 1915, 745,439; 1910, 670,585; 1905, 593,598; 1900, 560,892; 1890, 448,477; 1880, 362,839; 1870, 250,526.

Serial Loans.

Since Jan. 1 1914 all loans of the city of Cambridge have been issued on the "serial" basis in compliance with Chapter 719, Acts of 1913 and amendments thereto. The "serial" loans have been issued in the form of coupon bonds of $500 or $1,000 each whenever possible; odd amounts, less than $1,000, only when issue necessitated them. Coupon bonds may be exchanged for reg. bonds on request.

DEBT, RESOURCES, &c.

Admitted as a State----------One of Original Thirteen
Total area of State (square miles)----------1,250
State Capital----------Providence
Governor (term exp. first Tues. Jan. 1925)_William S. Flynn
Sec. of State (term exp. first Tues. Jan. '25)_J. Fred Parker
Treas. (term exp. first Tues. Jan. '25)_Adolphus C. Knowles

LEGISLATURE.—The Legislature now meets annually the first Tues day in January. There is no limit as to the length of session, but compensation of the legislators is limited to sixty days' attendance in any calendar year.

HISTORY OF DEBT.—For early history of the Rhode Island State debt, see "State & City Supplement" of April 13 1895, page 33. The bonds which were outstanding on Jan. 1 1923 are described as follows:

Penal & Reformatory Inst. Loan.

3½g'09	M-S	$300,000c	--	Mch 1	1959

State House Loan.

3½g'94	J-J	$318,000c	---	Jan 1	1924
3½g'94	J-J	395,000c	---	Jan 1	1934
3s g '98	A-O	800,000c	--	July 15	1938
3s g '01	M-N	700,000c	---	May 1	1941

Highway Improvement Bonds.

3s g '06	A-O	$600,000c	---	Apr 1	1936
3½g'09	M-S	600,000c	---	Mch 1	1939
4s '12	J-D	563,000c	--	June 1	1942

Harbor Improvement Bonds.

4s g '10	F-A	$500,000c	---	Aug 1	1960
4s '13	J-D	476,000z	---	Dec 1	1963

Charitable Inst. Loans.

4g '14	J-J	$617,000c	---	July 1	1964
4s g '15	M-S	458,500z	---	Sept 1	1965
4s g '16	M-S	$149,500	---	Sept 1	1966
4½sg'18	F-A	850,000	----	Aug 1	1968

Bridge Bonds.

4s g '17	M-N	$300,000c	--	May 1	1967
4½s'20	F A	500,000c	--	Aug 1	1970

Armory Construction Bonds.

3s g '06	A-O	$350,000c	---	Apr 1	1946

***Metropolitan Park Loan.**

3½sg'08	J-D	$250,000c	--	June 1	1958
4s '14	F-A	300,000c	---	Feb 1	1964

Soldiers' Bonus Bonds.

4½g'20	J-J	$2,500,000c	---	Jan 1	1967

*This is debt incurred for the benefit of the several towns and cities included in Metropolitan Park System. While such debt is a direct obligation of the State, its payment must eventually be met by assessment on the towns and cities benefited. (z) Coupon with privilege of registration.

INTEREST on the State-House bonds and Charitable Inst. Loan 1914 is payable in Providence at the Rhode Island Hospital Trust Co.; on the Charitable Inst. bonds of 1916 and 1918 and bridge bonds of 1917, payable at National Exchange Bank; on all other issues at Industrial Trust Co.

TOTAL DEBT, SINKING FUNDS, &c.—

	Jan. 1 1923.	*Jan.* 1 1922.	*Jan.* 1 1921.	*Jan.* 1 1920.
Total funded debt------	$11,527,000	$11,032,000	$10,832,000	$7,832,000
Sinking funds---------	2,188,642	1,869,028	1,631,918	1,421,860
Net debt----------	$9,338,358	$9,162,972	$9,200,082	$6,410,140

The sinking fund is largely invested in city, town and district bonds and notes, and it is to receive $167.037 yearly.

TAX VALUATION.—The total assessed valuation of real estate and personal property in Rhode Island Jan. 1 1923 was $1,047,390,217, consisting of $642,139,076 real estate and $405,251,141 personal property. State tax rate (per $1,000) in 1912, 1913, 1914, 1915, 1916, 1917 and 1918 was $0.90; in 1919, $1.50; in 1920, 1921 and 1922, $1.20. In 1922 and 1923 an additional tax of $0.30 per $1,000 was assessed for highway purposes.

POPULATION OF STATE—

1920-----	604,397	1900-----	428,556	1860-----	174,620	1820-----	83,059
1915-----	595,986	1890-----	345,506	1850-----	147,545	1810-----	77,031
1910-----	542,610	1880-----	276,531	1840-----	108,830	1800-----	69,122
1905-----	480,082	1870-----	217,353	1830-----	97,210	1790-----	68,825

STATE AND MUNICIPAL INDEBTEDNESS LIMITATIONS.—Under Section 13, Article IV of the State constitution, the General Assembly has no power to incur State debt to an amount exceeding $50,000 without the consent of the people, except in time of war or of insurrection or invasion. In no case is the Assembly to pledge the faith of the State for the payment of obligations of others without the approval of the people. In reference to city debts, there is nothing in the constitution of Rhode Island limiting the amount of such obligations. The following, however, are two sections taken from Title 8, Chapter 46 (page 221) of the Revised Statutes of the State of 1909. Since 1878 these provisions have been in force, and consequently 3% of the taxable property has been the limit of the power of each town (which includes city) to create debt.

SECTION 20.—"The outstanding notes, bonds and contracts of towns shall be paid and be fulfilled according to the tenor thereof, and all public works now authorized to be prosecuted shall be prosecuted and all indebtedness now authorized to be incurred on account thereof may be incurred according to the tenor of the authority thereof."

SECTION 21.—"No town shall, *without special statutory authority therefor*, incur any debt in excess of three per centum of the taxable property of such town, including the indebtedness of such town on the tenth day of April, one thousand eight hundred seventy-eight; but the giving of a new note or bond for a pre-existing debt, or for money borrowed and applied to the payment of such pre-existing debt, is excepted from the provisions of this section, and the amount of any sinking fund shall be deducted in computing such indebtedness."

EXEMPTION FROM TAXATION.—Bonds and notes of the State are not subject to taxation. Loans of municipalities, we were advised Dec. 12 1911 by the Secretary of State, are taxable.

SAVINGS BANK INVESTMENTS, RESTRICTIONS, &c.—At the 1911 session of the Legislature the laws concerning Rhode Island savings bank investments were completely revised and materially altered in many respects. In 1912, 1914, 1917, 1918 and 1919 further amendments were made. See V. 94, p. 1397; V. 98, p. 1629; V. 104, p. 1824, and V. 106, p. 1741.

In the following we endeavor to give a comprehensive digest of the law as it stands at present.

Clause I, summarized, follows:

Clause I. Permits investments in (a) bonds or notes of the United States or any State or Territory which has not, in the ten years next preceding the time of investment, defaulted in the payment of its debt

(b) Bonds or notes of any city or town of the New England States or New York State which has not defaulted in ten years and whose net debt does not exceed 7% of the last preceding assessed valuation; or of any incorporated district of said States having over 5,000 inhabitants, or in New Hampshire, with a population of over 2,500, whose bonds are a direct obligation on all the taxable property of such district, and whose net debt does not exceed 5% of such valuation, and which bonds are provided for by a sinking fund or serial retirement.

(c) Bonds or notes of any city of the United States other than the New England States and New York State which has not defaulted during ten years, has 30,000 or more inhabitants, as established by the last national or State Census, or city Census certified to by the City Clerk or Treasurer of such city, and taken in the same manner as a national or State Census preceding such investment, and a net debt of not exceeding 7% of the last preceding assessed valuation, or the bonds and obligations of any incorporated school district within such city, payable primarily from taxes levied on all taxable property in such district; providing the population of the district is 30,000 or more, and the population and assessed valuation of the district are equal to at least 75% of the population and assessed valuation of the city within which such district is located.

(d) Bonds or notes of any county in the United States having a population of over 100,000 (according to National or State Census), and whose net indebtedness does not exceed 3% of the last preceding assessed valuation.

"Net Indebtedness—Definition.—(e) 'Net indebtedness' shall mean the total debt less sinking funds, the net outstanding water and sewer debts and the tax levy for the current year."

Clauses II to VI, inclusive, govern investment in railroad bonds, public service securities and bonds of telephone companies. The text of these clauses follows:

"Steam Railroad Bonds and Notes.—*Clause II.* In the bonds and notes and receivers' certificates of steam railroad orporations described herein below, in the 'table of eligible steam railroad bonds and notes,' subsections (a) to (y) inclusive, subject to the following definitions and classification:

"The words 'railroad' and 'railway' herein used are to be considered synonymous titles.

"The term 'funded indebtedness' herein used shall include all bonds and notes bearing interest.

"All 'income bonds' are ineligible.

"The eligibility of such bonds for such investments is defined as follows, unless hereinafter otherwise provided:

"**Definition.**—Ownership.—Such railroad corporation shall own its road in fee.

"Location.—The railroad of such corporation shall be located principally in the United States.

"Gauge.—The railroad of such corporation shall be of standard gauge.

"Mileage.—Such railroad must be not less than 100 miles in length, exclusive of sidings.

"Net income.—The net income of any such corporation shall be its earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed dividends and guaranteed interest paid by, or due from, it.

"The net earnings and income of any such corporation shall equal the following requirements by the following classes, to which reference is made in the succeeding table of bonds.

"**Classification.**—*Class I.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and suc-

cessive periods of one year, next preceding such investment, a net income of not less than twice the annual interest for the current year on all its funded indebtedness, including the bonds in question.

"*Class II.* Any such corporation of this class must have earned and received a net income, in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, not less than twice the annual interest for the current year on the underlying mortgage bonds in question, and all prior liens.

"*Class III.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than twice the annual interest for the current year on all its mortgage indebtedness outstanding, including the bonds in question.

"*Class IV.* Any such corporation of this class must have earned and received in each of its three fiscal years, or three nearer and successive periods of one year, next preceding such investment, a net income of not less than one and a half times the annual interest for the current year on all its funded indebtedness, including the bonds in question.

"Table of Eligible Steam Railroad Bonds and Notes.—(a) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is described in Class I.

"(b) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, which has leased its railroad to another such railroad whose net income is described in Class I; *Provided*, that such lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds or any prior lien or any other debenture bonds, together with a dividend of not less than four per centum per annum on the entire capital stock of the lessor corporation; and also provides for the proper maintenance and operation of the property leased.

"(c) Debenture bonds of any such steam railroad corporation, incorporated in any of the United States, guaranteed as to principal and interest or assumed by another railroad described in Class I.

"(d) Bonds of any such steam railroad corporation described in items (b) and (c), which are guaranteed as to principal and interest, or assumed by two or more steam railroads of which one shall be of Class I and the others may be of Class III or Class IV.

"(e) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is not less than that described in Class III.

"(f) Underlying mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, whose net income is not less than that described in Class II.

"(g) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed by another steam railroad, whose net income is described in Class I or Class III.

"(h) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which are guaranteed as to prinicpal and interest, or assumed, by two or more steam railroads, of which at least one shall be of Class I or Class III and the others may be of Class III or Class IV.

"(i) Mortgage bonds of any such steam railroad corporation, incorporated in any of the United States, which has leased its railroad to another steam railroad whose net income is described in Class I or Class III; *Provided*, that said lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds and any prior liens, together with a dividend of not less than four per centum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(j) Mortgage bonds of any such steam railroad corporation, incorporated in the United States, which has leased its railroad to two or more steam railroads, of which at least one shall be of Class I or Class III; *Provided*, that said lease shall be for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest, and sinking fund requirements, if any, on said bonds and any prior liens, together with a dividend of not less than four per centum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(k) First mortgage bonds or refunding mortgage bonds of any such steam railroad corporation which would be a legal investment under items (g), (h), (i) and (j), respectively, except for the fact that it owns in fee less than 100 miles of road, exclusive of sidings.

"(l) First mortgage bonds of any such steam railroad corporation, irrespective of mileage, which is a constituent part of a steam railroad and transportation system of not less than 1,000 miles of road, exclusive of sidings, and at least ninety per centum of the capital stock of which is owned by a proprietary holding company which operates said railroad and transportation system, and the earnings of which, with the earnings of the other divisions constituting said railroad and transportation system, are received by said holding company, and which bonds in question are fully guaranteed as to principal and interest by such holding company, either by direct guaranty, or by rental under lease extending at least ten years after the maturity of said bonds, the terms of which lease require a payment of rent equivalent to all taxes and interest, and provides a sinking fund sufficient to retire said bonds at maturity; *Provided, however*, that the net income of said holding company shall equal the requirements of railroads in Class I.

"(m) Bonds and debentures of any steam railroad corporation whose railroad property is unencumbered by mortgage, and whose net income is described in Class I; *Provided, however*, that such bonds or debentures shall be issued only under the authority of some State which provides by law that no such railroad corporation which has issued bonds shall subsequently execute a mortgage upon its railroad property without including in and securing by such mortgage all bonds previously issued by it and all its pre-existing debts and liabilities, which provision so enacted in such State shall have been accepted by the stockholders of such railroad company.

"(n) Bonds of any steam railroad corporation described in item (m) which has leased its railroad to another steam railroad for a term extending not less than ten years after the maturity of the bonds in question, which lessee railroad fully guarantees the principal and interest on said bonds; *Provided*, that said lessee railroad is one whose net income is at least up to the standard set in Class III; *and provided, further*, that said lease is for a term extending at least ten years after the maturity of the bonds in question, and that the rent from such lease is sufficient to meet the interest and sinking fund requirements, if any, on said bonds, together with a dividend of not less than four per centum per annum on the entire capital stock of the lessor corporation, and provides for the proper maintenance and operation of the property leased.

"(o) First mortgage bonds of any terminal company, or terminal railway company, incorporated in the United States, whose property is located in the United States, and whose bonds are guaranteed as to principal and interest by any such steam railroad corporation of Class I.

"(p) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, whose bonds are guaranteed as to principal and interest by two or more steam railroad corporations of Class I or Class III.

"(q) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, of which company at least ninety per centum of its capital stock is owned by two or more proprietary steam railroads of Classes I, III or IV, and which use said property, and jointly, or jointly and severally, guarantee the principal and interest of all the indebtedness of said company.

"(r) First mortgage bonds of any terminal company or terminal railway company, incorporated in the United States, whose property is located in the United States, which has leased its property to one or more steam railroad corporations which guarantee the principal and interest on said bonds, and which lease runs for a term extending at least ten years after the maturity of said bonds, and which lease provides for the maintenance and operation of the leased property; *Provided*, that, if such lease is to one steam railroad corporation, it shall be of Class I, and if such lease is to two steam railroad corporations, they may be of Classes I or III, and if such lease is to three or more steam railroad corporations, they may be of Classes I, III or IV.

"(s) First mortgage bridge bonds issued by any railroad corporation of Class I.

"(t) First mortgage bonds of any bridge company, incorporated in the United States, whose property is in the United States, whose entire indebtedness is guaranteed as to principal and interest by one or more steam railroad corporations; *Provided*, that, if such guarantee is by one such railroad corporation, it shall be of Class I, and if such guarantee is by two or more railroad corporations they may be of Classes I, III or IV.

"(u) First mortgage bonds of any bridge company, incorporated in the United States, whose property is in the United States and whose capital stock is entirely owned, except shares qualifying directors, by two or more proprietary steam railroad corporations of Classes I, III or IV which guarantee the maintenance of the property and the principal and interest of such bonds.

"(v) Equipment bonds or equipment notes issued by any steam railroad corporation of Class I, Class III or Class IV which are secured by a first lien on the equipment against the purchase of which said bonds or notes were issued at not exceeding eighty per centum of the purchase price thereof; *Provided*, that the indenture under which said lien is established contains adequate requirements for the maintenance of the property pledged, and provides that an equal amount of any issue of such bonds or notes shall be paid annually until all are retired without the release of the lien on any of such equipment.

"(w) Notes, warrants and obligations, running for a term of not more than five years from date of issue, given by any steam railroad corporation which has earned and paid dividends at the rate of not less than four per centum per annum on all its outstanding capital stock for five years next prior to the date of issue.

"(x) Certificates of indebtedness commonly termed 'receiver's certificates' issued by a receiver of any such steam railroad under an authorization of the court or courts having jurisdiction over such receiver.

"(y) First mortgage bonds and refunding mortgage bonds of any steam railroad, incorporated and whose property is principally located in the Dominion of Canada, which conform in all respects to the provisions applying to mortgage bonds of steam railroad corporations in the United States.

"Change of Motive Power.—*Clause III.* The change of motive power by any steam railroad corporation, whether wholly or in part, shall not affect the eligibility, for such investment, of any of the steam railroad obligations hereinbefore described, so long as its earnings conform with the foregoing requirements.

"Railroad Stocks.—*Clause IV.* (a) In the shares of the capital stock of any steam railroad which has leased its railroad to another steam railroad, which operates the property so leased as a part of its railroad system; *Provided*, that such lease is for a term of not less than fifty years, and the lessee company is one whose bonds would be a legal investment under the provisions of Clause II, Class III, and that by the terms of the lease the lessee company is obliged to pay rents sufficient to pay the interest on the outstanding bonds of the lessor and a dividend at an annual rate of not less than four per centum per annum on all the capital stock of the lessor company.

"(b) In the shares of the capital stock of any steam railroad which operates its own railroad whose bonds would be an eligible investment under Clause II, Class I; *Provided*, that such railroad has paid regular annual dividends on all its capital stock at the rate of not less than four per centum per annum for ten years next preceding such investment.

"(c) The aggregate investment of such deposits and income by any bank, savings bank or trust company in the stock of any one such steam railroad corporation at par value shall not exceed two per centum of said deposits held by it.

"Public Service Securities.—*Clause V.* In the bonds of public service corporations, commonly called 'public service securities,' described hereinbelow in the 'table of eligible public service securities,' sub-sections (a) to (j), inclusive, subject to the following description and definition:

"The title 'public service securities' shall include only mortgage bonds issued by any electric railroad, street railway, gas company, electric light or power company, or water company, as hereinafter described.

"The term 'funded indebtedness' herein used shall include all bonds and notes bearing interest.

"Descriptive Definition.—Ownership.—Such corporation shall own the major part of its property in fee.

"Location.—The property of such corporation shall be located principally in the United States, unless otherwise provided.

"Net Income.—The net income of such corporation shall be its net earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed interest and guaranteed dividends paid by, or due from, it.

"Eligibility for such investment.—Such corporation must have earned and received a net income in each of its three fiscal years, or three nearer periods of one year, next preceding such investment not less than twice the annual interest for the current year on all its indebtedness secured by the mortgage under which the bonds in question are issued and all prior liens, unless otherwise hereinafter specified, and shall not have defaulted on any of its obligations during the same period; *Provided, however*, that said bonds shall mature at least five years before the expiration of the principal franchise or franchises under which such corporation is operated, or there shall exist some definite agreement or contract with the grantors whereby such franchise or franchises may be renewed or extended from time to time throughout and beyond the life of the bonds in question, and or that by such an agreement or contract the security of said bonds is adequately protected and preserved to the bondholders, and a copy of such agreement or contract shall be filed in the office of the Bank Commissioner and shall be preserved in his files during the life of the bonds in question.

"Table of Eligible Public Service Securities.—(a) Mortgage bonds of any such electric railroad, street railway, gas, electric light or power company, incorporated under the laws of Rhode Island, whose property is located and operated chiefly in this State.

"(b) Mortgage bonds of any such electric railroad, street railway, gas and electric light or power company, incorporated under the laws of any of the United States; *Provided, however*, that the said bonds of any such electric railroad or street railroad company shall be a legal investment for such deposits and income only in case such company shall have received average gross earnings of not less than four hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment, and if said bonds are issued by a company which carries on the business of an electric railroad or street railway combined with that of either a gas company or an electric light or power company, or both of such kinds of business, then, in such case, such company shall have received average gross earnings of not less than six hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment; and if said bonds are issued by any such gas company or electric light or power company, or by a company which combines the business of a gas company and an electric light company, and, or, power company, or any two such businesses, then, in such case, it shall have received average gross earnings of not less than two hundred thousand dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment.

"(c) First or refunding mortgage bonds of any such electric railroad, treet railway, gas, electric light or power company incorporated in any of the United States, which are in operation and show substantial net earnings and which are guaranteed as to principal and interest or assumed by another corporation whose bonds would be a legal investment under the provisions of paragraph (b) of this clause.

"(d) First or refunding mortgage bonds of any such electric railroad or street railway, incorporated in any of the United States, which are guaranteed as to principal and interest, or assumed by a steam railroad or railroads whose bonds would be a legal investment under the provisions of Class III of the classification of steam railroads herein.

"(e) First or refunding mortgage bonds of any such electric railroad, street railway, gas, electric light or power company which has leased its property to any other corporation whose bonds would be a legal investment under the provisions of paragraph (b) of this clause; *Provided, however*, that said lease shall extend for a term of at least ten years after the maturity of said bonds at a rental at least equal to the fixed charges and taxes of the lessor, including the interest on, and a sinking fund for, the bonds in question, or provides for the payment of said bonds at maturity, and shall require the operation and maintenance of the leased property; *and provided, further*, that an authentic copy of such lease shall be filed in the office of the Bank Commissioner, and such copy shall be preserved in his files during the life of the bonds in question.

"(f) Equipment bonds or equipment notes issued by any such electric railroad or street railway which are secured by a first lien on the equipment against the purchase of which said bonds or notes were issued at not exceeding eighty per centum of the purchase price thereof; *Provided*, the indenture under which said lien is established contains adequate requirements for the maintenance of the property pledged and provides that an equal amount of such bonds or notes shall be paid annually until all are retired, without the release of the lien on any of such equipment.

"(g) Certificates of indebtedness, commonly termed 'receiver's certificates,' issued by a receiver of any such electric railroad, street railway, gas

electric light or power company under an authorization of the court or courts having jurisdiction over such receiver.

"(h) First mortgage bonds of any electric railroad, street railway, gas, electric light or power company, described in paragraph (b) of this clause, which is incorporated in the Dominion of Canada, and whose property is located principally in said Dominion; *Provided*, that such bonds conform in all other respects to the provisions of paragraph (b), (c), (d), (e) or (f) of this clause.

"(i) Bonds of any corporation which owns more than ninety per centum of the capital stock and of the outstanding bonds of any electric railroad or street railway company, incorporated in this State, the railway of which is located wholly or in part therein, secured by the deposit in trust of the said stock and bonds as collateral, and which corporation has paid, in each fiscal year for the five years last preceding such investment, dividends of not less than four per centum per annum upon all its outstanding capital stock; or the bonds of any such electric railroad or street railway company which are secured by mortgage on its property and are guaranteed as to principal and interest by any such corporation.

"(j) First mortgage bonds of any company incorporated in this State for the purpose of supplying water for domestic and other purposes; *Provided*, that such company has an exclusive franchise to serve a population of not less than ten thousand in this State, which franchise extends at least five years beyond the life of the bonds in question, and that said bonds are secured by a mortgage of the property, rights and franchises of such company.

(k) Notes, warrants and obligations, running for a period of not exceeding ten years from date of issue, of any electric railroad, street railway, gas and electric light or power company such as is described in paragraph (b) of this clause, and which has earned and paid dividends at the rate of not less than 4% per annum on all its outstanding stock for a term of not less than five years next prior to the date of issue; and in the notes, warrants and obligations, running for a period of not exceeding ten years from date of issue, of any such corporation which are secured by the deposit of collateral security having value in excess of the amount loaned of not less than 20%.

"Bonds of Telephone Companies.—*Clause VI.* In the bonds of any Telephone Company incorporated in any of the United States, whose property is located chiefly in the United States, subject to the following description and definition:

"The term 'Funded Indebtedness' herein used shall include all bonds and notes bearing interest.

"Descriptive Definition.—Location.—The property of such corporation shall be located principally in the United States.

"Net income.—Net income of such corporation shall be its net earnings and income after payment of all operating expenses, maintenance charges, rentals and taxes, and all guaranteed interest and guaranteed dividends paid by, or due from it.

"Eligibility for such investment.—Such corporation must have earned and received a net income in each of its three fiscal years, or three nearer periods of one year each, next preceding such investment, of not less than twice the annual interest for the current year on all its indebtedness secured by the indenture under which the bonds in question are issued, and all prior liens, unless otherwise hereinafter specified, and shall not have defaulted on any of its obligations during the same period.

"Table of eligible telephone company bonds.—(a) Mortgage bonds of any such telephone company incorporated under the laws of any of the United States: *Provided, however*, that the said bonds of any such telephone company shall be a legal investment for such deposits and income only in case such company shall have received average gross earnings of not less than one million dollars in each of its three fiscal years, or three nearer period of one year, next preceding such investment.

(b) Debenture bonds of any such telephone company incorporated under the laws of any of the United States where definite covenant is made by the company that said debenture issue shall be equally secured with any future mortgage lien that may be later made by the company: *Provided, however*, that such company shall have received average gross earnings of not less than two million dollars in each of its three fiscal years, or three nearer periods of one year next preceding such investment.

(c) First or refunding mortgage bonds of any such telephone company incorporated in any of the United States which is in operation and which shows substantial net earnings and which are guaranteed as to principal and interest or assumed by another corporation whose bonds would be a legal investment under the provisions of paragraph (a) or (b) of this clause.

(d) First or refunding mortgage bonds of any such company which has leased its property to any other corporation whose bonds would be a legal investment under the provisions of paragraphs (a) or (b) of this clause: *Provided, however*, that said lease shall extend for a term of at least ten years after the maturity of said bonds, at a rental at least equal to the fixed charges and taxes of the lessor, including the interest on, and a sinking fund for, the bonds in question, or provides for the payment of said bonds at maturity and shall require the operation and maintenance of the leased property; and *provided, further*, that an authentic copy of such lease shall be filed in the office of the bank commissioner and such copy shall be preserved in his files during the life of the bonds in question.

(e) Certificates of indebtedness commonly termed receiver's certificates issued by a receiver of any such telephone company under an authorization of the court or courts having jurisdiction over such receiver.

(f) Collateral trust bonds of any such telephone company secured by the deposits with a trust company of bonds and of shares of stock of other telephone companies, under an indenture of trust which limits the amount of bonds so secured to not more than 75% of the value of the securities deposited as stated and determined in said indenture, and provided that the company issuing such collateral trust bonds shall have received average gross earnings of not less than five million dollars in each of its three fiscal years, or three nearer periods of one year, next preceding such investment and *provided, further*, that such telephone company shall have earned and paid cash dividends on all its outstanding issues of stock at the rate of not less than 6% per annum during each of its five fiscal years next preceding such investment.

(g) Notes, warrants and obligations, whether secured by collateral or unsecured, running for a period of not exceeding ten years from date of issue, of any telephone company such as is described in paragraph (a) of this clause and which has earned and paid cash dividends on all its outstanding issues of stock at the rates of not less than 6% per annum during each of its five fiscal years next preceding such investment.

A true copy of the mortgage or indenture of trust securing said bonds shall be filed in the office of the bank commissioner and shall be preserved during the life of said bonds.

The aggregate investment of such deposits and income by any bank, savings bank or trust company in the bonds of any one such telephone company at par value shall not exceed 2% of said deposits held by it.

Under Clause VII a bank may invest in the capital stock of any bank or trust company incorporated under the laws of any of the New England States, or New York State, or of any national banking association doing business in these States. Holdings both by investment and as security for loans are limited to not more than 25% of a bank's deposits. No more than 3% of the deposits shall be invested in the stock of any one such corporation, nor shall such corporation hold, both by investment and as security for loans, more than one quarter of the capital stock of any one such bank, trust company or national banking association. Clause VIII concerns limit of deposits in any one bank.

Clauses IX, X and XI deal with real estate mortgages and personal securities. Clause IX was amended in 1919. The text of these three clauses reads:

"Real Estate Mortgages.—*Clause* 9. In the bonds of the Federal Land Banks organized pursuant to the provisions of an Act of Congress approved July 17 1916: *Provided*, that not more than 3% of the deposits of any bank shall be invested in said bonds.

"In loans secured by first mortgage on real estate subject to the following restrictions:

"No such loan shall be made except upon the report of not less than two officers, or trustees, or directors, or agents duly authorized to the duty by the board of trustees or directors, who shall certify according to their best judgment to the value of the premises to be mortgaged. Such report and certificate shall be in writing, and shall be filed and preserved in the records of the corporation.

"Loans on improved real estate shall not exceed 60% of such valuation.

"Loans on unimproved real estate shall not exceed 40% of such valuation.

"The aggregate amount of such loans shall not exceed 70% of such deposits, and of this authorized amount, not exceeding 30% thereof shall be on real estate located out of Rhode Island.

"In event of any such mortgage loan continuing for five years unreduced in amount, the property upon which such loan is secured, shall be re-examined and revalued, and a written report and certificate of the condition and value of the property at the time of such re-examination, shall be filed and preserved in the records of the corporation after the manner provided for a new loan, and such an examination and revaluation shall be made as often as every fifth year, until such loan is paid. If at the time of any such revaluation it shall appear that the property mortgaged has depreciated in value so that the loan secured thereby is in excess of the percentage limit of such value herein permitted for such loans, a reduction in the amount of the loan shall be required and secured as promptly as is practicable until the margin of safety is restored."

"Personal Securities.—*Clause X.*—(a) In the note or notes of an individual, copartnership, or corporation, with a pledge of any of the securities described in Clause I, Clause II, Clause IV, Clause V, or Clause VI, or Clause VII, of this chapter, the market value of which securities shall be at least twenty per centum in excess of the amount secured, which margin must always be maintained.

"(b) In the note or notes of an individual, copartnership, or corporation, secured by the pledge as collateral of shares of the capital stock of any steam railroad company or companies incorporated in any of the United States, or the Dominion of Canada, whose road is located wholly or in part in said countries, and which is in possession of and is operating its own road, and has earned and paid regular dividends of not less than four per centum per annum in each fiscal year on all its issues of capital stock, for five years last preceding such investment, which shares are listed either on the New York, Boston, Philadelphia, or Chicago stock exchange, and the market value of which collateral shall be at least twenty per centum in excess of the amount secured, which margin must always be maintained; such note or notes to be paid or renewed within one year from the date thereof.

"(c) In the note or notes of any individual, copartnership, or corporation, secured by pledge, as collateral, of the capital stock of any national banking association, or of any bank or trust company incorporated under the laws of the State in which it is located, other than the New England States or the State of New York, which banking association, bank or trust company is a member of the clearing house of any city of the United States which has a population of more than two hundred thousand inhabitants, as ascertained by the last national or State census preceding such investment, which securities shall have a fair market value of at least twenty-five per centum in excess of such note or notes so secured, which margin shall always be maintained, and in no case shall an aggregate of more than ten per centum of such deposits be loaned on such bank and trust company stocks, nor more than two per centum of such deposits on the stock of any one such bank or trust company.

"(d) In loans to any depositor in such corporation upon the personal note of such depositor to an amount not exceeding ninety per centum of any such deposit: *Provided*, that the deposit and deposit book of any such depositor, with a properly executed assignment thereof, shall be held by such corporation as security for such loan.

"Other Personal Securities.—*Clause XI.*—If such deposits and income cannot be satisfactorily invested in the modes provided in Clauses I to X, inclusive, an amount not exceeding one-third part of such deposits may be invested in promissory notes or other personal securities, payable and to be paid within one year from the date thereof, with at least one responsible surety or secured by collateral with a market value of at least twenty per centum in excess of the amount loaned thereon, excepting that the margin required in the case of certain bank and trust company stocks, provided for in subsection (c) of Clause X, shall be observed, which margin must always be maintained:—or, not exceeding one-third of said one-third part of such deposits may be loaned on single name promissory notes of solvent individuals, firms or corporations, engaged in mercantile and manufacturing business, that make sworn statements of their condition, duly ascertained and certified to by a certified public accountant, and a true copy of such statement and certificate shall be held by the bank, savings bank or trust company making such loans of savings or participation deposits: *Provided, however*, that such single name paper shall read for a term of not exceeding six months, and that all such investments shall be duly approved by at least two of the trustees or directors of the bank, savings bank, or trust company so investing the savings or participation deposits held by it:—*and it is further provided*, that no savings bank shall loan an amount in excess of two per centum of its deposits to any individual, firm, association or corporation, including in the liabilities of a partnership or association the liabilities of the several members thereof, either direct or as endorser, and including in the liabilities of an individual his or her liabilities to such savings bank as endorser or surety.

Clause XII permits investment in the note or notes of a gas, water, electric light or power, telephone, electric railroad or street railway company incorporated, or doing business, in this State, which has paid dividends of at least 4% in each fiscal year upon all its issues of capital stock for 5 years next preceding the date of such investment; *Provided*, the principal of said note or notes matures at a time not exceeding 3 years from the date of investment therein; *and provided, further*, that said note or notes shall mature at least 5 years before the expiration of the principal franchise or franchises under which said gas, electric light or power, telephone, electric railroad or street railway company are operated; *and provided, further*, that the aggregate amount so invested by any bank, savings bank or trust company in the note or notes of any such corporation, together with the bonds and other securities of such corporation held, shall not exceed 2% of said deposits held by it.

Clause XIII permits the bank to hold real estate acquired by foreclosure or mortgage, or by purchase, or by judgments, or in settlement of debts, but the provision is made that such property is to be disposed of within 5 years after taking title.

Securities taken in settlement of debt may be held under Clause XIV, but the non-legal securities so obtained shall be sold within five years after being acquired, unless the time is extended.

Clauses XV to XVIII, inclusive, read:

"General Provisions.—*Clause XV.* (a) Securities acquired after the passage of this Act, which were legal investments when acquired, need not be disposed of if it happens afterwards that the net income of the corporation issuing such securities shall fall below the limit fixed by this Act, or, in the case of a city, county, town or district, if the debt limit is exceeded, unless, in the judgment of the Commissioner, it is hazardous to retain the same, in which case said Commissioner may give directions in writing requiring the disposal of such securities, and when such directions are given, such securities shall be disposed of within one year from the date of such notice, unless an extension of time is granted by said Commissioner.

"(b) Bonds which are legal investments under the foregoing provisions of this chapter and are secured by a mortgage which provides for payments to a sinking fund shall cease to be legal investments if the corporation issuing such bonds shall at any time fail to make such payments. And such bonds shall not be legal investments under the provisions of this section so long as any such payment is in arrears and unpaid.

"(c) If a corporation is formed by a consolidation or merger of two or more corporations, and it is desired to ascertain the legality of the bonds of the successor corporation for investment of savings deposits, the earnings and income of the several predecessor and constituent corporations shall be consolidated, and the aggregate corporate income so ascertained shall be regarded as that of one and the same continuous corporation represented by the successor corporation; or, if a corporation shall acquire by purchase the property and franchises of another corporation, and a bond issue is made for the financing of the transaction, the legality of the bonds so issued with the other bonds of the purchasing corporation shall be ascertained by the same process as in the case of a consolidation or merger above provided, subject to the rules applying to the several classes of corporations described under the preceding clauses of this chapter.

"(d) If the net earnings and income of any corporation whose bonds have been a legal investment under the provisions of this chapter shall fall somewhat below the requirements of this chapter for a period of not exceeding two successive fiscal years, and in the following year such earnings and income shall be restored to the required amount, said corporation after such restoration of income, shall be regarded as having complied with said requirements during said period, but during the period of failure to earn the required amount no investment shall be made in the bonds of a corporation so situated.

"(e) Serial maturities of bonds shall be considered equivalent to sinking fund provisions.

"Of the Segregation of Assets.—*Clause XVI.* (a) Every bank or trust company which maintains a savings or participation department, or solicits or receives deposits as savings or on participation, shall invest all deposits therein, or so received, according to the requirements of this chapter, and such deposits, invested or uninvested, shall be set apart for the exclusive protection of the deposits in said savings or participation department, and shall not be liable for, or be used to pay, any other obligation or liability of such bank or trust company until after the payment of all the deposits in said savings or participation department.

"(b) The foregoing provision as to the character of the investment of savings or participation deposits shall not render illegal any investments of such deposits made prior to May 26 1908, nor compel the change of such investments for those prescribed by this chapter, except as hereinafter provided.

"(c) If any bank or trust company shall continue to hold such investments of non-legal character made prior to May 26 1908 which, in the opinion of the Bank Commissioner, are hazardous and unsafe for the investment of savings deposits, said Commissioner may, by giving notice in writing, require such bank or trust company to dispose of such investments, to substitute other investments of a character in conformity with the requirements of this chapter within one year from the date of receipt of such notice, and said bank or trust company shall make such disposal or substitution in accordance with such requirement; but if it shall appear on written request of such bank or trust company that additional time is reasonably necessary in which to make such disposal or substitution in order to avoid unnecessary sacrifice, said Commissioner may grant a reasonable extension of time for the compliance herewith.

"(d) If any investment of the savings or participation department of any bank or trust company, which has been set apart as provided in (a) of this clause, shall be in default in payment of either principal or interest, such investment shall promptly be reduced in its book value approximately to the market value of the same.

"(e) The uninvested funds of the savings or participation department of any such bank or trust company shall be kept in a distinct deposit account or accounts or demand certificates of deposit in such manner that the same can be readily identified as clearly belonging to the segregated assets of such savings or participation deposits.

"(f) Every bank or trust company shall keep an accurate account wherein shall appear a complete list of the assets set apart for the exclusive protection of savings or participation deposits held by it, showing the par value, book value, and, periodically, as often as a report is made to the Bank Commissioner shall enter in such account the fair market value of each of the investments of said assets.

"(g) The Bank Commissioner in requiring the substitution of investments under the provisions of (c) of this clause shall not require changes or substitutions aggregating in any one year more than two per centum of the savings or participation deposits of any such trust company at the time of the passage of this Act

"Of Savings Bank Investments Made Before the Passage of This Act.—*Clause XVII.* (a) The provisions of this chapter shall not render illegal any investments held by any savings bank prior to May 26 1908, nor require the change of any such investment for those herein prescribed for the investment of savings deposits; *Provided, however*, if any savings bank shall hold any such investment or investments which are in default in the payment of interest or dividends thereon, or which, at any time, in the opinion of the Bank Commissioner, are hazardous or unsafe for the investment of savings deposits, the Bank Commissioner may by notice in writing require such savings bank to dispose of such investments; and such savings bank within one year from the receipt of such notice, unless such time shall be extended by the Commissioner, shall dispose of the same; *Provided, further*, said Commissioner shall not require the disposal of investments aggregating in value in any one year more than two per centum of the amount of the deposits of such savings bank.

"Defaulted Bonds.—*Clause XVIII.* If any bonds held by any savings bank shall be in default either in principal or interest, such investment shall promptly be reduced in its book value approximately to the market value of the same."

Clause XIX relates to "loans to officers of savings banks."

Clause XX provides that bonds bought below par shall be entered on the books and returns of the corporation holding the same at the actual cost price thereof, and the discounts in the price thereof may, by an equal annual amortization, be extinguished so as to gradually bring the book value thereof to par at maturity.

Clauses XVI and XVII read:

"Borrowing by Savings Banks."—*Clause XXI.* It shall not be lawful for any savings bank to borrow money for the purpose of investing or loaning the same, but this shall not be so construed as to prevent any savings bank from borrowing for the purpose of meeting a run or unusual withdrawals by its depositors, and in no case shall such borrowing exceed 10% of the deposits of any such savings bank, and the provisions of Clause XXII of this section shall constitute a further exception to such prohibition against borrowing. The note or notes given may be issued either on the general credit of the corporation or on pledge of securities owned, and shall be made only upon authority granted by vote of the board of trustees, or of the investment committee if specifically authorized so to do, and shall contain a reference to the minutes of the meeting at which the authority to borrow was voted. All such notes shall be executed in the name of the corporation by its Treasurer and shall bear the corporate seal of the corporation, and shall be countersigned by the President or Vice-President and two members of the investment committee. No general authority to borrow shall be voted by the trustees or the investment committee, but all borrowings shall be only upon a specific vote relating to the note to be issued. In event of such borrowing, such savings bank shall not make any new investment or loan until the note or notes given are all paid."

Clause XXII. It shall be lawful for any savings bank to borrow money for the purpose of purchasing bonds or other evidence of indebtedness of the United States, issued on or after the first day of April 1918, provided that in no case shall the aggregate amount of the sum so borrowed exceed 10% of the amount of the deposits of any such savings bank. The note or notes given in payment therefor shall be made only upon authority granted by vote of the board of trustees, or of the investment committee if specifically authorized so to do, and shall contain a reference to the minutes of the meeting at which the authority to borrow was voted. All such notes shall be executed in the name of the corporation by its Treasurer, shall bear the corporate seal of the corporation and shall be countersigned by the President or Vice-President and two members of the investment committee. No general authority to borrow shall be voted by the trustees or the investment committee, but all borrowing shall be upon only a specific vote relating to the note to be issued.

JOHNSTON.

This town is in Providence County and was incorporated Mch. 6 1759. On June 1 1898 a portion of this town, representing about five-sevenths of the assessed valuation, was annexed to the City of Providence. The commission appointed to apportion the debt to be assumed by the city of Providence reported that the city's share of the net debt was $255,720.64, leaving $101,677.48 as the town debt remaining. Bonds Numbers 151 to 191 (all inclusive) remain as an obligation of the town of Johnston. The bonds given below are those remaining as an obligation of the town after division. Chap. 882, Laws of 1912, increases the limit of debt which may be incurred by this town (not counting temporary loans) to 5% of the taxable property.

Attorney-General (term exp. Jan. 1929)...Frank E. Healy

LEGISLATURE meets biennially in odd years on the Wednesday following the first Monday in January. A constitutional amendment adopted in Oct. 1911 limits the length of each session to the first Wednesday after the first Monday in June. V. 95, p. 1435.

HISTORY OF DEBT.—For early history of the Connecticut State debt see "State and City Supplement" of April 1895, page 36. The 3½% bonds below, it is provided, "shall be exempt from taxation by or under State or municipal authority." The 4s are also exempted from taxation, but the Act provides that "this exemption shall not be construed to apply to corporations taxed under the provisions of Section 2331, General Statutes, and amendments thereof." Connecticut's debt now is as follows:

Name and Purpose.		—Interest— Rate.	Payable.	—Principal— When Due.	Outstand'g.
State bonds	1909	3½	A-O	*April 1 1934	$2,955,000
do do	1911	4	J-J	July 1 1936	11,336,000
War loan	1865	Ceased		Oct. 1 1885	100
Permanent improvement bonds	1921	5	J-J	July 1 1936	2,000,000

* Subject to call after April 1 1924.

INTEREST on all bonds is payable in Hartford, Conn.. but checks are mailed on request.

TOTAL DEBT &c.—	*July* 1 '22.	*July* 1 '21.	*July* 1 '20.	**July* 1 '19.
Total bonded debt	$16,291,100	$14,291,100	$14,291,100	$11,791,100
Civil list funds	1,192,933	86,009	875,196	2,659,885
Sinking fund.z	10,245,742	9,214,249	8,788,162	8,332,255
Net bonded debt	$4,852,425	$4,990,842	$4,627,742	$798,960

Temporary loans to the amount of $500,000 were also outstanding on June 30 1922. Cash balances, exclusive of sinking funds, at that time amounted to $1,192,933.31.

* The General Assembly in 1919 changed the date of the fiscal year from Sept. to June 30.

z The General Assembly of 1915 enacted a law providing for a sinking fund of $500,000 annually, to be taken from the State tax on the towns and used in the purchase of State or municipal bonds. The bonds so purchased are to be held and the proceeds, with the interest on the purchased bonds are to be used for the redemption, at maturity, of all State bonds. This law was repealed in 1919 after four such annual appropriations had been made. Appropriations of $3,000,000 were also made by each of the General Assemblies of 1917 and 1919, making a total of $8,000,000 set aside for the sinking fund. The 1921 legislature again authorized the setting aside of $500,000 annually from State tax on towns to be placed in sinking fund. On June 30 1922 the fund had $10,144,000 invested in United States obligations, besides $101,742.07 cash on hand.

The General Assembly of 1921 authorized the Treasurer to issue $3,000,000 deficit bonds, to mature $1,000,000 on July 1 1924, 1925 and 1926, and $2,000,000 State institutions building and improvement bonds, to mature July 1 1936. The latter issue has been sold.

ASSESSED VALUATION.—Assessed value believed to be fair value.

Years.	*Tax Valuation.*	*Years.*	*Tax Valuation.*	*Years.*	*Tax Valuation.*
1921	$1,962,763,631	1915	a$1,174,551,713	1909	$965,629,807
1920	1,935,355,236	1914	a1,105,081,413	1905	712,519,166
1919	1,661,776,728	1912	1,102,990,545	1900	694,200,162
1918	a1,464,602,164	1911	1,041,334,019	1895	444,321,927
1917	a1,375,708,933	1910	997,500,664	1888	354,557,515
1916	a1,278,357,574				

a State tax of $2,000,000 apportioned to towns on basis of taxes collected.

These valuations do not include steam or electric railroads, banks, insurance or investment companies and only a small portion of cash, bonds or notes.

Under Chapter 106, as amended by Chapter 165, Laws of 1901, the State collects the tax on every bank, national banking association, trust, insurance, investment and bridge company whose stock is not exempt from taxation, and remits the amount so collected to the various city and town treasurers. The value of such stocks was previously included in the grand st of each town.

POPULATION OF STATE.—Population has been as follows:

1920	1,380,631	1880	622,700	1840	309,978	1810	261,942
1910	1,114,756	1870	537,454	1830	297,675	1800	251,002
1900	908,420	1860	460,147	1820	275,248	1790	237,946
1890	746,258	1850	370,792				

DEBT LIMITATION.—The constitution of Connecticut contains but a single provision restricting the debt-making power. The provision is Article 25, adopted as an amendment in 1877, and is as follows:

No county, city, town, borough or other municipality shall ever subscribe to the capital stock of any railroad corporation, or become the purchaser of the bonds, or make donation to, or loan its credit, directly or indirectly, in aid of, any such corporation; but nothing herein contained shall affect the validity of any bonds or debts incurred under existing laws, nor be construed to prohibit the General Assembly from authorizing any town or city to protect by additional appropriations of money or credit any railroad debt contracted prior to the adoption of this amendment.

The foregoing is explicit and comprehensive, covering every municipality.

There were formerly no general restrictions upon the issue of bonds in the statutes, such restrictions as were provided from time to time being inserted in enabling Acts and in city charters. As to towns, indeed, Section 1931, Chapter 121, of the Revised Statutes of 1902 granted unlimited power to issue bonds. The 1915 Legislature, however, by Chapter 318 passed an Act, amended by the 1921 session, which is as comprehensive as it is simple. It is defined as "An Act limiting the indebtedness which towns and municipal corporations may incur," and provides that: "No municipality or subdivision thereof shall incur any indebtedness, through the issue of bonds, in excess of five per centum of its grand list, unless otherwise provided by special Act," and that "in computing the net bonded indebtedness subject to the limit prescribed by this Act, bonds issued for the supply of water, gas or electricity, or any or all of the same, shall not be included or considered.

TAX EXEMPTION.—A law was enacted by the 1917 Legislature, exempting from taxation within the State all bonds, notes and other evidences of indebtedness issued after April 1 1917 by the U. S. Government, and by any county, town, city, borough or other municipal taxing district in this State. The full text of the new law was given in the "Chronicle" of April 21 1917, page 1617.

SAVINGS BANK INVESTMENTS—PRIVILEGES AND RESTRICTIONS.—A complete revision of the law concerning investments by savings banks was made by the 1919 Legislature. The 1921 Legislature amended sub-section 20 of section 3972 extending for a two-year period the provision that railroad bonds which were legal investments for savings banks at the time when the Federal Government took over the operation of the roads shall not become illegal investments by reason of such operation. The 1921 Legislature also passed an act permitting savings banks to invest two per cent of their deposits and surplus in equipment obligations issued by the National Railway Service Corporation. In 1923 the law was amended in two particulars (V. 116, p. 2545). The restriction placed in subdivision 21 upon the amount that a savings bank may invest in railroad equipment trust notes, bonds or certificates was raised from 2% to 6% of deposits and surplus, but the amount that may be placed in such securities of any one road is limited to 2% of deposits and surplus. The other amends subdivision 23 in relation to water companies in Connecticut. It makes eligible for investment, in addition to bonds of such companies supplying communities having a population of not less than 15,000, bonds of any company which has had gross receipts for water service in Connecticut in amount of more than $50,000 yearly for five consecutive years, and whose franchise is an exclusive one in the territory served by it. The text of the law as it now stands follows:

Savings banks may invest their deposits and surplus only as provided in chapter 204 of the General Statutes: (1) In the stock or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the principal and interest, including the bonds of the District of Columbia; (2) not exceeding ten per centum of their deposits and surplus in bills of exchange drawn by the seller on the purchaser of goods and accepted by such purchaser, provided such bill of exchange is indorsed by any national bank, member of a Federal Reserve bank, State bank or trust company in this State, or in the city of Boston, Massachusetts, the city of Providence, Rhode Island, the city of New York, New York, or the city of Philadelphia, Pennsylvania, and in the acceptance authorized by section 13 of the Federal Reserve Act of the United States or any amendment thereto, of any national bank, or member of a Federal Reserve bank, in this State, in the city of Boston, Massachusetts, the city of Providence, Rhode Island, the city of New York, New York, or the city of Philadelphia, Pennsylvania, or of any State bank or trust company in this State which may be authorized to issue such acceptances, nor shall the amount invested in such acceptances and bills of exchange of any one bank by any savings bank, when added to the sum of any funds deposited by the savings bank in such bank, exceed thirty per centum of the capital stock, surplus and undivided profits of said depositary bank; (3) in the stock or bonds or interest-bearing obligations of any State of the United States which was admitted to Statehood prior to January 1 1896, which has not, within ten years previous to making such investment by such corporation, defaulted for more than ninety days in the payment of any part of either principal or interest of any debt authorized by the Legislature of such State to be contracted; and in the bonds or interest-bearing obligations of any such State of the United States which have been issued and outstanding for a period of at least ten years previous to making such investment by such corporation, and which have been issued in pursuance of the authority of the Legislature of such State, (a) for the funding or settlement of any previous obligation of such State theretofore in default, or (b) for the refunding of such funding or settlement obligation of such State theretofore in default, and on which said funding or settlement obligation or obligation issued to refund the same there has been no default in the payment of either principal or interest since its issue, provided the authorization of any obligation by the Legislature of any such State hereinbefore referred to shall not have been in violation of any constitutional provision, and provided such bond or interest-bearing obligation shall be the direct obligation of such State and the faith and credit of the State shall be pledged for its payment, principal and interest; (4) in the obligations of any county, town, city, borough, school district, fire district or sewer district, in this State; (5) in the stock or bonds of any incorporated city situated in one of the States of the United States which was admitted to Statehood prior to January 1 1896, and which was incorporated as a city, under the same or a different name, at least twenty-five years prior to making such investment, and which has not less than twenty thousand inhabitants, as ascertained by the United States or State Census, or any municipal census taken by authority of the State, next preceding such investment, provided the amount of the bonds of such city, including the issue in which such investment is made, and its proportion, based on the valuations of property therein for the assessment for taxation next preceding such investment, of the county and town debt, after deducting the amount of its water debt and the amount of the sinking funds which are available for payment of its bonds other than water bonds, does not exceed seven per centum of the valuation of the taxable property in such city, to be ascertained by the valuation of property therein for the assessment of taxes, next preceding such investment, and provided, the city issuing such bonds, or the State in which it is located, has not defaulted for more than ninety days in the payment of any of its funded indebtedness or interest thereon within fifteen years next preceding the purchase of such bonds by the savings bank. The provisions of this sub-division shall not authorize the investment of funds in any "special assessment" or "improvement" bonds, or other bonds or obligations which are not the direct obligations of the city issuing the same, and for which the faith and credit of the issuing city are not pledged. A city or State shall be considered to be in default within the meaning of this section while any unpaid and overdue obligation, either principal or interest, shall be outstanding; (6) in the bonds or interest-bearing obligations issued by a railroad corporation organized under the laws of any of the New England States, and owning in fee not less than three hundred miles of railroad located in said States, and which has paid in dividends in cash an amount equal to not less than four per centum per annum on its outstanding shares of capital stock in each fiscal year for the 5 years next preceding such investment, or in the bonds or interest-bearing obligations issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of any of the New England States or the State of New York assumed by a railroad corporation organized under the laws of any of the New England States and owning in fee not less than 300 miles of railroad located in said States and complying with all the provisions of this section; if any such railroad corporation shall be leased to another railroad corporation organized under the laws of any of the New England States and owning in fee not less than 300 miles of railroad located in said States, under a lease which provides for the payment by the lessee as rental an amount sufficient to pay dividends on the capital stock of the lessor amounting in the aggregate in each fiscal year of said lessor corporation during the term of said lease to not less than 4% on its outstanding capital stock, such lessor shall be regarded as having paid its dividends within the meaning of this sub-division, but in case the lessee shall hold any shares of the capital stock of the lessor, such shares shall not be considered as outstanding within the meaning of this sub-division.

(7) In bonds or debentures actually issued by a railroad corporation incorporated in any of the New England States, at least ½ of the railroad of which is located in said State, whether such corporation is in possession of and is operating its own railroad or such railroad is leased to another railroad corporation incorporated in any one of the New England States, provided such bonds or debentures shall be secured either by a mortgage which was at the date thereof, or is at the time of making the investment, a first mortgage on not less than 75% of the railroad of such corporation owned in fee at the date of the mortgage, or by a refunding mortgage which provides for the retirement of all prior lien mortgage bonds of such railroad corporation, or by a mortgage which is a prior lien on some part of the railroad covered by a refunding mortgage which provides for the retirement of all outstanding prior lien bonds, or that if the railroad and railroad property of such corporation are unincumbered by mortgage, such bonds or debentures shall be issued under the authority of one of said States which provides by law that no such railroad corporation which has issued bonds or debentures shall subsequently execute a mortgage upon its road, equipment, franchise or upon any of its real or personal property, without including in and securing by such mortgage all bonds or debentures previously issued and all pre-existing debts and liabilities, and provided such corporation has paid in dividends in cash an amount equal to not less than 4% per annum on all its outstanding capital stock in each fiscal year for the five years next preceding such investments. If any such railroad company shall hold the railroad of another such railroad corporation under a lease which provides for the payment by the lessee as rental of an amount sufficient to pay dividends on the capital stock of the lessor amounting in the aggregate in each fiscal year of said lessor, during the term of said lease, to not less than 4% on all its outstanding capital stock, such lessor shall be regarded as having paid its dividends within the meaning of this sub-division; but in case the lessee shall hold any shares of the capital stock of the lessor such shares shall not be considered as outstanding within the meaning of this sub-division.

(8) No bonds or other interest-bearing obligations shall be made a legal investment by sub-divisions 6 and 7 in case the authorized issue thereof, with all outstanding prior debts of the issuing or assuming corporation, including all evidences of debt that may legally be issued under any of its prior authorizations or under any of its assumed prior authorizations, after deducting therefrom, in case of a refunding mortgage, the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed three times the outstanding capital stock of said corporation at the date of such investment.

(9) In the bonds issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of any of the New England States or the State of New York, the property of which is located wholly or in part in one of said States, or in the bonds issued by a railroad, terminal, depot, bridge, tunnel or street railway corporation, organized under the laws of any of said States, assumed by a railroad, terminal, depot, bridge, tunnel or street railway corporation organized under the laws of said States, provided such bonds shall be secured either by a mortgage which was at the date thereof, or is at the time of making the investment, a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage, in the case of a railroad or street railway corporation, or the fixed property, in the case of a terminal, depot, bridge or tunnel corporation, owned by the corporation issuing the bonds, or by refunding mortgage which provides for the retirement of all prior lien bonds of such corporation, or by a mortgage which is a prior lien on some part of the property covered by a refunding mortgage which provides for the retirement of all outstanding prior lien bonds. No bond shall be made a legal investment under this sub-division unless the bonds are guaranteed, principal and interest, by endorsement by, or guaranteed principal and interest by indorsement, which guaranty has been assumed by a railroad corporation owning in fee not less than 300 miles of railroad in the New England States, whose bonds are made a legal investment under sub-division 6. No bonds shall be made a legal investment by this sub-division in case the mortgage securing the bonds shall authorize a total issue of bonds which, added to the total debt described in sub-division 8 of the guaranteeing corporation, including therein the authorized amount of all previously guaranteed bond issues, shall exceed 3 times the outstanding capital stock of said guaranteeing corporation at the time of making said investment.

(10). In the mortgage bonds, as described in sub-division 15, issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State, provided such railroad corporation owned in fee during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment not less than 500 miles of standard gauge railroad, exclusive of sidings, within the United States, and provided such railroad corporation has complied during each of said fiscal years with the provisions of sub-division 14, or if such corporation owned in fee less than 500 miles of such railroad, the gross earnings of such corporation, as reckoned in sub-division 14, shall have been not less than $10,000,000.

(11) In the mortgage bonds, as described in sub-division 15, issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State thereof, provided during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment its railroad subjected to the lien of the mortgage securing its bonds has been

operated by a corporation described in, and which has complied with all the provisions of, sub-divisions 10 and 14. No bonds shall be made a legal investment by this sub-division unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, the corporation operating the railroad covered by the mortgage securing the bonds and which has complied with all the provisions of sub-divisions 10 and 14.

(12) In the mortgage bonds as described in this Act issued or assumed by any terminal, depot, bridge or tunnel company incorporated under the laws of the United States, or any State, provided the property of such terminal, depot, bridge or tunnel company is used by one or more railroad corporations described in, and which have complied with all the provisions of, sub-division 10 and 14. No bond shall be made a legal investment by this sub-division unless the bond is guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement which guaranty has been assumed by, one or more railroad corporations described in, and which has complied with all the provisions of, sub-divisions 10 and 14

(13). In the mortgage bonds as described in sub-division 15 issued or assumed by any railroad corporation incorporated under the laws of the United States, or any State, provided, during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment, such railroad corporation owned in fee not less than 100 miles of standard-gauge railroad, exclusive of sidings, within the United States, and provided such railroad corporation has complied during each of said fiscal years with the provisions of sub-division 14. No bonds shall be made a legal investment by this sub-division unless the bonds are guaranteed principal and interest by endorsement by, or guaranteed principal and interest by endorsement, which guaranty has been assumed by, a corporation described in, and which has complied with all the provisions of, sub-divisions 10 and 14, nor unless it complies with the provisions of sub-division 16.

(14) Any railroad corporation described in sub-divisions 10 and 13 shall comply with the provisions of this sub-division during each of the 5 fiscal years of such railroad corporation next preceding the date of such investment, before any of its mortgage bonds as described in sub-division 15 shall be made a legal investment. Such railroad corporation shall have paid the matured principal and interest of all indebtedness and shall have paid in dividends in cash to its stockholders an amount equal to at least 4% upon all its outstanding capital stock; the gross earnings from the operation of the property of such railroad corporation, including therein the gross earnings of all railroads leased and operated or controlled and operated by said corporation, and the gross earnings from the sale of coal from mines owned or controlled by it, shall not have been less in amount than 5 times the amount necessary to pay the interest payable upon its entire outstanding indebtedness, the rentals of all leased lines, and the interest on all outstanding indebtedness of railroads controlled and operated which are not owned by said corporation, after deducting from said interest and rentals interest and dividends received from the stocks, bonds or notes of railroad corporations not operated by said corporation, which have been deposited with a trustee as the only security for the payment of bonds or notes issued by said corporation, but not in excess of the interest on said last-named bonds or notes.

(15). Whenever the term "mortgage bonds" is used in sub-divisions 10 to 20, inclusive, it shall mean either (*a*) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a first mortgage on not less than 75% of the railroad, in the case of a railroad corporation, or the fixed property, in the case of a terminal, depot, bridge or tunnel company, owned in fee at the date of the mortgage by the corporation which executed the mortgage and issued the bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bond has complied with sub-division 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, and covering the same railroad or property, shall be considered to be in accordance with this requirement; (*b*) That if the mortgage securing the bonds was at the date thereof, or is at the date of such investment, not a first mortgage on not less than 75% of the railroad owned in fee at the date of the mortgage, it is a first mortgage on at least 75% of the railroad subject to the lien of said mortgage at the date thereof; but if any stocks or bonds are deposited with the trustee of said mortgage as part security therefor, representing or covering railroad mileage not owned in fee, the bonds secured by said mortgage shall not become legal investments unless said corporation owns in fee at least 75% of the total mileage which is subject to the lien of such mortgage, including the mileage which is represented or covered by said stocks or bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bond has complied with sub-division 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, covering the same railroad or property, shall be considered to be in accordance with this requirement. (*c*) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a first mortgage or a mortgage or trust indenture which is in effect a first mortgage upon all the railroads, subject to the lien of said mortgage or trust indenture by virtue of the irrevocable pledge with the trustee thereof of an entire issue of issues of bonds which are a first lien, upon the railroad of a railroad corporation which is owned and operated, controlled and operated, or leased and operated, by the corporation issuing or assuming said bonds; that 75% of the railroad subject to the lien of said mortgage is connected; that the date of said mortgage is at least 5 years prior to the date of such investment, unless the corporation issuing, assuming or guaranteeing the bonds has complied with subdivision 14 for each of the 10 fiscal years of such corporation next preceding the date of such investment; but a mortgage given in substitution for and not greater in amount than such mortgage, and covering the same railroad property, shall be considered to be in accordance with this requirement (*d*) That the mortgage securing the bonds was at the date thereof, or is at the date of such investment, a refunding mortgage which provides for the retirement of all prior lien mortgage bonds of said corporation outstanding at the time of said investment, and covering at least 75% of the railroad owned in fee by said company at the date of said mortgage. No mortgage is to be regarded as a refunding mortgage under the provisions of this subdivision unless the bonds which it secures mature at a later date than any bond which it is given to refund; but, in case bonds are issued to mature at an earlier date than any bond which it is given to refund, the mortgage contains the provisions that bonds issued to mature at an earlier date may be retired by a like amount of bonds reissued under said mortgage. (*e*) That the mortgage securing the bonds is a prior lien to a refunding mortgage described above, on some part of the railroad or railroad property covered by said refunding mortgage, provided the bonds issued under such mortgage are to be refunded by said refunding mortgage, and the property covered by said prior lien mortgage is operated by, and its operations included in, those of the railroad corporation issuing said refunding mortgage.

(16). No bond shall be made a legal investment by sub-division 10 in case the mortgage securing the same shall authorize a total issue of bonds, which, with all outstanding prior debts of the issuing or assuming corporation, including all bonds not issued that may legally be issued under any of its prior debts, or of its assumed prior debts, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage, to retire prior debts at maturity, shall exceed 3 times the outstanding capital stock of said corporation at the date of such investment; no bond shall be made a legal investment by sub-divisions 11, 12 and 13 in case the mortgage securing the same shall authorize a total issue of bonds, which, added to the total debt, as defined in this sub-division, of the guaranteeing corporation, including therein the authorized amount of all previously guaranteed bond issues, shall exceed 3 times the capital stock of said guaranteeing corporation outstanding at the time of making said investment; in case of a mortgage executed prior to May 28 1913, under which the total amount of bonds which may be issued is not specifically stated, the amount of bonds outstanding thereunder at the date of such investment shall be considered as the total authorized issue.

(17) Bonds which have been or shall become legal investments under any of the provisions of sub-divisions 10 to 20, incl., shall not be rendered illegal, although the corporation issuing, assuming or guaranteeing such bonds shall fail for a period not exceeding 2 successive fiscal years to comply with the requirements of sub-divisions 10 and 14; but no further investment in the bonds issued, assumed or guaranteed by said corporation shall be made after the first fiscal year of such failure; but if, after the expiration of said period, said corporation complies for the following fiscal year with all the requirements of sub-divisions 10 and 14, it shall be regarded as having complied therewith during said period, and thereupon said bonds shall be legal investments, but in case of any subsequent failure to comply with subdivisions 10 and 14 the bonds of said corporation shall not be purchased until said corporation shall have complied each year for 5 successive years with said sub-divisions 10 and 14.

(18) Bonds which have been or shall become legal investments under any of the provisions of sub-divisions 10 to 20, incl., shall not be rendered illegal because the property upon which they are secured has been or shall be conveyed to or legally acquired by another railroad corporation, and the corporation which issued or assumed said bonds has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds, and so long as it shall continue to pay regularly interest or dividends, or both, upon the securities issued against, in exchange for, or to acquire the stock of, the corporation consolidated, or the property purchased, or upon securities subsequently issued in exchange or substitution therefor, to an amount at least equal to 4% per annum upon the capital stock outstanding at the times of such consolidation or purchase, of said corporation which issued or assumed said bonds.

(19). If a railroad corporation which has complied with all the requirements of sub-divisions 10 and 14 except that the period of compliance is less than 5 years, shall be, or shall have been, consolidated or merged with, or its railroad purchased and all the debts of such corporation assumed by, another railroad corporation incorporated under the laws of the United States, or any State, the corporation so succeeding shall be considered as having complied with all the provisions of said sections during those successive years next preceding the date of such consolidation, merger or purchase, in which said consolidated, merged or purchased corporations, if considered as one continuous corporation in ownership and possession, would, taken together, have so complied, provided in the case of a railroad corporation which has complied with all the requirements of said subdivisions except that the period of compliance is less than 5 years, said succeeding corporation shall continue so to comply for a further period which shall make such compliance equivalent to at least 5 successive years.

(20). If, by means of consolidation, merger or purchase, a railroad corporation shall own and possess the properties and franchises which, prior thereto, belonged to similar corporations, and, during the years next preceding such consolidation, merger or purchase, one or more of said corporations, have regularly paid in cash to stockholders dividends in amounts equaling or exceeding 4% per annum upon the entire capital stock of the successor corporation outstanding at the time of the investment, such successor corporation shall be considered as having paid such dividends during the same period of years; the time during which any railroad is operated by the Government of the United States and the earnings and dividends made and paid during said time shall not be taken into consideration in determining the compliance of the corporation owning said railroad with any of the provisions of this section, nor shall any default in the earning or payment of dividends or any failure to make the gross earnings required by this section, during said period of Government control and for two years thereafter, render any bonds illegal for investment which were legal at the beginning of said Government operation.

(21). Savings banks may invest not exceeding 6% of their deposits and surplus in equipment trust notes, bonds or certificates issued by, or which are guaranteed by endorsement both as to principal and interest by, or which are secured by lease of equipment to, a railroad corporation which, in case of a railroad corporation incorporated under the laws of any of the New England States, has complied with sub-division 6, or which, in the case of a railroad corporation incorporated under the laws of any other State, or of the United States, has complied with all the provisions of sub-divisions 10 and 14, provided said notes, bonds or certificates are secured by a first lien on, or by a lease and conditional sale of, new standard railroad equipment free from other encumbrances, for the purchase of which said notes, bonds or certificates were issued at not exceeding 90% of the purchase price thereof, and provided the instrument under which such notes, bonds or certificates are issued, or the lease of such equipment to the railroad corporation, provides for the proper maintenance of the equipment covered thereby and for the payment of the entire issue of such notes, bonds or certificates in not exceeding 15 annual or 30 semi-annual installments, without the release of any part of the lien or interest in any of the equipment securing such notes, bonds or certificates until the entire issue of such series of notes, bonds or certificates shall have been paid or redeemed, provided in no case shall the investment in the equipment trust notes, bonds or certificates of any one railroad corporation be in excess of 2% of such deposits and surplus. No equipment trust notes, bonds or certificates shall be made a legal investment by this section in case the series authorizes an amount which, added to the total debt as defined in subdivision 8, in the case of a railroad corporation organized under the laws of any of the New England States, or subdivision 16 in the case of a railroad corporation organized under the laws of any other State or of the United States, which issued or guaranteed or is the lessee of the equipment securing such equipment trust notes, bonds or certificates, including therein the outstanding amounts of all previously issued series of such equipment trust notes, bonds or certificates, shall exceed 3 times the capital stock of such railroad corporation outstanding at the time of making said investment.

(22). Savings banks may invest not exceeding 2% of their deposits and surplus in bonds issued by any street railway corporation incorporated in this State the railway of which is located wholly or in part therein, provided such bonds are secured by a mortgage which was at the date of the mortgage or is at the date of the investment a first mortgage on not less than 75% of the railway of such corporation owned in fee at the date of the mortgage, and provided the gross earnings of said corporation each fiscal year for the 5 years next preceding the date of such investment were not less than $100,000, and that said corporation in each of said years earned and paid in dividends in cash an amount equal to at least 4% per annum upon the outstanding capital stock, and provided, at the date of any such dividend, the outstanding capital stock is equal to at least ½ of the debt of such corporation.

(23). Savings banks may invest not exceeding 2% of their deposits and surplus in mortgage bonds and other interest-bearing obligations of any water company incorporated in this State supplying water for domestic use to communities in this State having a population of not less than 15,000, or of any such company whose gross receipts for water service in this State shall have been more than $50,000 per annum for five consecutive years, and whose franchise is an exclusive one in the territory served by it and unlimited in time, provided the amount of all the outstanding debts of such company does not exceed its capital stock, and provided such water company has earned each year and paid in cash from its officially reported net earnings, as shown by its annual report or other official statement under oath, to municipal, State or United States authorities, dividends of not less than 4% per annum on its entire outstanding capital stock, for a period of 4 years next preceding the making of the investment.

(24). Savings banks may invest not exceeding 2% of their deposits and surplus in bonds of any telephone company incorporated in this State, whose property is located chiefly in this State, which are secured by a first mortgage upon at least 75% of the property of such company, including its franchises, rights and privileges, and limiting the amount of bonds issuable thereunder to 75% of the valuation of the property mortgaged, excluding any valuation of said franchises, rights and privileges, and providing the gross income of such telephone company shall have been not less than $2,000,000 per annum during each of the 5 fiscal years of such telephone company next preceding the date of such investment.

(25). Savings banks may invest not exceeding 2% of their deposits and surplus in bonds of any telephone company incorporated in any of the New England States, or in the State of New York, and secured by a first mortgage upon at least 75% of the property of such telephone company, or by the deposit with a trust company incorporated under the laws of one of the New England States or of the State of New York of bonds or shares of stock, or both, of other telephone corporations under an indenture of trust which limits the amount of bonds so secured to 75% of the value of the securities deposited as stated and determined in said indenture, and provided the gross income of such telephone company shall have been not less than $25,000,000 per annum during each of the 5 fiscal years of such telephone company next preceding the date of such investment. No bond of a telephone company shall be made a legal investment under sub-divisions 24 and 25 unless during each of the fiscal years of such telephone company next preceding the date of such investment said telephone company shall have paid the matured principal and interest of all its indebtedness, and shall have paid, during each of said years, in cash dividends an amount equal to not less than 6% per annum of all its outstanding issues of capital stock, and the dividends paid on the capital stock of such telephone company shall not have been less than the total amount necessary to pay the interest upon its entire outstanding indebtedness.

(26) Savings banks may invest not exceeding 2% of their deposits and surplus in mortgage bonds of any gas or electric light company, incorporated under the laws of this State, supplying gas or electricity for lighting to any community in this State whose franchise is an exclusive one and unlimited in time, provided the amount of the outstanding debts of such company does

not exceed its capital stock, and provided such gas or electric company has earned each year and paid in cash from its officially reported net earnings as shown by its annual report or other sworn official statement to the municipal, State or United States authorities, dividends of not less than 5% per annum on its entire outstanding capital stock for a period of four years next preceding the making of such investment. The term "indebtedness," as used in this Act, shall be construed to mean and include all bonds, notes and other obligations or accounts payable at a time or times more than a year after their date.

(27) Savings banks may invest in the capital stock of any bank or trust company located in this State, or in the City of New York in the State of New York, or in the City of Boston in the State of Massachusetts, but no savings bank shall hold by way of investment and as security for loans more than 20% of its deposits in the stocks of such banks or trust companies, at par value, nor more than 3% of its deposits, nor more than $100,000 of par value in, nor more than ¼ of the capital stock of, any such bank or trust company. The provisions of this sub-division shall not render illegal any such investments owned by any bank or trust company on Aug. 1 1913.

(28) Savings banks may invest not exceeding 20% of their deposits and surplus in notes secured by pledge of stock or bonds as collateral, provided the corporation issuing such stock or bonds shall have paid thereon dividends or interest at the rate of not less than 4% per annum during the two years next preceding the time when such loan is made; or by the pledge of any stocks or bonds or other obligations which under the provisions of this section may be purchased by savings banks; but the market value of any securities given to secure any collateral loan shall be at least 20% in excess of the amount of the loan and not more than 5% of the aggregate deposit in any savings bank shall be loaned on the stock, bonds or other obligations of one corporation, or by the pledge of deposit accounts and books in savings banks in this State to an amount not exceeding the balance due from said savings banks on such deposit account.

(29) The provisions of this Act shall not render illegal the investment in, nor the investment hereafter in, any bonds or interest-bearing obligations issued or assumed by a railroad corporation, which were a legal investment on May 28 1913, so long as such bonds or interest-bearing obligations continue to comply with the laws in force prior to said date; but no such bond or interest-bearing obligation that falls, subsequent to said date, to comply with said laws, shall again be a legal investment unless such bonds or interest-bearing obligations comply with the provisions of this section.

(30) If any street railway company, the bonds of which were a legal investment prior to May 28 1913 shall fail, in any fiscal year subsequent to said date, to pay dividends equal to 4% upon its outstanding capital stock, the bonds of such railway company shall cease to be a legal investment until such company has complied with all the provisions of sub-division 22 of this section.

(31) In the sub-divisions of this section which relate to railroad bonds the word "debt" shall be construed to mean obligations issued or assumed evidenced by a series of bonds or other interest-bearing instruments which mature at a time or times exceeding 3 years after their date, and the term "railroad corporation" shall be construed to mean a corporation which owns or is in possession of and operating a railroad or railway of the class usually operated by steam power. Street railway corporations are not railroad corporations within the meaning of this section.

(32) Savings banks may invest not exceeding 2% of their deposits and surplus in notes secured by a trust indenture of any stocks or bonds or other obligations which under provisions of this section may be purchased by savings banks; the market value of any securities given shall be at least 20% in excess of the amount of the loan, provided the bonds under such trust indenture shall be legal investment for the savings banks of this State.

(33) Savings banks may invest not exceeding 10% of their deposits and surplus in the obligations of the Government of the Kingdom of Great Britain and Ireland, and the Government of the French Republic and the Government of the Dominion of Canada or any of its provinces, provided such obligations have a fixed and definite date of maturity and shall be the direct obligations of such Government or province and that the full faith and credit of such Government or province shall be pledged for its payment, principal and interest.

In addition to the foregoing the 1921 Legislature passed the following act permitting savings banks to invest two per cent. of their deposits and surplus in equipment obligations issued by the National Railway Service Corporation. "Savings banks may invest not exceeding two per centum of their deposits and surplus in prior lien equipment obligations or equipment trust certificates issued by the National Railway Service Corporation in pursuance of any equipment trusts financed in whole or in part through a loan or loans made or approved by the Inter State Commerce Commission, provided such securities are issued for not exceeding in par value sixty per centum of the cost of standard railway equipment, and that such obligations shall mature in approximately equal annual or semi-annual installments over a period of not exceeding fifteen years."

The Bank Commissioner on May 1 1923 issued his usual semi-annual compilation enumerating the municipalities and obligations falling within the definition of legal investments. This list appeared in the "Chronicle" of June 2 1923, pages 2545 and 2546.

TRUST FUNDS—HOW LOANED OR INVESTED.—We find in Sec. 254 of Chapter 22 of the Revised Statutes of 1902 the following liberal provisions providing that trust funds may be loaned or invested in the same securities savings banks are authorized to invest in:

SEC. 254.—Trust funds, unless it is otherwise provided in the instrument creating the trust, may be loaned on the security of mortgages on unencumbered real estate in this State double in value the amount loaned, or may be invested in such mortgages or in the bonds or loans of this State, or of any town, city or borough of this State, or in any bonds, stocks or other securities which the savings banks in this State are, or may be, authorized by law to invest in, or may be deposited in savings banks incorporated by this State.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CONNECTICUT.

The relation which the towns, cities and boroughts of this State bear to one another is peculiar and requires a word of explanation. The State is divided into eight counties, and these counties are made up of towns, numbering in the aggregate 167. The towns are the civil unit, and on the assessed valuation (which is called the "Grand List" of each town) is levied the tax for State purposes as well as the tax for town expenditures. Within the town is often situated a city or a borough, or both, all of which may at the same time have bonds outstanding. Many towns and cities, however, whose limits were about identical, have been consolidated (including Stratford, Bridgeport, New Britain, New London and New Haven), and the outstanding bonds of both town and city are reported together without distinction.

The borough stands in about the same relation to the town as does the city. The grand list as determined for the town is used by both the city and the borough in levying taxes, the city, for instance, putting a tax of its own on its share of the total grand list of the town. This tax is additional to the town tax. In some instances the schools are in the charge of school districts, which also are empowered to issue bonds and to levy a tax, so that to cover the total tax paid by a city, it is necessary to take into account the State, town, city and school district levies. In the statements which follow we give under one heading the town and city, wherever they bear the same name, for, though distinct corporations, their debts are to greater or less extent the debts of a single community.

AGGREGATE MUNICIPAL INDEBTEDNESS.

The total indebtedness of all the towns, cities, boroughs and counties in the State was in 1920 $79,385,900.75. In the following table we show the funded indebtedness, the floating debt and the total indebtedness of all the civil divisions of the State at quadrennial periods:

	Funded debt.	*Floating debt.*	* *Total debt.*
1920	$69,511,940 00	$9,873,960 75	$79,385,900 75
1916	51,268,300 00	9,122,333 00	60,390,633 00
1912	37,058,361 70	6,481,868 99	43,540,230 69
1908	30,598,153 47	7,865,551 44	38,463,704 91
1904	26,906,859 05	5,269,101 56	32,520,460 61
1900	22,142,993 58	5,005,323 09	27,624,827 42
1896	19,749,667 08	4,384,980 56	24,581,066 55
1892	16,023,832 46	4,473,571 36	20,627,058 48
1888	15,569,818 67	3,759,642 86	19,392,804 89
1884	14,655,903 75	2,980,386 15	17,636,289 91
1880	15,388,375 69	1,967,623 60	17,355,999 29
1877	14,437,742 93	2,713,584 35	17,151,327 28

* In 1904 and at former periods the county debt ($344,500 in 1904) was not divided into funded and floating debt, and therefore is included only in total debt column.

ANSONIA.

Ansonia is in New Haven County. Inc. April 1889. Legislature in 1893 authorized consolidation of borough, town and fire district to form present city.

LEGISLATURE meets annually the first Wednesday in January, and length of sessions is not limited.

HISTORY OF DEBT.—The early historical details of New York State's debt from 1817 to 1894 will be found in the "State and City Supplement" of April 1893, page 41.

During a period of eleven years ending in 1893 the State debt was paid at the average of $1,000,000 per year, and practically wiped out.

In Nov. 1895 the voters approved a bond issue of $9,000,000, for the purpose of enlarging and improving the Erie, Oswego and Champlain canals. These bonds were all issued and have since been redeemed. In 1903 a further issue of $101,000,000 canal bonds was authorized, and these bonds have all been sold. [A bill, signed by the Governor April 17 1912, authorized the State Comptroller to issue canal improvement bonds made payable in foreign currency. V. 94, p. 1131.] At the 1905 election a constitutional amendment was adopted giving authority to create an aggregate debt of $50,000,000 for highway purposes, and all of these bonds have been sold. The question of issuing an additional $50,000,000 bonds for highways received a favorable vote in Nov. 1912, the last of these bonds being sold in June 1921. In Nov. 1909 the voters approved the issuance of $7,000,000 bonds for the Cayuga and Seneca Canals, all of which have been sold. In 1910 the voters approved the issuance of $2,500,000 bonds, all of which have been sold, for the acquisition of the Palisades Interstate Park. At the election Nov. 7 1916 a favorable vote was polled on the referendum proposition providing for the issuance of $10,000,000 additional bonds for this purpose and for State Forest Preserve, and the last of these bonds were sold in June 1921. Under the provisions of Chap. 394, Laws of 1911, and Chap. 252, Laws of 1914, Chap. 335, Laws of 1915, $1,284,000 bonds were authorized for a State Reservation at Saratoga Springs. These bonds were all issued, but $1,067,500 have been redeemed, leaving outstanding Mar. 31 1923 $216,500. A proposition to issue $19,800,000 barge canal terminal bonds was adopted Nov. 7 1911, and the last of these bonds were sold in June 1921. On Nov. 2 1915 the voters approved the issuance of $27,000,000 bonds for the completion of the barge canal; all of these have been disposed of. On Nov. 2 1920 the voters approved the proposition to issue $45,000,000 "Soldiers' Bonus" bonds. $10,000,000 of these bonds were offered to the public on June 9 1921, but owing to the raising of a question of their legality, were not sold. On June 20 1921 the constitutionality of the Soldiers' Bonus Law was unanimously sustained by the Appellate Division of the Supreme Court, Third Department (V. 112, p. 2785). Later, on Aug. 31 1921, by a vote of 5 to 2, the Court of Appeals reversed the above court and held that the Soldiers' Bonus Law was unconstitutional on the ground that it would lend the credit of the State for the benefit of individuals (V. 113, p. 1073). A new Soldier Bonus measure in the form of a constitutional amendment, providing for a $45,000,000 bond issue, will be on the ballot this fall. See V. 116, p. 965. The State's total bonded debt on March 31 1923 was $264,244,500. (*a*) The sinking fund resources on the same date were $82,245,732.19. Loans outstanding March 31 1923 were as follows:

STATE DEBT FOR A SERIES OF YEARS.—The 1916, 1917, 1918, 1919, 1920, 1921 and 1922 figures of gross bonded State debt given below are for the fiscal years beginning with June 30 1916, the year having been changed from Sept. 30 to this date by Chapter 118, Laws of 1916. All other figures in the following table are for the old date (Sept. 30):

1922	$266,998,000	1912	$109,702,660	1902	$9,920,660	1880	$9,114,054
1921	267,729,000	1911	79,730,660	1900	10,130,660	1875	28,328,686

1915	186,400,660	1905	11,155,660	1891	2,927,655	1830	8,635,035
1914	†159,260,660	1904	9,410,660	1890	4,964,304	1820	2,983,500
1913	*108,355,660	1903	9,665,660	1885	9,461,854	1816	2,905,535

† Comptroller's temporary loan certificates amounting to $650,000 were also outstanding Sept. 30 1914. * In addition, there were outstanding Sept. 30 1913 $27,000,000 notes issued in anticipation of the sale of bonds.

TAX VALUATION, TAX RATE, &c.—Large increase in values for 1904, due mainly to New York City's real estate being assessed about full value. The constitutional amendment adopted in 1905 permits interest and sinking fund requirements to be met out of funds in the Treasury instead of by means of a direct tax as heretofore. No direct State levy, therefore was made in 1906 to 1910, revenue being entirely raised through the operation of mortgage, stock transfer, liquor, inheritance and corporation taxes. In July 1911, however, the Legislature again imposed a direct tax of 6-10 of a mill on each dollar of real and personal property. In 1912 the Legislature made provision for a direct tax levy of one mill. At the 1913 session, in order to avoid the levying of a direct tax, a bill was introduced to permit the transfer to the general fund of a part of the sinking fund. This measure, however, failed to pass both houses. V. 96, p. 1435. On Sept. 17 1913, while the Legislature was in extra session, a bill was passed authorizing the levy of a direct tax of 5805-10000 of a mill. In 1914 a bill was passed providing for a direct tax of three hundred and fifty-five thousandths of a mill but this was vetoed by the Governor. V. 98, p. 1404. At the 1915 session of the Legislature provision was made for the levy of a direct tax of one and seven-tenths mills. V. 100, p. 1525. No direct State tax was imposed by the 1916 Legislature. In 1917 the Legislature provided for a direct tax of 1.08 mills; in 1918 and 1919 it imposed a direct tax of 1.06 mills; in 1920, 2.695 mills; in 1921, 1.5043 mills, and in 1922 1.2915 mills.

* The total valuations shown are those used for the purpose of levying the State tax for each of the years enumerated.

POPULATION OF STATE.—New York ranks first in population among the States of the Union. The following gives the U. S. Census figures, except 1905 and 1915 returns, which were compiled under State supervision.

1920	10,385,227	1900	7,268,894	1860	3,880,735	1820	1,372,812
1915	9,687,744	1890	*6,003,174	1850	3,097,394	1810	959,049
1910	9,113,614	1880	5,082,871	1840	2,428,921	1800	589,051
1905	8,067,308	1870	4,382,759	1830	1,918,608	1790	340,120

*Includes population (5,321) of Indian reservations, specially enumerated.

CANASERAGA CREEK IMPROVEMENT BONDS.—On July 1 1910 the State Water Supply Commission sold under authority of Chap. 54, Consolidated Laws of 1909, and on behalf of the Canaseraga Creek Improvement District in Livingston County, $200,000 5% bonds, due $5,000 yearly from 1915 to 1954, incl. V. 91, p. 110. These bonds are payable by assessment upon the lands and properties in such improvement district.

CONSTITUTIONAL AMENDMENT CHANGING CLASSIFICATION OF CITIES.—At the Nov. 1907 election an amendment to Sec. 2 of Art. 12 of the constitution was adopted by a vote of 309,159 "for" to 123,919 "against." This amendment alters Sec. 2 by changing the population of cities of the first class from "250,000 or more" to "175,000 or more," and cities of the second class from "50,000 and less than 250,000" to "50,000 and less than 175,000." This section was printed in full in V. 85, p. 359.

NEW YORK, NEW JERSEY PORT DISTRICT.—A treaty, creating a port district between New York and New Jersey, ratified by the Legislatures of both States, was signed on April 30 1921. The treaty provides for the creation of a single "Port District" governed by a single Port Authority, which body will control the improvement and development of the district

in conjunction with the Federal authorities. See "Chronicle" May 7 1921, page 1998.

NEW CONSTITUTION DEFEATED.—A revised Constitution drafted by the Convention of 1915, in session from April 6 to Sept. 10, was overwhelmingly defeated at the general election Nov. 2 1915. V. 102, p. 172. The changes proposed by the Convention were explained in an "address to the people," which was given in full in the "Chronicle" of Sept. 18 1915, page 892. The voters, at the general election on Nov. 7 1916, defeated the question of holding another constitutional convention. V. 104, p. 86.

DEBT LIMITATION—STATE.—The provisions of the fundamental law restricting the power of the Legislature over the issue of debt under the Constitution of 1894 are contained in Article 7. Amendments to Sections 2, 4, 5, 11, and 12 were adopted by the voters on Nov. 2 1920. We give the sections below which have reference to the subject as amended.

State credit not to be given.—SECTION 1. The credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation.

State debts—power to contract.—SEC. 2. The State may contract debts in anticipation of the receipt of taxes and revenues, direct or indirect, for the purposes and within the amounts of appropriations theretofore made; bonds or other obligations for the moneys so borrowed shall be issued as may be provided by law, and shall with the interest thereon be paid from such taxes and revenues within one year from the date of issue.

State debts to repel invasions.—SEC. 3. In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

Limitation of Legislative power to create debts.—SEC. 4. Except the debts specified in Sections 2 and 3 of this Article, no debt shall be hereafter contracted by or in behalf of this State, unless such debt shall be authorized by law, for some single work or object, to be distinctly specified therein. On the final passage of such bill in either house of the Legislature, the question shall be taken by ayes and noes, to be duly entered on the journals thereof, and shall be: "Shall this bill pass, and ought the same to receive the sanction of the people?" No such law shall take effect until it shall, at a general election, have been submitted to the people and have received a majority of all the votes cast for and against it at such election nor shall it be submitted to be voted on within three months after its passage nor at any general election when any other law, or any bill shall be submitted to be voted for or against. The Legislature may at any time, after the approval of such law by the people, if no debt shall have been contracted in pursuance thereof, repeal the same; and may at any time, by law, forbid the contracting of any further debt or liability under such law.

Except the debts specified in sections 2 and 3 of this article, all debts contracted by the State after Jan. 1 1920, pursuant to an authorization therefor, heretofore or hereafter made and each portion of any such debt from time to time so contracted irrespective of the terms of such authorization, shall be paid in equal annual installments, the first of which shall be payable not more than one year, and the last of which shall be payable not more than fifty years after such debt or portion thereof shall have been contracted. No such debt hereafter authorized shall be contracted for a period longer than that of the probable life of the work or object for which the debt is to be contracted, to be determined by general laws, which determination shall be conclusive.

The Legislature may from time to time alter the rate of interest to be paid upon any State debt which has been or may be authorized pursuant to the provisions of this section or upon any part of such debt, provided, however, that the rate of interest shall not be altered upon any part of such debt or upon any bond or other evidence thereof which has been or shall be created or issued before such alteration. The money arising from any loan creating such debt or liability shall be applied to the work or object specified in the Act authorizing such debt or liability, or for the payment of such debt or liability, and for no other purpose whatever.

Under authority of this section a $50,000,000 hospital bond issue is to be submitted at the 1923 fall election. V. 116, p. 2418.

Sinking Fund, how kept and invested.—SEC 5.—The sinking funds provided for the payment of interest and the extinguishment of the principal of the debts of the State heretofore contracted shall be continued; they shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for such payment and extinguishment as hereinafter provided. The Comptroller shall each year appraise the securities held for investment in each of such funds at their fair market value not exceeding par. He shall then determine and certify to the Legislature the amount of each of such funds and the amounts which, if thereafter annually contributed to each such fund, would, with the fund and with the accumulations thereon and upon the contributions thereto, computed at the rate of 3% per annum, produce at the date of maturity the amount of the debt to retire which such fund was created, and the Legislature shall thereupon appropriate as the contribution to each such fund for such year at least the amount thus certified.

If the income of any such fund in any year is more than a sum which, if annually added to such fund would, with the fund and its accumulations as aforesaid, retire the debt at maturity, the excess income may be applied to the interest on the debt for which the fund was created.

After any sinking fund shall equal an amount the debt for which it was created, no further contributions shall be made thereto except to make good any losses ascertained at the annual appraisals above mentioned, and the income thereof shall be applied to the payment of the interest on such debt. Any excess in such income not required for the payment of interest may be applied to the general fund of the State.

The Legislature may also by general laws provide means and authority whereby outstanding bonds of the State, for which sinking funds are provided, may be exchanged at par for cancellation, for serial bonds of the form authorized under section 4 of this Article, upon such terms and conditions as to interest and otherwise as it may in its discretion authorize or determine, except that the debt as thus refunded shall finally mature no later and at no greater comparative cost to the State than the original debt; the determination of the Legislature as to such comparative cost shall be conclusive. No further contributions to the respective sinking funds shall be made on account of bonds so exchanged and the proportion of any such sinking fund which the amount of the bonds so exchanged shall bear to the amount of bonds outstanding of the same issue may be appropriated, as required, for the payment of the substituted serial bonds.

Sec. 11. The Legislature shall annually provide by appropriation for the payment of the interest upon and installments of principal of all debts created on behalf of the State except those contracted under section 2 of this Article, as the same shall fall due, and for the contribution of all of the sinking funds heretofore created by law, of the amounts annually to be contributed under the provisions of section 5 of this Article. If at any time the Legislature shall fail to make any such appropriation, the Comptroller shall set apart from the first revenues thereafter received, applicable to the general fund of the State, a sum sufficient to pay such interest, installments of principal, or contributions to such sinking fund, as the case may be, and shall so apply the moneys thus set apart. The Comptroller may be required to set aside and apply such revenues as aforesaid, at the suit of any holder of such bonds.

[On June 2 1913 a bill was signed increasing from 4% to 4½% the rate of interest on bonds thereafter issued for canal and highway improvements and barge canal terminal facilities. V. 96, p. 1642. A bill passed in 1915 permits the sale of canal and highway bonds at *not exceeding* 4½% interest and a block of $27,000,000 4¼s was sold on March 10 1915.]

Chapter 645, Laws of 1913, as amended by Chap. 333, Laws of 1915, allows the Comptroller to issue 5% 1-year notes in anticipation of the sale of State bonds. On June 5 1913 the State sold $27,000,000 of these notes due Feb. 1 1914, and these were taken up with a part of the proceeds of $51,000,000 4½% bonds sold Jan. 21 1914.]

DEBT LIMITATION—CITIES, COUNTIES, TOWNS AND VILLAGES.—The constitution of 1894 puts a general and uniform limit to the power of counties and cities of the State to contract and put out their obligations, leaving the Legislature to fix the debt-making power of villages and towns only. These provisions are found in Art. 8, Sec. 10. We give that section in full below. The separation into paragraphs and the figures in parentheses which number and begin the paragraphs are our own, we having inserted them so that those who need to refer to any particular portion can the more readily find the part desired.

(1) No county, city, town or village shall hereafter give any money or property, or loan its money or credit to or in aid of any individual, association or corporation, or become directly or indirectly the owner of stock in, or bonds of, any association or corporation; nor shall any such county, city, town or village be allowed to incur any indebtedness except for county, city, town or village purposes. This section shall not prevent such county, city, town or village from making such provision for the aid or support of its poor as may be authorized by law. . . . . .

(2) No county or city shall be allowed to become indebted for any purpose or in any manner to an amount which, including existing indebtedness, shall exceed 10% of the assessed valuation of the real estate of such county or city subject to taxation as it appeared by the assessment rolls of said county or city on the last assessment for State or county taxes prior to the incurring of such indebtedness; and all indebtedness in excess of such limitation, except such as may now exist, shall be absolutely void, except as herein otherwise provided.

(3) No county or city whose present indebtedness exceeds 10% of the assessed valuation of its real estate subject to taxation shall be allowed to become indebted in any further amount until such indebtedness shall be reduced within such limit.

(4) This section shall not be construed to prevent the issuing of certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes for amounts actually contained, or to be contained in the taxes for the year when such certificates or revenue bonds are issued and payable out of such taxes; nor to prevent the City of New York from issuing bonds to be redeemed out of the tax levy for the year next succeeding the year of their issue, provided that the amount of such bonds which may be issued in any one year in excess of the limitations herein contained shall not exceed one-tenth of one per centum of the assessed valuation of the real estate of said city subject to taxation.

(5) Nor shall this section be construed to prevent the issue of bonds to provide for the supply of water; but the term of the bonds issued to provide for the supply of water, in excess of the limitation of indebtedness fixed herein, shall not exceed twenty years, and a sinking fund shall be created on the issuing of the said bonds for their redemption, by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity.

At the 1909 election a constitutional amendment with reference to the exclusion of debt incurred for rapid transit and dock purposes by New York City, and with reference to the exclusion after Jan. 1 1910 of water bonds issued by third class cities, was ratified by the voters. In November 1917 the voters adopted an amendment to the constitution providing that debts incurred *by any city of the first class* after Jan. 1 1904 to provide for the supply of water, are not to be included in ascertaining the power of a city to become indebted. Previously this section simply applied to New York City. The amendments referred to change sub-division (6), making it read as follows:

(6) All certificates of indebtedness or revenue bonds issued in anticipation of the collection of taxes, which are not retired within five years after their date of issue, and bonds issued to provide for the supply of water, and any debt hereafter incurred by any portion or part of a city, if there shall be any such debt, shall be included in ascertaining the power of the city to become otherwise indebted; except that debts incurred by any city of the first class after the first day of January, nineteen hundred and four, and debts incurred by any city of the second class after the first day of January nineteen hundred and eight, and debts incurred by any city of the third class after the first day of January, nineteen hundred and ten, to provide for the supply of water, shall not be so included; and except further that any debt hereafter incurred by the City of New York for a public improvement owned or to be owned by the city which yields to the city current net revenue, after making any necessary allowance for repairs and maintenance for which the city is liable, in excess of the interest on said debt and of the annual installments necessary for its amortization, may be excluded in ascertaining the power of said city to become otherwise indebted, provided that a sinking fund for its amortization shall have been established and maintained and that the indebtedness shall not be so excluded during any period of time when the revenue aforesaid shall not be sufficient to equal the said interest and amortization installments, and except further that any indebtedness heretofore incurred by the city of New York for any rapid transit or dock investment may be so excluded proportionately to the extent to which the current net revenue received by said city therefrom shall meet the interest and amortization installments thereof, provided that any increase in the debt-incurring power of the city of New York which shall result from the exclusion of debts heretofore incurred shall be available only for the acquisition or construction of properties to be used for rapid transit or dock purposes. The Legislature shall prescribe the method by which and the terms and conditions under which the amount of any debt to be so excluded shall be determined, and no such debt shall be excluded except in accordance with the determination so prescribed. The Legislature may in its discretion confer appropriate jurisdiction on the Appellate Division of the Supreme Court in the First Judicial Department for the purpose of determining the amount of any debt to be so excluded. No indebtedness of a city valid at the time of its inception shall thereafter become invalid by reason of the operation of any of the provisions of this section.

(7) Whenever hereafter the boundaries of any city shall become the same as those of a county, the power of the county to become indebted shall cease, but the debt of the county at that time existing shall not be included as part of the city debt. At the November 1899 election an amendment to the constitution was adopted changing this paragraph to read as follows: Whenever the boundaries of any city are the same as those of a county, or when any city shall include within its boundaries more than one county, the power of any county wholly included within such city to become indebted shall cease, but the debt of the county heretofore existing shall not, for the purposes of this section, be reckoned as a part of the city debt.

(8) The amount hereafter to be raised by tax for county or city purposes, in any county containing a city of over 100,000 inhabitants, or any such city of this State, in addition to providing for the principal and interest of existing debt, shall not in the aggregate exceed in any one year 2% of the assessed valuation of the real and personal estate of such county or city, to be ascertained as prescribed in this section in respect to county or city debt.

By the terms of the foregoing section, Paragraph (1), every "County, City, Town or Village" is included in the prohibition against (1) loaning "its money or credit," (2) in becoming "directly or indirectly the owner of stock in or bonds of any association or corporation," and (3) in "incurring any indebtedness except for County, City, Town or Village purposes." Most of the other paragraphs include only counties and cities.

In May 1886 the New York Court of Appeals decided at the end of a litigation begun in July 1885 *that the sinking fund was not a part* of the city debt within the meaning of the above provision of the constitution limiting the creation of debt to 10% of the assessed valuation of the real estate.

Towns and villages are not limited in their debt-making power by the constitution. Those municipalities are governed by general or special statutes. Section 130 of Chapter 64, Laws of 1909, limits village debt to 10% of the assessed value of property.

The 1920 Legislature amended the Educational Law by adding a sentence to Section 1 of Chapter 16 of the Consolidated Laws, limiting the bonded debt of districts having a total valuation of real property of $1,000,000 or over to 10% of the aggregate assessed value of real property. This law was again amended in 1921 and 1922, and now provides that school districts having property assessed at over $500,000 shall not issue bonds in excess of 15% of their assessed valuation figures, the conditions provided for in 1920 being eliminated.

The 1895 Legislature passed an Act "for the protection of bona fide purchasers and holders of coupon bonds and of municipal corporations against misfeasance, malfeasance or negligence of public officers." The full text of this law was published in the "Chronicle" of June 8 1895. V. 60, p. 1023.

HOME RULE BILL.—On April 10 1913 a bill was signed (given in full in V. 96, p. 1108), conferring on all cities full powers of local self-government.

A constitutional amendment, which, if ratified, will give more power to municipalities in the management of local affairs is to be submitted to the voters in the autumn of 1923. See V. 116, p. 2168.

OPTIONAL CITY GOVERNMENT LAW DECLARED VALID.—The Court of Appeals on Dec. 22 1917 declared valid the optional city government law passed by the Legislature in 1914. V. 105, p. 2560.

BILL REGULATING ISSUANCE AND SALE OF MUNICIPAL AND SCHOOL BONDS.—The general municipal law was amended in 1917 (Chapter 534) providing that municipal bonds having no coupons attached must have the payee's name inserted and registered with the treasurer or other designated official, before interest shall be paid. The bill also provides that all bonds hereafter issued by any municipal corporation, or by any school district or civil division of the State shall be sold, in the case of first class cities as required by its charter or special act, and in the case of second class cities, as required by the second class cities law, and in all other cases, bonds must be sold at public sale not less than 5 or more than 30 days after publication of offering. The full text of the 1917 amendment was published in the "Chronicle" of May 19 1917, page 2031.

BILL PERMITTING LEGALIZING OF MUNICIPAL BONDS BY SUPREME COURT.—The 1911 Legislature passed a bill amending the general municipal law by providing that proceedings heretofore or hereafter taken by municipal corporations in relation to bond issues, pursuant to statute authorizing such procedure, may be legalized and confirmed by the Supreme Court instead of requiring legislative enactments. This bill

was given in full in the "Chronicle" of Dec. 9 1911, page 1619. See also "Chronicle" of Feb. 3 1912, pages 316 to 318, inclusive. The Appellate Division of the Supreme Court at the July 1913 term declared the Act to be constitutional. V. 97, p. 211.

EXEMPTION FROM TAXATION.—Sec. 8, Article Two, Chapter 24, Consol. Laws of 1909 (p. 403) provides that "all bonds of a municipal corporation, until payable, shall be exempt from taxation for town, county, municipal or State purposes." Chapter 24 here mentioned provides that the term 'municipal corporation' as used in this chapter includes only a county, town, city and village." This differs from the definition given in the General Corporation Law (Chapter 23, Consolidated Laws of 1909), which in Section 3 of Article 1 says that "A 'municipal corporation' includes a county, town, school district, village and city and any other territorial division of the State established by law with powers of local government."

A bill was passed by the 1917 Legislature, now Chapter 97, Laws of 1917, amending the tax law in relation to exemption from taxation of bonds of the State and its civil divisions. The new law amends sub-division 6 of Section 4, Chapter 62, Laws of 1909, constituting Chapter 60 of the consolidated laws, so as to read that "bonds of this State or any civil division thereof," are exempt from taxation. V. 104, p. 1513.

TAXATION ON MORTGAGES.—Mortgages on real property wholly within the State of New York are not subject to taxation of any kind, the only charge being the payment of a recording tax of ½ of 1%. Important changes, however, were made by the 1916 Legislature in that section of the mortgage recording tax law, relating to mortgages and bonds secured by real property both within and without the State—a condition which oft-times applies in the case of corporation mortgages.—V. 103, p. 551 and 552. Among these was the amendment to Section 264 of this law relating to an optional tax on prior advanced mortgages on real property. It applies to mortgages recorded prior to July 1st 1906 (the date when the mortgage recording tax went into effect) and bonds secured thereby. When first enacted this section was intended to enable the holder of any such bond to present it to the recording officer in the county where the mortgage was first recorded and pay a tax on the whole amount at the prevailing rate of ½ of 1%, thus putting such bonds on a parity with those issued subsequent to the recording tax law as regards exemption from the personal property tax. A ruling of the Attorney-General (V. 95 p. 993) held that such bonds could only be exempted from the personal property tax to the extent that the mortgage covered real property within the State. The 1916 amendment made it clear that the whole amount of such bonds would be included under this section, and when the recording tax was paid the bonds would become exempt from the personal property tax. Another amendment of 1916, to Section 260, provided that when a mortgage was recorded covering property, both within and without the State, the tax could be paid on the entire amount, and the whole value of bonds be exempted from the personal property tax. The Legislature in 1917 again amended this section of the law (Chapter 72, Laws of1917) so that now the situation is as it was prior to 1916, that the tax can be paid only on the value of the mortgaged property within New York State, and bonds are exempt pro rata only, the remaining portion of the bond being liable to personal property assessment as an investment, without deduction for indebtedness of the owner. See "Chronicle" of May 5 1917, pages 1762 and 1763.

TAX ON SECURED DEBTS OR INVESTMENTS.—In July 1911 the Legislature passed a bill providing for a tax of ½ of 1% on bonds and other obligations secured by property located outside the State (and also on unsecured debt), and for exemption of the same from the annual tax on personal property. The 1915 Legislature suspended the operation of the law referred to until May 1 1915 and also passed a bill increasing the registration fee on secured debts registered between May 1 and Nov. 1 1915 from ½ to ¾ of 1% and limiting the period of exemption to 5 years. The definition of secured debts was extended at this time so as to include such proportion of a bond, &c., secured by mortgage or deed of trust recorded in the State of New York, and covering also property outside the State, as the value of the property outside the State bears to the value of the entire mortgaged property. As this law expired by limitation on Nov. 1 1915, the 1916 Legislature passed a bill reviving the same until Jan. 1 1917 and also providing that bona fide bond dealers might be permitted to deduct their debts from the value of such securities as are held by them for sale.

The law having expired in Jan. 1917, the 1917 Legislature passed a new law changing the term "secured debts" to "investments," the definitions remaining substantially the same As finally amended, it provided for a tax of 20 cents per $100 *annually* which might be paid for one or more years, not exceeding five. The 1917 bill also amended the inheritance tax law to provide a penalty of 5% on any investment owned by a decedent on which the investment tax had not been paid. See "Chronicle" of May 5 1917, pages 1761 and 1762, for full text of law as signed by Governor Whitman on June 1 1917; also see "Chronicle" of July 14 1917 (page 126) and Aug. 11 1917 (page 553). Under the State Income Tax Law of 1919 (to which reference is made below) it is provided (Sec. 359) that "investments upon which the tax provided for in Sec. 331 of this chapter has heretofore been paid since June 1 1917 during the period of years for which such tax shall have been paid," shall be exempt from taxation under the Income Tax Law. The Legislature, however, by Chap. 646 of the General Laws of 1920, entirely repealed Article 15 of the Tax Law regarding investments, and by Chap. 644 also repealed Sec. (221-b) of the Tax Law under which a penalty of 5% had been imposed on any investment owned by a decedent on which the investment tax had not been paid (V. 111, p. 106)

The U. S. Supreme Court on Apr. 30 1923 handed down a decision holding that the income from mortgage bonds and secured debts, previously exempted from "all taxation," could be taxed under the income tax law of New York State. V. 116, p. 1970.

STATE INCOME TAX LAW.—The 1919 Legislature by Chapter 627 (which received the approval of the Governor on May 14 1919) enacted a State Income Tax Law. This was done by amending Chapter 62 of the Laws of 1909, entitled "An Act in relation to taxation, constituting Chapter 60 of the Consolidated Laws," by adding a new article, to be Article 16. The law was published in full in the "Chronicle" of May 10 1919, pages 1883 to 1887. It imposes an annual tax upon every resident of the State of 1% of the amount of net income not exceeding $10,000, 2% of the amount of net income in excess of $10,000 but not in excess of $50,000, and 3% of the amount of net income in excess of $50,000. A like tax is imposed with respect to the net income from all property owned and from every business, trade, profession or occupation carried on in the State of New York by natural persons not residents of the State. The tax was first levied in the year 1920 and based upon the taxable income for the calendar year 1919. In the case of a single person, a personal exemption of $1,000 is allowed, while in the case of the head of a family or a married person living with husband or wife the personal exemption was originally $2,000, with a further exemption of $200 for each person (other than husband or wife) dependent upon and receiving his chief support from the taxpayer, if such dependent person is under 18 years of age or is incapable of self support because mentally or physically defective. In 1923 an amendment was made, increasing the exemptions of heads of families, where the income is less than $5,000, to $2,500. Exemptions for each dependent were increased from $200 to $400. V. 116, p. 2418. The income tax supersedes the personal property tax. Of the revenue collected, 50% goes into the State Treasury, while the remaining 50% is distributed to the Treasurers of the several counties who in turn apportion the amount received among the several towns and cities within the county. In its original form the law allowed larger exemptions to residents than to non-residents The validity of this provision was attacked in the courts, and in March 1920 the U. S. Supreme Court declared the law unconstitutional in that respect. In April 1920 the Legislature amended the law so as to remove the objection referred to (see V. 110, p. 1611). The New Jersey State Attorney-General still thought the law discriminatory as to non-residents, and (V. 111, p. 38) advised residents of New Jersey to comply only under protest. The Court of Appeals on June 2 1921 sustained the claim of the State that the original statute was only void in part and that its invalidity had been cured when the Legislature amended the law in 1920 (V. 112, p. 2608).

The 1919 Legislature also passed an Act (Chapter 628 of the Laws of 1919, approved May 14 1919) increasing the tax on net incomes of corporations from 3% to 4½% annually, and extending the application of the law so as to make it apply to business corporations in general in the State instead of merely to manufacturing and mercantile corporations. The law was printed in the issue of the "Chronicle" of May 3 1919, pages 1780 and 1781.

CONDEMNATION OF PRIVATE PROPERTY FOR PUBLIC USE.—In Nov. 1911 a proposed constitutional amendment relating to the taking of private property for public use was defeated. V. 93, p. 1679. A similar amendment permitting municipalities to condemn property in excess of the amount actually needed for public parks and streets was ratified at the general election in Nov. 1913 (V. 97, p. 1837).

TAX LAW RELATIVE TO INVESTMENTS IN STATE BONDS BY SAVINGS BANKS, TRUST COMPANIES AND INSURANCE COMPANIES.—Section 190 of the Tax Law (Chapter 60, Consolidated Laws) provides that every corporation, company or association required by Section 187, 188 or 189 of that Chapter, to pay to the State an annual tax equal to a percentage of its gross premiums, capital stock, surplus, undivided profits or undivided earnings for the privilege of exercising its corporate franchise, or carrying on its business in such corporate or organized capacity, which shall own any State bonds, shall have credited to it annually so apply upon or in lieu of the payment of such tax, an amount equal to 1% of the par value of such bonds bearing interest at a rate not exceeding 3% annually, and owned and held in the name of such corporation, company or association. The text of this bill was given in V. 84, p. 1216.

At the 1913 session a law was passed proposing to increase the credit to 1½% on all holdings of bonds at not exceeding 3% interest and allowing a credit of ½ of 1% on all bonds bearing more than 3% interest and not exceeding 4% interest. This law was repealed, however, at the special session which convened June 16 1913. V. 96, p. 1784.

SAVINGS BANK INVESTMENTS—POWER AND RESTRICTIONS.—The general banking law, known as Chap. 2 of the Consolidated Laws, was completely revised by the Legislature of 1914, but no material change was made in that part of the law regulating investment by savings banks, except that the section dealing with this subject is now numbered 239, instead of 146, and its provisions apply to the sums credited to the guaranty fund as well as to savings bank deposits. The Legislature in 1915 passed an Act authorizing banks to invest in certain judgments against the State and in contracts entered into by the special examiner and appraiser of canal lands (V. 100, p. 1525), and in 1920 amended the first-mentioned provision so as to broaden its scope somewhat. See V. 111, p. 106. Another amendment passed in 1915 adds to Paragraph A of Subdivision 7, of Section 239 of the Banking Law, the words which we have given in *italics*. The purpose of the amendment was to remove any question as to the legality of the refunding bonds issued by the N. Y. Central RR. since the last consolidation with the Lake Shore & Mich. Sou. Ry. and other roads. In 1916 the Legislature passed an amendment to subdivision 8 of Section 239 relating to promissory notes in which investments may be made. This amendment also adds to the banking law a new paragraph (subdivision 10) and allows the investment by savings banks in the bonds of the land bank of the State of New York. See V. 102, p. 1825. Three important changes were made in the banking law by the 1918 Legislature. The first of these amends subdivision 5 by granting savings banks much broader authority to invest their funds in the securities of municipalities in contiguous States. Formerly the qualifications and limitations for municipalities in these States were the same as for those in other States. Now it is provided that they may invest in the stocks or bonds of any incorporated city, county, village or town situated in one of the States of the United States which adjoins the State of New York. Another amendment, creating paragraph (d) of subdivision 8, permits the investment by savings banks in promissory notes secured by savings bank passbooks and by the assignment of one or more first mortgages on real estate situated in the State of New York. In 1922 this paragraph (d) subdivision [8] was amended, the percentage at which banks may lend money on promissory notes, secured by deposits, being increased from 90% to 100% of the balance due the depositor, as shown by his passbook. The third amendment of 1918 adds a new subdivision (No. 11), authorizing savings banks in this State to invest in bankers' acceptances and bills of exchange to the extent of 5% of their total deposits. See V. 106, p. 1596, and 1738. This subdivision [No. 11] was amended in 1920 and 1923. See V. 110, p. 1994, and V. 116, p. 2038 and 2168. The 1919 Legislature, by Chapter 160, amended Subdivision 7 of Section 239 of Chapter 369 of the Laws of 1914 by adding a new paragraph, providing that the period during which a railroad is operated by the U. S. Government shall not be taken with the provisions of the law. In 1920 the Legislature amended this subdivision (7) by extending the period of suspension of restrictions on railroad bonds for two years after the termination of Government control (V. 110, p. 1896). In 1923 this period of grace was extended another two years. V. 116, p. 1089, 2038, and 2168. By an addition to subdivision 6 made at the special session of the Legislature in June 1919, it is provided that real property on which there is a building in process of construction, and which when completed will constitute a permanent improvement, shall be considered improved and productive real property. By an Act of the 1922 Legislature, inserting subdivision 10a, bonds of the First Land Bank District were added to the list (V. 114, p. 1803). In 1923 subdivision 3, relating to State bonds, was amended. The amendment had the effect of permitting investment in bonds of the State of Virginia. V. 116, p. 2038 and 2168. An amendment to subdivision 6, made by the 1923 Legislature, increased from 65% to 70% of deposits and guaranty the limit placed upon investment in bonds and mortgages on unencumbered real estate in New York State. V. 116, p. 2547. We give Section 239 in full below as it now stands:

Sec. 239. A savings bank may invest the moneys deposited therein, the sums credited to the guaranty fund thereof and the income derived therefrom, in the following property and securities, and no others, and subject to the following restrictions:

1. The stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and principal, including the bonds of the District of Columbia. [*The State Attorney-General ruled that this sub-division does not authorize savings banks to invest in the land purchase bonds of the Philippine Islands.* V. 78, p. 298.]

2. The stocks or bonds or interest-bearing obligations of this State issued pursuant to the authority of any law of the State.

3. The stocks, bonds or interest-bearing obligations of any State o the United States upon which there is no default and upon which there has been no default for more than 90 days, provided that within 10 years immediately preceding the investment such State has not been in default for more than 90 days in the payment of any part, principal or interest, of any debt duly authorized by the Legislature of such State to be contracted by such State since Jan. 1 1878, except debts representing a refunding or adjustment of any indebtedness originally contracted or in existence at that date or prior thereto.

[On July 24 1909 the Attorney-General rendered an opinion to the effect that bonds of the State of Oklahoma are legal investments for savings banks under the terms of this sub-division. The right of the banks to invest in these bonds was questioned for the reason that Oklahoma had not existed as a State for ten years. The Attorney-General, however, was of the opinion that this does not prevent its bonds from fulfilling the requirements of the law so long as there has been no default within ten years on any of the obligations. V. 89, p. 298.]

[On Aug. 11 1909 the Attorney-General held that Port Commission 5% bonds of the State of Louisiana "maturing at any time between July 1 1924 and July 1 1959" were not legal investments for New York State savings banks. The Attorney-General mentioned as a ground of objection to the Port Commission bonds that they are not a direct obligation of the State of Louisiana. This view, however, is not concurred in by the United States authorities, for on Oct. 23 1911, the Assistant Attorney-General for the Post Office Department, rendered an opinion holding that the bonds referred to are an obligation of the State of Louisiana, and in accordance with this advice the Treasurer of the United States, on March 11 1912 announced that the bonds would be accepted by his office as security for postal savings funds.]

[Bonds of the State of Louisiana to be issued for the refunding of what is known as "Consolidated Bonds," due Jan. 1 1914, were held to be legal investments for New York State savings banks in an opinion rendered by the Attorney-General on October 22 1913. In previous opinions (July 3 1912 and August 11 1909), it was held that, inasmuch as Louisiana had defaulted in the payment of the "baby bonds," other obligations of the State could not be legally purchased by savings bank trustees. In reversing these former rulings the Attorney-General said that it now appeared that these "baby" bonds were not bonds for the payment of which the credit of the State was pledged, but were issued against certain revenues of the State, namely unpaid taxes, and were payable out of these revenues only. Therefore the failure to pay the same does not, according to the Attorney-General, constitute such a default as would make other bonds of the State improper investments See V. 97, p. 1227, 1304, 1367 and 1444.]

[On June 16 1913 the Attorney-General held that bonds of the State of New Mexico issued pursuant to an Act approved June 1 1912 are legal investments for New York savings banks. V. 96, p. 1852.]

[Bonds of the Territory of Hawaii were held to be legal investments in an opinion by the Attorney-General dated Aug. 10 1914. V. 99, p. 554.]

4. The stocks, bonds, interest-bearing obligations or revenue notes sold at a discount of any city, county, town, village, school district, union free school district or poor district in this State, provided that they were issued pursuant to law and that the faith and credit of the municipality or district that issued them are pledged for their payment.

5. (a) The stocks or bonds of any incorporated city, county, village or town, situated in one of the States of the United States which adjoins the State of New York. If at any time the indebtedness of any such city, town or village, together with the indebtedness of any district or other municipal corporation or sub-division, except a county, which is wholly or in part included within the boundaries or limits of said city, town or village, less its water debt and sinking fund, or the indebtedness of any such county, less its sinking fund, shall exceed 7% of the valuation of said city, county, town or village for the purposes of taxation, its bonds and stocks shall thereafter, until such indebtedness shall be reduced to 7% of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks.

(b) The stocks or bonds of any incorporated city situated in any other of the States of the United States which was admitted to Statehood prior to Jan. 1 1896, and which, since Jan. 1 1861, has not repudiated or defaulted in the payment of any part of the principal or interest of any debt authorized by the Legislature of any such State to be contracted, provided said city has a population, as shownby the Federal Census next preceding said investment of not less than 45,000 inhabitants, and was incorporated as a city at least twenty-five years prior to the making of said investment and has not since January 1 1878 defaulted for more than ninety days in the payment of any part either of principal or interest of any bond, note or other evidence of indebtedness, or effected any compromise of any kind with the holders thereof But if, after such default on the part of any such State or city, the debt or security, in the payment of the principal or interest of which such default occurred, has been fully paid, refunded or compromised by the issue of new securities, then the date of the first failure to pay principal or interest, when due, upon such debt or security, shall be taken to be the date of such default within the provisions of this sub-division, and subsequent failures to pay installments of principal or interest upon such debt or security, prior to the refunding or final payment of the same, shall not be held to continue said default or to fix the time thereof within the meaning of this sub-division, at a date later than the date of said first failure in payment. If at any time the indebtedness of any such city, together with the indebtedness of any district, or other municipal corporation or subdivision except a county, which is wholly or in part included within the bounds or limits of said city, less its water debt and sinking funds, shall exceed 7% of the valuation of said city for purposes of taxation, its bonds and stocks shall thereafter, and until such indebtedness shall be reduced to 7% of the valuation for the purposes of taxation, cease to be an authorized investment for the moneys of savings banks.

[On Feb. 15 1911 an opinion was rendered by the Attorney-General deciding that both *real and personal* property should be used as a basis in determining the 7% debt limit which the savings bank law says must not be exceeded in the case of municipalities in the bonds of which the banks may make investments. The question was raised because of the fact that the constitutional provision in regard to cities of this State provides that no city shall be allowed to become indebted for more than ten per cent of its assessed real estate. See V. 92, p. 610.]

[On Apr. 27 1914 the Attorney-General, in holding that banks may legally invest in bonds of the City of Minneapolis, Minn., ruled that it is proper to include in the estimate of the valuation of property for purposes of taxation, pursuant to sub-division 5 above, the valuation placed upon money and credits pursuant to Chap. 285 of the 1911 laws of the State of Minnesota. V. 98, p. 1404.

[On Sept. 6 1912 the Attorney-General rendered an opiion, the full text of which was given in the "Chronicle" of Sept. 14 1912, page 700, holding that bonds of the city of Tacoma, Wash., are legal investments.]

[In an opinion rendered Sept. 14 1912, the Attorney-General held that bonds of the City of Dallas, Tex., are legal investments. V. 95, p. 842.]

[Improvement bonds of the City of Portland, Ore., issued pursuant to Section 383A of the city charter are legal investments, according to an opinion of the Attorney-General dated April 5 1913. V. 96, p. 1169.]

[On April 20 1916 the Attorney-General held that bonds of the city of El Paso, Tex., are legal investments. See V. 102, p. 1643.]

[The Attorney-General in 1917 held that bonds of the City of San Francisco, Calif., and of the City of Peoria, Ill., are legal investments. See V. 104, p. 877.]

[Bonds of the City of Newark, N. J., were declared legal investments for savings banks by Attorney-General on July 11 1917.—V. 105, p. 304.]

6. In bonds and mortgages on unincumbered real property situated in this State to the extent of 60% of the appraised value thereof. Not more than 70% of the whole amount of deposits and guaranty fund shall be so loaned or invested. If the loan is on unimproved and unproductive real property, the amount loaned thereon shall not be more than 40% of its appraised value. No investment in any bonds and mortgages shall be made by any savings bank except upon the report of a committee of its trustees charged with the duty of investigating the same, who shall certify to the value of the premises mortgaged or to be mortgaged, according to their judgment, and such report shall be filed and preserved among the records of the corporation. For the purposes of this subdivision real property on which there is a building in process of construction, which when completed will constitute a permanent improvement, shall be considered improved and productive real property.

7. The following bonds of railroad corporations:

(a) The first mortgage bonds of any railroad corporation of this State the principal part of whose railroad is located within this State, or of any railroad corporation of this or any other State or States connecting with and controlled and operated as a part of the system of any such railroad corporation of this State, and of which connecting railroad at least a majority of its capital stock is owned by such a railroad corporation of this State, or in the mortgage bonds of any such railroad corporation of an issue to retire all prior mortgage debt of such railroad companies respectively; provided that at no time within five years next preceding the date of any such investment such railroad corporation of this State or such connecting railroad corporation, respectively, shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness, and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount at least equal to 4% upon all its outstanding capital stock; and provided, further, that at the date of every such dividend the outstanding capital stock of such railroad corporation, or such connecting railroad company, respectively, shall have been equal to at least one-third of the total mortgage indebtedness of such railroad corporations, respectively, including all bonds issued or to be issued under any mortgage securing any bonds, in which such investment shall be made. *If by means of consolidation a railroad corporation shall own and possess the properties and franchises which prior thereto belonged to similar corporations, and if the outstanding capital stock of the railroad corporation formed by such consolidation shall be equal to at least one-third of the total mortgage indebtedness of such railroad corporation, including all bonds issued or to be issued under any mortgage securing any bonds in which such investment shall be made, and if during the five years next preceding such consolidation no one of the consolidating railroad corporations shall have failed regularly and punctually to pay the matured principal and interest of all of its mortgage indebtedness, and if in addition thereto during the five years next preceding such consolidation, the dividends paid in cash by one or more of such consolidating corporations have equaled or exceeded four per centum per annum upon an amount equal to the combined capital stock of the consolidating corporations as outstanding at the time of each dividend payment during such five-year period, such successor railroad corporation formed by such consolidation shall be considered as having regularly and punctually paid, such matured principal and interest and such dividends equal to or exceeding four per centum per annum during the same period of five years, provided further that the amount of dividends paid in cash during each of such five years has equaled or exceeded four per centum per annum on the stock of the consolidated corporation as outstanding at the time of such consolidation.*

(b) The mortgage bonds of the following railroad corporations: The Chicago & North Western RR. Co., Chicago Burlington & Quincy RR. Co., Michigan Central RR. Co., Illinois Central RR. Co., Pennsylvania RR. Co., Delaware & Hudson Co., Delaware Lackawanna & Western RR. Co., New York New Haven & Hartford RR. Co., Boston & Maine RR. Co., Maine Central RR. Co., the Chicago & Alton RR. Co., Morris & Essex RR. Co., Central RR. of New Jersey, United New Jersey RR. & Canal Co.; also in the mortgage bonds of railroad companies whose lines are leased or operated or controlled by any railroad company specified in this paragraph if said bonds be guaranteed, both as to principal and interest, by the railroad company to which said lines are leased or by which they are operated or controlled. Provided that at the time of making investment authorized by this paragraph the said railroad corporations issuing such bonds shall have earned and paid regular dividends of not less than 4% per annum in cash on all their issues of capital stock for the ten years next preceding such investment, and provided the capital stock of any said railroad corporation shall equal or exceed in amount one-third of the par value of all its bonded indebtedness; and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad and railroad property of the company issuing such bonds, or that such bonds shall be mortgage bonds of an issue to retire all prior mortgage debts of such railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(c) The mortgage bonds of the Chicago Milwaukee & St. Paul Railway Co. and the Chicago Rock Island & Pacific Railway Co., so long as they shall continue to earn and pay at least 4% dividends per annum on their outstanding capital stock, and provided their capital stock shall equal or exceed in amount one-third of the par value of all their bonded indebtedness, and further provided that all bonds of either of said companies hereby authorized for investment shall be secured by a mortgage which is a first mortgage on either the whole or some part of the railroad or railroad property actually in the possession of and operated by said company, or that such bonds shall be mortgage bonds of an issue to retire all prior debts of said railroad company; provided, further, that the mortgage which secures the bonds authorized by this paragraph is dated, executed and recorded prior to January 1 1905.

(d) The first mortgage bonds of the Fonda Johnstown & Gloversville RR. Co., or in the mortgage bonds of said railroad company of an issue to retire all prior mortgage debts of said railroad company, and provided the capital stock of said railroad company shall equal or exceed in amount one-third of the par value of all its bonded indebtedness, and provided also that such railroad be of standard gauge of four feet eight and one-half inches and in the mortgage bonds of the Buffalo Creek Railroad Company of an issue to retire all prior mortgage debts of said railroad company, provided that the bonds authorized by this paragraph are secured by a mortgage dated, executed and recorded prior to Jan. 1 1905.

(e) The mortgage bonds of any railroad corporation incorporated under the laws of any of the United States which actually owns in fee not less than 500 miles of standard-gauge railway, exclusive of sidings, within the United States, provided that at no time within five years next preceding the date of any such investment such railroad corporation shall have failed regularly and punctually to pay the matured principal and interest of all its mortgage indebtedness and in addition thereto regularly and punctually to have paid in dividends to its stockholders during each of said five years an amount *at least equal to 4% upon all its outstanding capital stock; and provided, further, that during said five years the gross earnings in each year from the operations of said company, including therein the gross earnings of all railroads leased and operated or controlled and operated by said company, and also including in said earnings the amount received directly or indirectly by said company from the sale of coal from mines owned or controlled by it, shall not have been less in amount than five times the amount necessary to pay the interest payable during that year upon its entire outstanding indebtedness, and the rentals for said year of all leased lines, and further provided that all bonds authorized for investment by this paragraph shall be secured by a mortgage which is at the time of making said investment or was at the date of the execution of said mortgage, (1) a first mortgage upon not less than 75% of the railway owned in fee by the company issuing said bonds, exclusive of sidings at the date of said mortgage or (2) a refunding mortgage issued to retire all prior lien mortgage debts of said company outstanding at the time of said investment and covering at least 75% of the railway owned in fee by said company at the date of said mortgage. But no one of the bonds so secured shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all outstanding prior debts of said company, after deducting therefrom in case of a refunding mortgage the bonds reserved under the provisions of said mortgage to retire prior debts at maturity, shall exceed three times the outstanding capital stock of said company at the time of making said investment. And no mortgage is to be regarded as a refunding mortgage, under the provisions of this paragraph, unless the bonds which it secures mature at a later date than any bond which it is given to refund, nor unless it covers a mileage at least 25% greater than is covered by any one of the prior mortgages so to be refunded.

[*In an opinion rendered by the Attorney-General on Jan. 13 1908, stating that bonds of the Missouri Pacific Ry. Co. were not legal investments for savings banks, owing to the fact that the dividend for the 6 months ending Dec. 31 1907 had been paid with a new issue of stock, he held that the words "an amount" must necessarily mean the payment thereof *in cash*. V.86,p.494.]

(f) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided that during five years next preceding the date of any such investment the gross earnings in each year from the operations of said corporation, including the gross earnings of all lines leased and operated or controlled and operated by it, shall not have been less than ten million dollars.

(g) The mortgage bonds of a railroad corporation described in the foregoing paragraph (e) or (f) or the mortgage bonds of a railroad owned by such corporation, assumed or guaranteed by it by indorsement on said bonds, provided said bonds are prior to and are to be refunded by a general mortgage of said corporation, the bonds secured by which are made a legal investment under the provisions of said paragraph (e) or (f); and provided, further, that said general mortgage covers all the real property upon which the mortgage securing said underlying bonds is a lien.

(h) Any railway mortgage bonds which would be a legal investment under the provisions of paragraph (e) or (g) of this subdivision, except for the fact that the railroad corporation issuing said bonds actually owns in fee less than 500 miles of road, provided the payment of principal and interest of said bonds is guaranteed by indorsement thereon by, or provided said bonds have been assumed by a corporation whose first mortgage is, or refunding mortgage bonds are, a legal investment under the provisions of paragraph (e) or (f) of this subdivision. But no one of the bonds so guaranteed or assumed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all the outstanding prior debts of the corporation making said guaranty or so assuming said bonds, including therein the authorized amount of all previously guaranteed or assumed bond issues, shall exceed three times the capital stock of said corporation at the time of making said investment.

(i) The first mortgage bonds of a railroad the entire capital stock of which, except shares necessary to qualify directors, is owned by and which is operated by a railroad whose last issued refunding bonds are a legal investment under the provisions of paragraph (a), (e) or (f) of this subdivision, provided the payment of principal and interest of said bonds is guaranteed by endorsement thereon by the company so owning and operating said road, and further provided the mortgage securing said bonds does not authorize an issue of more than $20,000 in bonds for each mile of road covered thereby. But no one of the bonds so guaranteed shall be a legal investment in case the mortgage securing the same shall authorize a total issue of bonds which, together with all the outstanding prior debts of the company making said guaranty, including therein the authorized amount of all previously guaranteed bond issues, shall exceed three times the capital stock of said company at the time of making said investment. Bonds which have been or shall become legal investments for savings banks under any of the provisions of this section shall not be rendered illegal as investments though the property upon which they are secured has been or shall be conveyed to another corporation, and though the railroad corporation which issued or assumed said bond has been or shall be consolidated with another railroad corporation, if the consolidated or purchasing corporation shall assume the payment of said bonds and shall continue to pay regularly interest or dividends or both upon the securities issued against, in exchange for or to acquire the stock of the company consolidated or the property purchased, or upon securities subsequently issued in exchange or substitution therefor to an amount at least equal to 4% per annum upon the capital stock outstanding at the time of such consolidation or purchase of said corporation which has issued or assumed said bonds. Not more than 25% of the assets of any savings bank shall be loaned or invested in railroad bonds, and not more than 10% of the assets of any savings bank shall be invested in the bonds of any one railroad corporation described in paragaph (a) of this subdivision, and not more than 5% of such assets in the bonds of any other railroad corporation. In determining the amount of the assets of any savings bank under the provisions of this subdivision, its securities shall be estimated in the manner prescribed for determining the per centum of par value surplus by Section 257 of this article. Street railroad corporations shall not be considered railroad corporations within the meaning of this subdivision.

The time during which any railroad is operated by the Government of the United States under the provisions of an Act of Congress approved Aug. 29 1916, an Act of Congress approved March 21 1918, or any other Act or Acts of the Congress of the United States, and four years thereafter, and the earnings made and dividends paid during said time and said four years thereafter, shall not be taken into consideration in determining whether the bonds of the railroad corporation comply with any of the provisions of this section. Any railroad corporation which, at the time that the

operation of its railroad by the Government of the United States under the provisions of such Act or Acts began, had complied with the provision of paragraph (e) of this subdivision for one or more years next preceding the commencement of such Government operation and control shall be entitled to include in computing the period of five years prescribed by the provisions of said paragraph (e) each year a portion of which its railroad shall have been operated by the Government of the United States under the provisions of such Act or Acts, and the four years succeeding the termination of such operation, in determining whether such corporation has complied with the provisions of said paragraph (e) each year for five years as required by said paragraph. Except as hereinbefore provided, whenever a reference is made in this subdivision to a period of five years preceding the date of an investment in the bonds of any railroad corporation, such period shall be deemed exclusive of any time during which the property of such railroad corporation has been operated by the Government of the United States under the provisions of such Act or Acts, and of the four years succeeding the termination of such operation. Any bonds acquired prior to the passage of this amendment and at any time hereafter which comply with the provisions of this section as amended may so long as they continue to comply herewith be retained as investments authorized by law.

8. (*a*) Promissory notes payable to the order of the savings bank upon demand, secured by the pledge and assignment, if necessary, of the stocks or bonds of any of them enumerated in sub-divisions one, two, three, four, five and ten of this section or by the railroad bonds or any of them mentioned and described in sub-division seven of this section, but no such loan shall exceed ninety per centum of the cash market value of such securities so pledged. Should any of the securities so held in pledge depreciate in value after the making of such loan, the savings bank shall require an immediate payment of such loan or of a part thereof or additional security therefore, so that the amount loaned thereon shall at no time exceed ninety per centum of the market value of the securities so pledged for such loan.

(*b*) Promissory notes made payable to the order of a savings bank upon demand by a savings and loan association of this State which has been incorporated for three years or more and has an accumulated capital of at least fifty thousand dollars.

(*c*) Promissory notes made payable to the order of the savings bank within 90 days from the date thereof secured by the assignment and pledge to it of one or more first mortgages on real estate situated in the State of New York, provided that the amount of any such note is not in excess of 60% of the appraised value in the case of improved real estate, or 40% in the case of unimproved or unproductive real estate, of the property or properties mortgaged; that the amount of any such loan shall not exceed 75% of the principal sum secured by said mortgage or mortgages; that the value of said properties has been certified in accordance with the provisions of Sub-division 6 of this section; that the assignment of each of such mortgages has been recorded in the proper offices and the provisions of Section 241 of this chapter with reference to the title of the property and the insurance upon the buildings, covered by such mortgage or mortgages, shall have been fully complied with. Such loans shall be considered mortgage loans and the amount thereof, together with all direct loans by any such savings bank upon bonds and mortgages shall not exceed 65% of the whole amount of the deposits and the guaranty fund of any such savings bank.

(*d*) Promissory notes made payable to the order of the savings bank within 90 days from the date thereof, secured by the pledge and assignment of the passbook of any savings bank in the State of New York, as collateral security for the payment thereof. No such loan shall exceed 100% of the balance due the holder of such passbook as shown therein.

9. Real estate as follows:

(*a*) A plot whereon there is or may be erected a building or buildings suitable for the convenient transaction of the business of the savings bank, from portions of which not required for its own use a revenue may be derived.

(*b*) Such as shall be conveyed to it in satisfaction of debts previously contracted in the course of its business.

(*c*) Such as it shall purchase at sales under judgments, decrees or mortgages held by it.

The trustees of a savings bank shall not be held liable for investing in State or municipal bonds named in the last list furnished by the Superintendent of Banks pursuant to Section fifty-two of Article two of this chapter, or in any railroad bonds mentioned in such list, which have been legally issued and properly executed, unless such savings bank shall have been notified by the Superintendent of Banks that, in his judgment, such bonds do not conform or have ceased to conform to the provisions of this section

10. Bonds of the Land Bank of the State of New York.

10a. Farm Loan bonds issued by the Federal Land Bank of the First Land Bank District as created pursuant to the Federal Farm Loan Act, approved July 17 1916.

11. Bankers' acceptances and bills of exchange of the kind and maturities made eligible by law for purchase in the open market by Federal Reserve banks, provided the same are accepted by a bank, national banking association, trust company or investment company qualified to exercise the powers specified in subdivision 1-a of Section 293 of the Banking Law, incorporated under the Laws of the State of New York or under the laws of the United States and having its principal place of business in the State of New York. Not more than 20% of the assets of any savings bank less the amount of the available fund held pursuant to the provisions of Section 251 of this chapter, shall be invested in such acceptances. The aggregate amount of the liability of any bank, national banking association or trust company to any savings bank for acceptances held by such savings bank and deposits made with it, or of any such investment company to any savings bank for acceptances held by such savings bank, shall not exceed 25% of the paid up capital and surplus of such bank, national banking association, trust company or investment company and not more than 5% of the aggregate amount credited to the depositors of any savings bank shall be invested in the acceptances of or deposited with a bank, national banking association or trust company of which a trustee of such savings bank is a director, or invested in the acceptances of any such investment company of which a trustee of such savings bank is a director.

SUPERINTENDENT MUST FURNISH SAVINGS BANKS LIST OF LEGAL INVESTMENTS.—Section 52 of Article II of the General Banking Law reads as follows:

On or before the first day of January, 1915, and on or before the first day of January in each and every year thereafter, the Superintendent of Banks shall mail to each savings bank in the State a list containing the names of States and municipalities, the bonds of which, in his judgment, if legally issued and properly executed, conform to the requirements of Section 239 of this Chapter, and also as complete a list as is practicable of railroad bonds which, in his judgment, if legally issued and properly executed, conform to the provisions of said Section.

In the preparation of such list he may employ such expert assistance as he deems proper and apportion the expense thereof among the savings banks of the State, or he may rely upon information contained in publications which he may deem authoritative in reference to such matters. He shall be in no way liable for the omission from such list of the name of any State or municipality the bonds of which conform to the provision of said Section, or of any railroad bond which conforms to the provisions of said Section, nor for the inclusion in such list of the name of any State or municipality the bonds of which do not conform to the provisions of said Section, or of any railroad bond which does not conform to the provisions of said Section.

For list of bonds considered legal investments on Jan. 1 1923, *see "Chronicle" of June* 9 1923, *pages* 2671, 2672 *and* 2673.

TRUST FUNDS.—*How Loaned or Invested.*—Sec. 21, Chap. 41, Consol. Laws of 1909, as amended (the most recent amendment was made by Chapter 599, Laws of 1922), permits executors, administrators, guardians, &c., to invest in the same securities as savings banks. We quote the provision below:

INVESTMENT OF TRUST FUNDS.—A trustee or other person holding trust funds for investment may invest the same in the same kind of securities as those in which savings banks of this State are by law authorized to invest the money deposited therein, and the income derived therefrom, and in bonds and mortgages on unincumbered real property in this State worth 50% more than the amount loaned thereon, and in shares or parts of such bonds and mortgages, provided that any share or part of such bond or mortgage so held shall not be subordinate to any other shares thereof and shall not be subject to any prior interest therein, and provided further that bonds and mortgages in parts of which any trustee may invest trust funds together with any guaranties of payment, insurance policies and other instruments and evidences of title relating thereto shall be held for the benefit of such trustee and of any other persons interested in such bonds and mortgages by a trust company or title guaranty corporation organized under the laws of this State and that a certificate setting forth that such corporation holds such instruments for the benefit of such trustee and of any other persons who may be interested in such bonds and mortgages among whom the corporation holding such instruments may be included, be executed by such trust company, or title insurance corporation and delivered to each person who becomes interested in such bond and mortgage. Every corporation issuing any such certificate shall keep a record in proper books of account of all certificates issued pursuant to the foregoing provisions. A trustee or other person holding trust funds may require such personal bonds or guaranties of payment to accompany investments as may seem prudent, and all premiums paid on such guaranties may be charged to or paid out of income, providing that such charge of payment be not more than at the rate of ½% per annum on the par value of such investments. But no trustee shall purchase securities hereunder from himself. Whenever any trust funds are invested in the shares of a savings and loan association, organized under the laws of this State, at the time said funds shall come into the possession of any trustee or other person, entitled to hold the same, the investment of such funds in the shares of such savings and loan association may be continued, provided, however, the total amount of trust funds invested in the shares of such savings and loan association shall not exceed the amount of its guaranty fund.

Sinking funds	*1,207,626	1,291,042
Net debt	*$7,966,101	$7,697,728

* Of this figure, $276,609 is for water sinking fund. The net general debt Jan. 1 1923 was $6,620,710 and the net water debt $1,345,391, making the total of $7,966,101.

In addition to the above there are outstanding street improvement assessment bonds amounting on Jan. 1 1923 to $792,900.

On Jan. 10 1923 the city issued $1,860,000 bonds, bringing the total bonded debt up to $11,763,436.

This city owns and operates its water system, and the principal and interest of the water debt are paid out of water rent receipts.

ASSESSED VALUATION.—

	1922. $	1923. $

HEMPSTEAD, TOWN.
Hempstead (inc. April 17 1784) is now in Nassau Co., but was formerly in Queens Co., then including Far Rockaway, Hempstead, Inwood, Lawrence, Rockaway Beach and Cedarhurst villages. On Jan. 1 1898 that portion of the town lying "westerly of a straight line drawn from the southeasterly point of the town of Flushing through the middle of the channel between Rockaway Beach and Shelter Island, in the County of Queens, to the Atlantic Ocean," became part of New York City, under the Greater New York Charter. This boundary was changed by the Legislature in April 1899, and the new boundary is that portion of the old town of Hempstead "bounded on the east and north by the east and north bounds of the former village of Far Rockaway, and on the east by a line drawn due north from the northwest corner of said village to the south line of the Town of Jamaica, as it existed on the thirty-first day of December 1897." The bonds given below are those remaining as a debt against the town after assigning to New York City the portion belonging to it according to a decision of the Supreme Court of the Third Judicial District at Albany Dec. 9 1899. See V. 69, p. 1357.

NEW WINDSOR COM. S. D. NO.1.
This district (P. O. Vail Gate) is in Orange County.

NEW YORK CITY. John F. Hylan, Mayor; Chas. L. Craig, Comptroller.
The consolidation provided under the Greater New York Charter became effective Jan. 1 1898, and New York City now includes Kings County, Richmond County and the following portions of Queens County, namely Long Island City, the towns of Newtown, Flushing and Jamaica, and part of the town of Hempstead. The Legislature in 1912 enacted a law (Chap. 548, Laws 1912) providing for the creation of the County of The Bronx out of the Borough of The Bronx. The bill was subject to referendum of the citizens of the borough in November 1912 and was favorably passed upon at that time, but on Jan. 17 1913 was declared unconstitutional by the Appellate Division of the Supreme Court. V. 96, p. 299. This decision was reversed, however, by the Court of Appeals on March 14 1913. V. 96, p. 810. In 1917 a bill was passed providing for setting off the Fifth Ward of Queens (constituting the villages of Far Rockaway, Arverne and Rockaway Beach) to constitute what was to be known as the city of Rockaway. This measure, however, was vetoed by the Mayor. A similar bill was passed by the Legislature in 1915, but this too was defeated at the hands of the Mayor. The following statement includes all of the funded debt of the former City of New York and of the municipalities in Brooklyn, Queens and Richmond which was recorded at the date of consolidation; also such additional amounts as were recorded in subsequent years as being funded obligation of said former municipalities to be assumed by the City of New York. These figures do not include $2,007,600 revenue bonds of the former City of New York outstanding Jan. 1 1898 and redeemable from its tax levy of 1897 nor $4,060,000 of revenue bonds or certificates of indebtedness of the former city of Brooklyn outstanding Jan. 1 1898, but redeemable from its tax levy for the year 1898.

DEBT OF GREATER CITY AT CONSOLIDATION JAN. 1 1898

	Tot. Funded Debt.	*Sinking Fund.*	*Net Debt.*
Manhattan & The Bronx	§$226,144,311.28	$85,654,317.52	$140,489,993.76
Brooklyn	81,626,175.53	6,734,055.69	74,892,119.84
Queens	13,709,935.62	330,000.00	13,379,935.62
Richmond	3,486,736.67	----------	3,486,736.67
Total	*$324,967,159.10	$92,718,373.21	$232,248,785.89

§Includes $3,061,645.01 special revenue bonds.

DEBT OF GREATER CITY AT PRESENT TIME.

Since consolidation (Jan. 1 1898), the Greater City has issued, excluding general fund bonds, special revenue bonds and revenue bonds and bills, up to Dec. 31 1922, $1,308,558,565.27, and redeemed and canceled during that period $344,009,263,06. The following compares gross and net debt of the consolidated city at different dates.

Comparative Yearly Table of the Total Bonded Debt, from Jan. 1 1898 to Jan. 1 1923.

Divided to show in separate columns the Funded Debt, the Total Sinking Fund Holdings and the Temporary Debt as at Jan. 1 of each year and as at Dec. 31 1921.

As at Jan. 1	*xFunded Debt viz., Corporate Stock, Corporate Stock Notes and Assessment Bonds.*	*Sinking Fund Holdings. (Bonds).*	*Net Funded Debt.*	*—Temporary Debt—Special Revenue Bonds.*	*—Temporary Debt—Revenue Bonds and Bills.*

x The funded debt on Jan. 1 1912 included $23,795,579 of the corporate stock notes described below; $35,391,095 of these securities were included on Jan. 1 1913, $62,435,562 Jan. 1 1914, $58,608,977 Jan. 1 1915, $34,080,285 Jan. 1 1916, $35,348,500 Jan. 1 1917, $18,447,000 Jan. 1 1918, $38,709,000 Jan. 1 1919, $68,619,000 Jan. 1 1920, $92,203,443 Jan. 1 1921, $42,064,000 Jan. 1 1922 and $42,990,000 Jan. 1 1923. None outstanding at previous dates.

The funded debt as given above is exclusive of general fund bonds as follows: $8,500,000 at Jan. 1 1904, $18,000,000 at Jan. 1 1905, $29,000,000 at Jan. 1 1906, $40,750,000 at Jan. 1 1907, $54,250,000 at Jan. 1 1908, $68,750,000 at Jan. 1 1909, $85,500,000 at Jan. 1 1910, $102,500,000 at Jan. 1 1911, $120,000,000 Jan. 1 1912, $137,500,000 Jan. 1 1913, $159,500,000 Jan. 1 1914, $183,000,000 Jan. 1 1915, $206,000,000 Jan. 1 1916, $229,500,000 Jan. 1 1917, $254,500,000 Jan. 1 1918, $281,500,000 Jan. 1 1919, $310,000,000 Jan. 1 1920, $342,500,000 Jan. 1 1921, $376,500,000 Jan. 1 1922 and $414,000,000 Jan. 1 1923. There is also excluded from the above table tax notes which on Jan. 1 1918 amounted to $4,600,000, on Jan. 1 1919 $3,500,000, 1920 $2,050,000 on Jan. 1; on Jan. 1 1921, $3,961,000, on Jan. 1 1922, $5,000,000, and $2,500,000 on Jan. 1 1923. None outstanding at previous dates.

The table below of the City's funded debt as at Dec. 31 1922, is designed, to first present the total outstanding amount of bonds which have been issued to finance undertakings that are largely, or in part, self-carrying. In the first group (Group "A") are shown the total amounts of water bonds, rapid transit bonds, docks and ferries bonds, and assessment bonds payable from assessments. These make a combined total of $663,303,864 90, of which the city's sinking funds hold $88,452,626 21 and the public holds $574,851,238 69.

Of the total amount of water bonds outstanding, it is claimed that there are $210,000,000 to $215,000,000 which are self-carrying. The water revenues actually realized each year are sufficient to meet all administration, operation and maintenance charges of the Water Department per se, and to provide annual interest payments on and set aside a sum sufficient to amortize and ultimately redeem the principal of from $210,000,000 to $215,000,000 of these bonds. The remainder of the water bonds outstanding represent to a great extent the amount which has been expended in the Catskill aqueduct still in course of construction. Altogether $221,875,100 38 of water bonds and notes are exempted from the debt limit under the provisions of the State Constitution.

Of the rapid transit bonds $51,013,724 86 have been exempted by the Appellate Division in accordance with the provisions of the State Constitution. The lessee of the subway is now paying interest and annual installments to the Sinking Fund on over $57,000,000. Consequently, of the total amount of rapid transit bonds outstanding as shown in the table herewith submitted, over $57,000,000 are self-carrying.

The revenues realized by the city from the operation of the Dock Department are sufficient to meet all administration, operation and maintenance expenses, together with interest and amortization charges on nearly $70,000,000 ($69,943,053) of Dock Bonds, which in consequence have been exempted from the constitutional debt of the City by the Appellate Division of the Supreme Court in accordance with certain provisions of the State constitution. ■

The bonds which are fourth in order of arrangement in Group "A" are assessment bonds issued by the city payable from assessments levied against property presumably benefited by the improvements made and to finance which these assessment bonds were issued. If the total interest on these bonds was payable and the entire principal was redeemable from the proceeds of special assessments laid for that purpose it would mean that all of these bonds were also fully self-carrying; but as the city in many cases has to assume a certain percentage of the assessments levied for certain improvements made, it follows that only a proportion of these assessment bonds is payable principal and interest from the proceeds of assessments laid for that purpose. A careful estimate of the proportion of assessment bonds on which interest and principal may ultimately require to be provided for by the city would place such as not exceeding 15% of the total amount thereof shown in Group "A."

A conservative approximation, therefore, of the total amount of self-carrying bonds contained in Group "A", based on actual figures and careful estimates, would indicate that there are from $245,000,000 to $247,000,000 of these which can be so regarded.

The succeeding classifications in Groups "B" and "C" consist of bonds issued for schools and sites, libraries and sites, city parks and places, bridges, streets, public buildings—including hospitals, charities, health, fire, police, correction, &c.; streets, highways: to cover deficiencies in tax collections, &c. The interest on these is provided for by annual tax levy together with the annual installments required to amortize and ultimately redeem the principal of such bonds.

Classification According to Function or General Purpose—	*Gross funded Debt, viz.: Total Amount Outstanding.*	*Purchased and held by Sinking Funds.*	*Purchased and held by Public.*	*Corporate Stock Notes Outstanding.*

*No assessment or tax in 1898.

In 1903 the assessment of real estate was made on the basis of about real value; 1903 and subsequent values, therefore, were greatly in excess of those for previous years, and consequently the tax rate is much lower.

[Under a law passed by the 1911 Legislature, the collection of taxes takes place semi-annually instead of annually, as heretofore. V. 93, p. 63.]

[State Supreme Court early in 1916 decided against the city in its efforts to have value of bank shares excluded from personal tax valuation in levying direct State tax. See "Chronicle" of Mar. 4 1916, page 906.]

[The State Supreme Court upholds the city's right to make its own appraisal of personal property of foreign corporations. See "Chronicle" of May 27 1916, page 2005.]

[The sum of $18,439,335, which the city had been carrying as an asset for the previous eleven years and representing unsatisfied claims against 92,844 persons for personal taxes from 1899 to 1905, inclusive, was wiped from the city's books by the Board of Estimate on Oct. 13 1916. V. 103, p. 1528.]

[The City Comptroller on May 1 1917 issued a report dealing with the city's experience in connection with the imposition and subsequent liquidation of the special franchise tax. See V. 104, p. 1761.]

PAY-AS-YOU-GO POLICY.—On May 20 1916 the Governor signed the bill approved by the 1916 Legislature providing for the incorporation in the city charter of the pay-as-you-go policy. See "State and City Department" of "Chronicle" for May 27 1916.

In 1918, however, the State Legislature passed a bill which was later approved by both the Mayor and Governor for the relief in financing this city's obligations during the period of the war and one year thereafter in reference to the issuance of corporate stock and serial bonds. The new law permits the city to issue, in addition to corporate stock and serial bonds now authorized by law, $15,000,000 in bonds or corporate stock each year, dating from Jan. 1 1918, for the period of the war and for one year thereafter, the proceeds to be used in needed public improvements. The full text of the law will be found in the "Chronicle" of April 13 1918, page 1596.

At the 1923 legislative session another Act allowing the city to create indebtedness in excess of the debt limit was enacted. This measure allows the city to issue $15,000,000 long-term obligations annually for permanent improvements, regardless of limitations in any other statutes. V. 116, p. 2547.

GENERAL FUND BONDS.—A new kind of bond (known as the "General Fund Bonds") was created by the Legislature in 1903. It is issued for the purpose of releasing the surplus revenues of the sinking fund of the old City of New York, and to allow the money to be applied to the reduction of taxation. Under the law the bonds will be issued only in the way indicated, and they will be taken for account of sinking fund for redemption of the city debt No. 1. See V. 76, p. 610. Up to Dec. 31 1922 $414,000,000 of these bonds had been issued.

APPROPRIATIONS.—The total appropriation for Greater New York in 1898 was $77,473,084; in 1900 it was $90,778,972; for 1902 it was $98,619,600; for 1904, $106,674,955; for 1906, $116,805,490; for 1908, $143,572,266; for 1910, $163,130,270; for 1912, $181,000,657; 1914, $192,995,551; for 1915, $198,989,786; for 1916, $212,956,155.81 (including $13,975,000 apportioned to N. Y. City as its share of the direct State tax of $20,000,000); for 1917, $211,114,136.82 (no direct State tax in 1917); for 1918 the appropriations were $238,123,759.20 (including $8,463,756 apportioned to New York City as its share of the direct State tax of $12,800,000), in 1919 $248,025,434.88, including a State tax amounting to $8,522,629.61; in 1920 $273,689,485, including a State tax amounting to $8,539,156; in 1921 $345,540,039.77, including State tax aggregating $22,041,183; in 1922, $350,601,570.07, including State tax aggregating $14,430,513.24; and in 1923, $353,350,975.67, including State tax aggregating $12,595,623.67. The 1917 Legislature passed a bill providing for a direct tax of 1.08 mills, in 1918 for 1.06 mills, in 1919 for 1.06055 mills, in 1920 for 1.155 mills, in 1921 for 1.503 mills, in 1922 for 1.3795 mills, and in 1923 for 1.1388 mills.

On April 26 1917 a bill was signed by the Governor providing that hereafter this city shall have a tentative budget. Under the terms of the measure a budget setting forth every expense in items must be prepared and must be ready by Oct. 10 for public discussion. It is further provided that the Board of Estimate and Apportionment must file with its Secretary on Oct. 20 each year, a copy of the proposed budget, after which date no item is to be added, nor any item already in the budget increased. Between Oct. 20 and the date of adoption of the budget any item, however, may be decreased or dropped.

POPULATION (*U. S. Census figures*)—

	1920	1910.		1920.	1910.
Greater N. Y.	5,621,151	4,766,883	Boro. of Queens	469,042	284,041
Man. & Bronx	3,016,119	2,762,522	Boro. of Rich'd	116,531	85,969
Boro. of Br'klyn	2,018,356	1,634,351			

The population of the Greater City, according to the State Census for 1915, is officially reported as 5,047,221.

DETAILS OF INDEBTEDNESS.

The tables which follow give full details regarding the indebtedness of the consolidated city and the various boroughs and other divisions forming part of it. The loans marked (s f) are held in the sinking fund.

FUNDED DEBT OF THE CITY OF NEW YORK.

(As Constituted from January 1 1898.)

Payable from the sinking fund of the City of New York under the provisions of Sections 206 of the Greater New York Charter.

FUNDED DEBT COUNTY OF NEW YORK.

Consolidated stock payable from the sinking fund for the redemption of the city debt (No. 1) under the provisions of Section 213 of the Greater N.Y. Charter.

3.30g'01J-J $2,000,000 --- July 1 1921

THE CITY OF BROOKLYN.

The old city of Brooklyn covered the entire area of the county of Kings, the county government being consolidated with that of the city on Jan. 1 1896 under the provisions of Chapter 954 of the Laws of 1895. Under the provisions of this Act, "the debt of the said county shall not be deemed to be, or be included as, a part of the debt of the City of Brooklyn, within the meaning of the provision of the constitution of the State of New York limiting the power of cities to incur indebtedness." (See "Chronicle," Vol. 62, p. 49.) The towns of Flatbush, New Utrecht and Gravesend were annexed to the City of Brooklyn in 1894 and the town of Flatlands became a ward of the city on the first day of January 1896.

Payable from the sinking fund of the City of Brooklyn under the provisions of Chapter 488, Laws of 1860, and amendments thereto.

Public Park Loan Bonds.

COUNTY OF QUEENS.

The debt of the county of Queens is reported under the county's own name on a subsequent page; the amount of the original debt which was chargeable to the City of New York was adjudicated finally to be $3,796,032.11, leaving $1,011,967.89 as Nassau County's share of the old indebtedness. Instead of apportioning certain bonds to N. Y. City and to Nassau County, the debt and interest is not divided, but N. Y. City pays 78.952414973% of the principal and interest as it becomes due, and Nassau County 21.047585027%. The Comptroller of N. Y. City acts as agent in the payment of the debt. The amount of Queens County bonds outstanding on Dec. 31 1922 was $210,000, of which $173.695.34 was chargeable to New York City. For details of bonds see "Queens County" on a subsequent page.

QUEENS COUNTY.

County seat is Jamaica. A large part of the old County of Queens is now included in the Greater New York, and a law changing the name of that portion of the old county *outside* of Greater New York to Nassau County went into effect Jan. 1 1899. The amount of outstanding bonds of this county which will be chargeable to the City of New York has been finally determined by the Supreme Court (V. 71, p. 875). Under this decision the City of New York was made liable for $3,796,032.11 of the old debt of Queens County as it stood at the date of division, and the remaining $1,011,967.89 became an obligation of Nassau County. Instead of apportioning certain bonds to New York City and to Nassau County, the debt and interest is not divided. New York City pays 78.952414973 of the principal and int. as it becomes due and Nassau Co. 21 047585027. The Comptroller of New York City acts as agent in the payment of the debt.

INT. in New York Exchange.

SUMMARY OF DEBT JUNE 19 '23

Water bonds	$2,495,500
School bonds	4,469,590
Special assessment bonds	1,166,000
Other bonds	5,538,513
Total	$13,669,603

The full faith and credit of the city are pledged to the payment of all bonds of the city.

Prior to Jan. 1 1908, the School Bonds were issued by the Board of Education and the water bonds by the Water Board. Since the date referred to, however, all bonds of the city have been issued under the Uniform Charter for cities of the second class. Chapter 452 of the Laws of 1908 repeals the Acts under which the Board of Education and the Water Board were created separate bodies.

CITY PROPERTY.—Real estate owned by the city is assessed at $13,547,887.00. Including water works valued at $4,545,186.53.

ASSESSED VALUATION.—The city's assessed valuation has been:

	1923.	1922.
	$	$
Real estate	198,000,615	179,995,918
Personal	414,750	285,900
Total	198,415,365	180,281,818
Average rate per $1,000)	$30.40	$32.00

YORKTOWN.

This town is in Westchester Co.

Assessed valuation 1922 1,238,750

(Assessment about 85% actual val.)

Total tax rate (per $1,000) '22 $10.03

State of New Jersey.

ITS

DEBT, RESOURCES, ETC.

Admitted as a State—One of Original Thirteen

Total area of State (square miles)—7,815

State Capital—Trenton

Governor (term expires Monday before 3d Tuesday, January 1925)—Geo. S. Silzer

Secretary of State (term exp. Apl. 6 '25)—Thos. F. Martin

Treasurer (term expires Apr. 1 1925)—William T. Read

Comptroller (term expires Feb. 20 '26)—Newton A. K. Bugbee

Attorney-General—Thos. F. McCran

LEGISLATURE meets annually the second Tuesday of January, and there is no limit to the length of the session.

HISTORY OF DEBT.—New Jersey has always been a conservative State; there are consequently no facts out of which to construct a history of debt issues. In a report made in 1838 the financial officer of the State affirmed that New Jersey had put out no obligations of any kind or loaned its credit to any company. The constitution of 1844 forbade the creation of a State debt exceeding one hundred thousand dollars *except* for purposes of war, &c. This exception, under which it was allowable to exceed the hundred-thousand-dollar limit, became operative on the occasion of the breaking out of the Civil War. Quite a debt was created at that period. The last of these war bonds was retired on Jan. 1 1902.

TOTAL DEBT.—From Jan 1 1902 to 1921, when $12,000,000 soldier bonus bonds and $5,000,000 highway bonds were issued, the debt amounted to only $116,000. The State debt on June 1 1923 totaled $24,116,000. Included in this total are $116,000 certificates of the State issued to the Agricultural College. The details of bonded debt follow:

Soldiers' Bonus Bonds.

5s '21 J-J $10,000,000cr. July 1 '41

5s '21 J-J 2,000,000cr. July 1 '41

Bridge Bonds.

4¼s'23 J-J $2,000,000cr. July 1 1938

Highway Bonds.

5s '21 J-J *a*$5,000,000cr. July 1 '51

4¼s'22 J-J *a*5,000,000cr. July 1 1952

4¼s'23 J-J *a*2,000,000cr. Jan 1 1953

4¼s'23 J-J *a*3,000,000cr. July 1 1938

(*a* Optional after 15 years from date upon six months' notice.)

INT. on the soldiers' bonus bonds and bonds marked (*) payable at the Mercer County Trust Co., Trenton; on other highway bonds at the Mechanics Nat. Bank, Trenton, and on bridge bonds at the Broad Street Nat. Bank, Trenton.

At previous dates the debt was:

Nov. 1 1901	$71,000	Nov. 1 1895	$660,400
Nov. 1 1898	194,000	Nov. 1 1894	735,400
Nov. 1 1897	394,000	Nov. 1 1880	1,990,300
Nov. 1 1896	593,400	Nov. 1 1866	3,395,200

On June 30 1922 the cash balance of the State Fund in bank was $8,791,582.94. This fund also held on the same date 1,887 shares (par value $188,700) of the stock of the United Railroad & Canal Co., of New Jersey, the market value of which amounts to about $375,000. The State School Fund on June 30 1922 held securities to the amount of $10,248,614.24; cash balance on hand for investment, $105,987.05.

ASSESSED VALUATION.—The assessed valuation for a series of years has been as below. Under new tax laws the assessment beginning with 1906 has been at supposed full value—a much higher basis than formerly.

1922	$3,797,507,447	1910	$2,045,898,214	1890	$649,979,700
1921	$3,519,841,269	1909	1,949,687,287	1888	603,676,953
1920	3,254,964,269	1908	1,843,001,178	1886	573,256,303
1919	3,032,164,104	1906	1,570,210,073	1884	554,828,114
1918	3,030,926,010	1905	1,153,682,961	1882	534,917,876
1917	2,888,117,701	1900	891,237,286	1880	518,617,518
1916	2,696,314,011	1898	844,354,193	1878	531,851,849
1915	2,583,953,595	1896	794,428,048	1876	596,833,707
1914	2,481,605,038	1894	774,398,332	1874	619,057,903
1912	2,289,770,281	1892	742,759,082		

In addition to the above, valuation of main stem, tangible personality and franchises of railroad property in 1912 was $327,647,993, in 1913 329,595,655, in 1914 334,738,372, in 1915 344,947,959, in 1916 $349,195,216, in 1917 $358,440,155, in 1919 $246,621,381, in 1920 $250,806,026, in 1921, $390,229,448, and in 1922 $414,238,890. The values of railroad and canal property from 1906 to 1911, inclusive, do not include second-class railroad property, the latter being given in the totals shown above for those years. No general tax is imposed in New Jersey, the State deriving its revenue from other sources.

POPULATION OF STATE.—Population has been as follows:

1920	3,155,900	1880	1,131,116	1830	320,823
1915	2,844,342	1870	906,096	1820	277,575
1910	2,537,167	1860	672,035	1810	245,562
1905	2,144,134	1850	489,555	1800	211,149
1900	1,883,669	1840	373,306	1790	184,139
1890	1,444,933				

DEBT LIMITATIONS.—(1) *THE STATE* is restricted as to its debt-making power by the State Constitution. In Article IV, Section VI, paragraphs 3 and 4, the whole subject is disposed of as follows:

3. The credit of the State shall not be directly or indirectly loaned in any case.

4. The Legislature shall not in any manner create any debt or debts, liability or liabilities of the State which shall singly or in the aggregate, with any previous debts or liabilities, at any time exceed one hundred thousand dollars, except for purposes of war, or to repel invasion, or to suppress insurrection, unless the same shall be authorized by a law for some single object of work, to be distinctly specified therein; which law shall provide the ways and means, exclusive of loans, to pay the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within thirty-five years from the time of the contracting thereof, and shall be irrepealable until such debt or liability and the interest thereon are fully paid and discharged; and no such law shall take effect until it shall, at a general election, have been submitted to the people, and have received the sanction of a majority of all the votes cast for and against it at such election; and all money to be raised by the authority of such law shall be applied only to the specific object stated therein, and to the payment of the debt thereby created. This section shall not be construed to refer to any money that has been, or may be, deposited with this State by the Government of the United States.

According to the foregoing (4th paragraph), the power of the State for making debt is limited to $100,000, except (1) for purposes of war, &c., and (2) when the authorization is for some single object of work specified therein, &c. In the latter case the mode of procedure is, as will be seen, given in the same paragraph of the constitution.

[On Nov. 2 1915 the voters decided against the question of issuing $1,000,000 bonds for the purchase of what is known as the "Wharton Tract" in Atlantic and Burlington counties. V. 101, p. 1825. It was originally intended to issue these bonds in the name of the State Water Supply Commission, without a vote of the people, but the Court of Errors and Appeals on March 1 1915 decided that this would be in violation of the constitutional provision which prohibits the bonding of the State for a sum exceeding $100,000, except by direct vote of the people. See "Chronicle" of March 6 1915, page 829.]

The 1920 Legislature passed two bond acts which were approved by the voters at the November 1920 election, one for $15,000,000 for soldiers bonus, and the other $28,000,000 for a vehicular tunnel from Jersey City to New York and a bridge from Camden to Philadelphia. See V. 110, p. 1771, 2103, respectively.

At the November 1922 elections the voters defeated a proposition to issue $14,000,000 bonds for extending and improving various State institutions, the referendum having been authorized by Chapter 201, 1921 Laws of New Jersey. V. 113, p. 2210.

The 1922 Legislature, following the Governor's veto, passed a bill calling for the submission to the voters at the fall election of a bond issue of $40,000,000 for highways and bridges. At that election, Nov. 7 1922, the people by 260,929 "for" to 243,865 "against" voted favorably on the measure. V. 115, p. 2710.

CITIES, COUNTIES, TOWNS, &c., are also restricted in the making of certain kinds of debt by Article I, paragraphs 19 and 20, of the constitution. We give these paragraphs in full:

19. No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit, to or in aid of any individual, association or corporation, or become security for, or be directly or indirectly the owner of any stock or bonds of any association or corporation.

20. No donation of land or appropriation of money shall be made by the State or any municipal corporation to or for the use of any society, association or corporation whatever.

It will be noted that the above prohibitions are absolute.

Article IV, Section VII, Paragraph 11, of the constitution, forbids the passage by the Legislature of any special laws "regulating the internal affairs of towns and counties," the constitution directing that in this and all other cases where general laws are feasible, general laws shall be provided.

In compliance with this last provision the Legislature has from time to time passed many general laws relating to the different kinds of municipalities existing in New Jersey, but latterly the situation has been greatly simplified, and now the debt-incurring powers of New Jersey municipalities are regulated almost entirely by a series of general laws passed in 1916-1918, which practically supersede the complex system of laws described in the "State and City Supplement" for Nov. 1916 and previous issues. These new statutes are Laws 1917, Chapter 152, known as the Home Rule Act (amended and supplemented by numerous subsequent Acts), which grants broad power to make public improvements; Laws 1918, Chapter 185 (as amended), which is a similar Act concerning the powers of counties: Laws 1916, Chapter 252 (amended by Laws 1917, Chapter 240, Laws 1918, Chapter 259; Laws 1920, Chapters 78, 108 and 252; Laws 1921, Chapters 120, 157, 164 and 235, and Laws 1922, Chapters 114 and 233), known as the Pierson Bond Act, referred to at length below; Laws 1916, Chapter 112; Laws 1919, Chapter 73; Laws 1921, Chapters 98 and 234; and Laws 1922, Chapter 230, relating to loans for school purposes; Laws 1920 (Chapter 84, supplemented by Laws 1921, Chapter 30), directing the funding of floating debt; Laws 1917, Chapters 154 (amended by Laws 1918, Chapter 266), 155 and 156, creating the office of State Commissioner of Municipal Accounts and requiring municipalities to file with him financial reports and transcripts of proceedings for bond issues; Laws 1917, Chapter 192 (amended by Laws 1918, Chapter 242, and Laws 1919, Chapters 178, 238 and 242), providing for an annual budget and for temporary loans against taxes; Laws 1918, Chapters 267 and 268, and Laws 1921, Chapters 105 and 106, relating to the auditing of municipal accounts; Laws 1918, Chapter 238, establishing the fiscal year of municipalities; and Laws 1917, Chapter 212 (amended by Laws 1918, Chapter 243), providing for sinking funds for bonds heretofore issued (all future issues being required to be serial bonds).

THE PIERSON BOND ACT, mentioned above, authorizes and regulates the issuance of all bonds and notes of counties, cities, boroughs, villages, towns, townships and improvement commissions, other than bonds or notes for school purposes or against unpaid taxes or tax titles. Except in regard to registration and transfer of bonds, it supersedes all laws on the same subject matters passed before March 22 1916, and probably also those passed before Jan. 1 1917; but on the latter point the amendatory Act of 1917 is not entirely clear. Saving clauses in the Act make certain restrictions inapplicable to proceedings commenced before March 29 1917. The Act provides substantially as follows:

Power to Issue Bonds and Notes.—Power is given to issue bonds for any public improvement for which the municipality or county may lawfully make or for any other purpose for which it may lawfully appropriate money, except to pay current expenses or fund debts incurred after March 22 1916 for current expenses or refund bonds issued after that date. Power is also given to issue temporary bonds or notes to temporarily finance any purpose for which bonds may be issued under the Act. Such temporary obligations may run not longer than six years after such purpose has been carried out, unless the levying of special assessments for improvements for which the obligations are issued is delayed by litigation.

Term of Bonds.—Bonds must mature (*a*) within the probable life of the improvement or property for which they are issued, to be determined by the bond ordinance or resolution, but not to be deemed greater than the maximum period specified in the Act for such an improvement or property (a period ranging from 5 to 50 years); or (*b*) if the bonds are to fund debt incurred before March 22 1916 for unascertainable purposes, within 15 years; or (*c*) if for refunding, within 20 years; or (*d*) if for more than one such purpose, within the average of the periods assigned, to the several purposes, taking into consideration the amount of bonds for each purpose; or (*e*) if issued in anticipation of the collection of special assessments, within a period ending not more than two years after the last installment of the assessment will become delinquent.

Serial Bonds.—All bonds must mature in annual installments beginning not more than two years after the date of the bonds, and no installment can be more than 50% greater than the smallest prior installment.

Sale of Bonds.—Bonds cannot be sold below par. If the amount of the issue exceeds $10,000, they must be sold at public sale, unless sold within 30 days after a public sale at which no bids are received, or unless the sale is to the municipal sinking fund or insurance fund commissioners. Only such an amount of the bonds can be sold as will produce a sum less than $1,000 in excess of the amount of money necessary to be raised. In case of public sale, advertisement must be made in a local newspaper and also in a financial paper in New York City or Philadelphia. Temporary bonds or notes may be disposed of privately.

Debt Limits.—Except as noted below, the Pierson Bond Act prohibits a municipality from passing an ordinance or resolution authorizing bonds or notes under that Act in an amount which, with the amount of all evidences of indebtedness then outstanding, or to be issued under previous authorizations, exceeds 7% of the average of the three next preceding assessed valuations of taxable real property. In a county the limit is 4%. But in order that the statute may not work a hardship on municipalities heavily indebted at the time of passage of the Act, it permits municipalities to exceed the 7% limit so long as the bonds and notes issued or authorized under the Act after Dec. 31 1916 (including debt so incurred and paid) do not exceed 2% of the average assessed valuation of taxable real property for the years 1914, 1915 and 1916. The statute prescribes in great detail the method for

computing and determining net debt under these limitations. The chief financial officer of the municipality or county is required to file annually with the clerk of the municipality or of the county board of freeholders, as the case may be, an "Annual Debt Statement," showing the debt situation as of the close of the preceding calendar year; and he must file a "Supplemental Debt Statement," showing the changes since the last annual statement, before the passage of any ordinance or resolution authorizing bonds or notes to which the debt limitations apply. The debt limitations do not apply to the issuance of bonds or notes for funding, refunding, water supply, or the construction or reconstruction of dikes, bulkheads, jetties or other devices on the ocean or inlet fronts to prevent the encroachment of the sea, including improvements to restore property demaged by the sea, or for the construction of boardwalks, pavilions, piers, bathing houses or other devices along the ocean front." Nor do they affect the incurring of debt under other laws, such as debts for schools or current expenses. But some of these exempted debts must be considered (as indicated below) in ascertaining the power to become indebted under the Act for other purposes. The net debt subject to the limits is computed by ascertaining the gross amount of all bonds or other evidences of debt outstanding, or authorized but not yet issued, or about to be authorized by the ordinance or resolution in connection with which the computation is made, exclusive of debts for current expenses of the current fiscal year, and by deducting from such gross amount (1) the following portions of the gross debt, viz.: (*a*) debts for self-sustaining utilities (not for support or maintenance), in so far as they do not exceed 3% of the average assessed valuation of taxable real property for the next preceding three years; (*b*) debts for schools, in so far as they do not exceed 3% of such average assessed valuation; (*c*) debts for ocean or inlet front improvements referred to above; (*d*) debts for certain sewer improvements in boroughs (Laws 1919, Chapter 51); (*e*) debts for certain highway improvements in counties (Laws 1918, Chapter 183); (*f*) certain county bonds payable out of motor vehicle funds received from the State (Laws 1921, Chapter 164), (*g*) debts for certain self-sustaining electric light plants (Laws 1921, Chapter 235); and (*h*) municipal debts for eliminating grade-crossings, in so far as such debts do not exceed 2% of the average assessed valuations of taxable real estate for 1920, 1921 and 1922 (Laws 1923, Chapter 157); also (2) the following assets, to the extent that they are applicable to the payment of any part of the gross debt not deducted as above stated, viz.: (*a*) uncollected special assessments levied or to be levied; (*b*) funds in hand or to be derived from the issuance of bonds or notes included in the gross debts, and (*c*) uncollected taxes levied to pay gross debt; and (3) also other assets to the extent that they are not included in the foregoing assets, viz.: (*a*) unpaid taxes not more than three years in arrears, and (*b*) amounts owing to the municipality on account of improvements for which any part of the gross debt, not deducted, was incurred or authorized.

Procedure for Issuing Bonds.—In boroughs and townships bonds cannot be issued without a vote of the people if protests against the issue are filed by one-third of the governing body or by taxpayers representing 10% of the assessed valuation of propertuy. In other municipalities no election is provided for by the Pierson Bond Act; but the so-called Home Rule Act (Article 37, Section 24) apparently makes all bond ordinances subject to referendum if demanded by taxpapers.

Validation of Bonds.—The Act provides that the validity of bonds shall not be questioned in any suit commenced after the lapse of 20 days from the first publication of the ordinance or resolution authorizing them, unless issued in violation of the referendum provisions. In the case of Dale vs. Borough of Bayhead, bonds were sustained by reason of this provision. The Act also declares that bonds reciting that they are issued under the Act shall be incontestible

SCHOOL BONDS.—The issuance of bonds and other obligations for school purposes is authorized and regulated by the general School Law of 1913 (Comp. Stat. 1910, p. 4724), as amended. School bonds must mature serially as provided in the Pierson Bond Act, and within the maximum period specified in the School Law for the class of improvement or property for which they are issued, ranging from 10 to 40 years. Bonds for refunding school bonds must mature within 20 years and in annual installments, equal as nearly as practicable. If the bonds are issued for several purposes they must mature within the average of the periods assigned to the several purposes, taking into consideration the amount of bonds for each purpose, such average period to be conclusively determined by the governing body. The method of sale of bonds under the School Law is substantially the method prescribed by the Pierson Bond Act. The amount of school bonds in school districts governed by Article VI of the School Law is limited to 5% of the assessed valuation of property. There is no limit in districts governed by Article VII. Bonds of the latter districts cannot be attacked in litigation instituted after the lapse of 20 days after the election at which they are authorized.

The School Law makes every incorporated city, town, township and borough a school district. City school districts are governed by Article VI of this law, which practically makes the Board of Education a branch of the city government, their bonds being obligations of the city. School districts in towns, townships and boroughs are governed by Article VII and their bonds are not obligations of the municipality with which they are coterminous. The School Law also provides that the voters of any city school district may accept the provisions of Article VII, and that the voters of a town, township or borough district may accept the provisions of Article VII, and be governed accordingly. So far as we are aware no city has accepted Article VII. But certain large towns and townships (West Hoboken, Union, Kearny, Montclair, Irvington, Weehawken and North Bergen) have accepted Article VI, because they found it cumbersome to submit all important matters as to taxation and bond issues to meetings of the voters as required by Article VII. An election is necessary for the issuance of bonds by school districts operating under Article VII, except districts embracing more than one municipality and having a population of more than 10,000, this exception being made by Chapter 73 of the Laws of 1919. Proceedings for the issuance of bonds by school districts under Article VII must be approved by the Attorney-General before the bonds can be issued. A supplement to the School Law, Laws 1911, p. 514, requires all school bonds to be signed, sealed, delivered and paid for in the State of New Jersey, such payment to be made by cash or certified check to the order of the custodian of school moneys.

TAX EXEMPTION OF MORTGAGES AND RAILROAD BONDS.—A law was enacted by the 1917 Legislature (Chapter 231) amending Section 10 of the General Tax Act of 1903 (Comp. Stat. of 1910, p. 5075), by providing that bonds issued by any railroad company of any State shall be exempt from taxation while owned by any savings bank or institution for savings of New Jersey. Section 10 as it now reads follows. We italicize the portion added in 1917: "No mortgage or debt secured by mortgage on real property which is taxed in this State shall be listed for taxation; and no deduction from the assessed value of real property shall be made by the assessor on account of any mortgage debt, but the mortgagor or owner of the property paying the tax on mortgaged real property shall be entitled to credit on the interest payable on the mortgage for so much of the tax as is equal to the tax rate applied to the amount due on the mortgage, except where the parties have otherwise agreed, or where the mortgage is an investment of funds not subject to taxation, or where the parties have lawfully agreed that no deduction shall be made from the taxable value of the lands by reason of the mortgage. *Bonds issued by any railroad company of any State shall be exempt from taxation while owned by any savings bank or institution for savings of this State.*"

TAX EXEMPTION OF PUBLIC SECURITIES.—An amendatory Act passed in 1921 (Chapter 320) provides for exemption from taxation of certain public securities. Section 203 of the General Tax Act of 1903, as amended in 1921, reads:

"203. The following property shall be exempt from taxation under this Act, namely:

"(1) (*a*) The bonds and other securities of the United States (other than circulating notes of national banking associations and United States legal tender notes and other notes and certificates of the United States, payable on demand and circulating or intended to circulate as currency and gold or silver or other coin).

"(*b*) All bonds, securities, improvement certificates and other evidences of indebtedness, heretofore or hereafter issued by this State or by any county thereof, or by any taxing district or school district of this State.

"(*c*) The personal property owned by citizens or corporations of this State situate and being out of the State upon which taxes shall have been actually assessed and paid within 12 months next before Oct. 1, being the day prescribed by law for commencing the assessment."

LIMITATION OF TAX RATE.—Chap. 116, Laws of 1906, limiting the tax rate, was repealed by Chapter 9, Laws of 1914.

SAVINGS BANKS' INVESTMENTS—POWERS AND RESTRICTIONS.—The savings bank law of New Jersey was completely revised by the State Legislature of 1906, without, however, changing in any essential respects the investment provisions. In 1913 the law was further amended to permit investment in certain bonds secured by first mortgage on terminal or dock property. See V. 96, p. 1169. There were no amendments in 1915. In 1917 the Legislature passed an Act (Chapter 36) authorizing savings banks and other institutions in this State to invest in Federal Land Bank bonds. This we print in full below, at the end of Section 33. Another measure was adopted in 1917 (Chapter 171) amending paragraph VI in regard to investments in first mortgage bonds. See V. 104, p. 1721. Paragraph VI. was further amended by the 1920 Legislature. The 1919 Legislature passed an Act amending Section 36 so as to permit savings banks to purchase from their available funds notes, drafts, bills of exchange or acceptances, eligible for rediscount with the Federal Reserve Banks. We give below in full the investment sections of the law:

VI. DEPOSITS—HOW INVESTED.

SECTION 33. No savings bank shall invest the moneys deposited with the same in any manner except as follows, to wit:

I. In stocks or bonds or interest-bearing notes or obligations of the United States, or those for which the faith of the United States is distinctly pledged to provide for the payment of the principal and interest thereof;

II. In the interest-bearing bonds of this State; or in any bonds authorized by the laws of this State to be issued by any commission appointed by the Supreme Court of this State, by virtue of any law of this State;

III. In the bonds of any State in the Union that has not, within ten years previous to making such investment by any such bank, defaulted in the payment of any part of either principal or interest in any debt authorized by any law of such State to be contracted.

IV. In the bonds of any county, township, municipality or school district of this State issued pursuant to the authority of any law of this State, *provided*, such county, township, municipality or school district shall not, within the five years next preceding, have defaulted in the payment of any part of either principal or interest of any legal debt or obligation thereof; and *provided further*, the total indebtedness of any borough or village does not exceed 10% of its assessed valuation, and such school district bonds are by law charged upon all the property of the inhabitants of such district or in any interest-bearing obligation issued by the county in which such bank is situated, or by any city, town, township, borough or village in such county.

V. In the bonds of any city or county of any other State of the Union issued pursuant to the authority of any law of any such State; *provided*, no such city or county has, within ten years previous to making such investment, defaulted in the payment of any part of either principal or interest of any debt authorized by law of such State to be contracted; and *provided further*, the total indebtedness of any such city or county is limited by law to 10% of its assessed valuation;

VI. In the first mortgage bonds issued, guaranteed or assumed by any railroad company which has paid dividends of not less than 4% per annum regularly on its entire capital stock for a period of not less than five years next previous to the purchase of such bonds, and secured by a first lien upon not less than three-fourths of the rail mileage included in said mortgage; or in any consolidated bonds issued, guaranteed or assumed by any such company secured by mortgage providing for the retirement of all prior lien mortgages on the property covered by such consolidated mortgage; or in any mortgage bonds secured by liens prior to any such consolidated mortgage; or in the bonds of any railway terminal or dock company of this State, secured by first mortgage on terminal or dock property fronting on the Hudson River and having an assessed value for the purpose of taxation in excess of the amount of the entire issue of bonds, and used and occupied as a dock or terminal by any railroad company now operating in this State.

VII. In bonds secured by mortgages which shall be a first lien on real estate situate in this State, and worth at least double the amount loaned thereon, but not to exceed 80% of the whole deposits shall be so loaned or invested; but in case the loan is on unimproved or unproductive real estate, the amount loaned thereon shall not be more than 30% of its actual value; and no investment in any bond and mortgage shall be made by any savings bank, except upon the report of a committee of at least three of the managers, and two members of which committee shall certify in writing to the value of the premises mortgaged, or to be mortgaged, according to their best judgment; such report shall be filed and preserved among the records of the bank. . . . .

VIII. In real estate strictly in accordance with the following provisions:

(*a*) A plot whereon is erected, or may be erected, a building or buildings requisite for the convenient transaction of its business, and from portions of which not required for its own use a revenue may be derived; the costs of such building or buildings and lot shall in no case exceed 50% of the net surplus of such bank except with the written approval of the Commissioner of Banking and Insurance; *provided*, the limitations as to the cost of such lot and building contained in this subdivision shall not apply to or affect any such investment heretofore made by a savings bank organized under a special charter.

(*b*) Such as shall have been purchased or acquired by it at sales upon the foreclosure of mortgages owned by such corporation, or upon judgments or decrees obtained or rendered for debts due to it, or in settlements effected to secure such debts, or in satisfaction of such mortgages; and all such real estate shall be sold by such bank within five years after the same shall have been so purchased, unless, upon application by such corporation to the Commissioner of Banking and Insurance, he shall extend the time within which such sale shall be made; the provisions of this section shall apply to all funds of any savings bank, including its reserve fund, and all investments of money and sales and transfers of securities may be made in the manner provided and made lawful in this Act, notwithstanding any provision in any special charter contained limiting the number of trustees or managers who shall act in the investment of moneys and the sale or transfer of stocks or securities.

Nothing herein contained shall repeal or affect the provisions of an Act entitled "An Act authorizing savings banks, banking institutions, trust companies and insurance companies, organized under the laws of this State, and any person acting as executor, administrator, guardian, or trustee, to invest in the bonds issued by any Federal Land bank organized pursuant to an Act of Congress entitled 'An Act to provide capital for agricultural development, to create standard forms of investment based upon farm mortgage, or equalize rates of interest upon farm loans, to furnish a market for United States bonds, to create Government depositaries, and financial agents for the United States, and for other purposes,' approved July 17 1916," approved March 15 1917.

34. *Loans on Collateral Security.*—No savings bank shall loan the money on deposit with the same, or any part thereof, upon notes, bills of exchange or drafts, except upon the additional pledge of collateral security, which shall be of the same nature and character as those in which the money deposited may be invested as directed in the preceding section, or the capital stocks of national and State banks, or the capital stock or bonds of other corporations of this State, which have not defaulted in the payment of interest or dividends, upon the collateral loaned upon, within two years next preceding the time of such loan, and then only to the extent of eighty per centum of the market value of such collaterals; *provided*, the total amount of such loans shall not exceed fifteen per centum of the total deposits held by such savings bank.

36. The managers of every savings bank, as soon as practicable, shall invest the moneys deposited with them in the securities named in the thirty-third section, except that for the purpose of meeting current payments and expenses in excess of the receipts, there may be kept an available fund of not exceeding ten per centum of the whole amount of deposits with such bank; and the same may be kept on hand or on deposit in any solvent bank in this State, organized under the laws of this State or of the United States; or the same may be deposited on call, at interest, in such solvent trust company incorporated under the laws of this State or of the States of New York or Pennsylvania, or in such solvent national bank located in the State of New York or in the State of Pennsylvania, as a majority of the managers of such bank may direct, by resolution adopted at a regular or special meeting, and duly recorded on their minutes; or such available fund, or any part thereof, may be loaned upon pledge of the securities, or any of them, named in section 33 of this Act, but not in excess of eighty per centum of the market value of such securities so pledged; and should any of the securities so held in pledge depreciate in value after making any loan thereon the managers shall require the immediate payment of such loan, or a part thereof, or additional security therefor, so that the amount loaned shall at no time exceed eighty per centum of the cash market value of the securities pledged for the same; or part of such available fund, not exceeding one-half thereof, may be temporarily employed in the purchase of notes, drafts, bills of exchange or acceptances, which have a maturity at the time of purchase of not more than three months, exclusive of days of grace, and which are of the kind made eligible by law for rediscount with Federal Reserve banks organized under the Act of Congress of the United States entitled "An Act to provide for the establishment of Federal Reserve banks, to furnish an elastic currency, to afford means of rediscounting commercial

paper, to establish a more effective supervision of banking in the United States, and for other purposes," approved December 23 1913, and the supplements and amendments thereto, provided the same are indorsed or accepted by a bank or trust company in which such savings bank is herein permitted to deposit funds; *provided, further*, that the aggregate amount of the liability of any such bank or trust company to any such savings bank as indorser and acceptor shall not exceed ten per centum of the paid-up capital and surplus of such bank or trust company.

Savings Banks, &c., May Invest in Federal Land Bank Bonds.—As noted above, any savings bank, banking institution, trust company or insurance company, organized under the laws of this State, or any persons acting as executor, administrator, guardian or trustee, may invest in the bonds issued by any Federal Land Bank organized pursuant to an Act of Congress entitled "An Act to provide capital for agricultural development, to create standard forms of investment based upon farm mortgage, to equalize rates of interest upon farm loans, to furnish a market for United States bonds, to create Government depositaries and financial agents for the United States, and for other purposes," approved July 17 1916.

INVESTMENT OF TRUST FUNDS.—This subject is covered by the Act of May 8 1907, Public Laws 1907, p. 382; Comp. Stat. of 1910, p. 3864, printed in full in "Chronicle" of Nov. 23 1907, p. 1352. In 1913 the Legislature passed an Act (Chapter 247), giving executors, administrators or trustees authority to make investments in any securities in which savings banks of New Jersey may invest their funds.

RAHWAY.
This city, of Union County, became financially embarrassed in 1882, and a compromise of the debt, excl. of the water debt ($185,000), was forthwith agreed to with most of the leading creditors at 35 cents on the dollar, the debt, excl. of water debt, then amounting to about $1,200,000. This settlement was completed in 1894. These adjustment bonds were paid off on Nov. 1 1922. The water bonds were renewed in 1891 at 4%, an agreement having been made in 1890 by which all accrued interest at 7% was adjusted at the 35% rate. Interest on these water bonds is also now promptly paid. Commission Govt. adopted Dec. 10 1917.—V. 105, p. 2380. Incorporated 1858.

1913----	5,201,745,800	1,342,612,761	*6,544,358,561
1912----	4,591,014,590	1,326,095,068	5,917,109,678
1911----	4,584,806,925	1,198,861,401	5,783,668,326
1910----	4,633,547,665	1,129,650,455	5,763,198,120
1905----	3,520,136,662	1,094,468,656	4,614,605,318
1900----	2,766,829,685	761,755,893	3,528,585,578
1899----	2,728,163,336	859,979,331	3,588,142,667
1898----	2,685,199,712	846,751,853	3,431,951,565
1895----	2,471,018,204	770,049,820	3,241,068,024
1894----	2,389,232,748	658,341,105	3,047,573,853
1892----	2,308,767,431	591,007,558	2,899,774,989

The above does not include valuation of railroad property. The State makes no *general tax*. Income is derived from tax on capital stock, on money at interest, on collateral inheritances, direct inheritances, on corporate loans, on bonus on charters, &c., &c.

* A member of the Dept. of Internal Affairs in a letter addressed to us under date of June 2 1914 suggested the following reasons for the large increase in assessed values in 1913:

1. There has been a general movement for increase in assessments for taxation purposes of all coal lands in the State. Coal in place has been tremendously increased in assessments in many counties of the State.

2. The constitution of our State restricts the borrowing possibility of cities to 7%. Recently many of the cities have been close to the limit of the borrowing capacity and have been compelled to increase assessed values very largely. It has been easy to do this as the rule for assessment of real estate throughout the State has been, very generally, to assess real estate at but 50% to 60% of its real value.

POPULATION OF STATE—

1920	8,720,017	1880	4,282,891	1840	1,724,033	1810	810,091
1910	7,665,111	1870	3,521,951	1830	1,348,233	1800	602,365
1900	6,302,115	1860	2,906,215	1820	1,049,458	1790	434,373
1890	5,258,014	1850	2,311,786				

DEBT LIMITATION.—In Pennsylvania the limit to the indebtedness of the State, and to the indebtedness of the cities and minor civil organizations in the State, is fixed by the State constitution.

1. *State Indebtedness.*—With regard to the State, the regulations controlling and governing debt creation, payment, &c., are found in Sections 4, 5, 6, 11, 12, 13 and 14 of Article IX of the constitution. They are:

ARTICLE IX, SEC. 4. No debt shall be created by or on behalf of the State except to supply casual deficiencies of revenue, repel invasions, suppress insurrection, defend the State in war, or to pay existing debt; and the debt created to supply deficiencies in revenue shall never exceed, in the aggregate at any one time, one million of dollars; provided, however, that the General Assembly, irrespective of any debt may authorize the State to issue bonds to the amount of fifty millions of dollars for the purpose of improving and rebuilding the highways of the Commonwealth. (this proviso regarding the issue of highway bonds was inserted by constitutional amendment at the Nov. 1918 election.—See V. 107, p. 2333; also V. 108, p. 1533. At the 1922 and 1923 sessions of the Legislature measures which would, by constitutional amendment, allow the issuance of an additional $50,000,000 road bond and also $35,000,000 soldier bonus bonds were passed. These measures must now be submitted to a vote, but, because of a technicality (see V. 116, p. 2298) it is not known whether they will be on the ballot this fall or in 1924.

[The 1917 Legislature provided for the issuance of $5,000,000 4% bonds for the purpose of repelling invasions, suppressing insurrections and defending the State in war. The full text of the Act was given in V. 106, p. 622.]

SECTION 5. All laws authorizing the borrowing of money by and on behalf of the State shall specify the purpose for which the money is to be used, and the money so borrowed shall be used for the purpose specified, and no other.

SECTION 6. The credit of the Commonwealth shall not be pledged or loaned to any individual, company, corporation or association, nor shall the Commonwealth become a joint-owner or stockholder in any company, association or corporation.

SECTION 11. To provide for the payment of the present State debt, and any additional debt contracted as aforesaid, the General Assembly shall continue and maintain the sinking fund sufficient to pay the accruing interest on such debt, and annually to reduce the principal thereof by a sum not less than two hundred and fifty thousand dollars; the said sinking fund shall consist of the proceeds of the sales of the public works, or any part thereof, and of the income or proceeds of the sale of any stocks owned by the Commonwealth, together with other funds and resources that may be designated by law, and shall be increased from time to time by assigning to it any part of the taxes or other revenue of the State not required for the ordinary and current expenses of government, and unless in case of war, invasion or insurrection, no part of the said sinking fund shall be used or applied otherwise than in the extinguishment of the public debt.

SECTION 12. The moneys of the State, over and above the necessary reserve, shall be used in the payment of the debt of the State, either directly or through the sinking fund, and the moneys of the sinking fund shall never be invested in or loaned upon the security of anything except the bonds of the United States or of this State.

SECTION 13. The moneys held as necessary reserve shall be limited by law to the amount required for current expenses, and shall be secured and kept as may be provided by law. Monthly statements shall be published, showing the amount of such moneys, where the same are deposited, and how secured.

SECTION 14. The making of profit out of the public moneys, or using the same for any purpose not authorized by law, by any officer of the State, or member or officer of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by law; but part of such punishment shall be disqualification to hold office for a period of not les than five years.

(2) *County and Municipal Indebtedness.*—Under the laws of Pennsylvania the power to create county loans is in the Board of County Commissioners, which consists in each county of three persons, elected biennially under the minority system of voting, by which the minority party in each county usually has one member of the Board.

In cities and boroughs the power to create indebtedness is vested in councils, municipal debts being created by ordinance.

The creation of county, city and other municipal indebtedness is subject to the following constitutional limitations:

ARTICLE IX, SEC. 7. The General Assembly shall not authorize any county, city, borough, township or incorporated district to become a stockholder in any company, association or corporation, or to obtain or appropriate money for, or to loan its credit to, any corporation, association, institution or individual.

SECTION 8 (as amended Nov. 2 1915—See V. 101, p. 1207 and Nov. 2 1920)—The debt of any county, city, borough, township school district or other municipality or incorporated district, except as provided herein and in Section 15 of this Article, shall never exceed seven per centum upon the assessed value of the taxable property therein, but the debt of the city of Philadelphia may be increased in such amount that the total city debt of said city shall not exceed ten per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt, or increase its indebtedness to an amount exceeding two per centum upon such assessed valuation of property, without the consent of the electors thereof at a public election in such manner as shall be provided by law. In ascertaining the borrowing capacity of said city of Philadelphia, at any time, there shall be excluded from the calculation during the year immediately preceding the time of such ascertainment and such capitalization shall be estimated by ascertaining the principal amount which would yield such annual current net revenue, at the average rate of interest, and sinking fund charges payable upon the indebtedness incurred by said city for such purposes, up to the time of such ascertainment. The method of determining such amount so to be deducted, may be prescribed by the General Assembly. (At the 1921 session the General Assembly, in conformity to this provision, provided that in computing its borrowing capacity, the city of Philadelphia could deduct any debts charged against any public improvement or utility, the revenue from which is or will be sufficient to pay the interest and sinking fund charges, the calculations to be passed upon by the Court of Common Pleas.)

In incurring indebtedness for any purpose the city of Philadelphia may issue its obligations maturing not later than fifty years from the date thereof, with provision for a sinking fund sufficient to retire said obligation at maturity, the payments to such sinking fund to be in equal or graded annual or other periodical installments. Where any indebtedness shall be or shall have been incurred by said city of Philadelphia for the purpose of the construction or improvement of public works of any character from which income or revenue is to be derived by said city, or for the reclamation of land to be used in the construction of wharves or docks owned or to be owned by said city, such obligations may be in an amount sufficient to provide for and may include the amount of the interest and sinking fund charges accruing and which may accrue thereon throughout the period of construction and until the expiration of one year after the completion of the work for which said indebtedness shall have been incurred; and said city shall not be required to levy a tax to pay said interest and sinking fund charges as required by section ten of article nine of the Constitution of Pennsylvania until the expiration of said period of one year after the completion of said work.

SECTION 9. The Commonwealth shall not assume the debt, or any part thereof, of any city, county, borough or township, unless such debt shall have been contracted to enable the State to repel invasion, suppress domestic insurrection, defend itself in time of war, or to assist the State in the discharge of any portion of its present indebtedness.

SECTION 10. Any county, township, school district or other municipality incurring any indebtedness shall, at or before the time of so doing provide for the collection of an annual tax sufficient to pay the interest, and also the principal thereof within thirty years.

SECTION 15—(Added by amendment adopted by voters in Nov. 1913.) No obligations which have been heretofore issued, or which may hereafter be issued, by any county or municipality, other than Philadelphia, to provide for the construction or acquisition of water-works, subways, underground railways or street railways, or the appurtenances thereof, shall be considered as a debt of a municipality, within the meaning of Section 8 of Article IX of the Constitution of Pennsylvania, or of this amendment, if the net revenue derived from said property for a period of five years, either before or after the acquisition thereof, or, where the same is constructed by the county or municipality, after the completion thereof, shall have been sufficient to pay interest and sinking fund charges during said period upon said obligations, or if the said obligations shall be secured by liens upon the respective properties and shall impose no municipal liability. Where municipalities or counties shall issue obligations to provide for the construction of property, as herein provided, said municipalities or counties may also issue obligations to provide for the interest and sinking fund charge accruing thereon until said properties shall have been completed and in operation for a period of one year; and said municipalities and counties shall not be required to levy a tax to pay said interest and sinking fund charges, as required by Section 10 of Article IX of the Constitution of Pennsylvania, until after said properties shall have been operated by said counties or municipalities during said period of one year. Any of the said municipalities or counties may incur indebtedness in excess of 7%, and not exceeding 10% of the assessed valuation of the taxable property therein, if said increase of indebtedness shall have been assented to by three-fifths of the electors voting at a public election in such manner as shall be provided by law.

The Legislature in 1917 passed an Act requiring all counties, cities, boroughs, townships, school districts, &c., to sell any bonds or other securities issued by them to the highest bidder, after due public notice. See V. 106, p. 622.

The 1921 Legislature passed a number of acts making allowance for and validating bonds issued or authorized by counties, cities, boroughs, townships, school districts, and other incorporated districts or municipalities, under authority of an Act approved April 20 1874, entitled "An Act to regulate the manner of increasing the indebtedness of municipalities, to provide for the redemption of the same, and to impose penalties for the illegal increase thereof," and amendments thereto, but in the authorization of which there has been some minor discrepancy or violation.

TAXATION OF MUNICIPAL AND SCHOOL BONDS.—All bonds issued by municipalities, counties and school districts in Pennsylvania are subject to a State tax of four mills, which is paid by the place issuing the bonds and deducted from the remittance of interest to the bondholder, unless the bonds are issued as "tax-free," when the municipality itself assumes the tax. See V. 93, p. 359.

SCHOOL CODE.—The school laws of this State were codified in the new School Code approved May 18 1911. One of the important provisions of this law is (Sec. 506) that the Directors of school districts may incur debt and issue bonds "only at the time of assessing and levying the annual school taxes." Thus school bonds can only be issued at the time of the school tax levy, which must be in April or May.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—Philadelphia is, we believe, entitled to the distinction of starting the first savings institution in the United States. The name this association bore was the "Philadelphia Savings Fund Society," and it still exists, bearing the same name. Originally the bank was not incorporated, but was a voluntary organization, such societies in Great Britain being at the time of a like character. The date of the organization was November 27 1816, and the bank was opened for business Dec. 2 1816. The oldest ledger of the company goes back to the time of opening, and shows a deposit on that day (December 2 1816) of five dollars. The company was not incorporated until February 25 1819. The second savings institution in the State, however, did not come into existence until 1847. In 1889 a general law facilitating the incorporation of savings banks was passed by the Legislature. Still, the report of the Banking Department of Dec. 31 1922 shows that the total number of savings banks within the State was only ten. The aggregate deposits of these banks at that date was $316,815 385.32.

The provisions of the special charters are all liberal as to investments. A law passed in 1885, and a supplement of the same passed in 1889, authorizing the extension for twenty years of special charters, contains the following:

"*Provided also*, that no * * * Savings Institution or Savings Bank having no capital stock, renewing or extending its charter, corporate rights and franchises, under the provisions of this Act, shall thereafter be allowed the privileges of a bank of discount, nor be allowed to loan any money received on deposit, *except* upon first mortgage or lien upon real estate within this Commonwealth, upon the bonds or securities of the United States or of this State, or upon county, city, borough, township or school bonds of any county, city, borough, township or school district, *or any other good and valid securities*."

Authority to loan on any "good and valid security" appears to confer about as broad a discretion upon the managers as could be expressed in a statute.

In 1897 an Act was passed allowing savings institutions and savings banks chartered under Special Acts to invest in Pennsylvania county and municipal bonds, notwithstanding any provisions of their charters. The aw follows:

CHAPTER 77, LAWS OF 1897.—From and after the passage of this Act all provident institutions, savings institutions and savings banks, chartered under Special Acts of this Commonwealth of Pennsylvania, may, notwithstanding any provisions of their charter, loan the moneys received by them on deposit upon the bonds of any county, city, borough, township or school district within this Commonwealth issued pursuant to the authority of any law of this Commonwealth for the payment of which the faith and credit of the municipality issuing them are pledged.

It was not until 1889, as already stated, that a general law facilitating the organization of savings institutions was passed. The following is section 17, which contains the investment limitations; we would especially direct attention to subdivision four of this section:

SECTION 17.—It shall be lawful for the trustees of any savings bank to invest money deposited therein only as follows:

(1) In the stocks or bonds or interest-bearing notes or the obligations of the United States, or those for which the faith of the United States is pledged to provide for the payment of the interest and the principal.

(2) In the stocks or bonds of the Commonwealth of Pennsylvania bearing interest.

(3) In the stocks or bonds of any State in the Union that has not within ten years previous to making such investments, by such corporation, defaulted in the payment of any part of either principal or interest of any debt authorized by any Legislature of such State to be contracted.

(4) In the stocks or bonds of any city, county, town or village of any State of the United States issued pursuant to the authority of any law of the State, or in any interest-bearing obligations issued by the city or county in which such bank shall be situated.

(5) In bonds and mortgages on unincumbered, improved real estate situated in this State.

The next section (18) relates to the temporary deposit of funds in banks and trust companies. It makes it lawful to deposit temporarily in banks or trust companies the excess of current daily receipts over the payments until such time as the same can be judiciously invested in the securities named above.

FEDERAL FARM LOAN BONDS.—Measures were passed by the 1917 Legislature and approved by the Governor on April 5 1917 making farm loan bonds issued by Federal Land banks legal investments for savings banks, savings institutions, and also executors, administrators, guardians and other trustees. See V. 104, p. 1722.

INVESTMENT OF TRUST FUNDS.—Section 41a of the Fiduciaries Act of June 7 1917, relating to investment of trust funds reads:

SECTION 41a.—When a fiduciary shall have in his hands any moneys, the principal or capital whereof is to remain for a time in his possession or under his control, and the interest, profits, or income whereof are to be paid away, or to accumulate, or when the income of real estate shall be more than sufficient for the purpose of the trust, such fiduciary may invest such moneys in the stock or public debt of the United States, or in the public debt of this Commonwealth, or in bonds or certificates of debt now created or hereafter to be created and issued according to law by any of the counties, cities, boroughs, townships, or school districts of th s Commonwealth, or in mortgages or ground-rents in this Commonwealth: *Provided*, That nothing herein contained shall authorize any fiduciary to make any investment contrary to the directions contained in the will of the decedent in regard to the investment of such moneys.

Section 22 of Article III of the Constitution prohibits the Legislature fromp assing any Act permitting investment of trust funds in the securities of private corporations. The section reads:

SECTION 22.—No Act of the General Assembly shall authorize the investment of trust funds by executors, administrators, guardians or other trustees, in the bonds or stock of any private corporation, and such Acts now existing are avoided saving investments heretofore made.

PHILADELPHIA. J. Hampton Moore, Mayor; Wilb. Hadley, City Controller.
Philadelphia, co-extensive with the county of the same name, is the third largest city of the U. S., and has an area of nearly 130 square miles. The city was founded in 1682 by William Penn, chartered in 1787, and consolidated in 1854 with numerous outlying districts and boroughs. Many sections of the city of Philadelphia still retain their old names and are constantly referred to as such. Among these may be mentioned Germantown, Manayunk, Frankford, Bridesburg, Roxborough, West Philadelphia, Richmond, &c., &c. The county is under city control and has no separate debt.

Registered loans overdue and outstanding Jan. 1 1923 ..$16,150
INT. payable at Philadelphia Nat. Bank, Phila., Pa.

TAX-FREE.—All bonds are exempt from tax to holders.

TOTAL DEBT, SINKING FDS., &c.—The subjoined statement shows Philadelphia's total municipal debt. [By a decision of the Supreme Court of Pennsylvania, filed May 31 1894, it is held that, within the meaning of the word "Debt" in Section VIII, Article IX, of the Constitution of Pennsylvania, the real debt of the city is the authorized debt less the amount of the city certificates purchased and uncanceled in the sinking fund.]

Funded debt Apr 10 '23	$304,989,050
Floating debt (mortgage, ground rents, &c.)	152,713
Mandamuses outstand'g	1,218,446
Debt incurred for Delaware River Bridge	6,421,000
Awards of juries and board of view	4,411,010
TOT. DEBT Apr 10 '23	317,192,219
Sinking funds	47,108,800
Total net debt Apr 10 '23	270,083,419
Cash in and income of sink. fund applicable within present fiscal year to payment of debt April 10 1923	7,515,338

BORROWING CAPACITY.—The borrowing capacity of the city on April 10 1923 was $60,112,998.

CITY PROPERTY.—The city owns land, buildings, equipment and other permanent improvements valued on Jan. 1 1923 at ..$336,945,822

ASSESSED VALUATION, &C.—The following shows the assessed value of property, and the tax rate, for years indicated. Property in this city up to and including 1903 was assessed at about 80% of its actual value. In 1904, however, values were increased to nearly real value resulting in a decreased tax rate.

Years—	*Assessed Real Estate and Personal* Estate Valuation*	*Tax rate per* $1,000
1922	$2,206,083,495	$27.00

PITTSBURGH. John H. Henderson, Comp.
This city, now known as "Greater Pittsburgh," is situated in Allegheny County. Legislature of 1905 passed an Act providing for the annexation of Allegheny; on Nov. 18 1907 the U. S. Supreme Court held the law valid (V. 85, p. 1352), and annexation became effective Dec. 9 1907. The boroughs of Sheraden and Montooth were also annexed in 1907 Beechview annexed on Jan. 1 1909 At an election held Dec. 9 1919—V 109, p. 2282—the voters of the Borough of Spring Garden voted for annexation to the City of Pittsburgh. Chartiers Twp. on Dec. 14 1920 voted for annexation. On Dec. 5 1920 the borough of St. Clair voted for annexation, effective Jan. 1 1923. All bonds issued in coupon form with privilege of registration.

On July 3 1915 the State Supreme Court handed down a decision bearing upon the computation of debt subject to the 2% limit or "councilmanic" debt, that is, debt incurred by the City Council without a vote of the electors, as distinguished from "electoral" debt, which is not subject to the 2% limit. See "Chronicle" of Aug. 7 1915, page 465. The constitutional limit for all debt is 7%. "English Act" cases affirmed by State Supreme Court on May 22 1916, see "Chronicle" of June 10 1916, page 2180.

INTEREST.—On bonds of 1906 is payable at the office of School Fund Trustee; refunding bonds of 1897 at the Philadelphia National Bank in Philadelphia; on hospital and women's college improvement bonds at the Farmers' Bank in Wilmington, and on others at the Farmers' Bank in Dover.

TOTAL DEBT.—The total bonded debt of the State on Jan. 8 1923 was $6,270,785. Assets of the State on Jan. 8 1923 totaled $7,091,326.06 and consisted of the following: State Treasurer's cash balance, $2,276,371.00, cash advanced to special funds, $5,140.10; uncollected tax assessments (estimated), $657,665.49; investments (General Fund), $1,353,407.00; investments (Sinking Fund), $871,766.76; and property owned by State having an estimated value of $1,926,975.71.

ASSESSED VALUATION.—The total assessed valuation of the State in 1914 was $108,439,104. No assessment for State purposes since then. No assessment is made inasmuch as there is no direct State tax in Delaware. The nearest approach to a total for the State is to take the county assessments for county purposes. For 1922 the aggregate of these county assessments was $227,070,094.

DEBT LIMITATION.—Neither the new constitution (adopted June a 1897) nor the State statutes contain any general provisions authorizing bond issues or limiting the debt-making power, *except* that the new constitution—

(1) Forbids the State (Article 8, Sec. 3) to borrow money or create debt, "but pursuant to an Act of the General Assembly passed with the concurrence of three-fourths of all the members elected to each House, except to supply casual deficiencies, repel invasion, suppress insurrections, defend the State in war or pay existing debts."

(2) Forbids any county, city, town or other municipality (Article 8, Sec. 8) to "lend its credit or appropriate money to, or assume the debt of, or become a shareholder or joint owner in, or with, any private corporation or any person or company whatever."

(3) Forbids any corporation (Article 9, Sec. 1) to be created, &c., by Special Act, "but only by or under general law"; "but the foregoing provisions shall not apply to municipal corporations, banks," &c.

The above indicates that the authority as regards municipalities [except as already specified in number (2)] rests with the General Assembly, and the General Assembly always passes Special Acts to provide for special occasions and needs.

INVESTMENT OF TRUST FUNDS.—Chapter 226, Section 3, of the Laws of 1909, provides as follows:

Sec. 3.—Excepting where instruments creating trusts prescribe otherwise, trustees named in wills or appointed by the Chancellor may hereafter invest the funds of their trusts in securities of the following classes ond kinds, viz.:

(*a*) Stocks and bonds and interest-bearing obligations of the United States for which the faith and credit of the United States are pledged to provide for the payment of the interest and principal thereof, including the bonds of the District of Columbia;

(*b*) Stocks and bonds and interest-bearing obligations of the State of Delaware and of any other State of the United States, issued pursuant to the authority of the law relating thereto;

(*c*) Stocks and bonds of any county of the State of Delaware and of any county of any State of the United States, issued pursuant to the authority of the law relating thereto;

(*d*) Stocks and bonds of any school district of the State of Delaware, issued for school purposes and pursuant to the authority of the law relating thereto;

(*e*) Stocks and bonds and interest-bearing obligations of any incorporated city or town of the State of Delaware or of any of the States of the United States, issued pursuant to the authority of the law relating thereto, for the payment of which the faith and credit of the municipality issuing the same are pledged;

(*f*) Bonds of either natural persons or corporations, secured by first mortgage on productive real estate, free from prior encumbrances;

(*g*) Bonds of railroads, transportation and public service corporations, secured by mortgage upon the property, plants and systems of such corporations;

(*h*) Collateral trust bonds of railroads, transportation and public service corporations, where the same are secured by guaranteed underlying stocks (or bonds secured thereby), when no default in the payment of installments of principal or of interest for more than ninety days after the same has become due, has occurred in connection therewith, within a period of ten days preceding the investment of trust funds therein:

(*i*) Car trust certificates and equipment trust bonds;

(*j*) Underlying securities of railroad, transportation and public service corporations, bearing guaranteed dividends, where no default in dividends has occurred after the guaranty;

(*k*) Such other securities as may be approved by the Chancellor.

By the laws of 1911 this section was amended by inserting a proviso that "the foregoing specification of classes of securities in which trustees may invest the funds of their estates, shall not be construed to relieve said trustee from the duty of exercising due care in the investment of said funds."

BANK INVESTMENT LIMITATION.—Under Section 13 of the Bank Act, passed by the 1921 Legislature, it is provided: "No bank or trust company shall invest more than twenty-five per centum of its total capital, surplus and undivided profits in the stock, bonds or other obligations of any one corporation or political entity or political division, except bonds or other obligations of the United States, of of the State of Delaware, or of any county, city, town or school district in the State."

TAXATION OF BONDS.—The Secretary of State advised us Dec. 18 1911 that "no law has been passed relative to taxation of bonds and notes, therefore they are exempt from taxation."

POPULATION OF STATE.—

Total area of State (square miles).....2,050
State Capital.....Dover
Governor (term exp. 3d Tuesday Jan. 1925)..Wm. D. Denney
Sec'y of State (term expires with Gov.).....A. R. Benson
Treasurer (term expires Jan. 1925).....Thomas S. Fouracre
Auditor (term expires Jan. 1925)..Joseph Morris Harrington
Attorney-General (term expires 1st Tuesday Jan. 1925), Sylvester D. Townsend Jr.

LEGISLATURE meets biennially in odd years on the first Tuesday in January, and pay is limited to 60 days.

HISTORY OF DEBT.—The historical details of Delaware's State debt from 1865 to 1894 will be found in the "State and City Supplement" of April 1894, page 72. The present extent and condition of the debt and resources of the State are given below, showing that Delaware now holds good assets more than equaling its liabilities.

TOTAL DEBT, SINKING FUND, ETC.—The subjoined statement shows Maryland's total State debt and the sinking fund held by the State against the same on the dates named.

	Sept. 30 '22.	*Sept.* 30 '21.	*Sept.* 30 '20.	*Sept.* 30 '19.
Total funded debt	$32,259,881	$30,475,881	$ 28,364,880	$28,173,880
Sinking fund, &c	*e*11,840,293	*d*10,867,869	*c*10,021,004	*b*9,113,575
Net debt	$20,419,588	$19,608,012	$18,343,876	$19,060,305

A financial statement issued in connection with the sale of $1,650,000 4½% coupon (registerable as to principal) certificates on June 7 1923 shows the total bonded debt of the State (including that issue) as $34,541,-881, with a sinking fund, &c., in the amount of $13,899,483, leaving a net debt of $20,642,398, which is about 1.27% of the assessed valuation of $1,623,734,661 given below.

b Sept. 30 1919 it was composed of $1,500,000 mortgage bonds of the Northern Central Ry. Co. and $7,613,575 stocks, bonds and cash. *c* Sept. 30 1920 it was composed of $1,500,000 mortgage bonds ot the Northern Central Ry. Co. and $8,521,004 stocks, bonds and cash. *d* Sept. 30 1921 it was composed of $1,500,000 mortgage bonds of the Northern Central Ry. Co. and $9,367,868.86 stocks, bonds and cash. *e* Sept. 30 1922 it was composed of $1,500,000 mortgage bonds of the Northern Central Ry. Co., $9,282,750 stocks and bonds, and $1,057,542.82 cash.

As against the net debt of $20,419,588 Sept. 30 1922, the State has as an offset her unproductive stocks, amounting to $1,272,026.99, and $3,620,778.57 due from Accounting Officers and Incorporated Institutions.

The receipts of the State for the year ending Sept. 30 1922 amounted to $17,635,663.14; balance in treasury Oct. 1 1921, $4,065,220.51; total, $21,700,883.65; disbursements, $17,688,353.21. The cash balance in the treasury on Sept. 30 1922 amounted to $4,012,530.44. Balances in various funds Sept. 30 1922 totaled $1,059,427.82, making a total cash balance of $5,071,958.26.

SOLDIER BONUS BONDS UNCONSTITUTIONAL.—The 1922 Legislature passed an Act proposing the submission to the voters at the November 1922 election of the question of issuing $9,000,000 bonds for a soldiers' bonus. Suit was brought in the City Court of Baltimore to restrain the Board of Election Supervisors from placing the question on the ballot, but on June 19 an opinion was handed down, declaring the Act did not violate any provision of either the State or Federal Constitution. The case was carried to the Court of Appeals, however, and that tribunal reversed the lower court, holding the measure unconstitutional because of the referendum provision. V. 115, p. 402.

ASSESSED VALUATION, ETC.—The following table shows the total funded debt, available assets, assessed valuation and tax rate:

Years—	Total Funded Debt.	Available Assets.	Total Assessed Valuation.	Tax Rate per $1,000
1922	$32,259,881	$11,840,293	$1,623,734,661	$3.533
1921	30,475,881	10,867,869	1,555,226,454	3.533
1920	28,364,880	10,021,004	1,518,706,078	3.657
1919	28,173,800	9,113,575	1,379,317,274	3.657
1918	28,983,880	9,731,246	1,369,324,009	3.657
1917	27,448,881	8,792,898	1,189,992,332	3.64
1916	26,285,881	8,516,267	1,182,456,531	3.23
1915	22,785,881	7,710,589	1,092,993,576	3.23½
1910	7,529,926	6,308,950	836,665,067	1.60
1905	8,526,926	5,439,047	712,455,956	2.35
1900	6,309,326	3,424,057	616,719,782	1.77½
1895	8,864,986	5,679,733	534,930,476	1.77½
1890	10,691,124	6,278,907	482,184,824	1.77½

Of this total valuation of $1,623,734,661, part, $1,349,293,886, is real and personal property taxable at $.3533 per $100; the remainder, $274,440,775, consists of securities taxable at 15c. per $100.

DEBT LIMITATION.—There are three provisions in the Constitution of Maryland relating to the power of the Legislature to authorize bond issues.

The first provision is contained in Art. 3, Sec. 34 of the Constitution. This prohibits the Legislature from contracting any debt, unless the law authorizing the same provides for the collection of annual taxes sufficient to pay the interest as it falls due, and also to discharge the principal within 15 years. The same Act provides that the credit of the State shall not in any manner be given or loaned to or in aid of any individual, association or corporation, and that the Legislature shall not have the power in any mode to involve the State in the construction of works of internal improvement, nor in granting any aid thereto which shall involve the faith or credit of the State. The Legislature may, however, without laying a tax, borrow an amount not to exceed $50,000 to meet temporary deficiencies in the Treasury, and may contract debts to any amount that may be necessary for the defense of the State.

The second provision is contained in Article 3, Section 54 of the Constitution. This provision prohibits any county of the State from contracting any debt in the construction of any railroad, canal or other work of internal improvement, and from giving or loaning its credit to or in aid of any association or corporation, unless the same is authorized by an Act of the Legislature.

The third provision is contained in Article 11, Section 7 of the Constitution, and it prohibits the Mayor and City Council of Baltimore from creating any debt, or giving or loaning its credit to or in aid of any individual, association or corporation, or making any appropriation for works of internal improvement, unless such debt or credit is authorized by an Act of the Legislature, and also by an ordinance of the city submitted to and approved by a majority of the voters of the city. The city of Baltimore is, however, authorized temporarily to borrow any amount of money to meet any deficit in the city treasury, or to provide for any emergency arising from the necessity of maintaining the police or preserving the safety and sanitary condition of the city.

No general limit of indebtedness is prescribed for the State or for cities or counties. Nor is there in the statutes any general authorization under which the State or the cities or counties can issue bonds. The power is lodged in the Legislature, subject only to the foregoing constitutional limitations, and it is delegated to the cities and the counties, from time to time, for specific purposes as the occasion may arise. It is, therefore, necessary for the investor to study the provisions of the particular law providing for each loan in the light of the constitutional limitations aforesaid

REASSESSMENT ACT OF 1916 UPHELD BY COURT OF APPEALS —See "Chronicle" of Sept. 23 1916, page 1143.

EXEMPTION FROM TAXATION.—An Act of the Maryland Legislature (Chapter 43 , approved March 12 1914, exempts from all taxation for the year 1914 and thereafter, all bonds or other obligations hereafter to be issued by the State or any county, city or municipal corporation, or other political sub-division, and all such securities heretofore issued by any county or municipal corporation which have been sold under terms rendering such county, city or municipal corporation liable for the State tax thereon The Act was printed in full in V. 99, p. 1238.

SAVINGS BANKS INVESTMENTS.—The law regulating the way in which savings institutions in the State of Maryland are permitted to invest their deposits is contained in Section 33 of the 1910 Banking Law of Maryland, which provides that "Every savings institution existing under the laws of the State of Maryland, or which may hereafter be incorporated, transacting strictly a savings bank business, shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposit of money, which shall be invested or loaned out on good security, in the discretion of the directors; provided, no part of the funds of such corporation shall be loaned to any officer, director or employee thereof. The deposits in any savings institution may be withdrawn at such time and in such manner as its by-laws may permit, but such institution may at any time require a depositor to give a notice, not exceeding ninety days, of his intention of withdrawing the whole or any part of his deposit." There are a number of State banks in Maryland which have the word "savings" in their title, but which are not really mutual savings banks but are State banks with a capital stock. The majority of these were incorporated under special charters prior to the enactment of the 1910 law, which specifically states that "no savings institution or savings bank hereafter incorporated shall have any capital stock, but shall be a mutual association, provided that nothing in this article shall prohibit any savings institution, or savings bank, now in existence, and having capital stock, from increasing its capital stock, as provided by the Public General Laws of this State."

FARM LOAN BONDS.—In 1917 the State Legislature passed an Act providing for and making legal the investment of trust, fiduciary, savings and other public and private funds in the State of Maryland in Federal Farm Loan bonds. For full text of law see V. 105, p. 951.

POPULATION OF STATE—

1920	1,449,661	1880	934,943	1840	470,019	1810	380,546
1910	1,295,346	1870	780,894	1830	447,040	1800	341,548
1900	1,188,044	1860	687,049	1820	407,350	1790	319,728
1890	1,042,390	1850	583,034				

Of the total population in 1880, 22.49% was colored; in 1890, 20 92% in 1900, 19.8%; in 1910, 17.9%; and in 1920, 16.86%. In number, blacks were 175,091 in 1850, 171,131 in 1860, 175,391 in 1870, 210,230 in 1880, 218,004 in 1890, 235,064 in 1900, 232,250 in 1910 and 244,479 in 1920.

* Payable on or after this date at option of city.

a Entire amount held in sinking funds and extended at 4% from July 1 1916, under the option contained in ordinance authorizing the loan.

INTEREST on all Baltimore City stock is payable by check mailed direct to the holder.

TAX-EXEMPT.—With the exception of the Western Maryland 1927 loan, the bonds are exempt from State of Maryland taxes. None of the bonds are liable for city taxes.

TAX-EXEMPTION FEATURE FOR CORPORATION PURPOSES ON INVESTNENTS IN CITY LOANS ABOLISHED.—By Chapter 467 of the Laws of 1906, the right of corporations holding investments in stock debt of the City of Baltimore to receive a credit on their taxes to the extent of their investment in such debt is taken away on certain future issues of bonds, even though the city may pay the annual State tax on such debt. The law provides that no credit shall be allowed to any such corporation by reason of any investments in the "stock debt of the city of Baltimore that shall be hereafter issued under the loans authorized by Chapters 274, 338 and 349 of the Acts of the General Assembly of Maryland for 1904, known as the Annex, Park Extensions and Sewer Loans, respectively, or under any other loans that may be hereafter authorized by the General Assembly of Maryland; *provided*, however, that a credit shall be allowed to any such corporation by reason of its ownership of Baltimore City Burnt District Loan Stock, issued under Chapter 468 of the Acts of 1904, the Water Loan issued under Chapter 246 of the Acts of 1902 and the Conduit Loan issued under Chapter 246 of the Acts of 1902, whether heretofore or thereafter issued."

TOTAL DEBT, SINK. FUND, &c.

	Feb. 28 '23.
Gross water debt	$20,789,100
Water sinking fund	4,440,975
Net water debt	$16,348,125
Other funded debt	$97,097,779
Sinking fund (other than water)	33,262,594
Net general debt	$63,835,185
Total bonded debt	117,886,879
Total sinking funds	37,703,569

Net gen. & water debt..$80,183,310

The city's holdings in the Western Maryland were sold in June 1902 for $8,751,370 45. V. 74, p. 999. The disposition made of this sum was fully given in V. 75, p. 202—$4,263,000 being deposited with several local banks and trust companies for a fixed period of 25 years at 3½% interest, and $65,909.66 invested in city loans, these sums being set aside to meet the Western Maryland bonds for the payment of which the city is responsible. The remainder was deposited at 3½%, subject to withdrawal on 30 days' notice, and was withdrawn after the city's great conflagration in 1904.

Against the net debt, which on Feb 28 '23 was $80,183,310, the city reported productive assets amounting to $34,084,800.

On Dec. 31 1922, besides the above assets, the city held unproductive assets to the amount of $5,000,000, representing the cost of the new Court House and City Hall. The value of city property, excluding the new Court House and City Hall, was $15,000,000.

ITS

DEBT, RESOURCES, ETC.

Admitted as a State (Act April 30 1802)....Feb. 19 1803
Total area of State (square miles).....41,060
State Capital.....Columbus
Governor (term exp. 2d Mon. Jan. 1925)..Vic Donahey
Sec. of State (term exp. 2d Mon. Jan. 1925)..Thad. H. Brown
Auditor (term exp. 2d Mon. Jan. 1925)....Joseph T. Tracy
Treasurer (term exp. 2d Mon. Jan. 1925).....Harry Day
Attorney-General (term exp. 2d Mon. Jan. '25)..C. C. Crabbe

LEGISLATURE.—Legislature meets biennially in odd years on the first Monday in January. There is no limit to length of sessions.

HISTORY OF DEBT.—For historical details of Ohio's State debt from 1825 to 1894 see "State and City Supplement" of April 1894, page 75.

TOTAL DEBT, ETC.—From July 1903 to December 1921 the State had practically no funded debt. However, in December 1921 and April 1922 the State issued soldiers' bonus bonds in the amounts of $20,000,000 and $5,000,000, respectively. The total bonded debt on Nov. 15 1902 was $201,665; in 1901 it was $451,665; in 1900 was $701,665; in 1885, $3,720,229; in 1880, $6,476,805; in 1871, $9,022,721; in 1861, $14,897,273; in 1851, $17,563,329. A table showing bonded debt as of June 30 1922 follows:

Purpose—	*Int. Rate.*	*Date of Issue.*	*Int. Payments.*	*Amount.*	*Maturity.*
Soldier bonus	4¾	1922	A-O	$20,000,000c tax-free	A-O '23-'32
Soldier bonus	4¾	1922	A-O	5,000,000c tax-free	A-O '23-'32

COMPARATIVE STATEMENT OF THE STATE AND LOCAL DEBTS

	June 30 '22.	*June* 30 '21.	*June* 30 '20.

1830	50,086,250	14,589,335	64,675,578

*Property assessed at full value (*see note below*).

State tax (per $1,000) for 1901, $2.90; 1903, 1904, 1905 and 1906 was $1.35; 1907, 1098, 1909 1910 and 1911, $1.345; 1912, 1913, $0.451; 1914, $0.961; 1915, 1916, 1917, 1918, 1919, $0.45; 1920, $0.65; 1921, $2.30, and 1922, $1.025.

Assessment of property was generally raised to its full value beginning with 1911 in order to provide sufficient revenue under the decreased rates of taxation. The increase in the tax rate in 1921 was caused by additional school levy.

COINCIDENTAL TAX AMENDMENT. Section 2 of Article XII. which took effect Jan. 1 1913, requires the taxing authority of any political subdivision of the State proposing to issue bonds to provide at the time the issue of bonds is authorized for levying and collecting annually by taxation an amount sufficient to pay the interest on the bonds proposed to be issued and to provide for their final redemption at maturity. See V. 98, p. 704, for Supreme Court decision concerning this section.

CLASSIFICATION TAX INVALID.—Although a constitutional amendment for the classification of property for taxation was adopted by the people on Nov. 5 1918 by a vote of 479,420 "for" to 371,176 "against" (V. 107, p. 2305), the Ohio State Supreme Court on Jan. 28 1919 ruled out all classification of property for taxation. The Court divided four to three. The point at issue was whether the classification amendment as adopted by the people had really become part of the constitution. The majority decision was that it had not, the opinion of the four judges being that it was in irreconcilable conflict with another tax amendment, the so-called Shinn amendment, intended to exempt mortgages from double taxation, and that it was improperly submitted.

Both were proposals to amend the same constitutional section, Section 2 of Article XII. The voters indorsed both, but the Shinn amendment received the larger vote. As a result of this decision the Shinn amendment became a provision in the State constitution and classification was defeated. The Shinn amendment, in providing for exemption of mortgages from double taxation, retained the language now in the constitution, that property shall be taxed by uniform rule. The classification amendment provided for classifying. Plainly both could not prevail when considered in connection with the whole section of the constitution. That was the reasoning. V. 108, p. 698.

TAXATION OF MUNICIPAL BONDS.—State and municipal bonds issued since Jan. 1 1913 are taxable under Sec. 2 of Article XII of the State constitution. Issues made prior to Jan. 1 1913 are exempt from taxation. A constitutional amendment exempting from taxation municipal bonds issued subsequent to Jan. 1 1916 was defeated Nov. 2 1915. But the Soldier Bonus bonds are expressly made tax exempt.

DEBT LIMITATION.—*FIRST. As to the State's power to contract debt*; this is regulated under the first five sections of Article 8 of the constitution. At the 1921 General Elections, a new section, Section 2a, providing for the issuance of $25,000,000 bonds for a bonus for World War veterans, was inserted by a vote of the people.—V. 113, p. 2423. We insert these five sections in full.

SECTION 1. (*Debt Limited to Seven Hundred and Fifty Thousand Dollars.*) The State may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent, whether contracted by virtue of one of more Acts of the General Assembly, or at different periods of time, shall never exceed $750,000; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to repay the debts contracted and to no other purpose whatever.

SECTION 2. (*Additional and for What Purpose.*) In addition to the above limited power, the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to repay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebtedness of the State shall be so contracted as to be payable by the sinking fund hereinafter provided for, as the same shall accumulate.

SECTION 2a. "The Commission of the Sinking Fund," created in this article, shall forthwith, upon the adoption of this amendment proceed to issue and sell from time to time, under such regulations as they may by order promulgate for not less than par and accrued interest, not to exceed the total sum of twenty-five millons ($25,000,000) of dollars of the bonds of the State of Ohio bearing interest at not to exceed five and one-half per cent per annum, payable semi-annually and maturing in twenty equal semi-annual installments, commencing not later than the first day of April 1923. Such bonds and the interest thereon as income shall be exempt from all taxes levied by the State of Ohio or any taxing district thereof. The proceeds of the sale of said bonds shall be paid into the treasury of the State of Ohio, subject to be paid out, without appropriation by the General Assembly, upon the order of the said "The Commissioners of the Sinking Fund," the same to be known as "The World War Compensation Fund." The said "The Commissioners of the Sinking Fund" shall by their certificate filed with the auditor of the State, add to the State levy for taxation, in the year 1922 and thereafter during the life of such bonds, in addition to all other taxes now or hereafter provided by law, such amounts annually as shall be necessarily, as a tax levy for the retirement of said bonds, and the payment of the interest thereon; and said levy may also provide for the payment of the expenses of administration hereof. Such levy shall not be considered in applying any limitation on aggregate tax rates now or hereafter provided by law. Said taxes when received shall be paid into a fund in the treasury of the State of Ohio to be paid out without appropriation by the General Assembly upon the order of the said "The Commissioners of the Sinking Fund" for the purpose of the payment, or retirement in other manner, of the said bonds, interest thereon, and expenses of administration hereof. As soon as may be, the said "The Commissioners of the Sinking Fund" shall, under such regulations as they may from time to time

promulgate, pay out of said fund to persons resident in Ohio at the time of the commencement of service who served honorably on active service in the army, navy, or marine corps of the United States of America, or being also citizens of the United States, in similar forces of any Governments associated with the United States in the world war, with the rank or grade of not higher than captain in the army or marine corps, or corresponding grade in the navy, between the dates of April 6 1917 and Nov. 11 1918, or their heirs at law, adjusted compensation for their full period of active service to the date of separation therefrom, at the rate of ten ($10) dollars per month, but not to exceed two hundred and fifty ($250) dollars. No payment shall be made to any such person, who refused on conscientious, political or other grounds to subject himself to military discipline or to render unqualified service, or who, while in such service, was separated therefrom under circumstances amounting to a dishonorable discharge. The said "The Commissioners of the Sinking Fund" by order shall make regulations; providing for the assignment and payment of the whole or part of any such payment to a fund to be retained by the said "The Commissioners of the Sinking Fund," for the purpose of erecting and maintaining, under such laws as shall be enacted for that purpose, hospitals for the relief of veterans of the world war; providing against any other sale or assignment or fees charged for the collection of said amounts; providing against the enforcement of the claims of creditors as against such payments; imposing penalties for violations of such regulations; fixing from time to time limitations for the presentation of claims for said payments; providing for the contracting and paying of the necessary expenses of administration hereof and such other regulations as are deemed necessary and proper for the administration and payment of said fund. The full faith and credit of the State of Ohio is hereby pledged for the payment of said bonds. The people of the State of Ohio hereby declare that they have enacted this special amendment to meet the specific emergency covered thereby and they declare it to be their intention to in no manner affect or change any of the existing provisions of this constitution except as herein set forth. The provisions of this section shall be self-executing. Upon the retirement of all of the said bonds and payment of all claims presented within the limitations of time as prescribed as aforesaid the said "The Commissioners of the Sinking Fund" shall render a final report to the General Assembly and any balance remaining in the said funds shall be disposed of as shall be provided by law.

SECTION 3. (*The State to Create No Other Debt.*) Except the debts above specified in Sections 1 and 2 of this article, no debt whatever shall hereafter be created by or on behalf of the State.

SECTION 4. (*Credit of State; the State Shall Not Become Joint Owner or Stockholder.*) The credit of the State shall not in any manner be given or loaned to or in aid of, any individual, association or corporation whatever, nor shall the State ever hereafter become a joint owner or stockholder in any company or association in this State, or elsewhere, formed for any purpose whatever.

SECTION 5. (*No Assumption of Debts by the State.*) The State shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debts shall have been created to repel invasion, suppress insurrection, or defend the State in war.

SECOND, As to Cities, Towns, Counties, &c., so far as the constitution affects the power of the Legislature to authorize these municipalities to create debt, the limitations are found in Section 6 of Article 8 and in Sections 1, 2 and 6 of Article 13. (1) Section 6 of Article 8 forbids the General Assembly to authorize cities, &c., to become stockholders in or to raise money or loan credit to aid corporations, &c. (2) Sections 1 and 2 of Article 13 forbid the passing of Special Acts and require General Acts for conferring corporate powers. (3) Section 6 of Article 13 provides that the General Assembly make provision for the organization of cities, etc. by general laws and restrict their debt-making power. These sections are as follows:

ARTICLE 8, SECTION 6. (*Counties, Cities, Towns or Townships Not Authorized to Become Stockholders, &c.*) No laws shall be passed authorizing any county, city, town or township, by vote of its citizens, or otherwise to become a stockholder in any joint-stock company, corporation or association whatever; or to raise money for, or loan its credit to, or in aid of, any such company, corporation or association: *provided, that nothing in this section shall prevent the insuring of public buildings or property in mutual insurance associations or companies. Laws may be passed providing for the regulation of all rates charged or to be charged by any insurance company, corporation or association organized under the laws of this State or doing any business in this State for profit.* [That part of the above section given in italics was added by an amendment adopted Sept. 3 1912. V. 95, p. 766.]

ARTICLE 13, SECTION 1. (*Corporate Powers.*) The General Assembly shall pass no Special Act conferring corporate powers.

SECTION 2. (*Corporations—How Formed.*) Corporations may be formed under general laws; but all such laws may, from time to time be altered or repealed.

SECTION 6. (*Organization of Cities, &c.*) The General Assembly shall provide for the organization of cities and incorporated villages by general laws and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent the abuse of such power.

One at first sight would infer from Section 6, Article 8, above cited, that cities could not subscribe to the stock of or loan money to railroads, as railroads are corporations and joint-stock companies. That, however, is not a correct conclusion, as was decided in the case of Walker *vs.* The City of Cincinnati, a case which arose under an Act of the General Assembly of Ohio entitled "An Act relating to cities of the first class" authorizing any such city to construct a line of railroad therefrom to any other terminus in that State or in any other State. In pursuance of the authority that Act purports to give, Cincinnati undertook to build the Cincinnati Southern Railroad. To test the legality of that proceeding this action was brought. The Court's opinion was very full and explicit, the conclusion being that from "the language of the section, it is quite evident that it *was not in-*"*tended to prohibit the construction of railroads nor indeed to prohibit any* "*species of public improvements.* The section contains no direct reference to "railroads nor to any other special classes of improvements or enter-"prises. The inhibitions are directed only against a particular manner "or means by which under the constitution of 1802 many public im-"provements had been accomplished."

In compliance with Section 6, Article 13 (cited above), which provides for the organization of cities, &c., by general law, the Legislature made an elaborate classification of municipal corporations, which was in existence for years. First they were divided into cities, villages and hamlets. Then cities were divided into two classes, the first class being subdivided into three grades and the second class being subdivided into four grades, the grade being determined by population according to the last Federal Census. In addition many special laws found their way on to the statute books nominally general in their scope but really so worded as to apply to only one city. In June 1902, however, the State Supreme Court handed down several decisions declaring such laws special legislation and therefore unconstitutional. The decisions were considered to be of such broad application that the Governor called an extra session of the Legislature for the purpose of framing a new general municipal code. The extra session convened Aug. 25 1902 and after a session of nearly two months passed a new "municipal code"—a document too lengthy to quote in these columns. We would refer our readers, therefore, to pages 994 and 995 of the "Chronicle," Nov. 1 1902, wherein will be found at length the more salient points of this important measure.

It remains to be said that at the regular session of the Legislature in 1902 an Act popularly known as the "Longworth Omnibus bill" was passed and subsequently upheld by the State Supreme Court. This Act amended Section 2835, 2836 and 2837, Revised Statutes of Ohio, relating to the issuance of bonds by cities, villages and other municipal corporations.

Under this Act the municipal boards of legislation, councils, &c., could by two-thirds vote issue bonds for *certain specified purposes* to the extent of 1% of the assessed valuation yearly (but not exceeding 4% in the aggregate) without submitting the question to a vote of the people. Bonds issued under this Act in excess of 1% in any one year or in excess of 4% in the aggregate first had to be submitted to a vote of the people and carried by two-thirds of those voting on the proposition; but a net debt (bonds less sinking fund) of more than 8% in the aggregate could not be authorized in any event. The Act as amended in 1906 will be found in the "Chronicle" May 26 1906, page 1224. In May 1910 the law was further amended so as to limit the bonding power of townships and municipal corporations to 5%, instead of 8%, of the tax duplicate. This was done by amending Sections 3942, 3945, 3948 and 3954 of the General Code.

A new law regulating the issuance of bonds or other evidences of indebtedness was passed by the 1921 Legislature. Sections of the law directly affecting the creation of debt are summarized below:

Sec. 2, constituting Sec. 2295-7 Gen. Code, provides that no political subdivision shall incur any indebtedness for current operating expense. The cost of any improvement with a life of less than five years is to be considered current expense. Borrowing, however, in anticipation of special assessments, or for defraying expenses incurred in an emergency, such as flood, or other calamity, is not to be subject to the provisions of this section.

Sec. 8 amends Sections 3916, 5656, 3925 and 5657 of the Gen. Code, which provide for the refunding by a county, township, school district or municipality, of indebtedness incurred before Jan. 1 1924, and permits the redemption of bonds subject to call before maturity when it is to the best interest of a municipality to do so, through another issue of bonds, the amount not to exceed the amount of the debt refunded or redeemed.

Sec. 9, amending Sec. 3914 Gen. Code, provides for the issuance of special assessment bonds.

Sec. 10 amends Sec. 3941 and limits the amount of net indebtedness of municipality created without a vote of the people, to 2½% of the assessed valuation, and amends Sec. 3948 so as to give the maximum net indebtedness of any municipality to 5% of the assessed valuation.

Sec. 12, amending Sec. 3942, provides that the net indebtedness shall be the difference between the par value of the total amount of bonds outstanding and the amount of sinking fund, judgment fund, bond fund and other debt retirement funds, with the additional provision that in the computation of total outstanding bonds, the following shall not be included: bonds issued prior to April 29 1902; bonds issued in anticipation of the collection of special assessments and current revenues; bonds issued to pay obligations arising out of an emergency, such as epidemic, flood, &c. (amount of such bonds outstanding not to exceed ½% of the assessed valuation of property); bonds issued to meet deficiencies; bonds issued for water works, the income from which is sufficient to pay principal and interest on the bonds; bonds issued for the payment of non-contractual final judgments; excess condemnation and mortgage bonds, and other bonds not secured by the general credit of the municipality; all bonds issued previous to Jan. 1 1922, not included in the above, which, *at the time of issuance*, were not required by law to fall within the limit of indebtedness.

Sec. 13, setting up Sec. 7630-2 Gen. Code, limits the net indebtedness of school districts to 6% of the assessed valuation but provides that in the case of any district which at the time of the passage of the Act has a debt exceeding 6% of the valuation, such district may issue bonds under authority of Sec. 7625 Gen. Code for purchasing sites and building schools not to exceed 1% and under authority of Sec. 7629 Gen. Code may issue bonds for purchasing sites and building schools in anticipation of taxes not to exceed ½% of the assessed valuation.

Sec. 14, creating Sec. 2295-12 Gen. Code, provides for the payment of all future bond issues by the serial method.

Section 3939 of the General Code, which enumerates the purposes for which debt may be created, was amended in 1923 (V. 116, p. 2794) and now reads:

Sec. 3939. When it deems it necessary, the council of a municipal corporation, by an affirmative vote of not less than two-thirds of the members elected or appointed thereto, by ordinance, may issue and sell bonds in such amounts and denominations, for such period of time, and at such rate of interest, not exceeding 6% per annum, as said council may determine and in the manner provided by law, for any of the following specific purposes:

1. For procuring the real estate and right of way for an improvement authorized by this section, or for purchasing real estate with a building or buildings thereon, to be used for public purposes, or to be donated to the State of Ohio by deed in fee simple as a site for the erection of an armory.
2. For extending, enlarging, improving, repairing or securing a more complete enjoyment of a building or improvement authorized by this section, and for equipping and furnishing it.
3. For sanitary purposes and for erecting a crematory or providing other means for disposing of garbage and refuse matters, and for erecting public toilet and public comfort stations.
4. For improving highways leading into the corporation, or for building or improving turnpikes, or for purchasing one or more turnpike roads and making them free.
5. For constructing wharves and landings on navigable waters.
6. For erecting infirmaries.
7. For erecting workhouses, prisons and police stations.
8. For erecting houses of refuge and correction.
9. For erecting market houses and providing market places.
10. For erecting municipal garages, repair shops, storage houses and warehouses.
11. For erecting public halls and public offices.
12. For erecting or purchasing water works for supplying water to the corporation and the inhabitants thereof.
13. For erecting or purchasing gas works or works for the generation and transmission of electricity, for the supplying of gas or electricity to the corporation and the inhabitants thereof.
14. For providing grounds for cemteries or crematories, for enclosing and embellishing them, and for erecting vaults.
15. For constructing sewers, sewage disposal works, flushing tunnels, drains and ditches.
16. For establishing free public libraries and reading rooms, and free recreation centres.
17. For the establishment of free public baths and municipal lodging.
18. For erecting monuments to commemorate the services of soldiers, sailors and marines of the State and nation.
19. For improving any water course or water front.
20. For the payment of obligations arising from emergencies resulting from epidemics or floods, or other forces of nature.
21. For purchasing and condemning the necessary land for parks, boulevards and public playgrounds, and for improving it as well as for improving or completing the improving of any existing boulevard, park or parks, or public playgrounds.
22. For erecting hospitals and pest houses and for rebuilding or improving existing hospitals and pest houses.
23. For resurfacing, repairing or improving any existing street or streets as well as other public highways.
24. For opening, widening and extending any street or public highway.
25. For purchasing or condemning any land necessary for street or highway purposes, and for improving it or paying any portion of the cost of such improvement.
26. For constructing levees and embankments or paving or improving them, and for improving any water course, passing through the corporation.
27. For constructing or repairing viaducts, bridges and culverts, and for purchasing or condemning the necessary land therefor.
28. For erecting any building necessary for a fire department, purchasing fire engines, fire boats, constructing water towers, and fire cisterns, and paying the cost of placing underground the wires or other signal apparatus of any fire department, or installing and operating any municipal ice plant for the purpose of manufacturing ice for the citizens of any municipality.

TAX LIMIT LAW.—Up to this year (1923) taxes were limited by the "Smith 1% Law," passed in 1910 and amended from time to time. Under this law aggregate taxes, except for certain exemptions, were limited to 15 mills—see p. 120 of "State & City Section," June 30 1922. At the 1923 Legislative session this law was replaced by another enactment, which limits taxes in rural districts to 14 mills and in municipalities to 14 mills. Taxes levied for the payment of principal and interest on indebtedness are not to be included in this limitation. These limits may be exceeded, however, for certain purposes, when approved by the voters. As we have not space enough to give this law verbatim, the reader is referred to page 2795 of the "Chronicle" of June 16 1923, where the important sections of the law are given in full.

COUNTY INDEBTEDNESS.—The indebtedness of counties is regulated by Sections 2434, 2435, 2436, 2437, 2438, 2439 and 2440 of the General Code. These sections were amended in 1923. The text of these sections may be found in V. 116, p. 2795 and 2796. They provide:

That the net indebtedness, arrived at by deducting the sinking funds from the total general debt incurred by any county shall never exceed 3% of the first $25,000,000 of the total duplicate, plus 2½% of the second $25,000,000 thereof, plus 2% of the third $25,000,000 thereof, plus 1½% of the fourth $25,000,000 thereof, plus 1% of all amounts by which the duplicate exceeds $100,000,000; provided that in any county where the net indebtedness exceeds such limit at the time the Act goes into effect, the county may issue in any calendar year bonds in a sum not to exceed nine-tenths of the amount of bonds retired during the preceding calendar year, until the net indebtedness is within the limit. In computing the amount of indebtedness subject to the limit the following bonds are not to be considered: (A) Bonds issued in anticipation of special assessments, or township or road district taxes.

(B) Bonds issued for the payment of non-contractual final judgment. (C) Bonds issued prior to 1923 under Sections 5629, 5643, 2432-3 or 2436, or issued thereafter for the purpose of rebuilding county buildings, bridges or sewers wholly or partially destroyed by fire or other casualty, but not exceeding the following total amounts: Bonds for rebuilding county infirmary, $50,000; bonds for rebuilding county children's home, $20,000; bonds for rebuilding county court house, $50,000; bonds for rebuilding bridges, $50,000; bonds for rebuilding other county buildings and sewers, $30,000.

That the County Commissioners shall not issue bonds for the purpose of acquiring property or permanent fixed equipment for or building any county court house, county offices, jail, county infirmary, detent on home, county hospital, building in memory of Ohio soldiers, or other county building, or any district tuberculosis hospital or joint county workhouse, or other district or joint county building or any county bridge, or any main or trunk county sewer except under Sections 2432-1 and 2432-2 of the General Code, the cost of which together w th the acquisition of a site therefor is in excess of $20,000, without first submitting the question to the voters and shall not issue bonds for the payment of the county's proportion of the cost of the construction and improvement of inter-county highways and main market roads in co-operation with the Department of Highways and Public Works or the Federal Government or both and for the payment of the county's proportion of the cost and expense of the construction, reconstruction or improvement of roads under the provisions of Sections 6906 to 6956 of the General Code, and of the amount of compensation fixed for any toll road appropriated under the provisions of Section 7405-1 of the General Code, and the cost and expenses of such appropriations, which will make the net indebtedness on bonds hereafter issued for such purposes greater than one-third of the total net indebtedness that might be incurred without first submitting to the voters, and shall not issue bonds for paying the county's share of inter-county highway 'mprovements in co-operation with the Department of Highways and Public Works or the Federal Government, which will make the net indebtedness on bonds issued greater than 1% of the tax duplicate of the county without submission to the voters.

TOWNSHIP ROAD DEBTS.—The Act of the 1923 Legislature, mentioned above, also regulates the issuance of road bonds by townships. Section 30 of the Act limits such bond issues to 1½% of the property valuation. Section 30 follows:

Sec. 30. The trustees of any township may issue bonds bearing interest at a rate not in excess of 6% per annum to pay the township's proportion of the cost and expense of the construction, reconstruction and improvement of inter-county highways and main market roads in co-operation with the Department of Highways and Public Works or the Federal Government or both if the improvement is made on the application of the Township Trustees, or to pay the township's proportion of the cost and expense of the construction, reconstruction and improvement of county roads under the provisions of Chapter 6, Part 2, Title 4 of the General Code, or to pay the cost and expense of constructing, reconstructing and improving roads under the provisions of Sections 3298-1 to 3298-15n, and of Sections 3298-25 to 3298-53a of the General Code. Bonds issued to pay the cost and expense of constructing, reconstructing and improving roads under the provisions of Sections 3298-25 to 3298-53a of the General Code shall be issued only against the property included in the township road district, and levies to pay interest and principal of such bonds shall only be made against the property within the limits of such road district. Provided that the net indebtedness created or incurred by any township for road bonds heretofore issued, and hereafter issued under the provisions of this section shall never exceed 1½% of all the property in such township as listed or assessed for taxation. And no such bonds shall be issued without vote of the people except for the purpose of paying the township's proportion of the cost and expense of the construction, reconstruction and improvement of inter-county highways and main market roads. The net indebtedness shall be defined to be the difference between the par value of the outstanding and unpaid bonds, and the amount held for their redemption in the sinking fund, bond fund and other indebtedness retirement funds. The Trustees of any township may issue bonds in anticipation of the levy or collection of special assessments lawfully made by said Trustees. Such bonds shall be full general obligations of the township and the full faith, credit and revenues of the township shall be pledged for the payment thereof.

SAVINGS BANK INVESTMENTS—POWERS AND RESTRICTIONS.—The savings bank laws of Ohio were revised as part of the re-codification of the Ohio banking laws in general made at the 1919 session of the Legislature—the new enactment being known as the "Graham Banking Act," which became effective July 11 1919. The provisions regard ing savings institutions are contained in Sec. 710-139 and 710-140. We quote these both in full as follows:

710-139. SAVINGS BANK INVESTMENTS, LOANS.

Sec. 710-139. A savings bank may invest its funds in or loan money on, discount, buy, sell or assign promissory notes, drafts, bills of exchange, trade and bank acceptances and other evidences of debts; but all such investments or loans made except those secured by mortgages on real estate or pledge of collateral security shall be upon notes, drafts, bills of exchange, trade or bank acceptances, or other evidences of debt, payable at a time not exceeding six months from the date thereof, but not more than thirty per cent of the capital, surplus and deposits of such bank shall be so invested.

710-140. SAVINGS BANKS, INVESTMENTS

Sec. 710-140. A savings bank may invest its funds in:

(a) The securities mentioned in Section 111 of this Act subject to the limitations and restrictions therein contained: except that investments in real estate securities shall be subject to the restrictions contained in Section 112 of this Act.

(b) Stocks of companies, upon which or the constituent companies comprising the same, dividends have been earned and paid for five cons curive years next prior to the investment; provided, every such investm n shall be authorized by an affirmative vote of a majority of the board of di ectors of such savings bank.

No purchase or investment shall be made in the stock of any other corporation organized or doing business under the provisions of this Act or of the National Banking Act of the United States.

(c) Promissory notes of individuals, firms or corporations when secured by a sufficient pledge of collateral approved by the executive committee or board of directors.

(d) Ground rents or certificates of participation or beneficial ownership in improved lands under lease for a period of not less than twenty-five years from the date thereof, and conditioned that the lessee shall pay all taxes and assessments thereon and keep and maintain said premises in full and complete repair, with insurance in an amount equal to the insurable value of the improvements thereon provide that the aggregate par amount of such rents or certificates shall not exceed the value of the land nor sixty per cent of the total value of the land and improvements. But nothing in this section contained shall prevent the investment in such rents or certificates in unimproved lands, where by the terms of the lease thereof the construction of a new building thereon is provided for and funds have been deposited or will be deposited from the proceeds of the sale of such rents or certificates sufficient for the cost of such construction, and conditioned that such constructoin shall begin within six months thereafter and that the funds so deposited shall be paid out to meet the cost of such construction as the work progresses and for no other purpose.

Under Sub-division (a) above there is a reference to Section 111 and Section 112. We insert here the text of these:

710-111. INVESTMENTS.

Sec. 710-111. A bank may invest its capital, surplus, undivided profits and deposits in the following securities:

(a) Bonds or other interest-bearing obligations of the United States, the Philippines, Hawaii, Porto Rico and the District of Columbia, or those for which the faith of the United States is pledged to provide payment of the interest and principal, and in Farm Loan bonds issued by Federal Land banks and Joint Stock Land banks.

(b) Bonds or other interest-bearing obligations of any foreign government not at war with the United States since 1900, and of the Dominion of Canada and New Foundland, which has not defaulted in the payment of principal or interest on its bonds or obligations within the period of twenty years last prior thereto.

(c) Bonds or other interest-bearing obligations of any State or Territory of the United States.

(d) Bonds or other interest-bearing obligations of any county, town, township, city, school district, improvement district or sewer district, or other organized or political sub-division in this State.

(e) Bonds or other interest-bearing obligations of any city, town, county or other legally constituted political or taxing subdivision situated in one of the States of the United States, or any cities of the Philippines, Hawaii or Porto Rico, which city, town, county or taxing subdivision has been in existence ten years and which for a period of ten years previous y has not defaulted for a period of more than ninety days in the payment of any part of either principal or interest of any debt contracted by it and whose net indebtedness after deducting the amount of its water bonds and bonds issued for other self-sustaining public utilities and the amount of sinking funds which are available for the payment of its bonds or interest bearing obligations other than water bonds and self-sustaining public utilities does not exceed ten per cent of the value of taxable property in such city, town, county or political or taxing subdivision to be ascertained by the valuation of property therein for the assessment of taxes next preceding such investment; provided, that no bonds or other interest-bearing obligations of any such county shall be eligible for investment unless such county has a population of not less than ten thousand inhabitants, and provided that no bonds or other interest-bearing obligations of any such city, town or other political or taxing subdivision shall be eligible for investment unless such city, town or political or taxing subdivision has a population of not less than one thousand inhabitants as ascertained by United States or State census or by any municipal census taken by authority of the State next preceding such investment, and provided further, that there shall be eligible hereunder the bonds or other interest-bearing obligations of a political or taxing subdivision which has not been in existence for ten years, but which is erected out of another eligible subdivision or comprises in whole or in part another eligible subdivision or subdivisions or parts of eligible subdivisions if such subdivision shall comply with the other requirements of this paragraph.

But nothing herein contained shall authorize the investment of funds in any special assessment or improvement bonds or other bonds or other interest-bearing obligations which are not the direct obligations of the district issuing same and for which the full faith and credit of the entire district are not pledged.

(f) Bonds or debentures of any Province of the Dominion of Canada.

Bonds or debentures of any city or town or district except school district in the Dominion of Canada having a population of not less than ten thousand inhabitants, as ascertained by official census next preceding such investment and which has not since 1900 defaulted for more than ninety days in the payment of any part of principal or interest of any debt authorized to be contracted by it and which has a net indebtedness exclusive of water debt and bonds issued for other self-sustaining public utilities and the amount of sinking funds available for the payment of its bonds other than water bonds and bonds issued for public utilities, which net indebtedness does not exceed seven per cent of the last valuation of its taxable property for the assessment of taxes preceding such investment, and in all other respects such bonds shall conform to the requirements of Clause E of this section: and in the bonds or obligations of any city, town or district therein unconditionally guaranteed as to payment of principal and interest by the Dominion of Canada or any province thereof.

(g) Bonds of cities of foreign countries that have not been at war with the United States since 1900, having a population of more than one hundred thousand inhabitants, whose net indebtedness does not exceed seven per cent of the last valuation of its taxable property for the assessment of taxes preceding such investment, exclusive of bonds issued for public utilities and sinking funds other than for public utilities and which have not defaulted for more than ninety days on any installment of any part of principal or interest of any debt authorized to be contracted by it for twenty-five years preceding such investment.

(h) Bankers' acceptances of the kind and maturity made eligible by law for re-discount with Federal Reserve banks, provided the same are accepted by a bank incorporated under the laws of this State or any member bank of the Federal Reserve System.

(i) Mortgage bonds, collateral trust bonds, debenture bonds or notes of any regularly incorporated company which, or the constituent companies comprising which for four years (4) prior to the date of purchase has earned over and above all fixed charges other than interest on indebtedness an amount equal to at least double the interest charges which it will be required to pay upon its outstanding obligations; or mortgage bonds, collateral trust bonds, debenture bonds or notes of any regularly incorporated company, which bonds or notes, plus all prior incumbrances are outstanding in an amount not in excess of 50% of the actual value of the property securing said bonds or notes.

(j) Railroad equipment bonds or car trust certificates issued in the United States or Canada, and bonds secured by first mortgage on steel steamships, in an amount not exceeding 50% of the value of such vessels.

(k) Bonds or notes secured by first mortgage on improved real estate as defined in Section 113 hereof of not more than 60% of the value thereof.

All securities as enumerated above, having a fixed maturity shall be charged and entered upon the books of the bank at their cost to the bank, and when a premium is paid therefor an annual amortization charge shall be made thereon so as to bring the cost of same to the face value of said bonds at maturity. The Superintendent of Banks shall have the power to require any security to be charged down to such sum as in his judgment represents its value. The Superintendent of Banks may order any securities which he deems undesirable removed from the assets of a bank.

We print below section 113, referred to in subdivision (k):

In 1921 the General Assembly passed a bill supplementary to Section 710-111 by adding a section to be known as Section 710-111 (a) and amending Section 710-121. We give the text of these below:

710-112. REAL ESTATE LOANS.

Sec. 710-112. Loans by banks upon mortgage notes shall be made upon first mortgage upon real estate situated in this State, or in States contiguous thereto, and shall not exceed forty per cent (40%) of the value of such real estate if unimproved, and sixty per cent (60%) of such value if improved, and the improvements shall be kept adequately insured. In the case of commercial banks not more than fifty per cent (50%) and in the case of savings banks and trust companies not more than sixty per cent (60%) of the amount of the paid in capital, surplus and deposits of such bank or trust company at any time shall be invested in such real estate securities. Loans on collateral enumerated in clauses (i), (j) and (k) of Section 111 of this Act, shall not exceed eighty per cent of the value of such collateral.

Sec. 710-113. The term "improved" real estate as used in this Act shall be held to mean land upon which buildings have been erected suitable and intended to be used for residence, business or other purposes and fit for use and occupancy, or under construction for such purposes; and in the case of farm property shall mean tillable lands with farm buildings thereon and actually under use for farm purposes, and when so used the same may include pasture and wood lands.

Sec. 710-111a. Any bank organized under this Act without regard to the amount of its capital and surplus, may file application with the Superintendent of Banks for permission to exercise, upon conditions and under such regulations as may be prescribed by the said Superintendent of Banks, either or both of the following powers:

(A) To invest its capital, surplus, undivided profits and deposits in bonds, notes, trade acceptances, debentures or first lien securities of one or more banks or corporations, chartered or incorporated under the laws of the United States and principally engaged in international or foreign banking, or banking in a dependency or insular possession of the United States, either directly or through the agency, ownership or control of local institutions in foreign countries, or in such dependencies or insular possession; including the bonds, notes, trade acceptances, debentures or first lien securities of one or more banks or corporations chartered or incorporated under Section 25a of the Federal Reserve Act, as approved December 24 1919.

(B) To invest an amount not exceeding in the aggregate ten per centum of its paid capital stock and surplus in the stock of one or more banks or corporations chartered or incorporated under the laws of the United States and principally engaged in international or foreign bankin r, or banking in a dependency or insular possession of the United States, ei her directly or through the agency, ownership or control of local insti utions in foreign countries or in such dependencies or insular possessions, including the stock of one or more banks or corporations chartered or incorporated under Section 25a of the Federal Reserve Act, as approved December 24 1919.

Every bank organized hereunder and investing in the capital stock of banks or corporations as provided herein, shall be required to furnish information concerning the condition of such banks or corporations to the Superintendent of Banks upon demand.

Sec. 710-121. Not more than twenty-per cent of the capital surplus of a bank doing business under this charter shall be invested in any one stock or security unless it be in bonds or other interest-bearing obligations enumerated in paragraphs a, b, c, d, e and h of Section 111 of this Act; or in the stock or corporation owning the land, building or buildings occupied by such bank for its banking quarters, and then not exceeding sixty per cent of its capital and surplus shall be so invested, which shall be carried on the books of the bank as an investment or equity in real estate; or in the bonds, notes, trade acceptances, debentures or first lien securities of banks or cor-

porations chartered or incorporated under the laws of the United States and principally engaged in international or foreign banking, or banking in a dependency or insular possession of the United States either directly or through the agency, ownership or control or local institutions in foreign countries or in such dependencies or insular possessions, including the bonds, notes, trade acceptances, debentures or first lien securities of one or more banks or corporations chartered or incorporated under Section 25a of the Federal Reserve Act, as approved December 24 1919.

INVESTMENT OF TRUST FUNDS.—The investment of trust funds is regulated by Section 11214 of the General Code. This section was amended in 1923 (V. 116, p. 2795) and now reads as follows:

Sec. 11214. When they have funds belonging to the trust which are to be invested, executors, administrators, guardians, including guardians of the estate of minors, and trustee, may invest them in bonds or certificates of indebtedness of this State, of the United States, or in the bonds or certificates of indebtedness of any county, city, village or school district in this State, on which default has never been made in the payment of interest, or in bonds issued by any bank organized under the provision of the Act of Congress known as the Federal Farm Loan Act, approved July 17 1916, and amendments thereto, or in such other securities as the court having control of the administration of the trust approves.

CITIES, COUNTIES AND TOWNS IN THE STATE OF OHIO.

[In the following statements of debt we report in detail only those bonds which are a general obligation of the place issuing the same. Lack of space prevents our giving a description of the numerous issues of assessment bonds—that is, bonds payable by assessment against the particular piece of property benefited.]

Tax rate (per $1,000) 1922---$20.00
Population in 1920 (Census)---2,310

CINCINNATI.
C. T. Greve, Secretary Sinking Fund Trustees.
Cincinnati is situated in Hamilton County. Founded in 1789; incorporated as a town Jan. 1 1802 and as a city Feb. 5 1819. The following villages have since been annexed: Fernbank, Hartwell, Pleasant Ridge, Oakley, Delhi, Madisonville, Carthage, College Hill, Sayler Park, Mt. Washington, Mt. Airy, Avondale, Clifton, Linwood, Westwood, Riverside, Hyde Park, Evanston, Bond Hill, Winton Place, Kennedy Heights and Red Bank. The Linwood, Mt. Airy, Clifton, Bond Hill, Red Bank and Mt. Washington bonds have all been paid off but the debts of the other places will be found in the table below.
Bonds marked thus—sf—are held in the sinking fund.
Bridge, Grade Crossing, Subway, Str. & Viad. and Viaduct.
Bridge Bonds.

Net debt not self-supporting	$40,119,697

CITY PROPERTY.—The city owns the Cincinnati Southern RR. The rental received for the road was (under the old lease) $1,090,000 till 1901 and then $1,250,000 till 1906. The old lease expired in 1906, and in 1898 legislation was secured under which, on June 7 1902, the lease was modified and extended to Oct. 12 1966 at an annual rental of $1,050,000 for the first 20 years, $1,100,000 for the second and $1,200,000 for the remaining 20 years. At the time of the extension, there remained of the original term four years, the rental of which was so modified that the sum of $200,000 thereof per annum was extended and made payable at the rate of $40,000 per annum, with 3% interest on the remaining deferred payment until fully paid. The legislation under which the lease was extended also provided for the issuance of $2,500,000 bonds of the city by the trustees of the railway for terminal facilities and permanent betterments, upon the lessee agreeing to pay an additional rental equal to the annual interest thereon and 1% per annum for a sinking fund for the final redemption of the bonds. Legislation has since been secured under which there have thus far been issued $6,400,000 in bonds known as terminal facilities and perm. betterments bonds.

On Dec. 31 1922 the property owned by the city was valued at $150,470,392.17. Included in this total is the value of Cincinnati Southern Ry. placed at $33,307,152.95.

ASSESSED VALUATION; &C.—Assessed val. and tax rate have been as follows:

Years—	*Assessed Valuation.*	*Total Tax per* $1,000
1923	$739,997,200	-----

CLEVELAND.
G. A. Gesell, Director of Finance.
Cleveland is in Cuyahoga County and was incorporated Mch. 5 1836. This city has annexed the villages of Glenville, South Brooklyn, Collinwood, Corlett, Newburgh, Nottingham and part of the village of Euclid. A proposal to annex the village of West Park to the city of Cleveland was carried by the voters on Nov. 7 1922. Home rule charter adopted July 1 1913.

TOLEDO.
Toledo is situated in Lucas County. Incorp. Jan. 7 1837. All bonds are originally issued in coupon form and registration occurs at pleasure of holder. An election held Aug. 4 1914 resulted in favor of issuing $8,000,000 bonds for purchase of Toledo Rys. & Light Co. A new city charter was adopted by the voters Nov. 3 1914. City Council passed ordinance Feb. 21 providing for annexation of West Toledo.

Organized as a Territory (Act May 7 1800). -- July 4 1800
Admitted as a State (Act April 19 1816) ---- Dec. 11 1816
Total area of State (square miles) ---------- 36,350
State Capital ---------- Indianapolis
Governor (term exp. 2d Mon. Jan. 1925) Warren T. McCray
Lieut.-Gov. (term exp. 2d Mon. Jan. '25) Emmet F. Branch
Secretary of State (term exp. Nov. 22 1924) --- Ed. Jackson
Treasurer (term expires Feb. 10 1925) ------- Ora J. Davies
Auditor (term expires Nov. 24 1924) ------- Robert Bracken
Attorney-General (term expires Jan. 1 1925) ---- U. S. Lesh

LEGISLATURE meets biennially in odd years on the Thursday after the first Monday in January, and sessions are limited to sixty-one days.

HISTORY OF DEBT.—The historical details of Indiana's State debt from 1832 up to 1894 will be found in the "State and City Supplement" of April 1894, pages 85 and 86. The debt of the State, detailed, is as follows: An issue of $340,000 Purdue University bonds, which are in the nature of a trust fund. The U. S. Government gave the State this money, back in the sixties, to be invested in either Government or State bonds, bearing not less than 5% interest. Not being able to get any Government bonds at this rate, the State took the $340,000 for its own use and executed to Purdue University its obligation, which has been twice renewed and has paid the interest, 5% annually, to Purdue University since receiving the money. The State also has the following Indiana Board of Agriculture bonds outstanding:

* State Fair Ground Bonds.

4½s	1923	J-J	$75,000	July 1	1925-1927
			250,000	July 1	1928-1932
			150,000	July 1	1933-1934
			400,000	July 1	1935-1938
			125,000	July 1	1939

*Coupon bonds with privilege of registration as to prin. Int. payable at the Northern Tr. Co., Chicago, or Fletcher American Co., Indianapolis, at holder's option.

FINANCIAL STATEMENT, OCT. 1 1922.—The following is a statement of debt and cash as of Oct. 1 1922:

STATE DEBT.

Purdue University—Non-negotiable 5% bonds		$340,000 00
5% stock certifs. issued under Act 1845 and 1846	$3,469 99	
2½% certificates issued under the same Act	2,145 13	
		5,615 12
Temporary loans—Sec. 1, Chapter 168, Acts 1913		1,500,000 00
Temporary loans for Indiana State Board of Agriculture		50,000 00
Total		$1,895,615 12

There was a cash balance of $4,090,777 06 in the treasury on Sept. 30 1922. This balance was distributed among the various funds as follows: General fund, $264,461 62; Educational Institution fund, $68,370 78; vocational education fund, $64,965 93; unclaimed estates, $47,563; sale of State lands, $11,517 12; school revenue for tuition fund, $656,753 87; Fire Marshal fund, $78,582 34; hydrophobia fund, $19,706 02; State Highway Commission fund, $1,860,712 12; auto theft fund, $319,035 93; common school fund, $24,949 62; World War Memorial fund, $572,975 23; Agricultural Experiment Station (Purdue University), $57,775 08; teachers' retirement fund, $43,408 40.

ASSESSED VALUATION.—The following table shows the total valuation of real and personal property, including railroad and other property, also the State tax rate (per $1,000) *for the general fund* for the years indicated. By an Act of the Legislature of 1905 the General Fund tax was fixed at $1.20 per $1,000 for each of the years 1905, 1906, 1907, and 90 cents per $1,000 annually thereafter; the law also stopped levy for sinking fund until 1908, when it was again resumed, but in 1913 the rate was reduced to $0.70. The Legislature of 1917 made a further reduction, placing the tax at $0.40. In 1919 the Legislature provided that the State Tax Commission, with approval of the Governor and the Auditor of State, should fix a general tax sufficient to cover appropriations made. For 1919 the rate was $0.20 and for 1920 and 1921 only $0.10. The tax for 1922 was $0.20.

Years—	Valuation.	Gen'l Fund Tax.	Years—	Valuation.	Gen'l Fund Tax.
1922	$5,225,692,395	$0.20	1908	$1,723,311,564	$0.90
1921	5,751,755,009	0.10	1907	1,717,037,215	1.20
1920	5,838,717,040	0.10	1906	1,654,888,461	1.20
1919*	5,749,258,800	0.20	1905	1,597,560,087	1.20
1918	2,199,086,651	0.40	1904	1,543,000,000	0.90
1917	2,125,388,598	0.40	1903	1,513,433,644	0.90
1916	2,044,381,648	0.70	1902	1,394,808,242	0.90
1915	1,967,434,018	0.70	1901	1,360,445,139	0.90
1914	1,939,876,166	0.70	1891	1,255,256,038	1.20
1913	1,898,207,235	0.70	1880	764,287,517	1.20
1912	1,890,460,710	0.90	1870	662,283,178	1.50
1911	1,891,601,167	0.90	1860	455,011,378	1.50
1910	1,797,486,410	0.90	1850	138,362,085	2.50
1909	1,776,132,096	0.90			

The total State tax, including all purposes, was $2.40 per $1,000 in 1921 and $2.70 in 1922.

* Section 3 of Chapter 59 of the General Laws of 1919 provided for a revaluation of all taxable properties at its true value.

POPULATION OF STATE.—

1920	2,930,390	1870	1,680,637	1830	343,030
1910	2,700,876	1860	1,350,428	1820	147,178
1900	2,516,462	1850	988,416	1810	24,520
1890	2,192,404	1840	685,866	1800	5,641
1880	1,978,301				

DEBT LIMITATION.—In the present constitution of Indiana, which went into effect Nov. 1 1851, and was amended in 1881, there are explicit provisions limiting the power of both the State and its municipalities to contract debt.

***FIRST, as to the State*, Section 5 of Article 10 provides that no debt except to meet casual deficits in revenue, to pay interest, to repel invasion, &c., can be contracted. The section in full is subjoined.**

CREATION OF DEBT FORBIDDEN.—No law shall authorize any debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense.

[The 1923 Legislature proposed to submit to the voters an amendment to the Constitution providing for payment of a bonus to war veterans, but the bill was vetoed by the Governor.—V. 116, p. 1209.]

In the sixth section of the same article the last clause prohibits the assumption by the State of the debts of any municipality or corporation. The clause referred to reads as follows:

"Nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation, whatever."

***SECOND, as to municipalities*, the provision contained in the constitution seems to be equally clear and emphatic, and, as will be found, fixes the limit at 2% of the valuation. It is Article 13 of that instrument (an amendment to the 1851 constitution adopted March 14 1881) which relates to this subject, and we quote the article as follows:**

LIMITED—EXCESS VOID.—No political or municipal corporation in this State shall ever become indebted in any manner or for any purpose to an amount in the aggregate exceeding 2% on the valuation of the taxable property within such corporation, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness; and all bonds or obligations in excess of such amount given by such corporation shall be void; *Provided*, That in time of war, foreign invasion or other great public calamity, on petition of a majority of the property owners in number and value, within the limits of such corporaration, the public authorities in their discretion may incur obligations necessary for the public protection and defense to such an amount as may be requested in such petition.

It should be said in connection with the above that several laws have been enacted since the foregoing constitutional limit was adopted (March 14 1881), and bonds have been issued by counties thereunder *beyond the 2% limit*, for the construction of "free gravel, stone or other macadamized roads." Several such laws were passed at the 1899 session of the Legislature. But in the case of Strieb vs. Cox, Treas., 111 Ind., the Supreme Court of Indiana held that gravel road bonds are not properly indebtedness of the county—hence do not come within the inhibition of Section 13 of the constitution. (See editorial in "State and City Supplement" for October 1899, page 3.)

***THIRD, counties* (but no other kind of municipality) are prohibited from subscribing for any stock in a corporation unless paid for at time of such subscription. The section which covers this subject is Section 6 of Article 10, and is as follows:**

COUNTIES CANNOT TAKE STOCK.—No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company; nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to authorize cities to subscribe to the stock of railroads, as it did by a general law passed in 1869, granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law, too (Section 5502, Burns's Annotated Statutes, revision 1914), which authorizes counties bordering on the State line, or any township or city situated in such county, to subscribe for railroad stock. In that law no attempt is made to endow counties with power to issue bonds for this purpose (thus obeying the mandate of the constitution), though by the succeeding section cities are given authority to issue such bonds.

***COUNTIES are apparently restricted* by statute to a lower percentage than the constitutional limit of 2% in the matter of creating certain kinds of debt. For instance, Section 5991 of Burns's Annotated Statutes, 1914, authorizes any county to issue bonds when necessary to construct, complete or repair court house, jail or other county buildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not exceeding 1% on assessed valuation and issue bonds therefor, provided that no second or subsequent loan shall be made or authorized so long as any former loan made under the provisions of the Act shall remain unpaid. From Section 6094 it appears, moreover, that whenever the *aggregate* indebtedness, funded or otherwise, of any county having a voting population of over 20,000 amounts to or exceeds 1%, it is not lawful to increase such indebtedness in any manner or form except only by temporary loans in anticipation of the revenue of the then current fiscal year and not exceeding two-thirds of the amount of the county tax duplicate of the preceding year.**

***Limit of* 1% may be exceeded in counties for funding purposes in certain cases where the aggregate indebtedness in 1879 exceeded 1% (see Burns's Revised Statutes, 1914, Section 6092); also for temporary loans (see Burns's Revised Statutes, 1914, Section 6094).**

Also the limit of 2% may be exceeded for the purpose of making gravel roads (see above), the Supreme Court having decided that gravel road bonds are not properly an indebtedness of the county. The amount of such bonds that may be issued without the consent of the voters is limited to 2% of the assessed valuation of the township benefited by the improvement in the case of township roads and to 1% of the county valuation in the case of county unit highways. If petitioned for by the people and approved by the voters, additional debt may be created in either instance, but not to exceed 2% of the valuation for township roads and 1% for county unit highways. The full text of the Act containing these provisions may be found in the "Chronicle" of June 16 1923, p. 2794.

Park districts and sanitary districts situated in first class cities may issue bonds in aggregate amounts not to exceed ½% and 8-10%, respectively, of the assessed valuation of property, the bonds issued to be considered direct obligations of the issuing districts.

In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns to issue bonds for legitimate corporate purposes, subject, however, to the constitutional limit of 2% on valuation. But we have not the space to set out here the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water works, &c.

[An Act was passed by the 1917 Legislature (Chapter 87, Laws of 1917) creating a State Highway Commission, providing for the construction, reconstruction, maintenance, repair and control of public highways, and providing for co-operation with the Federal Government in the construction of rural post roads. The Attorney-General under date of April 25 1918 advised us "that it is extremely probable that the constitutional debt limitation of 2% applies to bonds issued for the construction of highways under this Act."]

GRAVEL ROAD LAW OF 1905.—The State Supreme Court in November 1909 decided that this Act was unconstitutional on the ground that it contained provisions which were such as to make it a local and special Act. The decision was based on that part of the law which provides that "whenever a petition si ned by fifty or more freeholders and voters of any township in any county in this State includes any incorporated town or city in such township having a population of less than 30,000 inhabitants, praying," &c., the commissioners shall proceed to carry out the provisions of the Act. Upon rehearing, however, it was pointed out that this section as printed contained a clerical error, and the Court on Jan. 25 1910 reversed itself and upheld the contention that the word "includes" should be read "including", thereby making eligible to become petitioners for gravel roads any freeholder and voter in any township with the exception of those residing in incorporated towns and cities of over 30,000 inhabitants, which latter should be neither taxed nor eligible to participate in such proceeding. See V. 90, p. 316.

EXEMPTION FROM TAXATION.—Provisions for exemption from taxation of State, county and municipal bonds are contained in sub-divisions 20 to 23, incl., of Section 1, Chapter 4, Acts of 1921, approved Feb. 8, and Sec. 37, Chapter 262, Acts of 1921, approved Mar. 11, which read as follows:

Twentieth. All bonds, notes and other evidences of indebtedness, hereafter issued by the State of Indiana or by municipal corporations within the State upon which the said State or the said municipal corporations pay interest, shall be exempt from taxation.

Twenty-first. That all bonds hereafter authorized by any county or township in the State of Indiana for the purpose of building, constructing and paying for the construction of any free gravel, macadamized or other improved roads, shall be exempt from taxation: *Provided*, Said bonds shall not bear a greater rate of interest than 5% interest per annum, payable semi-annually.

Twenty-second. Old bonds and other evidences of indebtedness hereafter issued by or in the name of any municipality or other political or civil sub-division of the State of Indiana, or by or in the name of any taxing district in the State of Indiana, for the purpose of paying the cost of acquisition, construction, improvement, or maintenance of streets, highways, drains, levies, parks, docks, waterways, boulevards, playgrounds, bridges, sewage-disposal plants and other improvements of public benefit, and which bonds or other evidences of indebtedness are payable from special assessments or special taxes, shall be exempt from taxation, unless otherwise expressly provided in this section.

Twenty-third. All bonds, notes, mortgages and other evidences of indebtedness heretofore or hereafter issued and negotiated by the Indiana State Board of Agriculture, pursuant to the provisions of any statute then in force, shall be exempt from taxation.

Sec. 37. All bonds hereafter authorized by any board of county commissioners for the establishing, laying out, opening, changing, widening, grading, draining and constructing any highway wholly within a county or upon a county line under the provisions of this Act, shall be exempt from taxation, but said bonds shall not bear a greater rate of interest than 6%, payable semi-annually.

LEGALITY OF BONDS ISSUED IN APPLICATION OF 1919 CONTRACTORS' RELIEF LAW QUESTIONED.—A decision handed down in Nov. 1921 by the State Supreme Court, declaring the Contractor's Relief Law unconstitutional, has raised the question of whether bonds issued in the application of the law are legal (V. 113, p. 2527). This was a law passed at the 1919 session of the Legislature, the purpose of which was to give relief to contractors for county highway work who entered into contracts prior to June 1 1917, and who, because of conditions resulting from the war with Germany, were unable to carry out the provisions of their agreements without losses. Relief was furnished, under the Act, by allowing the county to pay for portions of the work completed at the contract price and to release the contractor from further performance of the contract; or, if work had not started, by the complete cancellation of the contract. Another section of the Act provided that, if the county commissioners re-let a contract, which had previously been canceled under the Act, and it was found that the funds realized by the sale of bonds for the payment of the original contract price, were insufficient to pay for the improvement, under the new contract, the county commissioners could issue additional bonds in a sum equal to the deficiency.

SAVINGS BANKS INVESTMENTS—POWERS AND RESTRICTIONS.—The provisions regulating the investments and loans of savings banks in the State of Indiana, are contained in Sections 19 to 24, inclusive, of Chapter 6 of the Banking Law, originally passed in 1869, and amended in 1875, 1893 and 1903, as published in the report of the Banking Department for 1921. Chapter 153 of the General Laws of 1919 permits the investment of savings funds in bonds issued by any Federal Land Bank or Joint Stock Land Bank organized under the Federal Farm Loan Act.

We give Sections 19 to 24, inclusive, in full below, together with Chapter 153 of the General Laws of 1919.

***INVESTMENT OF FUNDS.*—Sec. 19. It shall be lawful for the trustees of any savings bank to invest the money deposited therein only as follows, to wit:**

First. In the bonds or notes of the United States.

Second. In the notes or bonds of the State of Indiana.

Third. In the orders or bonds of any county, township, city or town in this State, or of any other State of the United States, issued pursuant to the authority of law.

Fourth. In the notes or bonds of any State in the Union that has for five years previous to such investment being made regularly paid the interest on its legal bonded debt in lawful money of the United States.

Fifth. In bonds or notes secured by first mortgage on real estate situate in the State of Indiana, or in any adjoining county in an adjoining State, worth at least twice the amount loaned thereon.

Sixth. In promissory notes, payable at some chartered bank within this State, and having not to exceed twelve months to run from the date of the

loan or purchase, made or endorsed by two or more responsible freeholders, one of whom at least shall be a resident of the State of Indiana, and no such promissory note shall exceed the amount of $10,000.

Seventh. In real estate subject to the provisions of Section 24.

Eighth. In dealing in exchange by purchasing and selling sight or time drafts or acceptances payable out of this State, but no such draft or acceptance shall exceed $10,000, nor have to exceed 120 days to run from the time of the purchase thereof.

RESERVE.—Sec. 22. The trustees may keep in reserve not exceeding 20% of the total amount of deposits without investment, or deposit the same on call with or without interest, in any bank organized under the laws of this State or in any bank in any adjoining State, organized under the laws of such State, or in any national bank in the United States. Provided, That no such deposit shall be made outside the State of Indiana excepting in national banks as aforesaid without the approval of the Auditor of the State of Indiana.

RESTRICTION ON LOAN.—Sec. 23. No loan shall be made upon the security of real estate, as provided in subdivision 5 of section 19, or upon notes or bills as provided in subdivision 6 of said section, without the consent of a majority of the trustees, or the unanimous consent of the committee of investment, which may be created under the by-laws of such bank.

REAL ESTATE PURCHASES.—Sec. 24. It shall be lawful for the trustees of any savings bank to purchase, hold and convey real estate as follows, and not otherwise:

First. A lot and banking-house requisite for the transaction of its business, and for an income from such portions of the same as are not required for its own use.

Second. Such as shall have been mortgaged to it in good faith for money loaned, or upon which it shall have purchased a mortgage.

Third. Such as shall have been purchased at sales upon judgments or decrees obtained upon claims in favor of the bank, or which may be so purchased to prevent loss upon claims held by the bank.

Chapter 153 General Laws of 1919—That any life insurance, fire insurance, live stock insurance, casualty or accident insurance, or bonding or surety company, or trust company, or saving bank, now or hereafter organized under the laws of the State of Indiana, in addition to the investment of its funds as now provided by law, be and hereby is authorized and empowered to invest its funds in the bonds issued by any Federal Land Bank or Joint Stock Land Bank organized under the Federal Farm Loan Act.

CITIES, COUNTIES AND TOWNS IN THE STATE OF INDIANA.

LEGISLATURE meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions.

HISTORY OF DEBT.—The historical details of the State debt of Illinois from 1829 to 1870, when the debt was all paid off, will be found in the "State and City Supplement" of April 1894, page 91.

BONDED DEBT.—The debt of the State up to Oct. 1921 consisted of only $17,500 bonds, which had not been presented for payment at maturity. Since then the State has floated several loans. The debt now consists of:

Loans—Name & Purpose.			*Interest—Rate.*	*Interest—Payable.*	*Principal—When Due.*	*Outstanding.*
Highway Bonds		1921	4%	-------	May 1 '26-'35	$5,000,000
do	do	1922	4%	May 1	May 1 '29-'40	6,000,000
do	do	1922	4%	May 1	May 1 '29-'40	6,000,000
do	do	1923	4%	Mar. 1	Mar. 1 '38-'43	6,000,000
do	do	1923	4%	-------	May 1 '26-'37	7,000,000
(For maturity see V. 116, p. 2424)						
Soldiers' Bonus bonds		1923	4½%	Aug. 1	Aug. 1 '24-'43	10,000,000
(For maturity see V. 116, p. 2424)						

All the above bonds are coupon bonds with privilege of registration. Int. payable at State Treasurer's office and in Chicago and New York.

The bonded debt of the State May 1923 was $40,017,500. On July 1 1922 balances in various State funds totaled $29,861,108.14. To this total the General Revenue Fund contributed $13,518,001.92; Road Fund, $6,660,474.76; Road Bond Fund, $4,434,111.72; Waterway Fund, $1,656,121.84; University of Illinois Fund, $1,058,605.73.

CANAL BONDS.—At the general election in November 1908 the people by a vote of 692,522 "for" to 195,177 "against" adopted an amendment to the State constitution which provides for the issuance of not exceeding $20,000,000 bonds, to construct a deep waterway or canal, and to erect, equip and maintain power plants, locks, bridges, dams and appliances suitable for the development and utilization of the water power. V. 85, p. 1289, and V. 87, p. 1372. On Feb. 21 1917 the State Supreme Court handed down a decision upholding an Act passed by the 1915 Legislature and approved on June 18 1915 providing for the issuance of $5,000,000 of these bonds. V. 104, p. 877. The proposition has received the approval of the Secretary of War and the War Department. V. 106, p. 623.

ROAD BONDS.—An amendment to the State Constitution, which provides for a bond issue of $60,000,000 to build a system of hard roads, was voted by the people at the general election held Nov. 6 1918. The State Supreme Court in April 1919 sustained the decision of the Circuit Court of Sangamon County in refusing to enjoin the State officials from carrying out the provisions of the law (V. 108, p. 1633). Of these bonds, $30,000,000 have been issued. At the 1923 session the Legislature passed an Act providing for an additional $100,000,000 bonds for road improvements. This measure is to be submitted to the voters. V. 116, p. 2905.

SOLDIERS' BONUS BONDS.—A proposition to issue $55,000,000 soldier's bonus bonds was submitted to the voters in November 1922. At that election the question carried by a vote of 1,220,815 "for" to 502,372 "against." Following the voters' approval, the Act was attacked in the Courts as unconstitutional, but the final decision upheld the validity of the measure. V. 116, p. 965, 1682. On May 25 1923 $10,000,000 of the total issue was sold.

EQUALIZED VALUATION.—The total equalized valuation has been as follows in the years named. The tax rate for 1921 was fixed by the Governor, the Auditor of Public Accounts and the State Treasurer at 45c. on the $100 of equalized valuation. The General Assembly, at its session in 1919, abolished the State Board of Equalization and substituted a Tax Commission which performs all the duties formerly performed by the State Board of Equalization.

Years.	*Equalized Val.*	*Years.*	*Equalized Val.*	*Years.*	*Equalized Val*
1922---*y*	$4,000,497,373	1912---*z*	$2,343,673,232	1899* ---	$953,099,468
1921---*y*	4,201,674,205	1911---*z*	2,318,333,241	1898-----	778,474,910
1920---*y*	4,234,951,430	1910---*z*	2,199,714,709	1890-----	808,892,782
1919---*y*	4,110,174,907	1909---*z*	2,158,648,450	1888-----	784,911,740
1918---	2,626,084,386	1908----	1,263,500,487	1885-----	798,482,823

1916---	2,502,086,976	1905 ---	1,095,681,557	1879-----	784,632,550
1915---	2,499,311,888	1901*---	999,231,829	1878-----	857,235,762
1914---	*x*2,422,361,952	1900*---	809,733,405	1873-----1	,355,401,317

*For explanation as to the falling off of values in the year 1900, see letter of State Auditor in V. 74, p. 741. *z* Property assessed at 1-3 true value instead of 1-5. *y* Property now assessed at ½ true value instead of 1-3—see remarks below.

Under a law passed Feb. 25 1898 there is a general assessment of real estate but once in every four years instead of annually; personal property is listed every year. The law also provided that property shall be appraised at full value, but assessed at only one-fifth of such value. This law was changed, however, by an Act passed in 1909 which provided for the assessment of property at one-third of the actual value. The new basis of assessment went into effect in 1909, with the result that values for that year showed large increases while the tax rates were decreased correspondingly. In 1919 the assessed value of property was again changed by the General Assembly, this time to the basis of one-half the full value instead of one-third, causing a further large increase in assessed values.

POPULATION OF STATE.—

1920---6,485,280	1890---3,826,352	1860---1,711,951	1830---	157,445
1910---5,638,591	1880---3,077,871	1850---	851,470	1820---	55,211
1900---4,821,550	1870---2,539,891	1840---	476,183	1810---	12,282

DEBT LIMITATION.—No State has more carefully restricted the creating of debt than Illinois, if we may judge from the provisions of its present constitution. The limitation has apparently been progressive. Nothing of it is to be found in the constitution of 1818. The constitution of 1848 contained no reference to municipalities, but had in it stringent restrictions limiting to $50,000 the power of the Legislature to create State debt, except in case of war, invasion, &c., unless the law proposing the issue of bonds was submitted to a vote of the people. But turning to the constitution of 1870 we find the whole subject of debt-making most thoroughly considered and its basis settled.

First, as to the State, the provisions are not very unlike the provisions of the constitution of 1848, except that as to the limit for casual deficits and failures of revenue, the aggregate which can be created is very properly raised to $250,000. But with that exception and with the further exception for the purpose of repelling invasion, &c., no debt can be contracted unless the law is submitted to a vote of the people at a general election, which law must contain a provision for the payment of interest as it accrues, and previous notice of the election be given by publication for three months prior to such election. These last two restrictions as to interest and notice of election are only found in the 1870 constitution. The sections which cover these matters are as follows: we omit the first portion of Section 18 of Article IV, which relates only to appropriations and payment of appropriations out of funds belonging to the State:

SECTION 18. * * * * *Provided*, the State may, to meet casual deficits or failures in revenues, contract debts never to exceed in the aggregate $250,000, and moneys thus borrowed shall be applied to the purpose for which they were obtained, or to pay the debt thus created, and to no other purpose; and no other debt, except for the purpose of repelling invasion, suppressing insurrection or defending the State in war (for payment of which the faith of the State shall be pledged), shall be contracted, unless the law authorizing the same shall at a general election have been submitted to the people, and have received a majority of the votes cast for members of the General Assembly at such election. The General Assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same; and provision shall be made . . . the time for the payment of the interest annually as it shall accrue, by a tax levied for the purpose or from other sources of revenue; which law providing for the payment of such interest by such tax shall be irrepealable until such debt be paid; *And provided further*, that the law levying the tax shall be submitted to the people with the law authorizing the debt to be contracted.

SECTION 20. The State shall never pay, assume or become responsible for debts or liabilities of, or in any manner give, loan or extend its credit to or in aid of, any public or other corporation, association or individual.

SECOND, municipal indebtedness is regulated only in the constitution of 1870. In that instrument the subject is dealt with in all its phases. *First* is a provision in Article 8, Section 3, forbidding the General Assembly and every municipality from making any appropriation in aid of any sectarian purpose. *Second* is a "separate section" forbidding any such municipality from becoming a subscriber to the stock of any railroad, &c., or to loan its credit. *Third* is the broad and general provision, Section 12, Article 9, which limits the indebtedness of all municipalities to 5% "on the value of the taxable property therein," &c. We give these sections below:

ARTICLE 8, Section 3. Neither the General Assembly nor any county city, town, township, school district or other public corporation shall ever make any appropriation, or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university or other literary or scientific institution controlled by any church or sectarian denomination whatever; nor shall any grant or donation of land, money or other personal property ever be made by the State or any such public corporation to any church or for any sectarian purpose.

ARTICLE 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose to an amount, including existing indebtedness, in the aggregate exceeding 5% on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, school district or other municipal corporation incurring any indebtedness as aforesaid shall, before or at the time of doing so, provide for the collection of a direct annual tax sufficent to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district or other municipal corporation from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this constitution in pursuance of any law providing therefor.

In the case of an issue of Chicago bonds, where the Chicago & North Western Ry. Co. had refused to pay taxes levied for the payment of principal and interest on the bonds, the Supreme Court of Illinois, in upholding the legality of the issue in May 1923, laid down the rule that the 5% constitutional limit may be exceeded in certain circumstances. The railway company had objected that the tax was in part illegal because it was not authorized by the constitution and the statutes, and argued that if the bonds were properly issued and taxes could now be collected to pay them, "the city authorities are obtaining indirectly what they could not obtain directly because of the prohibition against indebtedness extending beyond the constitutional limitation of 5% of the value of the taxable property ascertained by the last preceding assessment." In disposing of this contention the court, after referring to various authorities, expressed the opinion that the constitution and the statutes do not "forbid the city authorities from issuing bonds for the payment of indebtedness that it has incurred in the conduct of the city if they are not able to collect sufficient taxes to pay the same." The Court then went on to say: "Clause 5 of Section 1 of Article 5 of the Cities and Villages Act (1 Hurd's Statutes, 1921, p. 326) gives to the city authorities power to borrow money on the credit of the corporation for corporate purposes, and issue bonds therefor, in such amounts and form, and on such conditions as it shall prescribe." The Court added: "Our attention has been called to no provision of the Constitution, or statutes, and we know of none, which prohibits the issuing of bonds for general corporate purposes of the city."

SEPARATE Sections. [Municipal subscriptions to railroads, &c.] No county, city, town, township or other municipality shall ever become subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation; *provided, however*, that the adoption of this Article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized under existing laws by a vote of the people of such municipalities prior to such adoption.

The foregoing limitation to 5% is general, as will be seen—that is, it applies to all municipalities. With this limitation preserved the Legislature has passed general laws authorizing the City Council in cities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating debt, for waterworks, &c., and the county board of any county has been authorized by general statute to issue, when it deems it necessary, county bonds, after submitting the matter to the legal voters of the county at a general election at which a majority vote is required as a prerequisite of the issue. An attempt was made to limit "any county city, township, school district or municipal corporation" in counties containing 125,000 or more inhabitants to 2½% of the assessed value, but on Jan. 12 1900 the State Supreme Court ruled that this was an arbitrary and unnatural classification of municipalities which could not be sustained. See Vol. 70, p. 242.

By an Act approved June 27 1913, as amended by an Act approved June 29 1921, Forest Preserve districts are authorized to borrow in an aggregate amount not to exceed 1% of the assessed valuation of property within the district, as ascertained by the last equalized assessment for State and county purposes, and to levy a tax for payment of principal and interest of the bonds, not to exceed 1 mill on a dollar of assessed valuation of property.

The matter of the amount of bonds that might be issued on the basis of the debt limitations given has been complicated in late years by changes in the method of assessing property. A letter of the State Auditor in V. 74, p. 741, throws some light on these changes.

BUSSE BOND BILLS.—The Legislature of 1909 passed a series of bills, known as the Busse Bond Bills, enlarging the leeway for the creation of debt by the various municipalities in the State by fixing the assessed value of property at one-third of the actual value instead of one-fifth, as before. With the exception of counties a proportional decrease was made in the maximum rate of taxation. The amendments providing for a decrease in the maximum rate of taxation were held constitutional by the State Supreme Court in January 1910. See V. 190, p. 387. In 1919 the Legislature made a further change by raising the basis of assessed values from one-third the full value to one-half.

NEW BONDS MUST BE SUBMITTED TO A VOTE.—At the 1909 session the Legislature also passed the Jones referendum bill, which provides that all bond issues, excepting those for refunding purposes, must be submitted to a vote and ratified by a majority of those voting on the proposition.

WATER CERTIFICATES IN EXCESS OF DEBT LIMIT.—A law was passed in 1899 allowing cities bonded to their legal limit to issue (for the improvement of water-works) certificates against the earnings of the Water-Department without regard to the bonded indebtedness. Several municipalities are understood to have taken advantage of this law. In the case of the City of Joliet, however, which attempted to issue bonds under the law, the matter was taken into the courts in a test suit, and an injunction granted by Judge Dibell, who held that the 5% limit could not be exceeded. V. 73, p. 94. This decision was confirmed by Supreme Court. V. 74, p. 491.

SPECIAL ASSESSMENT BONDS.—Under authority of an Act approved June 14 1897, as amended by the 1921 Legislature, a city, village or town may issue bonds in anticipation of the collection of installments of assessments, the principal amount of bonds not to exceed the amount of installments of tax due, and to be divided into as many series as there are deferred installments, each series of bonds to become due at about the same time as the corresponding installment will mature. [The full text of the

law and the amendment may be found in Hurd's Revised Statutes of Illinois, 1911 edition, pp. 404 to 433, incl.; and in Laws of 1921, pp. 195 to 199, incl.

IMPROVEMENT BONDS.—There is a kind of improvement bond authorized in some cases which is made a special lien on the land benefited and to which the 5% limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of draining, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained and been assessed, the assessment may be paid in installments or otherwise, and such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lots, blocks or parts thereof which shall be designated therein; but before the issue the owner of the lots &c., to be charged must endorse upon the back of such bond his consent, under seal, in substance, as follows: "I hereby indorse the within bond and consent that the lot or lots or parts thereof therein designated shall become liable for the interest and principal therein named, and the same shall be a lien upon said property from this date until paid off and discharged." The bond when executed by the city or village and so endorsed by the owner shall be recorded in the Recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of mortgages is a notice.

We have room to give only this very brief and imperfect outline of this statute. The whole law will be found in Hurd's Revised Statutes of Illinois, the 1911 edition, pages 345 346 and 347.

TAXATION OF MUNICIPAL BONDS.—The State Auditor, advised us under date of Dec. 11 1911 that there was no law exempting from taxation bonds, notes or other evidences of indebtedness issued by the State or any of its municipalities.

INVESTMENT OF TRUST FUNDS.—Chapter 140B of the Revised Statutes of 1911 provides that: Investments of trust funds by trustees may, when not otherwise provided by the will, deed, decree, gift, grant, or other instrument creating or fixing the respective trust, be in the bonds of the United States, or of any of the States of the United States, or in the first mortgages upon real estate in any State, or in the bonds of any county, city or municipality in any State, or in the first mortgage bonds of *any* corporation of *any* State upon which no default in payment of interest shall have occurred, for a period of five years, but no trustee shall be authorized by this act to invest trust funds in any bonds in which cautious and intelligent persons do not invest their own money, and any trustee may continue to hold any investment received by him under the trust, or any increase thereof.

CITIES, COUNTIES AND TOWNS IN THE STATE OF ILLINOIS.

NOTE.—For reports of drainage districts not found in alphabetical order among the following, see statements at the end of this State.

ADAMS CO. SCH. DIST. NO. 172.

CHICAGO. William E. Dever, Mayor; Martin J. O'Brien, Comptroller.
This city is in Cook County. Incorp. Mch. 4 1837; reincorp. Apr. 23 1875. City on Apr. 5 1904 voted in favor of municipal ownership of street railways (V. 78, p. 1408). At election held Apr. 3 1906 propositions for the ownership of street railways and for the issuance of $75,000,000 street railway certificates carried, while the proposition for municipal *operation* of street railways failed. V. 82, p. 824. In a decision handed down in the Circuit Court on Sept. 15 1906 the legality of these certificates was upheld. The case was taken to the Supreme Court (V.

CHICAGO (*Concluded*)—
83, p. 712), and by a decision handed down Apr. 18 1907 the certificates were declared invalid. V. 84, p. 949 and 967. At the April 1907 election ordinances granting franchises to the present street railways were ratified by a vote of the people. V 84, p. 826. The validity of the $8,000,000 5% deficiency bonds of 1921 which were marketed by R. M. Grant & Co. in December 1921, and a portion of which has been paid off (see below) was upheld by the State Supreme Court, which in its decision, after referring to Clause 5 of Section 1 of Article 5 of the Cities and Villages Act (1 Hurd's Stat., 1921, p. 326), added: "Our attention has been called to no provision of the Constitution, or statutes, and we know of none, which prohibits the issuing of bonds for general corporate purposes of the city." For further particulars see V. 116, p. 2297.

INT. on bonds issued July 1 1908 at Illinois Trust & Sav. Bank, Chicago; on other city bonds at the City Treasurer's office and at the American Exch. Nat. Bank, New York.

Bonds of 1893 and all subsequent issues are payable in gold.

TOTAL BONDED DEBT.—

Dec. 31 1922	$67,126,800
Dec. 31 1921	64,207,700
Dec 31 1920	51,466,100
Dec. 31 1919	45,875,100
Dec. 31 1918	35,408,700
Dec. 31 1917	34,633,500
Dec. 31 1916	34,762,800
Dec. 31 1915	31,924,600
Dec 31 1914	30,069,500
Jan. 1 1912	29,672 300
Jan. 1 1911	30,897,000
Jan. 1 1910	24,447,674
Jan. 1 1909	28,720,000

Judgments outstanding Dec. 31 1922, $1,141,302.27; water pipe ext. certfs., $503,549.78; warrants on Treasurer, $747,741.82; water certificates, $3,270,200.

CITY PROPERTY.—The city owns buildings and real estate valued on Dec. 31 1921, $245,690,486.46.

EQUALIZED VALUATION.

	1922.	1921.
	$	$
Real est.	1,176,570,644	1,178,985,784
Personal	489,671,129	528,831,836
Total	1,666,241,773	1,707,816,620
City tax (per M)	$37.76	$27.81
Real est.	1,166,211,873	1,174,665,872
Personal	488,602,965	375,696,133
Total	1,654,814,838	1,550,362,005
City tax (per M)	$22.90	$20.87

The personal property for 1922 includes railroad property of $73,788,527, and 1921 includes $76,194,093 of the same property; 1920, $78,155,617; 1919, $76,387,857. The personal property for 1922 also includes bank stock of $44,668,646 and 1921 includes bank stock of $37,006,295. Beginning with 1909, property was assessed at one-third of actual value; formerly one-fifth. In 1919 the law was changed so as to make assessed value one-half the true value.

The tax rate above given is that for city purposes only. In addition to this the several districts of which the city is composed are assessed for their proportion of State and county taxes, and for certain improvements, the city in its corporate capacity not being assessable for these purposes.

The total levies made in these different districts in 1921 and 1922 were as follows:

District—	*Tax (per $100)* 1921.	1922.
West	7.64	8.02
South	7.38	7.74
North	7.87	8.21
Hyde Park	7.38	7.74
Lake	7.38	7.74
Lake View	7.87	8.21
Rogers Park	6.93	7.25

Supt. of Public Instruction (term exp. June 30 1925)----Thomas E. Johnson
State Highway Com'r (term exp.June 30 '25) Frank F.Rogers

LEGISLATURE meets biennially in odd years the first Wednesday in January, and there is no limit to the length of session, excepting special sessions, in attending which members can receive no more than 20 days' pay.

HISTORY OF DEBT.—The historical details of Michigan's State debt up to 1894 will be found in the "State and City Supplement" of April 1894, page 98. In 1864 the State Treasurer reported the funded debt at $3,880,399 and $1,450,472 additional "trust fund debt." The bonded debt of the State was reported as amounting to $63,550,000 on June 1 1923. The "trust fund debt" on June 30 1922 amounted to $7,042,591.76. The term "trust fund debt" is, however, a misnomer. In explanation it should be said that the U. S. Govt. set aside certain lands in the State of Michigan for educational purposes, and under the Michigan statutes the money received from the sale of these lands is used to pay the general expenses of the State; the law provides, however, that a certain specified rate of interest must be annually figured on the total amount accumulated from said sales and be paid over to the educational institutions specified. The amount of interest to be so paid is raised by taxation.

On July 1 1922 the cash balance in the State Treasury totaled $27,467,895.18 and was made up of the following: General Fund, $9,874,881 76. Primary School Interest Fund, $12,037,036.10; University Interest Fund, $28,884.79; Normal School Interest Fund, $1,213.91; Sundry Deposit Account, $94,228.70; State Insurance Fund, $23,726.56; Michigan War Loan Fund of 1917, $460,637.55; Michigan War Loan Sinking Fund, $580,295.58; Vocational Educational Fund, $88,982.83; Vocational Rehabilitation Fund, $5,724.31: Industrial and Revolving Fund, $1,151,196.90; Soldier's Bonus Fund, $436,556.91; Soldiers' Bonus Sinking Fund, $1,660,539.62; Highway Bond Sinking Fund, $1,023,989.66.

EQUALIZED VALUATION.—Since 1856 the equalized valuation had been determined only once in five years. The following shows the equalizes valuation and tax rate for State purposes.

Year.	*Equalized Val.*	*Tax Rate.*	*Year.*	*Equalized Val.*	*Tax Rate*
1922	$5,628,621,291	$3.46	1911	$2,288,000,000	$2.85
1921	5,000,000,000	2.44	1906	1,734,100,000	1.95
1920	4,500,000,000	2.58	1896	1,105,100,000	1.871
1919	4,500,000,000	3.87	1886	945,450,000	1.272
1918	2,800,000,000	3.07	1876	630,000,000	1.144
1917	2,800,000,000	2.39	1866	307,965,843	1.889
1916	2,800,000,000	2.21	1856	137,663,009	0.472
1915	2,800,000,000	3.40	1846	29,369,065	2.50

The assessed valuation of real estate and personal property in 1921 was $5,483,535,114; in 1920 was $5,319,702,886; in 1919, $4,503,980,981; in 1918, $4,218,781,678; in 1917, $4,027,364,717, and in 1916, $3,625,142,971.

POPULATION OF STATE.—

1920	3,668,412	1880	1,636,937	1840	212,267
1910	2,810,173	1870	1,184,059	1830	31,639
1900	2,420,982	1860	749,113	1820	8,896
1890	2,093,889	1850	397,654	1810	4,762

From 1860 to 1870 increase was 434,946, or 58.1%; from 1870 to 1880 452,878, or 38.25%; from 1880 to 1890, 456,953, or 27.92%. From 1890 to 1900 the increase was 327,092, or 15.6%. From 1900 to 1910 the increase was 389,191, or 16.1%, and from 1910 to 1920 858,238, or 30.5%.

ROAD BONDS.—The 1921 Legislature passed an Act (No. 65), amendatory to an Act of the 1919 session, authorizing the State to issue bonds for highway and bridge purposes, in amounts not to exceed $10,000,000 for any one year, or $50,000,000 in the aggregate.

DEBT LIMITATION.—*State.*—Michigan, as noted in our history of the State's debt, started its career as a State in Jan. 1837, when the whole land was buoyant over its inflated enterprises carried on at public expense. So to be abreast of the times, instead of putting any limit on the power of the State to create debt, it put into its constitution a notice to the Legislature to go to work at once and make provision for "ascertaining the "proper objects of improvement in relation to roads, canals and navigable "waters," that the money might be raised and these improvements might be prosecuted with as little delay as possible.

That was the spirit which ruled and the condition which prevailed in 1837. In 1850 Michigan made and adopted another constitution. During the years which intervened the people had gained a wide experience and had evidently profited by it. Hence we find them at the latter date showing a purpose to make an instrument in its financial features about as dissimilar from the one it was to supplant as it could well be, and this purpose is continued in the new constitution approved by a popular vote on Nov. 3 1908. The provisions of the 1908 constitution concerning the debt-making power of the State are contained in Sections 10, 11, 12, 13 and 14 of Article X. These sections, as they stood at the time the constitution was adopted, gave to the State very little power to incur indebtedness. The only debt that was allowed to be created under them was $250,000 to meet deficits in revenue, except for the defense of the State in time of war. Following the close of the World War, however, the eager desire to improve the highway system of the county and to reward the war veterans by paying them a bonus had its effect upon the financial policy of Michigan. The first step in the new direction was completed in April 1919, when the voters approved an amendment to Sec. 10, which permitted the issuance of $50,000,000 bonds for road improvements. Then in April 1921 the people added another $30,000,000 bond issue, this being for the payment of a bonus to the war veterans. The authorization of this second issue was made by adding Section 20 to Article X. The different sections follow:

Sec. The State may contract debts to meet deficits in revenue, but such debts shall not in the aggregate at any time exceed two hundred fifty thousand dollars. The State may also contract debts to repel invasion, suppress insurrection, defend the State or aid the United States in time of war. The money so raised shall be applied to the purposes for which it is raised or to the payment of the debts contracted. The State may borrow not to exceed fifty million dollars for the improvement of highways and pledge its credit and issue bonds therefor on such terms as shall be provided by law.

SECTION 11. No scrip, certificate or other evidence of State indebtedness shall be issued except for such debts as are expressly authorized in the constitution.

SECTION 12. The credit of the State shall not be granted to or in aid of any persons, association or corporation, public or private.

SECTION 13. The State shall not subscribe to nor be interested in the stock of any company, association or corporation.

SECTION 14. The State shall not be a party to, nor be interested in any work of internal improvement, nor engaged in carrying on any such work except in the improvement of, or aiding in the improvement of public wagon roads, in the re-forestration and protection of lands owned by the State and in the expenditure of grants to the State of lands or other property.

SECTION 20. The State shall borrow not to exceed $30,000,000, pledge its faith and credit, and issue its notes or bonds therefor, for the purpose of paying to each person who entered into the military, naval or marine forces of the United States between April 6 1927 and Nov. 11 1918, and served honestly and faithfully therein during the late world war, and who was a resident in this State at the time of entering such service, the sum of $15 for each month or major fraction thereof, of such service, up to and including Aug. 1 1919.

Cities and Villages.—Cities and villages are left by the 1908 instrument to the discretion of the Legislature in the matter of restrictions upon their borrowing power. The provision which relates to this subject is found in Article 8, Section 20, and is as follows:

SECTION 20 The Legislature shall provide by a general law for the incorporation of cities and by a general law for the incorporation of villages, such general laws shall limit their rate of taxation for municipal purposes and restrict their powers of borrowing money and contracting debts.

Section 24 of the same article permits the issuance of bonds for public utility purposes in excess of any limit that the Legislature may place on municipal indebtedness, with the following proviso: *Provided*, That such mortgage bonds issued beyond the general limit of bonded indebtedness prescribed by law shall not impose any liability upon such city or village, but shall be secured only upon the property and revenues of such public utility, including a franchise stating the terms upon which, in case of foreclosure, the purchaser may operate the same, which franchise shall in no case extend for a longer period than twenty years from the date of the sale of such utility and franchise on foreclosure.

Pursuant to Sec. 20, laws providing for the incorporation of cities and villages were passed by the Legislature in 1909.

By Subdivision (i) of Section 26 of Act No. 278 of the Public Acts of 1909 villages are prohibited from incurring debt in excess of 10% of the assessed valuation as shown by the last preceding assessment roll, except that in the case of fire, flood or other calamity, requiring an emergency fund or for the repair or rebuilding of any of its municipal buildings, works, bridges or streets, a village may borrow an additional amount not exceeding ¼ of 1% of the assessed value; but such debt not to run for more than three years. Moneys on hand in a sinking fund limited to the payment of indebtedness may be deducted in figuring the borrowing capacity. Mortgage bonds to acquire or operate any public utility may be issued beyond the limit of general indebtedness, but such bonds, it is provided, shall be secured only upon the property and revenue of such utility, including a franchise, stating the terms upon which, in case of foreclosure the purchaser may operate the same, which franchise shall in no case extend for a longer period than 20 years from the date of the sale of such utility and franchise on foreclosure. The rate of tax which villages may levy for municipal purposes is limited by subdivision (*j*) of Sec. 26 to 2% of the assessed valuation. Subdivision (*k*) says that no village shall have power to issue any bonds without creating a sinking fund for their payment, except special assessment bonds, which are a charge upon a special district created for the payment thereof, and serial bonds payable annually.

The borrowing powers of cities are regulated by subdivision (*b*) of Sec. 4 of Act No. 279 of the Public Acts of 1909, as amended by Act 203, Public Acts of 1911, Act No. 5, Public Acts of 1913, by Act No. 232, Public Acts of 1917, by Act No. 348, Public Acts of 1921, and by Act No. 5, Public Acts of 1921, second extra session, known as the "Home Rule" Act (V. 96, p. 1107, and 1507; also V. 98, p. 405). Subdivision (b), as last amended, provides that each city may in its charter provide for borrowing money, for all purposes, in a sum not to exceed 10% of the assessed value, except that in cities where the amount which may be borrowed is now limited by law, such limit shall continue until raised or lowered by a 3-5 vote of the electors voting on the question at a general or special election; and in such cities bonds issued for public improvements in connection with which a special assessment district is made to pay therefor, and which are a charge upon such district, shall not be included unless the contrary is provided by the charter, and the resources of the sinking fund shall be deducted in determining the amount of such indebtedness. Debt for water works purposes may be created up to 8% of the assessed valuation, for electric light and power plants, 3%, and for other public utilities, 2%; but the total of all indebtedness is not to exceed 10% as stated above. It is provided that in cities having a population of 100,000 or over, a debt of no more than 2% of the assessed valuation may be created for any one public utility. When a city is authorized to acquire or operate any public utility, it may, for the purpose of acquiring the same, issue mortgage bonds therefor beyond the general limit of bonded indebtedness prescribed by law; Provided That, such mortgage bonds issued beyond the general limits of bonded indebtedness prescribed by law shall not impose any liability upon such city, but shall be secured only upon the property and revenues of such public utility, including a franchise stating the terms upon which, in case of foreclosure, the purchaser may operate the same, which franchise shall in no case extend for a longer period than 20 years from the date of the sale of such utility and franchise on foreclosure. And provided, further, That the charter shall provide for the creation of a sinking fund by setting aside such percentage of the gross or net earnings of the public utility as may be deemed sufficient for the payment of the mortgage bonds at maturity. In case of fire, flood or other calamity, the legislative body may borrow for the relief of the inhabitants of the city and for the preservation of municipal property a sum not to exceed ¼ of 1% of the assessed value, due in not more than three years, even if such loan would cause the indebtedness of the city to exceed the limit fixed in the charter. Any city of 50,000 or more, owning and operating a water works system which, by its charter, is permitted to refund moneys advanced, or paid on special assessments imposed for water main extensions, may borrow for such refunding from time to time as buildings shall be connected with the water main extensions, such bonds to mature within 30 years. No city shall have the power to incur indebtedness or issue bonds of any kind except for emergency purposes as above stated, and bonds secured only by mortgage on the property and franchise of a public utility which shall exceed in the aggregate 10% of the assessed value of all the real and personal property in the city. It is also provided that cities now incorporated as fourth-class cities may, while so incorporated, incur indebtedness up to the limits contained in the Act of incorporation.

Subdivision (a) of Section 4 allows cities to levy an annual tax not exceeding 2% of the assessed value.

Counties.—The 1908 constitution provides that counties shall not incur any indebtedness which shall increase their total debt beyond 3% of their assessed valuation. At the general election in Nov. 1910, however, the voters adopted a constitutional amendment to allow counties having an assessed valuation of $5,000,000 or less to create debt up to 5% of this value. The vote was 131,147 to 128,729.

Drainage Districts.—In April 1917 the voters adopted an amendment to the constitution by adding a new section (Section 15a) to Article VIII., which provides that "any drainage district established under provision of law may issue bonds for drainage purposes within such district."

EXEMPT FROM TAXATION.—An Act of the Legislature approved May 13 1909 provides that bonds hereafter issued by any county, township, city, village or school district in the State of Michigan shall be exempt from all taxation. V. 88, p. 1452.

By Legislative Acts, bonds issued by the State for the payment of the Soldiers' Bonus and for road improvements are exempt from all taxation.

TAX ON SECURED DEBTS.—The 1913 Legislature passed an Act (No. 142) providing that by the payment of a specific tax of ½%, "secured debts" may be exempted from the payment of further general taxes. In 1915 this law was amended so as to exempt municipal bonds issued by places outside the State upon the payment of a similar tax. See "Chronicle" of May 29 1915, State & City Department. The Attorney-General has ruled that drainage and levee bonds do not come within the scope of the law referred to. See V. 101, p. 709. The law was again amended by the Legislature in 1917 providing for the exemption of any bond or other obligation issued by any foreign country upon the payment of the tax of ½%. V. 104, p. 2258.

SAVINGS BANK INVESTMENTS.—Investments by Michigan savings banks are governed by Section 27 of Act No. 205 of the Public Acts of 1887, and amendments thereto. In 1913 an amendment was approved, specifying that steamship bonds, if issued on bulk freighters operating on the Great Lakes and connecting waters, must be on steamships of at least 7,000 tons carrying capacity; and providing that securities against which participation certificates are issued must be deposited in a Michigan trust company rather than a Michigan collateral deposit company. The law was again amended in 1919 so as to provide that savings banks may, in addition to the public debt or bonds of any city, county, township, village, school district of any State or territory in the United States, invest in legally authorized bonds of any road district in Michigan organized, constituted and existing by virtue of provisions of Act 59 of the Public Acts of 1915, and amendments thereto, and in accepted draft or bills of exchange; the law as amended in 1919 also provides that the amount which may be loaned upon notes or bonds secured by mortgage lien in the instance of improved farm property is increased from 50% to 60% of the value of such property. We publish Section 27 as it now reads:

Sec. 27. A savings bank shall keep at least 12% of its total deposits on hand, or with national or State banks or trust companies, payable on

demand, in cities approved by the Commissioner of the Banking Department as reserve cities, or invested in United States bonds; three-fifths of the remainder of the savings deposits shall be invested by the Board of Directors as follows:

(*a*) In bonds of the United States, or any State or Territory of the United States: Provided, That such State or Territory has not, in the ten years preceding the time of such investment repudiated its debt and failed to pay the same, or the interest due thereon, or upon any part of such debt; or

(*b*) In the public debt or bonds of any city, county, township, village, school district of any State or Territory in the United States which shall have been authorized by the Legislature of such State or Territory: *Provided*, That the total indebtedness of such municipality does not exceed 5% of its assessed valuation; except by a vote of two-thirds of the Board of Directors, such bonds may be purchased if the total liabilities do not exceed 10% of its assessed valuation: or

(*c*) In the legally authorized bonds of any road district in Michigan organized, constituted, and existing by virtue of the provisions of Act No. 59 of the Public Acts of 1915, and amendments thereto; or

(*d*) In the legally authorized first mortgage bonds of any steam railroad corporation organized under the laws of any State of the United States; Provided, That such company has for five years prior to the time of making such investment by such bank paid annually dividends equal to not less than 4% on its entire capital stock and has not during said period defaulted in the payment of the matured principal or interest of any debts incurred by it and secured by mortgage or trust deed upon its property or any part thereof, or in the payment of any part of the matured principal or interest of any bonds guaranteed and assumed by it; or

(*e*) In the first mortgage bonds of railroad companies whose lines are eased or operated or controlled by any railroad company specified in paragraph (*d*) of this section, if said bonds be guaranteed both as to principal and interest by the railroad company to which said lines are leased or by which they are operated or controlled;

(*f*) In the legally authorized mortgage bonds of any steam railroad corporation organized under the laws of any State of the United States, which shall have been issued for the purpose of retiring all prior mortgage indebtedness on so much of the property of such company as is covered by the mortgage securing such issue of bonds, and further providing for additions, extensions or improvements; Provided, That such company has for three years prior to the time of making such investment by said bank paid annually dividends equal to not less than 4% on its entire capital stock, which capital stock shall equal or exceed in amount one-third of the par value of all its bonded indebtedness, and has not, during the same period, defaulted in the payment of the matured principal or interest of any debts incurred by it and secured by mortgage or trust deed upon its property or any part thereof, or in the payment of any part of the matured principal or interest upon a bond guaranteed or assumed by it; Provided, Said issues of bonds shall have been approved by the Securities Commission hereinafter provided for;

(*g*) In the legally authorized first mortgage bonds of any electric railroad, street railway, gas or electric light or power company, organized under the laws of the State of Michigan; Provided, That such company has, for five years prior to the time of making such investment by said bank paid annually dividends equal to not less than 4% on its entire capital stock, and has not during the same period defaulted in the payment of the matured principal or interest or any debts incurred by it and secured by mortgage or trust deed upon its property or any part thereof; or in the payment of any part of the matured principal or interest of any bonds guaranteed or assumed by it; or in the first mortgage bonds of any such company which has been in operation less than five years: Provided: That the cost of construction and equipment of the plant of such company shall exceed by at least 50% the amount of the entire bonded indebtedness of such company, and the said plant and equipment shall be free from all other liens and encumbrances, and the said company shall have earned during the period it has been in operation more than enough to pay all interest accrued on all said bonds and not less than 4% per annum dividends upon its entire capital stock outstanding; Provided, Said issues of bonds shall have been approved by the Securities Commission hereinafter provided for:

(*h*) In the legally authorized first mortgage bonds of steamship companies: Provided, That such mortgages shall be upon steel steamship or steamships for the carriage upon the Great Lakes and connecting waters of package freight and passengers combined of at least five thousand tons carrying capacity each, and upon bulk freighters of at least seven thousand tons carrying capacity each: Provided, That such bonds are issued at the time of completion and enrollment of such steamship, or steamships, or within one year thereafter: And provided further, That by the express terms of said mortgage at least 10% of the total issue of said bonds shall be retired annually, beginning within two years from the date of said bonds, and that the mortgage liability against said property shall not exceed one-half of its actual cost: And provided further, That the trustees of such mortgage shall be required to protect the lien of said mortgage by attending to the recording thereof and by causing property covered by said mortgage to be insured against all risks on vessel property ordinarily covered by such insurance, including marine risks and disasters, general and particular average, collision liability, protection and indemnity insurance and insurance against liability for injuries to persons, in insurance companies and under forms of policies approved by the trustee, for an amount equal to the full insurable value of such steamship, such insurance to be made with loss payable to said trustee and the policies deposited with it: And provided further, That there shall be filed with the Commissioner of the Banking Department of this State a schedule of the insurance upon such property, which schedule shall be signed by the trustee under said mortgage and shall be accompanied by the certificate of said trustee that the policies mentioned in said schedule are held by said trustee and are payable to said trustee in case of loss for the benefit of the holders of the outstanding bonds issued under such mortgage; and further, That similar certificates be filed from time to time by said trustee with said Commissioner of the Banking Department of this State, evidencing renewals of said insurance by proper policies or legal insurance binders: Provided further, That by the terms of such mortgage, the mortgagor shall not suffer such steamship to become indebted in an amount exceeding 5% of the original amount of the principal of said mortgage at any time and that the failure of the mortgagor to forthwith procure the release of such steamship, or steamships, from mechanics', laborers', admiralty, statutory, or other liens, claims or charges against such steamship, shall constitute a default in the provisions of such mortgage: And provided further, That such bonds shall have been approved by the Securities Commission hereinafter provided for;

(*i*) Said banks may loan the same upon negotiable paper or other evidence of indebtedness secured by any of the above-mentioned classes of security; or

(*j*) Upon notes or bonds secured by mortgage lien upon unencumbered real estate worth at least double the amount loaned; except on improved farm property the amount loaned upon such notes or bonds secured by first mortgage lien shall not exceed sixty per cent of value of such property; or

(*k*) In accepted drafts or bills of exchange having not more than six months to run growing out of transactions involving the importation or exportation of goods; or growing out of transactions involving the domestic shipment of goods providing shipping documents conveying or securing title are attached at the time of acceptance; or which are secured at the time of acceptance by official warehouse receipt or other document conveying or securing title covering readily marketable staples. For the purposes of this section the acceptance of any one person, company, firm or corporation shall not exceed at any time more than twenty per cent of its paid-up capital and unimpaired surplus. The aggregate of such accepted drafts or bills of exchange shall not exceed at any one time the amount of capital stock and unimpaired surplus of the bank.

(*l*) The remainder of such deposits may be invested in notes, bills, or other evidences of debt, the payment of which is secured by the deposit with the bank of collateral security consisting of personal property or securities of known marketable value worth ten per cent more than the amount so loaned and interest for the time of the loan; or may be invested in notes, bills or other evidences of debt, the payment of which is secured by such property or securities deposited in a trust company organized under the laws of this State; or may be deposited in any national bank, trust company, or bank in cities of this or any other State, approved by the Commissioner of the Banking Department as reserve cities, and a portion of said remainder, not exceeding the capital and additional stockholders' liability, may be invested in negotiable paper approved by the Board of Directors, but the deposits in any one bank shall not exceed ten per cent of the total deposits, capital and surplus of the depositing bank. In case the actual reserve shall fall below the twelve per cent above provided, the bank shall promptly and in good faith take measures to restore and maintain its lawful reserve, in default of which the Commissioner of the Banking Department shall require such restoration within thirty days after notice, and a failure to comply with such demands shall warrant proceedings to wind up the bank as provided in Section 6 of this Act.

DETROIT.
Detroit is situated in Wayne Co. Incorp. in 1806. Woodmere (population 4,474) annexed April 1 1906. Village of Delray annexed Apr. 1 1906. Village of Fairview annexed Oct. 24 1907 and Village of St. Clair Height annexed October 1 1918. During the latter part of last year the village of Oakwood was annexed to Detroit. The question of annexation of Highland Park was defeated Nov. 8 1910. V. 91, p. 1342. The annexation of a portion of Grosse Point and Gratiot townships was voted April 2 1917. In a decision rendered Feb. 16 1912 the State Supreme Court held that the Board of Education and the Library Commission are corporations separate from the city and therefore their bond issues should not be included in the 2% limit of indebtedness for municipal purposes specified in the city charter. V. 94, p. 575.
Chapter XIII of Title IV of the new charter (adopted by the people of Detroit on June 25 1918) provides for municipal ownership and operation of a street railway stystem. This chapter creates a commission to be known as the Board of Street Railway Commissioners, consisting of three members who shall be appointed by the Mayor. Section 9 of this Chapter authorizes the Common Council on the request of the Board to issue bonds in such amounts as will not exceed the legal bonding limit of the city to be known as public utility bonds up to the amount of 2% of the assessed value of real and personal property of the city. The new charter, by Sec. 2 of Chapter V of Title VI, provides that the gross debt exclusive of the water debt, after deducting the means in the general sinking fund shall not exceed 4% of the assessed value of all the real and personal property of the city unless authorized by a vote of three-fifths of the electors. An amendment to the charter, however, adopted on Apr. 7 1919, provides that such public utility bonds shall be "in addition to any other bonds which the city is or may be authorized to issue for any other purpose whatsoever."
The voters of Detroit on April 7 1919 defeated by a vote of 70,271 to 63,883 the Mayor's proposal to purchase the Detroit United Rys. for $31,500,000. V. 108, p. 1511.
On April 17 1922, however, the voters approved, by 55,474 to 12,186, a plan to purchase the Detroit United Rys. for $19,850,000. V. 114, p. 979, 1178, 1764.

MARSHALL CITY & MARSHALL & MARENGO TWPS. FRACTIONAL SCH. DIST. NO. 1.
A district in Calhoun County.
4¾s'22 J-J15†$100,000 Jan 15 '24-53
(For maturity of $93,500 see V. 115, p. 676. The remaining $6,500 mature Jan. 15 1953.)
BOND. DEBT May 1923 $100,000
Assessed value 4,137,025
Population 6,000
INT. at State Treasurer's office.
In V. 115, p. 676, we reported that $93,500 bonds had been sold. A. C. Mittendorf, of Prudden & Co., of Toledo, in furnishing us with the above data, says: "The total issue is $100,000. At the time we purchased the $93,500 attorney Horace S. Oakley refused to approve the $6,500 bonds due Jan. 15 1953, for the reason that they ran longer than 30 years after the date of the issuance of the bonds. Since that time, however and after Jan. 15 1923, the remaining $6,500 bonds were delivered to us so that the total issue, $100,000, as shown in the above statement, is correct."

MASON SCHOOL DISTRICT.
This district (P. O. Mason) is in Ingham County.

District of Columbia.

(INCLUDING THE LATE CORPORATION OF WASHINGTON.)

On July 1 1878 the duties of the Sinking Fund Commissioners of the District of Columbia were transferred to the Treasurer of the United States, and since that date Congress has appropriated annually a sum sufficient to pay not only the interest on the District's bonds, but also, it is believed, sufficient to extinguish the entire debt of the District upon the maturity of the 3.65% loan, in 1924. Bonds are tax-exempt.

Name and Purpose of Loan.	—*Interest*—	—*Principal*—	
District of Columbia.	*% Payable.*	*When Due.*	*Outstanding.*
*50-year funding, 1874, c&r ----------	3.65 F-A	Aug. 1 1924	$4,719,700

(payable in currency).

*The faith of the United States was pledged to secure the payment of the interest on these bonds and to maintain a sinking fund sufficient to redeem them all by maturity. The issue was limited to $15,000,000 and is exempt from taxation by Federal, State or municipal authority. Of the $15,000,000 bonds authorized and issued, $10,298,800 had been retired on Jan. 1 1923, leaving $4,701,200 outstanding. The coupon bonds are for $50 and $500 each, the registered bonds $1,000 and $5,000 each.

INTEREST on the bonds is payable at the United States Treasury in Washington and at all Federal Reserve Banks:

TOTAL DEBT—	*Jan.* 1 1923	*July* 1 1922.	*Apr.* 1 1921	*Apr.* 1 1920
Total funded debt -------	$4,701,200	$4,719,700	$4,996,400	$5,533,950

On June 30 1922 Sinking Fund assets consisted of $4,517,500 in Federal Government bonds and $445,965.62 in cash, a total of $4,563,465.62, leaving net debt on that date of only $156,234.38. Sinking fund assets on Jan. 1 1923 amounted to $4,544,872, leaving a net debt of $156,328.

On July 1 1878, when the duties of the Sinking Fund Commissioners of the District were transferred to the Treasurer of the United States, the total debt was $22,106,650.

Below we give the figures of assessed valuation of real estate and personal property. The tax rates shown in the tables are those levied on real estate values.

ASSESSED VALUATION— *Year*—	*Real Estate.*	*Rate of Tax per $1,000.*	**Personal Property.*	*Total Assessed Valuation.*

1885 ----------	93,502,464	15.00	12,795,934	106,298,398

* The assessment on personal property for 1921 consists of $116,928,921 tangible and $323,949,583 intangible property, the rates of taxation for that year being 3-10 of 1% on intangible personal property, and varying from 1½% to 6% on tangible personal property.

POPULATION.—In 1920, 437,571; in 1910 it was 331,069 (including 94,446 negroes); in 1900, 278,718 (including 86,702 negroes); in 1890, 230,392; in 1905 (estimated), 323,123.

United States Debt and the Congressional Acts Authorizing It.

Concluded from page 10.

the 3½s, but otherwise had the terms of the Second Liberty 4s. When the Third Liberty 4¼s were issued on May 9 1918, the holders of the unconverted First Liberty 3½s had the privilege of conversion into the new 4¼s and so did the holders of First Liberty converted 4s and of Second Liberty 4s. The privilege continued for six months or until Nov. 9 1918. The Third Liberty 4¼s are non-convertible, and hence the 4¼% bonds issued upon conversion of prior issues likewise are non-convertible. With the issuance of the Fourth Liberty Loan on Oct. 24 1918, a new privilege of exchange accrued to the holders of the unconverted First Liberty 3½s; this privilege remained open until April 24 1919. By Sec. 5 of the Victory Liberty Loan Act of March 3 1919, authority was conferred upon the Secretary of the Treasury to extend the privilege of converting the 4% bonds of 1932-47 of the First Liberty Loan converted and the 4% bonds of 1927-42 of the Second Liberty Loan into 4¼% bonds. Accordingly, by circular dated Mar. 7 1919, and published in the "Chronicle" of March 15 1919, page 1021, the Secretary offered a new privilege of conversion. This privilege may be terminated at any time upon six months public notice. The privilege does not apply to the unconverted 3½s of the First Liberty Loan.

LIBERTY LOAN OF 1918, THIRD (Column 3).—Authorized by Act of April 4 1918, amending the Act of Sept. 24 1917. Following the general lines of the Act which it amends, it authorizes the issuance of not exceeding $12,000,000,000 bonds, bearing not exceeding 4¼% interest, in addition to the $2,000,000,000 issued under authority of the Act of April 24 1917, but including the bonds outstanding under the Second Liberty Loan and the $3,063,945,460 reserved for unissued bonds of earlier Acts. Section 2 increased the *additional* loans or credits that might be extended to the Allies from $4,000,000,000 to $5,500,000,000.

Section 3 provides that holders of bonds bearing interest at a higher rate than four per centum per annum, whether issued under Section 1 or upon conversion of three and one half per centum bonds issued under the Act approved April 24 1917, or upon conversion of four per centum bonds issued upon conversion of such three and one half per centum bonds, shall not be entitled to any privilege of conversion under or pursuant to this section or otherwise. Under Section 7 it is provided that none of the bonds shall bear the circulation privilege. The bonds are non-convertible and not subject to redemption before maturity, but are exempt from taxation as indicated above under Second Liberty Loan and receivable for Federal inheritance taxes.

Under authority of the Act, the Secretary of the Treasury offered for subscription on April 6 1918 $3,000,000,000 4¼% 10-year gold bonds with coupon bonds for $5,000 and $10,000 and registered bonds for $50 in addition to the same denominations as the First Liberty Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscripion. Subscriptions totaled $4,175,650,050, or $1,175,650,050 more than the minimum sought, and all were allotted. Total number of subscribers was 18,376,815. Outstanding May 31 1923, $3,439,483,650.

LIBERTY LOAN OF 1918, FOURTH (Column 4).—Authorized by Act of July 9 1918, amending previous Liberty Loan enactments. Section 1 increases from $12,000,000,000 to $20,000,000,000 the total of bonds bearing not exceeding 4¼% interest that may be issued under the various Acts Section 2 increases the loans or credits that may be extended to the Allies from $5,500,000,000 to $7,000,000,000, in addition to the $3,000,000,000 authorized under the First Liberty Loan Act. Section 3 provides that, with the approval of the Secretary of the Treasury, bonds, while beneficially owned by a non-resident alien individual, or by a foreign corporation, partnership or association, not engaged in business in the United States, shall be exempt both as to principal and interest from any and all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority.

Under authority of the Act, the Secretary of the Treasury offered for subscription on Sept. 28 $6,000,000,000 4¼% 15-20-year (optional) gold bond of the same denomination as those of the Third Loan, reserving the right to allot additional bonds to the extent of full amount of any oversubscription. Subscriptions totaled $6,964,581,100, or $964,581,100 more than the minimum sought, and all were allotted. Total number of subscribers was approximately 21,000,000. The bonds, like all other Liberty Loan issues, are not available for bank note circulation.

Supplementary to the passage of the above authorizing Act, there was passed and signed by the President on Sept. 24 1918 a bill designed to stimulate sales of Liberty Bonds by exempting from the supertaxes and from war excess profits taxes interest on a certain amount of Liberty bond holdings. The principal provisions of the bill are:

(1) The interest on an amount of bonds of the Fourth Liberty Loan, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed, upon the income or profits of individuals, partnerships, associations, or corporations;

(2) The interest received after Jan. 1 1918 on an amount of bonds of the First Liberty Loan converted, dated either Nov. 15 1917 or May 9 1918, the Second Liberty Loan, converted and unconverted, and the Third Liberty Loan, the principal of which does not exceed $45,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from such taxes: *Provided, however*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate amount of such bonds exceeding 1½ times the principal amount of bonds of the Fourth Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return; and

(3) The interest on an amount of bonds, the principal of which does not exceed $30,000, owned by any individual, partnership, association, or corporation, issued upon conversion of 3½% bonds of the First Liberty Loan in the exercise of any privilege arising as a consequence of the issue of bonds of the Fourth Liberty Loan, shall be exempt from such taxes.

The exemptions provided in this section shall be in addition to the exemption provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act. [In the Revenue Act of 1921 the tax provisions of the different issues were consolidated in a single section, as noted under a separate heading in the earlier part of these remarks—Ed.]

Sec. 2. That Section 6 of the Second Liberty Bond Act is hereby amended by striking out the figures "$2,000,000,000," and inserting in lieu thereof the figures "$4,000,000,000." Such section is further amended by striking out the words "The amount of War Savings Certificates sold to any one person at any one time shall not exceed $100, and it shall not be lawful for any one person at any one time to hold War Savings Certificates to an aggregate amount exceeding $1,000," and inserting in lieu thereof the words "It shall not be lawful for any one person at any one time to hold War Savings Certificates of any one series to an aggregate amount exceeding $1,000. The Revenue Act of 1921 raised this limit to $5,000. On Jan. 1 1923 the Treasury Department redeemed the War Savings Certificates of 1918. A new offering of the certificates, Series of 1923, was made, and holders of the maturing certificates were urged to exchange their holdings for the new issue.

Amount of Fourth Liberty Loan bonds outstanding May 31 1923, $6,329,611,300, bearing 4¼% interest and amount of the new issue of Savings Certificates then out was $112,995,172, besides which $217,951,649 of old Savings Certificates were then still outstanding.

FIFTH OR VICTORY LIBERTY LOAN OF 1919 (Column 5).—Authorized by Act of March 3 1919, amending previous Liberty Loan enactments and the War Finance Corporation Act. Under the Act the Second Liberty Bond Act is amended by adding thereto a new section [18] which provides (*a*) for the issuing of notes to an amount not exceeding $7,000,000,000 in the aggregate, at such rates of interest as the Secretary of the Treasury may prescribe and payable at such time not less than one year nor more than five years as he may prescribe, redeemable before maturity at the option of the United States; (*b*) the notes to be issued in one or more series as follows: "(1) Exempt, both as to principal and interest, from all taxation (except estate or inheritance taxes) now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority. (2 and 3) Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes commonly known as surtaxes and excess profits and war profits taxes now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations, or corporations, except that the interest on an amount of such notes the principal of which does not exceed $30,000 so owned, is exempted. Or, (4) Exempt, both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) all income, excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations."

Holders had the option of converting their holdings of notes of any series into any other series of same date of issue at par. The notes do not bear the circulating privilege. Under authority of the Act the Secretary of the Treasury on April 21 1919 invited subscriptions for $4,500,000,000 convertible gold notes bearing 3¾% or 4¼% of the same denominations as those of the Fourth Liberty Loan. The notes bearing 3¾% to enjoy exemption as per (1) above and 2, 3 & 4 to apply to the 4¼s. The Secretary announced that allotments would be restricted to the $4,500,000,000 offered, but that applications not in excess of $10,000 would be allotted in full. Subscriptions aggregated $5,249,908,300, or $749,908,300 in excess of the offering. Total number of subscribers was approximately 12,000,000. The exact amount issued was $4,495,373,000. On Feb. 9 1922 the Victory Notes bearing 3¾% interest were called for payment on June 15 1922 and none of these, except those not presented for payment, are any longer outstanding. A portion of the 4¾% notes, consisting of Series A, B, C, D, E and F, amounting to $702,938,100, was on July 26 1922 called for payment Dec. 15 1922, and on May 20 1923 the remainder of the issue, all bearing 4¾% and about $800,500,000 in amount, matured and were paid off. On May 31 1923, however, $39,067,000 of the notes called for payment Dec. 15 1922, and $157,335,800 of those that matured May 20 1923, had not yet been presented for payment. Both of these items are placed under "Debt on Which Interest Has Ceased" in the financial statement.

The Victory Liberty Loan Act, in addition to providing for the issuance of the $4,500,000,000 notes as above, covered the following changes in the exemption privileges contained in preceding Acts:

Sec. 2. (a) That until the expiration of five years after the date of the termination of the war between the United States and the German Government, as fixed by proclamation of the President, in addition to the exemptions provided in Section 7 of the Second Liberty Bond Act in respect to the interest on an amount of bonds and certificates, authorized by such Act and amendments thereto, the principal of which does not exceed in the aggregate $5,000, and in addition to all other exemptions provided in the Second Liberty Bond Act or the supplement to Second Liberty Bond Act, the interest received on and after Jan. 1 1919 on an amount of bonds of the First Liberty Loan Converted, dated Nov. 15 1917, May 9 1918 or Oct. 24 1918, the Second Liberty Loan, converted and unconverted, the Third Liberty Loan, and the Fourth Liberty Loan, the principal of which does not exceed $30,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from graduated additional income taxes, commonly known as surtaxes, and excess profits and war profits taxes, now or hereafter imposed by the United States upon the income or profits of individuals, partnerships, associations or corporations.

(b) In addition to the exemption provided in subdivision (a), and in addition to the other exemptions therein referred to, the interest received on and after Jan. 1 1919 on an amount of the bonds therein specified the principal of which does not exceed $30,000 in the aggregate, owned by any individual, partnership, association, or corporation, shall be exempt from the taxes therein specified: *Provided*, That no owner of such bonds shall be entitled to such exemption in respect to the interest on an aggregate principal amount of such bonds exceeding three times the principal amount of notes of the Victory Liberty Loan originally subscribed for by such owner and still owned by him at the date of his tax return. [In the Revenue Act of 1921 the tax provisions of the different issues were consolidated in a single section as noted under a separate heading in the earlier part of these remarks.—Ed.]

ISSUE OF TREASURY NOTES.—In 1921 the new Secretary began issuing Treasury Notes. In June 1921 he made an offer of 5¾% 3-year Treasury Notes (exempt from the normal income tax, but not from the surtaxes, the excess profits and the war profits taxes), the notes not being subject to prior redemption, and allotted $311,191,600. On Sept. 8 1921 he made an offering of three-year notes. These notes were dated Sept. 15 and carried the same exemptions as the others, but bore only 5½% interest. The subscriptions for the notes reached $785,082,900 and the amount allotted was $390,706,100. In Feb. 1922 $601,599,500 notes at only 4¾%, maturing March 15 1925, were issued. In the following March an additional $617,769,700 4¾% notes, to mature March 15 1926, were issued. In June 1922 another issue of Treasury Notes, Series B-1925, bearing but 4¾% interest, dated June 15 1922 and maturing Dec. 15 1925, was offered; subscriptions totaled $335,134,800, all of which were allotted. Along with the call for redemption on Dec 15 of Series A to F of the Victory 4¾s, the Secretary announced the offering of an issue of about $300,000,000 4¼% Treasury Notes, with provision for additional allotments up to a limited amount in exchange for the called Notes. Subscriptions totaled $1,236,861,450. Allotments of $486,940,100, including about $141,500,000 exchanges, were made. A new offering of $300,000,000 Treasury Notes was made in December 1922. These notes bore 4½% interest, were dated Dec. 15 1922, and mature June 15 1925. Amount allotted was $469,210,850, of which about $41,000,000 represented exchanges. In January 1923 another offering of $300,000,000 was made. These notes bore 4½%, were dated Jan. 15 1923 and mature Dec. 15 1927. Subscriptions amounted to $581,550,800, of which $366,981,500 were allotted. Another issue, bearing 4¾% interest, dated May 15 1923 and payable March 15 1927, was made in May 1923. The amount of the offering for cash was $400,000,000 or thereabouts. Victory Notes maturing May 20 1923 were accepted in payment for the new notes. Subscriptions including over $286,000,000 exchanges, totaled $1,234,570,400, while allotments were $663,699,200. A grand total of $4,176,170,900 Treasury Notes was outstanding on May 31 1923.

TREASURY LONG-TERM BOND ISSUE OF 1922.—Under authority of the Act of April 24 1917, as amended, the Secretary on Oct. 9 1922, made an offering of an issue of $500,000,000 4¼% Treasury bonds for refunding purposes. The bonds are dated Oct. 16 1922 and mature Oct. 15 1952, the Government having the option of redeeming the bonds on any interest date on or after Oct. 15 1947 on four months' notice. Cash subscriptions totaled no less than $1,399,851,900. It was announced that all subscriptions up to $10,000 would be allotted in full. The Secretary also reserved the right to accept additional applications where Victory Notes and Treasury certificates of indebtedness maturing Dec. 15 were tendered in payment. Total allotments, both cash and exchanges, amounted to $763,962,300. On May 31 1923 $763,954,300 were outstanding.

Note.—Reference to the statutes governing older issues of bonds and of War Savings and Thrift Stamps will be found in the issue of the "State and City" Section for December 21 1918.

In April 1895 we gave a table showing the debt of the United States on the first day of July 1856, and every subsequent year On this occasion we begin our statement with 1878, as that year antedates all of the issues now outstanding. The statement is subjoined.

Note 1.—The annual interest charge is computed upon the amount of outstanding principal at the close of the fiscal year, and is exclusive of interest charge on Pacific Railway bonds, but is incorrectly swelled to a small extent by interest on Thrift Stamps which are not separately stated.

Note 2.—The figures for July 1 1879 were made up assuming pending funding operations to have been completed.

Note 3.—Under the Act of March 14 1900 the Treasury Department has kept the gold reserve fund as a separate item, and not included it in the available cash balance. In the above statement, however, we have continued to include the item so as not to embarrass comparison with previous years.

a Under the new form of statement issued by the Treasury Department the gold reserve ($152,979,025 63 Mar. 31 1923) is deducted from the total of United States notes outstanding, decreasing to that extent the debt bearing no interest and consequently making a similar reduction in the balance of cash available to pay maturing obligations

President Harding on Reductions in Government Operations Incident to Budget System

The economies effected through the budget system designed to hold down the Government expenditures were dealt with by President Harding at a meeting of department heads of the Federal Government in Washington on June 18, at which also Brig-General Herbert M. Lord, Director of the Budget, presented a detailed statement of the Government receipts and expenditures. President Harding in his remarks referred to the fact that "on Jan. 29 1923, the date of our last meeting, we faced an apparent deficit of $92,000,000 in expenditures over receipts for the current fiscal year 1923," adding that "the forecast to-day is that we will end the fiscal year with a balance of ordinary receipts over expenditures of approximately $200,000,000." "You can all point with pride to the showing made this fiscal year," said the President "as it is due in part to your untiring and unselfish devotion to the campaign for economy in the administration of the routine business of the Government." "The appropriations for the coming fiscal year amount," he said, "in round figures to $3,706,000,000, which is $234,000,000 less than the appropriations for the current fiscal year. As compared with the estimate presented to Congress the appropriations for 1924 are but $7,825,000 less than the amount asked for in the budget and the estimates supplemented thereto." He likewise said:

A revised estimate just completed, indicates that the ordinary receipts for 1924 will amount in round figures to $3,638,000,000 and that the expenditures, including $507,000,000 for public debt reduction will total $3,668,-

000,000. This indicates a deficit of $30,000,000. This deficit must not only wipe out, but we must close the coming year with a substantial balance to our credit. It is my earnest desire that the expenditures for the coming year, excluding the $500,000,000 for debt reduction, be kept within $3,000,000,000.

President Harding also referred to the "task which will shortly confront us, in the preparation of the budget for the fiscal year ending June 30 1925, saying:

"I contemplate a substantial reduction in the estimates of appropriations for 1925, as compared with the appropriations for 1924. In fact, I have expressed to the Director of the Bureau of the Budget my desire that the 1925 estimates, exclusive of the amount required to meet the reduction in and the interest on the public debt and the amount required for the Post-office Department, will not be in excess of $1,700,000,000. To reach this amount the estimates for 1925 must be $126,000,000 less than the appropriation for 1924. This will tax your best efforts, but I have confidence in you ability to find ways and means for lessening the amounts of your requests for funds."

The President's remarks follow.

Members of the Government's Business Organization:

Two years ago this month there was held the first meeting of the business organization of the Government. You were called together at that time to afford me opportunity to lay before you the problem of diminishing the cost of Government and to enlist your help and co-operation in its reduction. We came out of the World War with a vastly increased public debt and a greatly expanded public service. It was imperative that we should curb rising cost of Government in its peace time activities, and so we met together in that first meeting to discuss and formulate definite policies of re'renchments and methods for carrying them into effect. As I look back over the past two years I feel that that first meeting of the Business Organization was an epoch in the administration of Government business. Since then we have held three similar meetings, all of which had as their keynote greater economy and greater efficiency of the conduct of the routine business of the Government. We are now at the close of the current fiscal year, and this is an opportune time to take stock of what has been accomplished this year.

On Jan. 29 1923, the date of our last meeting, we faced an apparent deficit of $92,000,000 in expenditures over receipts for the current fiscal year 1923. The forecast to-day is that we will end the fiscal year with a balance of ordinary receipts over expenditures of approximately $200,000,000. This is a signal achievement, and while we have been greatly aided by unforeseen increases in ordinary receipts and reduced operations in capital funds, we could not have reached this successful balancing of the budget with a substantial balance on the right side of the ledger—without the material assistance which you have rendered. You can all point with pride to the showing made this fiscal year as it is due in part to your untiring and unselfish devotion to the campaign for economy in the administration of the routine business of the Government. You can take further pride in the fact that while we will close this fiscal year with a surplus of receipts over expenditures of $200,000,000 there has been an actual reduction of approximately $256,000,000 in the expenditures of the departments and establishments engaged with the ordinary business of the Government from the corresponding expenditures for the last fiscal year. We have thus to our credit two signal achievements in our financial transactions for the current fiscal year.

The co-ordination of the routine business of the Government and the development of team work both between and within the departments and establishments have been most important factors in reducing the operating expenses of the Government. I cannot over-emphasize the importance of promoting this rapidly developing and highly beneficial team work. It is of prime necessity if we are to reap the full benefit of the intelligent effort we have already made in the co-ordination of the Government's business. And it should not be confined alone to the departments and establishments in Washington, but should be extended to the field activities. An admirable start in this direction has already been made by the establishment of Federal Business Associations. Sixty-nine of these associations have already been formed in the larger cities embracing the officials and employees of all the Government activities located in these cities. Certainly no business concern should have several activities located in one place without bringing them together in contact, one with the other, so as to develop community of interest and action. These Federal associations meet regularly, just as we are meeting here to-day, and through their discussion of their respective problems and requirements find ways and means for more efficiently and economically carrying on the business of the Government. They should be encouraged and aided.

In a few days we commence another fiscal year and I feel confident that at its close we will be able to point to event greater achievements in our campaign for retrenchment, economy and efficiency than have been accomplished this current year. The appropriations for the coming fiscal year amount in round figures to $3,760,000,000, which is $234.000.000 less than the appropriations for the current fiscal year. As compared with the estimate presented to Congress the appropriations for 1924 are but $7,825,000 less than the amount asked for in the budget, and the estimates supplemental thereto. Action by Congress on the estimates for 1924 therefore amounted to practical ratification of the budget and the supplemental estimates. This in itself shows how carefully, how painstakingly, were the estimates prepared, and is a source of much gratification to the Chief Executive. It is the first time in many years that Executive requests for appropriations and legislative grant have been in practical accord.

A revised estimate just completed indicates that the ordinary receipts for 1924 will amount in round figures to $3,638.000,000 and that the expenditures, including $507,000,000 for public debt reduction, will total $3,668,000,000. This indicates a deficit of $30,000,000. This deficit must not only be wiped out but we must close the coming year with a substantial balance to our credit. It is my earnest desire that the expenditures for the coming year, excluding the five hundred million dollars for debt reduction, be kept within three billion doHars. Your assistance is needed to accomplish this, and I know that I can count on your loyal and unwavering support.

Right here I want to leave this furtherword with you. The appropriations made by Congress are the measure of the maximum amount of business which may be planned for the fiscal year to which the appropriations relate. They are not the measure of the minimum amount of business which may be performed. Therefore, in planning your expenditure program for the coming fiscal year and apportioning your funds under such program, you should not only carefully guard against any of your activities being carried on at a rate which would require additional appropriations for the fiscal year, but should arrange to conduct your business with a minimum of expense consistent with efficient administration. I expect you all to effect some savings from your appropriations for the coming fiscal year. To accomplish this and also to enable you to have funds on hand with which to meet unanticipated requirements, you should not fail to set aside a reasonable reserve from your appropriations.

The coming fiscal year will afford us a real opportunity to demonstrate our ability to carry on the policy of economy in the conduct of business and retrenchment in expenditures. Congress has granted for that year funds approximately in the amounts requested by the Chief Executive as being necessary to carry on the Government's business. To accomplish what is necessary to be done with a limited amount of funds, as will be the case this coming fiscal year, and at the same time effect savings, affords an opportunity for really distinguished service. I am sure that you all welcome this opportunity and that you will enter upon the coming year with the firm resolve to make a new record in efficiency and economy in the transaction of the business of Government. I realize that this will call for further and greater demands upon your ability, a closer scrutiny of your activities, and the installation generally of more efficient methods. Let us here resolve that we will establish in Federal operation, not only for the coming but for succeeding years, an earnest, friendly competition between the nation's multitudinous operating agencies—competition for the honor of achieving the maximum result with the minimum of expenditure.

I have noticed from the hearings before the Appropriations Committees of Congress that some of the officials of the Government have not yet realized that under the Budget and Accounting Act the estimates which are before Congress are those submitted by the Chief Executive. The officials to whom I refer were apparently of the impression that the estimates which their respective departments or establishments submitted to the Bureau of the Budget were the official estimates which they were authorized to advocate before the Congressional committees. I trust that this erroneous impression will not prevail hereafter. If Congress desires estimates other than those submitted by the Chief Executive it has reserved unto itself in the Budget and Accounting Act the authority to request such estimates and defined the methods of obtaining them. But the administration officials, who are operating under the Executive, are expected to subscribe cordially and loyally to the Budget estimate.

Another task which will shortly confront us is the preparation of the Budget for the fiscal year ending June 30 1925. I contemplate a substantial reduction in the estimates of appropriations for 1925 as compared with the appropriations for 1924. In fact, I have expressed to the Director of the Bureau of the Budget my desire that the 1925 estimates, exclusive of the amount required to meet the reduction in, and the interest on, the public debt and the amount required for the Post Office Department, will not be in excess of $1,700,000,000. To reach this amount the estimates for 1925 must be $126,000,000 less than the appropriations for 1924. This will tax your best efforts, but I have confidence in your ability to find ways and means for lessening the amounts of your requests for funds.

I realize that in your efforts to comply with this constant and insistent call for economy and retrenchment in expenditures you may sometimes become discouraged. And so as a heartening thought I ask you to keep in mind that as the trustees of the taxpayers of this nation, the people are looking to you for the utmost care and supervision over the things which you administer. It is a sacred trust involving not only dollars and cents but the care and proper utilization of public supplies and materials. It extends also to your application to your respective tasks, so that Government time as well as its funds and property may be considered the measure of your responsibilities to the people. Certainly it is an honor to be intrusted with these responsibilities.

I can understand how the constant call for reductions somewhat tries your patience. But a day will come when we must deal with increases, because there must be expanding activities and attending growth of cost in the government of a growing nation. Our big problem is to find the irreducible minimum upon which we may consistently enlarge.

I know, too, the unpopularity of insistent reductions and enforced economies. The spender is freely though often thoughtlessly applauded. But in the sober reflections of the people whom we serve, the honest and zealous endeavor to reduce the cost of government, which has an intimate relationship with the cost of living, is sure to win abiding favor. We are doing more than serve ourselves, more than helping our own people, we are proving to the world that the way to recover from war excesses is to halt the outflow and build anew, with exacting watchfulness in all public outlay.

General Lord, the Director of the Bureau of the Budget, will tell you in more detail of the work of this year and what confronts us for the coming year. Before yielding to him I wish to thank all of those present here to-day and all of my other Federal co-laborers for the services which have been rendered. And I say that the record of the past two years makes me confident as to your future accomplishments in our onward march for greater efficiency and greater economy in the conduct of the business of Government.

Director of Budget Lord on Economy Effected in Government Expenditures

The statement of President Harding on June 18 concerning the reduction in Government expenditures effected through the budget operations was supplemented by an address before the Business Organization of the Government by Gen. H. M. Lord, Director of the Bureau of the Budget, giving a detailed account of the saving to the Government through the Administration's campaign for economy through a balanced budget. As was pointed out by President Harding in his message on the same occasion, Gen. Lord noted that instead of the deficit which it seemed likely would be shown in the Government's accounts for the current fiscal year, "to-day the indications are that we will end the year with total expenditures $200,000,000 less than receipts." Gen. Lord, in giving figures of estimated receipts and expenditures for 1924, stated that "comparison of the total anticipated receipts of $3,638,489,483 with the estimated expenditure

total of $3,668,534,011 gives an estimated deficit of $30,044,528, as against the estimate in the Dec. 4 budget of a surplus of $180,000,000," due to an increase in estimated expenditures. Gen. Lord added: "To balance the budget which as a national policy has been definitely removed from the field of doubt and debate, we must eliminate the apparent deficit of $30,000,000, either by reduced expenditures, increased receipts or both. After the experience of the year just closed, this does not seem a difficult task." Stating that "the President goes further than balancing the budget," Gen. Lord said: "He insists also upon a reduction of the Government's operating expenses, and has expressed a desire that after excluding the half billion dollars devoted to debt reduction, the total expenditures for all purposes the coming year be kept within three billions of dollars." "Some one has said," Gen. Lord observed, "that an honest budget is the most dependable watchdog of the Treasury. The efforts of the Bureau of the Budget in the two years of its existence have been directed to preparing such an honest budget—a budget that shall represent in the most impartial, impersonal and scientific manner the real needs of the Government." "This meeting to-day," he said in conclusion, "is a new call to service—a call that inaugurates a new campaign with the same old watchword, 'Economy with Efficiency.' Review of the year closing, felicitations over past achievements, are of little value unless they serve as inspiration to greater accomplishments and a more decided advance along the line of economical efficiency and efficient economy." We give herewith in full Gen. Lord's address:

Mr. President, Gentlemen of the Co-ordinating Boards, and Members of the Business Organization of the Government

This is occasion for jubilation and congratulation over a record of constructive accomplishment. We began the year with an expenditure program of $3,896,000,000. The ten departments, the thirty-three independent establishments, and the legislative and judicial branches of the Government stated that to the best of their knowledge and belief, and presumably as a result of careful study, they would take out of the United States Treasury in the twelve months between July 1 1922 and June 30 1923 that amount of money—$3,896,000,000—and with the cash so withdrawn pay interest on the public debt, and provide through the sinking fund for its gradual redemption; settle claims; hire help; buy supplies and equipment of every kind and character known to commerce, from tacks to locomotives, and from drugs to dirigibles; purchase railroad tickets and postage stamps; rent buildings; manage hotels, hospitals, prisons, soldiers' homes, steamships, canals, experimental farms and national parks; dredge rivers and harbors; encourage irrigation and control immigration; conduct relief work; develop commerce; regulate railroads; compensate injured Federal employees; conserve the public health; promote the welfare of the laborer; issue patents; foster the arts and sciences; direct the affairs of State; pay pensions and compensation to war veterans, and provide for their insurance and vocational education; save lives and salvage arid lands; care for the Indians; build roads; erect monuments; finance corporations, railroads and Farm Loan banks; pay the expenses of the Legislative establishment; administer justice and enforce the laws; preserve the national forests; wage constant warfare against the warble fly, the sheep tick, the boll weevil and other pests; maintain an army and navy for the national defense; operate through the Post Office Department the largest communication system in the world; and do the thousand and one other things that are considered necessary in the actual operation of this great organization doing business under the firm name of the United States of America.

The Budget Balanced.

Balanced against this formidable and startling program of expenditure was an estimate of receipts from all sources for the same period of only $3,073,000,000. It did not require an expert accountant to ascertain that the agencies of the Government proposed to spend $823,000,000 more than they anticipated receiving—indicating a deficit nearly equal to the total expenditure of the national Government in 1908. Here was a critical situation. It was promptly met by the President who announced with finality that we would pay as we go and that a balanced budget would continue to be the undebatable and unalterable policy of the Government. This statement of the Chief Executive, translated into action, meant that this year's expenditures must be crowded within this year's receipts, and that the threatened deficit of nearly a billion dollars must be wiped out.

The Director of the Bureau of the Budget confesses that at the time the task seemed hopeless, but like many others in the Government service who had served during the period of the World War he had learned by experience to admit that nothing is impossible. He recalled with profit the story of a famous field marshal who had assigned a difficult task to a subaltern. The officer explained at some length how the duty assigned him was impossible of performance. The field marshal heard his explanation courteously, and when he had finished said:

"I believe that you have expressed as forcibly and cogently as any one could the impossibility of performing the task assigned you. Now go do it."

To the Director of the Bureau of the Budget the President's statement of policy admitted of no doubt, no questioning and no hesitation as to its execution. Inspired by his confidence, assured of his support and wise counsel, and relying upon your assistance, the offensive on the deficit was begun. The story of this fight to balance the budget, to fulfill the President's wishes, and justify the confidence he placed in us is a drama in which pennies and millions played their important parts, a drama of hope alternating with discouragement, of daily and hourly study of growing receipts and swelling expenditures, of interminable anxious calculations, and a record of honest effort on the part of many of the Government departments and establishments to cut down expenditures. The budget that was transmitted to Congress in December last showed the $823,000,000 deficit reduced to $273,000,000. At the semi-annual meeting of the Business Organization of the Government, held Jan. 29 last, we pointed with pride to $92,000,000 as the fast fading remnant of that original $823,000,000. April 1, significant date, as a result of additional legislation, happenings in capital funds, and other factors, our $92,000,000 had increased to $180,000,000; and with that amount to overcome we entered hopefully upon the last quarter of the year. During these last months the fight has been unremitting and the necessity of reducing expenditures has been kept constantly before the personnel in the Government service, not only in Washington, but in the field. Every additional dollar turned into the Treasury has been welcomed with a benediction, every dollar added to expenditures has been anathema, while every dollar cut out of expenditures has been given place on the roll of honor. To-day the indications are that we will end the year with total expenditures $200,000,000 less than receipts.

Controlling Expenditures.

While we felicitate ourselves and the country on the successful outcome of our campaign, a large measure of credit must be given to extraordinary increases in receipts, with especial reference to customs, while actual expenditures from capital funds will be many millions less than we estimated on July 1 would be the case. Without the help of these important factors—unexpectedly large receipts and reductions in estimated capital fund expenditures—we would have ended the year short of the desired goal—a balanced budget. If, however, we had not effected material reduction in the operating expenses of the Government, we would still have failed, and a balanced budget would have proved an irridescent and disappointing dream rather than a triumphant realization.

Most important from the standpoint of administration is the reduction in current expenditures of the regular operating agencies of the Government as distinguished from operations in capital funds of such Federal agencies as the War Finance Corporation, Railroad Administration and other activities not concerned with and not connected with the ordinary routine business of the Government. While expenditures for all purposes this year will be approximately $215,000,000 less than expenditures for all purposes last year, the cost of operation of the departments and independent offices engaged with the ordinary business of the Government will be approximately $256,000,000 less than their operating expenses in 1922. This actual reduction in cost of carrying on the routine business of Government—$256,000,000—I am convinced is the most significant achievement of the year, taking second place in importance only to the successful balancing of the budget.

It is, of course, one of the fundamentals of good business to keep expenditures within receipts. But this can be accomplished and at the same time an extravagant and unwarranted program of spending be carried out. Unanticipated increases in revenue may be absorbed in a riot of unwise spending, while the letter of the law of good finance—outgo less than income—is still obeyed. In the effort to balance the budget this year expenditures have been carefully watched in the attempt to reinforce increasing receipts with decreasing expenditures. It was realized at the beginning of the year that if the most optimistic expectation of receipts were realized, such realization must be coupled with a drastic downward revision of the expenditure program if the widely divergent lines of receipts and expenditures were to be brought together. As the problem developed with the passing of the months it was found that some of the Government agencies were carrying out their original plans, and evidently expected to spend their entire appropriations. They justified this procedure on the plea that they had instituted more efficient methods, and while they could promise no reduction in spending, they could guarantee a larger return for the outlay. While this endeavor to get more for the dollar is most commendable, and constitutes a definite saving, it did not help balance the budget, which was the outstanding problem of the year—a problem that could not be solved without a radical reduction in expenditure all along the line. The Director of the Bureau of the Budget, in this situation, had a fellow feeling for the man who left three pounds of meat and the family cat in the kitchen. Returning thereto shortly afterward, he found nothing but the cat, looking innocent but unduly distended. He put the cat on the scales, which registered just three pounds. "There's the meat all right," said he, "but where's the cat?" I would ask those Government officials who insisted on spending all the money available—spending it more efficiently it may be, but spending it just the same—I would ask them where is the reduction in expenditure which must be effected if the budget is balanced?

The President's command that we save money so that the outgo for the year be less than the income carried with it no exemption of any department or any bureau from its application. There is not an agency in the Federal service that could not, this fiscal year, have effected a saving of funds if it so determined.

While on this subject of control of expenditures, I am obliged somewhat reluctantly to admit that there are officials in the Government service who, although acquainted with the desperate fight we have been making to balance the budget, and informed of the President's instructions that every dollar that could possibly be saved must be saved, deliberately planned to use every penny they controlled, and this too without the plea of larger return because of more efficient methods.

I hold in my hand copy of a telegram sent by a representative of a big department to one of his assistants. The sender of the telegram occupies a responsible field position. In this telegram he instructs his assistant to use all balances of appropriations before the close of the year, which was near at hand, and indicates the kind of supplies to buy. He closes with this explicit and significant sentence: "Do not let any money lapse in any fund." With the executive agencies committed to a drastic policy of economy, under the leadership of the President; with this policy broadcasted to the uttermost outpost of this country, to Alaska, and to Hawaii, to the Philippines, to China, and to every last station where the flag flies; with honest compliance on the part of the great majority of Government officials, what justification can be offered for this open defiance of the President's instruction? The Director of the Bureau of the Budget has recommended to the Chief Executive that this official be separated from the public service.

Those of us who are fully committed to the campaign for economy and a balanced budget should be thankful that cases like this are exceptions. We should also be thankful that the failure of some of the Government officials to measure up to the full stature of loyalty to the President's wise policy of retrenchment was more than offset by the achievements of those other Federal officials who did more than their proportionate part. Fortunately, we will all have another opportunity with the coming year to show our loyalty to the policy of economy.

Next Year's Expenditures.

With the first day of next July, less than two weeks hence, we enter upon another year of Government operation. Estimates from all agencies of the Government controlling sources of revenue give a total of anticipated receipts the coming year of $3,638,489,483. This is an increase of $276,677,124 over the estimates for 1924 carried in the 1924 budget, and is due almost entirely to an increase in the estimates of receipts from customs and internal revenue. On the other hand, the most recent estimate of expenditures for 1924 is $3,668,534,011. This is an increase in estimated expenditures of $487,690,777 over the 1924 budget estimates, and consists for the most part of increases in amounts to be devoted to public debt reduction, operations in capital and special accounts, including settlement of railroad claims and refunds of taxes. Comparisons of the total anticipated receipts of $3,638,489,483, with the estimated expenditure total of $3,668,534,011, gives an estimated deficit of $30,044,528 as against the estimate in the Dec. 4 budget of a surplus of $180,000,000.

To balance the budget, which as a national policy has been definitely removed from the field of doubt and debate, we must eliminate the apparent deficit of $30,000,000 either by reduced expenditures, increased receipts, or both. After the experience of the year just closed this does not seem a difficult task. The President goes further than balancing the budget. He insists also upon a reduction of the Government's operating expenses, and has expressed a desire that after excluding the half-billion dollars devoted to debt reduction the total expenditures for all purposes the coming year be kept within three billions of dollars. To the Director of the Bureau of the Budget the President's wishes have all the effect of an order, and will be so construed, and construed as applying not only to himself but to all public officials. To put into effect the President's policy expenditures estimated for next year must be reduced by approximately $162,000,000. The amount involved is sufficiently large to make the problem interesting, and will happily afford opportunity to test the ability of Government administrators, the loyalty of Federal personnel and the practical value of the efficiency methods reported by the Government establishments for inclusion in the annual report of the Director of the Bureau of the Budget. This report will be issued early in July, and will contain detailed and interesting accounts of the successful efforts made by the Federal establishments to develop team work, promote efficiendy and make savings. It will also contain a comprehensive review of the operations of the co-ordinating agencies.

The General Reserve.

The creation of a general reserve from appropriated funds is so intimately connected with the subject of reduced expenditures and consequent saving that I must again emphasize its importance. The general reserve has assumed a permanent place in executive operation. It has the approval of the President, and has justified itself in actual practice by what it has done. Reaching a peak of $93,000,000, the reserve will probably show a balance of more than $82,000,000 at the end of the year. It has been admirably administered by most of the Government's agencies.

I feel we all agree that it is sound business to keep on hand funds for emergencies. In these days when deficicncies are discredited it it sht part of wise administration to prepare for the unexpected. The record of the current year also shows that the general reserve is a most successful saving agency, and saving to-day is required of all executive departments and establishments. In making your apportionments for 1924, under the provisions of the Anti-Deficiency Act of 1906, you are expected to set up a reasonable reserve. This will enable the head of the department or establishment to meet an emergency without interrupting or changing the carefully studied program of expenditure on which the apportionments are based.

The Bureau of the Budget will require for the coming years, as it has required for the current year, reports of apportionments made under the provisions of the Anti-Deficiency Act, and also quarterly statements of actual expenditures or obligations against such apportionments. It will also require copies of all waivers of apportionments. The President's requirement that this important law be obeyed in letter and spirit will be strictly enforced.

Supplemental and Deficiency Appropriations.

In a letter to the members of the Cabinet dated April 30 1921, the Chief Executive called attention to the habit of asking Congress for large deficiency appropriations, and cautioned them against its continuance. I quote from his letter:

"I do not know of any more dangerous tendency in the administration of Governmental departments, and I am very sure that we can never fix ourselves firmly on a basis of economy until the departments are conducted within the provisions made by Congress."

Since that date there has been a noticeable, continuing, progressive reduction in the number and amount of deficiency estimates submitted to Congress. It is true there should have been a lessening of the number and amount of such requests as the war period receded, but constant executive pressure to confine operations wel within the limits of appropriations has been the controlling and determining factor. This year has been notable in that respect. The total of all supplemental and deficiency estimates submitted to Congress during this fiscal year amounted to $236,411,166 57, Congress appropriating thereon $233,853,365 94. Of this amount less than $7,000,000 was subject to administrative control, while approximately $500,000 represented the total of actual deficiencies. The remainder was needed for claims, judgments, refund of taxes, to provide for laws enacted and agreements entered into after submission of the regular estimates, for scrapping Navy vessels under the Treaty, for modernizing battleships, for insurance of war veterans, for needs of the Postal service, and for expenses incurred because of the coal and railroad strikes. The imposition of executive pressure and more scientific estimating have practically eliminated deficiencies.

Preparation of Estimates.

The President announced at the beginning of the fiscal year that the estimates of appropriations for 1924 must be kept within estimated Treasury receipts for the year. The enforcement of this policy created some little disturbance in the departments. The flurry, however, happily subsided so that when the estimates went to Congress the executives as a whole were apparently reconciled to the drastic reductions made and there were comparatively few discordant notes. This, I think, is quite noteworthy, for the approved estimates in the budget were $120,000,000 less than 1924 receipts, as estimated July 1 last. I wish to bear testimony to the excellent spirit displayed by most of the Government's representatives under the trying conditions that always attend the imposition of a drastic policy of economy. In some cases, however, acquiescence came only after stubborn opposition. In several instances, the Director of the Bureau of Budget was sorely tempted to answer insistent demands for more funds with the tale of the colored brother in the revival meeting whose loud and repeated demand: "O Lord, give us mo' power" was answered by a more experienced brother, who said: "What you need, brother, is not mo' power, but mo' ideas." Some of the Government establishments needed not more money, but more and better administration.

We begin immediately the work of preparation of estimates for the fiscal year 1925. The President has stated that the total to be transmitted to Congress will not be in excess of $1,700,000,000, exclusive of the Post Office Department and interest on and reduction of the public debt. Appropriations for 1924, on the same basis, amount to $1,826,471,843 62, which indicates that the 1925 estimates will be approximately $126,000,000 less than next year's appropriations. In the preparation of the preliminary estimates, which you will be asked to submit Aug. 1, you should have this fact constantly in mind.

Economy With Efficiency.

During the year there has been no relaxation of the pressure for intelligent economy, better administration, and increased efficiency, and there has been a most hopeful reaction to this continuing appeal, not only from heads of great departments and bureaus but from the rank and file of Government workers. Many pertinent examples showing the spread of the spirit of economy and the awakening to the need of better administration could be given did time permit.

The instructions of the Secretary of Agriculture to his personnel to make savings wherever possible were evidently taken literally. The chief of one of the Department's big bureaus requested one of his assistants to procure Pullman reservations for a Western trip. During the journey the Bureau chief slept in an upper berth. His assistant's explanation that an upper cost the Government less than a lower effectually silenced any criticism the Bureau chief may have been disposed to make. With this concrete example of where savings can be made it is too much to expect that from now on all officials traveling on Government business will be found luxuriating in the better air and higher altitude of upper berths.

The Collector of Internal Revenue, in an Ohio district, noticed that the travel vouchers submitted each month by his field agents were almost stereotyped in number of trips, routes, and amount of expenses. Study of the situation showed that some of the agents traveled on a regular schedule, with little regard for the needs of the business. He immediately applied corrective measures, cut out needless trips, limited travel to what the business required, and so planned the affairs of his district that for the minimum of travel he secured the maximum of results.

From Nov. 1 1920 to Oct. 31 1921, nineteen Internal Revenue agents drew $13,486 07 in travel expenses. From Nov. 1 1921 to Oct. 31 1922, thirty Internal Revenue agents drew $6,913 23. Proper administration accomplished a reduction in expense of 65%, notwithstanding a 60% increase in force, and a much larger return in business. The Secretary of the Treasury has called the attention of his entire field force to this achievement. I earnestly commend both the achievement and the action of the Secretary of the Treasury to the attention of all Government agencies which have travel appropriations.

In one of the large bureaus of a department, the consumption of towels, soap and brooms and other cleaning materials was so extraordinary as to attract attention. The annual cost of supplies of this character indicated that this particular bureau must be the most immaculate organization in the world and entitled to a preferred position in Spotless Town. Investigation by a representative of the department of which the bureau was a part disclosed loss or theft of towels by the hundred, while more than five hundred soiled towels were discovered tucked away in desks, filecases and closets. The simple and obvious requirement that an employee turn in a soiled towel in order to secure a clean one was immediately put into effect. In this same bureau there was great consumption of soap. Five barrels of Government soap were located in the home of one of the bureau employees and three barrels in the home of another. These industrious soap collectors are no longer in the Federal service. The necessity of installing proper administrative control over supplies of this kind must be evident to all.

In another big establishment absences from sickness and other causes averaged one thousand per day. A little administrative attention reduced these absences to an average of from fifty to seventy-five per day. In this bureau was discovered the enterprising employee with the elastic conscience who made from Government rubber bands a ten-pound ball as a plaything for his dog. He has now ample time for playing with the ball himself.

All through the national service we need and are having an oldfashioned revival along lines of individual responsibility and accountability for the things that belong to the Government. We should exercise the same jealous care in the administration and use of Government money, supplies and time that we would give as a matter of course to any private trust we are called to administer. We should not have one standard for private transactions and another standard for the Government service. Millions have been wasted because of the failure of Federal personnel to realize their responsibilities as trustees to the nation. While default in the administration of a private trust means perhaps loss and hardship to a person or group of persons, default in our responsibility and accountability to the Government means harm to the nation, which has first lien on our devotion and fidelity. As a result of the campaign for economy and retrenchment, Government employees are gaining a more adequate conception of the demands and responsibilities of their positions, with resulting elimination of waste.

Co-ordination and Team Work.

Co-operation is essential to private business and is even more essential to the successful conduct of public business, whether municipal, State or national. The main purpose of the Budget and Accounting Act, in so far as the Budget Bureau is concerned, was to establish control over the preparation and submission of estimates for appropriations. The law definitely placed the responsibility for such control on the President of the United States, as the head of the business organization of the Government. Control of estimates demanded control of expenditures. Attempt to control expenditures revealed the urgent need of co-operation within and between the departments and establishments. H. G. Wells has said that "It is a universal weakness of mankind that what we are given to administer we presently imagine we own." While this tendency is not confined to Federal organizations, it is found there in its highest development. To combat this expensive tendency, to promore community of interest, to supplement bureau loyalty with departmental loyalty, and on the union of the two to erect a superstructure of loyalty and devotion to the Government as a whole, is one of the most important, one of the most interesting, and at the same time one of the most difficult enterprises in which the Bureau of the Budget is engaged.

The various co-ordinating agencies, the Chief Co-ordinator and his assistants, the eight Co-ordinating Boards, the seven Area Co-ordinators and the sixty-nine and more Federal Business Associations, created for the purpose of promoting concerted thought, policy and action within and between the many Government establishments, have labored industriously, patiently and constructively throughout the year, and despite discouragements can point to real accomplishment. It is no easy matter to batter down the walls of aloofness and independence that have hedged in the Federal organizations—walls that the passing years have strengthened and reinforced. But like the walls of Jerico they must eventually fall before the blasts of the trumpets of reason, and the compelling demand of national need and national interest.

I earnestly commend to your attention a most pertinent and admirable statement on this subject made by Secretary of the Interior Work at a gathering of personnel of the Department of Agriculture April 13 last. He said:

"The Interior Department and the Department of Agriculture are units of a great Government, not miniature Governments in themselves, and therefore both departments are obligated to contribute through mutual co-operation to the successful administration of the Government as a whole."

In this one sentence is the entire gospel of team work. This principle of inter-relation and inter-dependence is being recognized. There is a growing sense and conception of the intimate relationship that exists between Federal agencies and the personnel in such agencies, and there is a growing appreciation of the need of cultivating that relationship with a view to closer co-operation.

The Co-ordinators.

The struggle this year to reduce expenditures and balance the Budget emphasized anew the indispensable part played by the co-ordinating agencies in promoting the team work which is a necessary prerequisite to efficient and economical operation.

I take this opportunity to express my appreciation of the able and constructive service rendered the Government by Colonel H. C. Smither, Chief Co-ordinator, his immediate assistants, the members of the Co-ordinating Boards, the Area Co-ordinators, and the officers and members of the Federal Business Associations scattered throughout the country. Acknowledgment is also due the Secretary of War, the Secretary of the Navy and the heads of other departments and establishments for the capable personnel contributed by them to this great co-ordinating project. Their services are proving of inestimable value to the Government as well as to the individual departments and establishments to which they belong.

Real definite advance has been made this year in the field of procurement, with especial reference to contracting and leasing. In 1922 the Federal Government spent $258,224,034 for supplies and equipment. The magnitude of this business emphasized the need of co-ordination. This co-ordination involved the activities of three of our most important co-ordinating boards—Federal Purchasing Board, Interdepartmental Board of Contracts and Adjustments, and Federal Specifications Board. Efficient procurement called for the uniform application of approved methods of purchasing to all the many procurement agencies of the Government. These approved methods required standardized contracts and standardized specifications.

The Treasury Department's many procurement agencies have been consolidated into five. In the Department of Commerce in the place of five purchasing agencies, one is functioning most efficiently, while in the Department of Agriculture there has been a similar consolidation. As a result of the operations of the Federal Purchasing Board, a revolution is taking place in the Government's buying procedures. This revolution is effecting a closer scrutiny of requirements, wider competition, better prices, uniformity of methods, elimination of duplicated effort, and the discontinuance of competition in the same market between Government agencies bargaining for the same article.

At this point I wish to call the attention of the procurement agencies of the Government to the War Department's record of discounts earned for prompt payment of its bills. In 1920 the amount of discounts secured was $273,179 93, which was more than 87% of the amount of discounts possible and represents a loss of less than 13%; 1921, $477,979 32, loss 7.90%; 1922, $249,423 73, loss 2.07%; for the first ten months of the current year the discount savings have totaled $173,006 48, loss 1.76%. This question of discounts in its application to all the agencies of the Government is under study by the Bureau of the Budget, and measures will be taken to see that the Government gets every last dollar possible in the way of discounts: with expenditures in 1922 of more than a quarter of a billion of dollars for equipment and supplies, it would be criminal to ignore this opportunity for saving wherever offered by the vendor. Some of the Government agencies, other than the War Department, take advantage of discount offers, but the Government service as a whole is remiss. Prompt payment of bills, which is necessary to win discounts, also means better prices, the possible savings on this account being greatly in excess of discount savings. This policy of going after every discount dollar, which has the President's hearty approval, probably means a revolution in the procurement methods of some of the departments. My attention was called the other day to the laxity of a big Government bureau with ample funds, which still owed for supplies delivered last September. Such lax methods of doing business not only penalize the Government the amount of the discount, but add inevitably to the price of the supplies. The Government should pay all its bills promptly, and organizations and methods that prevent prompt settlement need attention. The procurement slogan from now on will be: "Prompt pay, better prices, more discoints."

With 396 separate forms of contracts and leases and 224 separate laws with which to conform, the Government's contracting and leasing business sadly needs reform. The wonder, all things considered, is we have done as well as we have. Printing experts state that if we do nothing but standardize the size and shape of the forms of leases and contracts we will save $30,000 annually. We are doing much more than that. The Interdepartmental Board of Contracts and Adjustments, with a patience, persistence and prescience beyond expression, is winning out in a task that seemed at the start well nigh hopeless. A modified realty lease, without the costly 30-day termination clause, and without other obsolete and unfair and unbusinesslike requirements, has been approved by the President. Had we to-day in general use in the Government this admirable, simple and rational form of lease I believe we would have saved at least 10% of the $22,000,000 we are paying on the 9,400 leases now in operation. This modernized, standardized form of lease will be used by all Government agencies, with slight modifications to comply with law in the case of the Post Office Department. It will take the place of a hundred or more styles, shapes, kinds, varieties and curiosities of leases that have bewildered the agents of the Government and sorely tried the patriotism of lessors for lo! these many years. A standard form of contract for construction will soon be completed, when a standard form of contract for procurement will be drafted. A manual of instructions to bidders and contracting officers will be issued as soon as the standardized contracts are completed. A valuable publication, "The Compilation of the Principal Federal Statutes Relating to Public Contracts," has been printed, and is now being distributed. One difficult factor in this program of procurement and construction is the inspection. While it is obvious that inspectors cannot be standardized it is just as obvious that methods of inspection can be standardized in a measure, with benefit to the Government. The need of some such standardization of inspection has not been overlooked.

The Federal Specifications Board, since Feb. 3 1922, has adopted and promulgated for the use of all the Federal agencies fifty-seven standard specifications. These standards include many of the most important materials used by the Government. The Board has in course of formulation specifications for fifty other materials which will soon be issued.

An excellent example of the manner in which the Federal Specifications Board, through its technical committees, has effected a standardization of specifications in the Government departments is furnished by the work of its Soap Committee. Before the organization of this committee, the War Department, Navy Department, Post Office Department, General Supply Committee and Panama Canal had separate standard specifications for ordinary toilet soap. Many other departments and bureaus used special specifications, prepared for a particular procurement of this grade of soap. The remaining activities of the Government either purchased on brand or specified a particular soap or equal. Since the organization of its technical Soap Committee the Federal Specifications Board has adopted and promulgated one standard, known as "Specification for White Floating Soap," the use of which by all departments is made mandatory.

A special committee of the Specifications Board has been engaged more than a year endeavoring to arrive at a common specification for beds to take the place of twenty-three now in use. Many of these specifications are not in harmony with commercial practice, and require special fabrication for which Uncle Sam has paid dearly. We shortly will have a common specification for beds.

The United States Government is probably the largest purchaser of supplies and equipment in the world. The work of the Federal Specifications Board, involving as it does so large a procurement, has given great impetus to standardization in the field of commerce. A number of the States adopt the Government's specifications as soon as issued, with the result that the business of the entire country is being helpfully affected thereby.

Nine of the larger departments and establishments have appointed traffic managers who answer for eighty-four traffic agencies which formerly handled the transportation of the nine departments. Under this new method of doing business the Department of Commerce effected an actual saving in the first six months of the year of $91,600. This includes $39,400 saved on a shipment by the Bureau of Fisheries to the Pribiloff Islands. This economy was made possible by the co-operation of the Navy Department.

In order that the Traffic Manager might function to the highest degree of efficiency, the Federal Traffic Board prepared a concrete and standardized traffic organization. This plan has been accepted by practically all of the Government departments and establishments and taken in conjunction with the appointment of traffic managers has practically standardized traffic work in the Government.

The total savings through the operation of the Federal Traffic Board from Nov. 1921 to date, amount to $628,312 88. This represents actual savings to Federal appropriations, effected either by direct action of the Federal Traffic Board or by recommendations to Government agencies. Larger actual savings to individual departments by virtue of the establishment of traffic organizations, by proper classification of freight, and by procurement of concessions on freight rates have not been and cannot be given. An illustration of an economy of this sort is found in the successful effort of the Federal Traffic Board in securing the issuance of a special tariff by the Wharton & Northern Railroad. This tariff covered both inter-State and State traffic. The new rates therein resulted in savings on shipments of ammunition of more than $125,000. A decision just handed down by the Inter-State Commerce Commission gave a better rate on inter-State traffic than that given in the special tariff issued by the Wharton & Northern, but the savings on State traffic have not been affected by this ruling.

Examples multiply showing the need of intelligent supervision of the Government's great transportation business. In connection with a shipment of eighty-six carloads of medical supplies by a Government department the Board was asked to route these materials as "Medical Supplies." In giving the routing for this material the Department was directed to specify the actual material being shipped and to load material taking same rates in the same car. The term "Medical Supplies" has been used to describe shipments that turn out to be medicine, furniture, hardware, plates, dishes, &c., all of which articles are specifically listed in the classification and take a far lower rating than "Medical Supplies." By virtue of this proper description on the bills-of-lading of these supplies there was a saving of the Department's appropriation in freight costs of approximately $10,000.

Under the lead of the intelligent personnel in the Federal Traffic Board we expect to so cultivate the transportation sense of Federal personnel, and so develop the Government's traffic policies along efficient lines that whatever the emergency there will be no failure of the Government's transportation agencies to function promptly, efficiently and economically.

The Government printing bill in 1922 was $10,169,436 42. This year, it will be not more than $8,900,000, a saving of approximately $1,270,000, which is due very largely to the effective work of the Permanent Conference on Printing, which co-ordinates the Government's widespread and expensive printing activites. The Board has continued its pressure for more carefully prepared copy and in this way has saved $60,000 in cost of proof corrections this fiscal year. The cost of printing of annual reports also has been reduced by approximately $80,000. This saving is due to action of the departments and establishments in reducing the number and size of these publications.

The Surveyor-General of Real Estate and the Federal Real Estate Board are charged with the important duty of making the wisest and most economical use of the Government's great and diversified realty holdings. All proposed leases must be cleared through the Federal Real Estate Board to make assurance doubly sure that there is no Government-owned or Federal-controlled space that can be utilized. Federal agencies can no longer go into the market and lease space while available and suitable Government space stands unoccupied. Through the well-directed efforts of the Federal Real Estate Board actual saving of approximately $280,000 have been made this year on leases.

A survey is being made of the future needs of the Government for office space to determine its normal progressive requirements for a period not to exceed ten years. When this is completed we will know the office needs of the various Government agencies two years hence, four years hence or for any period within ten years. The Post Office Department, for example, as a result of careful study, reports that in ten years it will need 41% more space than it is occupying at the present time.

The Federal Real Estate Board for more than a year has been compiling a record of all real property belonging to the Government. This record, which is 95% completed, will show original cost, when and how acquired, branch of the Government having jurisdiction, use, area, location, and brief description of buildings and improvements. The value of the Government's realty, based on actual costs where ascertainable, is $1,179,778,030 84.

The Federal Liquidation Board is closing its extraordinary task of co-ordinating the biggest selling effort in history—the disposition of surplus war supplies controlled by the War Department, Navy Department and Shipping Board. There has been liquidated since the signing of the Armistice and to May 1 1923, munitions held by these three agencies valued at $3,486,403,725. The total cash sale amounted to $1,249,443,374. There were transfers between Government agencies valued at $346,952,676, with an estimated saving to the Government of $91,070,921. The final disposition of surplus real estate has not yet been effected. It is expected, however, that the greater portion of these realty holdings will be sold and the leased tracts relinquished within a few months.

Area Co-ordinators.

The Area Co-ordinators, who carry the gospel of team work and economy into the seven districts into which the country is divided, are functioning so efficiently and helpfully that their services are subject to a constantly increasing demand from the various Government agencies. The problems they settle, the awkward situations they adjust, the accommodations they effect are innumerable. Exclusive of economies effected by transfer of supplies and equipment, in the period from Sept. 1 1921 to April 30 1923, they have made actual savings to appropriations of $1,232,274 22. This total includes material savings effected by the Co-ordinator for Motor Transport, District of Columbia. These economies are made possible by the application of business common sense to the operations of the various Federal agencies in a city or locality. When a truck controlled by one branch of the Government is standing idle, with its driver under pay and waiting for a job, it is inexcusable to compel another Government agency to engage a commercial truck to do the work that the idle truck can and should do. So with a launch, or tug, so with other Government facilities and personnel,

and space. It is the ordinary, routine job of the Area Co-ordinator to see to it that the most effective and economical use is made of the Government's resources—money, supplies, equipment, facilities, time and talent.

Federal Business Associations.

We have Federal Business Associations in the most important cities of the country. Sixty-nine have reported their complete organization with lists of officers. These associations, composed of Federal officials, are committed to the policy of Government team work and co-ordination, and busy themselves with the development of plans and policies that mean economy with efficiency. The work of organizing these associations is being pressed by the Area Co-ordinators. It is proposed to organize them wherever there are enough Federal employees to warrant it. One of the first duties of these associations is to prepare and issue a directory of all the Federal offices in each locality, with the names and addresses of the officials in charge, and the names also of their chief assistants with such other data as may be of value. These associations are really the field organization of this Government Business Organization in session here to-day. Their aims are identical with our aim—to foster the spirit of efficiency with economy in the administration of the routine business of the Government, and to develop a community of interest and purpose in and among Government workers.

Classification of Federal Employees.

A discussion of efficiency in Government service brings us inevitably to the need of adequate pay for Federal personnel and equal pay for personnel doing the same work. Inequalities in pay exist in the service as they do in private employment, and constitute an undesirable condition that should be corrected. The Classification Act of 1923 forms the basis for applying a remedy. That this legislation was secured is due to the active interest of the President, who recognized the need of action of some sort not only from the standpoint of justice to the employee but from the standpoint of public interest. To give the taxpayer a public service commensurate with the public expenditure we must be able to secure and retain in the Federal employ those people best fitted to serve. That such persons be adequately paid for service rendered—not underpaid, not overpaid—is essential in the effort to make the civil establishment a model institution.

A Personal Word.

Some one has said that an honest budget is the most dependable watchdog of the Treasury.The efforts of the Bureau of the Budget in the two years of its existence have been directed to preparing such an honest budget—a budget that shall represent in the most impartial, impersonal and scientific manner the real needs of the Government. In preparing the budget, the Director carries out policies approved by the President. In putting those policies into effect he tries to be fair and reasonable. He is ever receptive of advice, help and constructive criticism, and is always accessible. He arrogates to himself no higher degree of patriotism and assumes to occupy no loftier plane of wisdom than other Government officials. He does, however, as representing the President's policies, hold a position that gives him a view of the entire field of Federal operation that no other official, except the President, occupies.

The Director of the Bureau of the Budget appreciates quite fully the magnitude of his job. He has no illusions as to his abilities and his limitations. At times, when the burden seems unusually heavy, he feels like saying with John Addington Symonds: "Happy is the man who has hodsman's work in some plain place of the world." Then he realizes that there is a call for service which he cannot ignore, and, heartened by the unfailing support of the President, and cheered by the encouraging words, kindly acts and friendly attitude of so many in the Government service, he attacks his problems with new zest, courage and determination. This call to service makes appeal not only to the Director of the Bureau of the Budget but to every man and woman in the Federal employ. To show that this call to service—patriotic, unselfish service for the country and its people, whose servants we are—to show that this call to service is not unheeded, will you all stand with me as an earnest of our continuing effort in the year to come to follow loyally and diligently the path of endeavor outlined for us by the Chief Executive—the head of our Business Organization.

MR. PRESIDENT:

This meeting to-day is a new call to service—a call that inaugurates a new campaign with the same old watchword: "Economy with Efficiency." Review of the year closing, felicitations over past achievements, are of little value unless they serve as inspiration to greater accomplishments and a more decided advance along the line of economical efficiency and efficient economy. Wiser with the experience of the two years past, with a more adequate realization of the magnitude of the great business with which we are connected, glorying in the dignity of the service, proud to have a part in it, appreciative of its privileges and opportunities for serving, we commit ourselves the coming year, under your inspiring leadership, to the ambitious but not impossible task of making the biggest business in the world one of the most efficient.
